MECHANICAL ENGINEERING ASSOCIATION (MEA) REPORT

The Mechanical Engineering Association is a student–faculty body created to support the academic, technical and personal development of mechanical engineering students. It serves as a platform to learn, to explore new technologies, and to build confidence through various events and activities.

The main purposes of MEA are:

1. To bridge the gap between classroom learning and real-world engineering.
2. To provide opportunities for students to improve technical, communication, and leadership skills.
3. To organize activities that motivates students to innovate, participate, and collaborate.
4. To bring exposure to industry trends advanced technologies, and research opportunities.

Activities Conducted by MEA during Academic year 2025-26 details are:

1. Successful conduct of the election for the selection of Class Representatives (CRs) and General Secretary (GS) on 16th September 2025
