The Department of Mechanical Engineering, Basaveshwar Engineering College (BEC), Bagalkot, has signed a Memorandum of Understanding (MoU) with **Sphoorti Machine Tools Pvt. Ltd., Bengaluru**, on **Feb 02, 2026**, marking a significant step towards strengthening industry-academia collaboration.

The MoU aims to bridge the gap between academic learning and industrial practices by facilitating joint initiatives such as **student internships, industrial training, expert lectures, hands-on workshops, collaborative projects, and skill development programs** in the field of manufacturing and machine tools. This collaboration will help students gain practical exposure to real-world engineering challenges and emerging industrial technologies.

Speaking on the occasion, faculty members from the Mechanical Engineering Department emphasized that the partnership would enhance students' employability and technical

competencies, while also providing opportunities for faculty interaction with industry experts and applied research.

Representatives from Sphoorti Machine Tools Pvt. Ltd. expressed their commitment to supporting academic institutions by sharing industry expertise, infrastructure exposure, and mentoring students to meet current and future industry requirements.

This MoU aligns with Basaveshwar Engineering College's vision of promoting experiential learning, innovation, and industry-oriented education, thereby preparing students to become competent and industry-ready engineers.

List of Activities

SL. NO	Academic Year	Name of the Activity	Date
1.	2024-25	A group of 06 final-year Mechanical Engineering students successfully completed a four-month industrial internship at Sphoorti Machine Tools Pvt. Ltd., Bengaluru. The internship was conducted as part of the curriculum to enhance practical exposure and industry readiness. The four-month internship at Sphoorti Machine Tools Pvt. Ltd. provided valuable industrial exposure to the students. The training significantly contributed to their professional development by strengthening practical knowledge, technical competence, and confidence to work in manufacturing industries.	10-02-2025 To 31-06-2025
