About the Institution

Basaveshwar Engineering College is a premier technical institution of north Karnataka, catering to the needs of technical education since its inception in 1963. At present, it offers degree programs in eleven disciplines and eight post graduate programs including MBA. Eight departments of the college have been recognized as Research Centers by VTU. Also, five departments are recognized as QIP Centers for Ph. D. programs by AICTE, New Delhi. The college was granted autonomous status by VTU and UGC in the year 2007. Since then, the college has introduced academic reforms by restructuring the curriculum keeping in view the technological developments and needs of the industry. College campus is located on a beautifully elevated stretch of land over 91 acres on the outskirts of the city and is adjoining to New Bagalkot town. The college was entitled for grants of over Rs. 38.52 Crores, under TEQIP.

Highlights of BEC, Bagalkot:

1. **NIRF Rank band: 50-250 during last 4 years**
2. **TEQIP - II & III: Best performing college at national level**
3. **NBA Accreditation: UG - 100 % & PG- 50 % of programs**
4. **NAAC Accreditation: "A" Grade (3.34/4.0 Score)**
5. **AICTE-CII Survey: Gold Category**
6. **QS I-GUAGE: i) Gold Rating**
   ii) E-lead Certification (E-Learning Excellence for Academic Digitization)
7. **Faculty Qualification: Ph. D. - 43 , M. Tech - 45% M. Sc - 12%**

About Industrial and Production Engineering

The department started in the year 1984, offers B.E. (Industrial and Production Engineering), M.Sc. (Engg.) by research and Ph.D. programs. Curriculum in Industrial & Production Engineering is designed to take care of two most important domains of Mechanical Engineering: Industrial Engineering and Production Engineering. All the faculty members in the department are doctorates.

About Management Studies

The department was established in the year 2009 with an objective of bringing out high-quality professionals to meet the emerging and every growing demands and challenges of the industry in an ethical and socially responsible manner. It offers two-year full time MBA programme which is an autonomous programme affiliated to Visvesvaraya Technological University (VTU), Belagavi and approved by AICTE, New Delhi. The department is equipped with all necessary infrastructures. The faculty members are drawn from different specializations with varied experiences. The course content of the branch has been planned systematically, covering all the basics as well as advanced topics in Marketing, Finance, Human Resources, Operations and General Management.

About the Programme

Organizational behavior is one of the very important subjects as far as management studies and teaching are concerned. Here, the main objective of this programme is to empower the faculty members to teach organizational behavior for the organizational growth. More clearly, basic aim of this programme is to facilitate the faculty members to translate critical theories and concepts of organizational behavior into practical application oriented format which will be effective managerial functioning for the development of organization.

To fulfil the objective of this programme, Major focus will be given on the following area:

- To enrich the knowledge related to OB and its major challenges
- To analyze the individual psychological processes associated with organizational growth
- To develop interpersonal skills, group dynamics and emergence of leadership within the organization
- To address the issues related to power-politics and conflict within the organization along with handling strategies
- To enhance skills for developing and solving cases studies related to critical incidents.

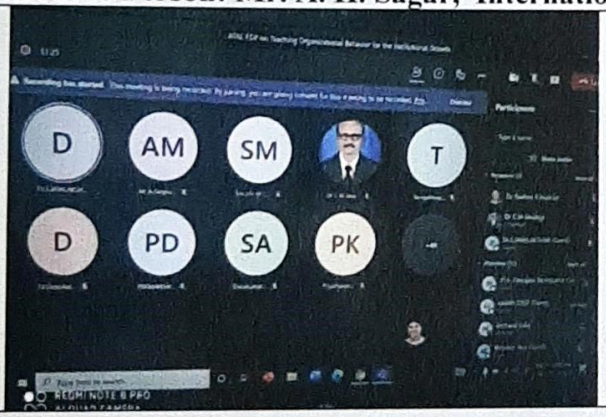
Basaveshwar Engineering College (Autonomous), Bagalkot
Teaching Organizational Behavior for the Institutional Growth
8th to 12th November 2021
Glimpses of Sessions

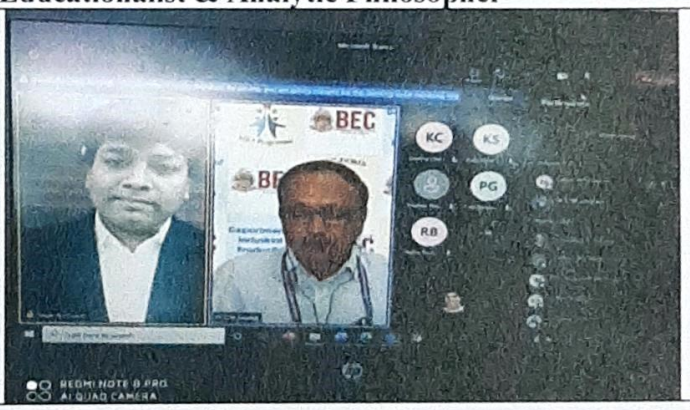
Day 1: 08.11.2021 (Monday): Session 1: Introduction to Organizational Behavior

Resource Person: Dr. Meena Chandawarkar, Chief Advisor – Quality Assurance, B.V.V.Sangha

Session 2: Contemporary research & Ethics in HR & OB

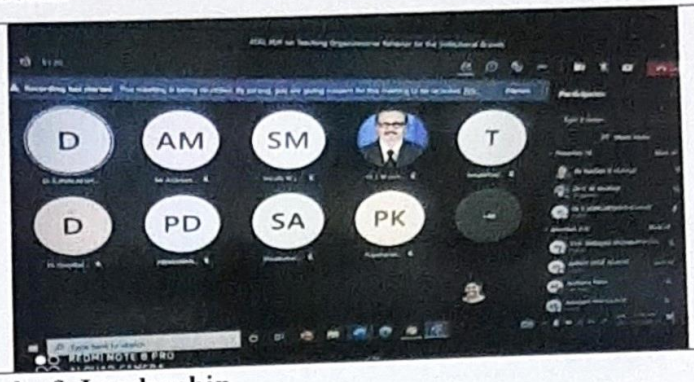
Resource Person: Mr. A. H. Sagar, International Educationalist & Analytic Philosopher





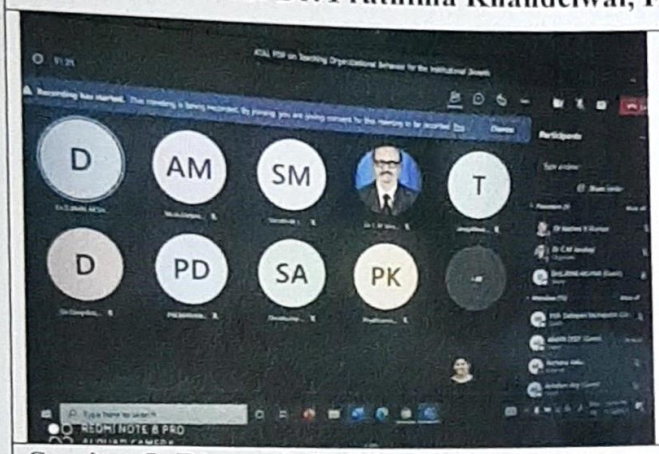
Session 3: Emotional Intelligence

Resource Person : Mr. Veeramani V., Bizz Diagnostics



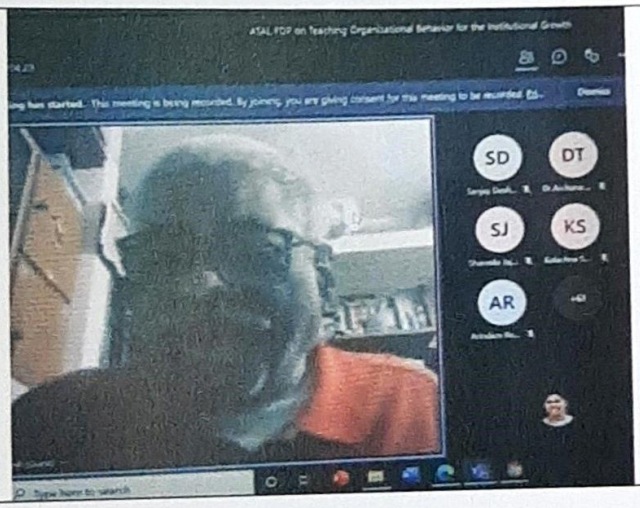
Day 2: 09.11.2021 (Tuesday): Session 4: Team work & Leadership

Resource Person: Dr. Prathima Khandelwal, Founder Fly High

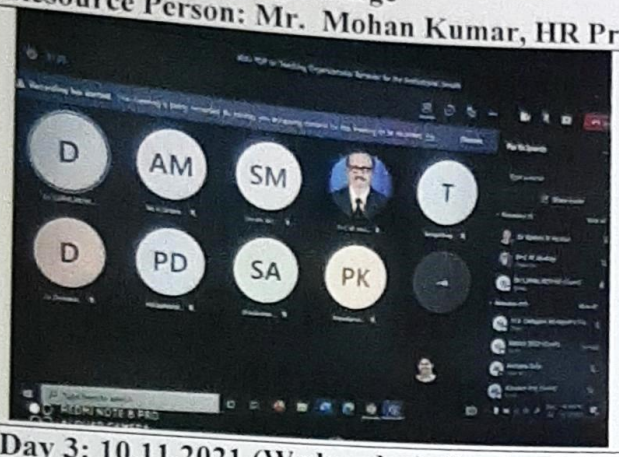


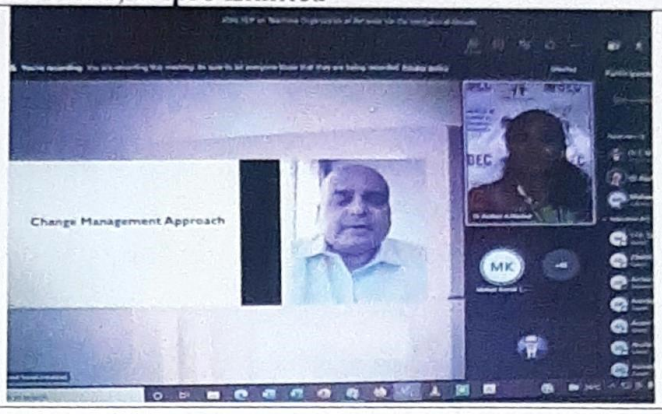
Session 5: Power & Politics in Organization

Resource Person : Dr. L. S. Ganesh, IIT, Madras

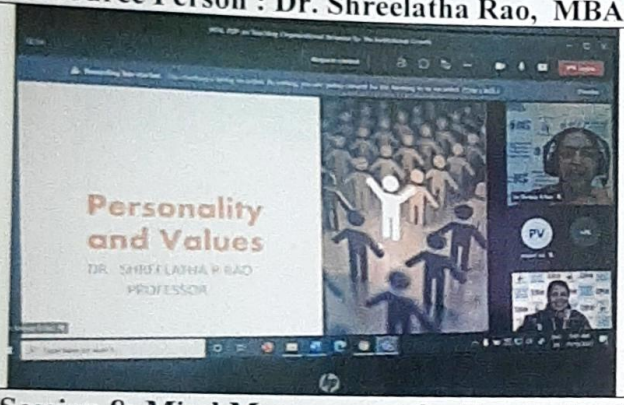


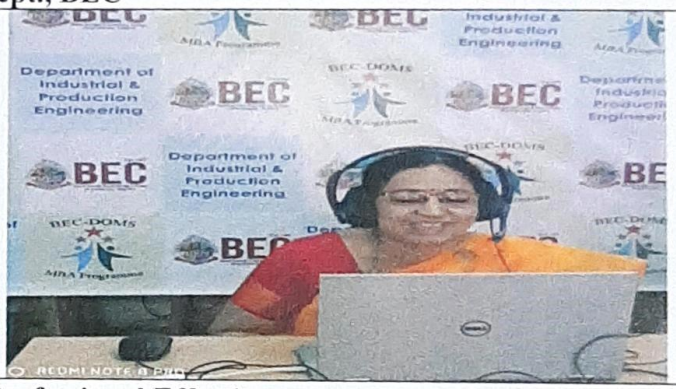
Session 6: Managing Change
Resource Person: Mr. Mohan Kumar, HR Practice Head, Wipro Limited



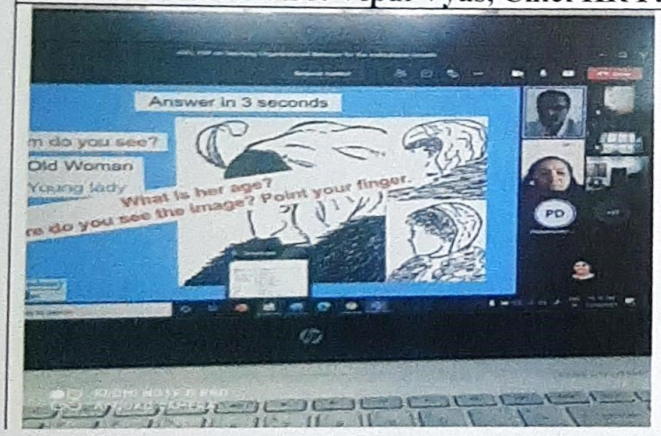


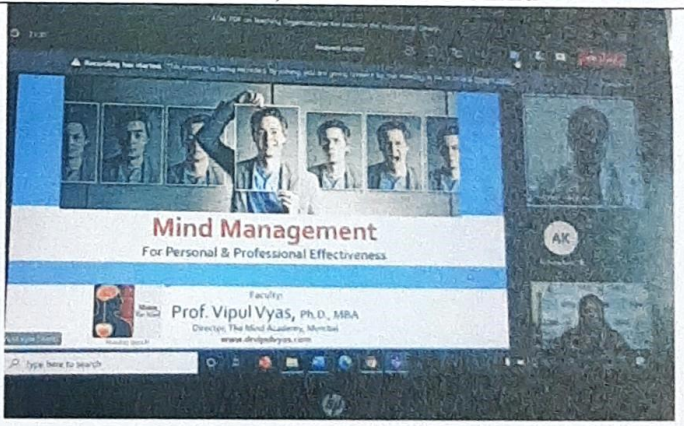
Day 3: 10.11.2021 (Wednesday): Session 7: Personality & Values
Resource Person : Dr. Shreelatha Rao, MBA Dept., BEC



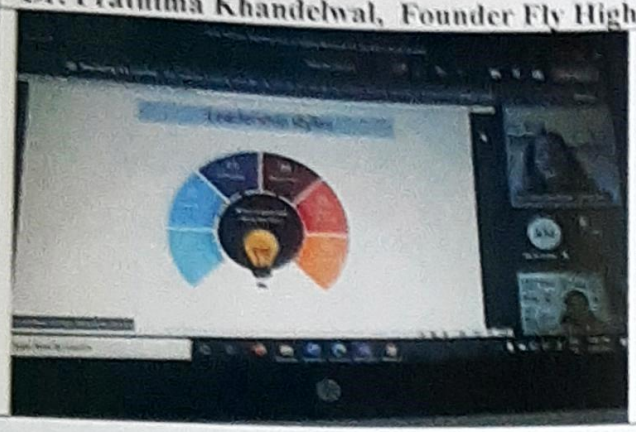


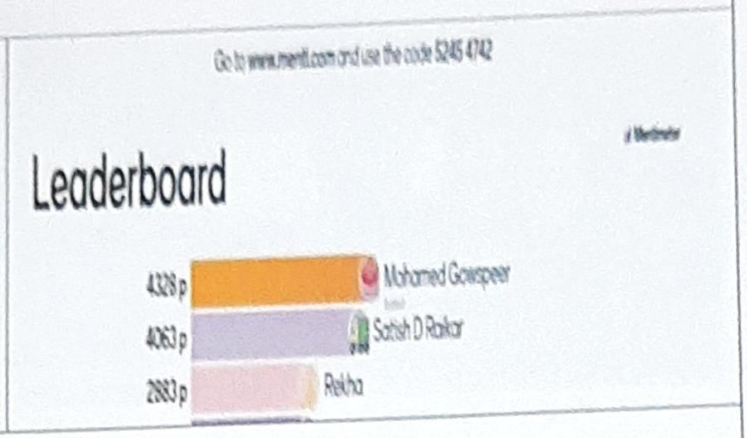
Session 8: Mind Management for Personal and Professional Effectiveness
Resource Person: Dr. Vipul Vyas, Chief HR Facilitator & Life Coach, Mann – The Mind



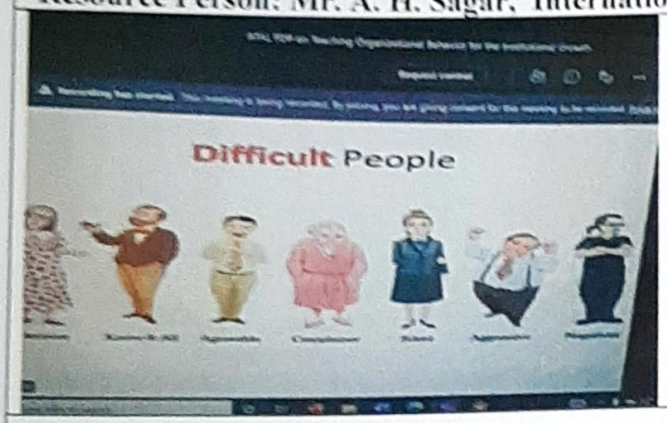


Session 9: Stress Management
Dr. Prathima Khandelwal, Founder Fly High

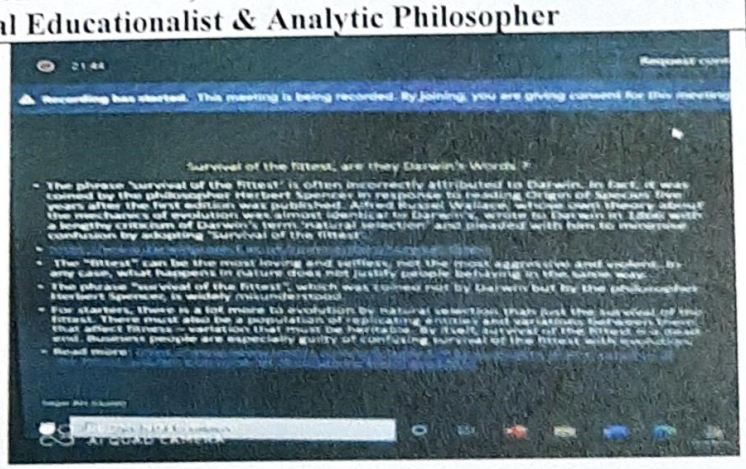




Day 4: 11.11.2021 (Thursday): Session 10: Social Network Analysis
Resource Person: Mr. A. H. Sagar, International Educationalist & Analytic Philosopher

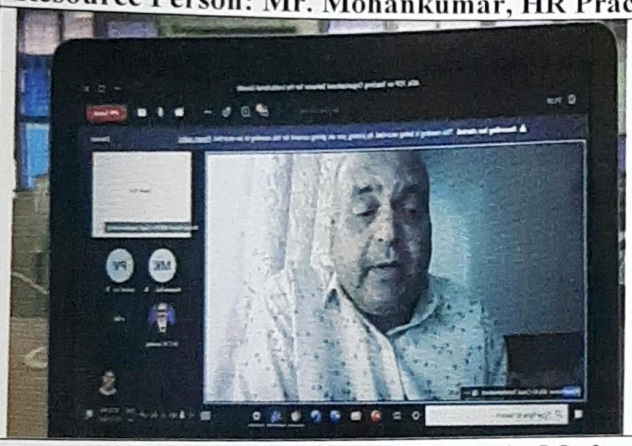


Session 11: Research Methods in OB (Experimental methods)
Resource Person: Mr. A. H. Sagar, International Educationalist & Analytic Philosopher

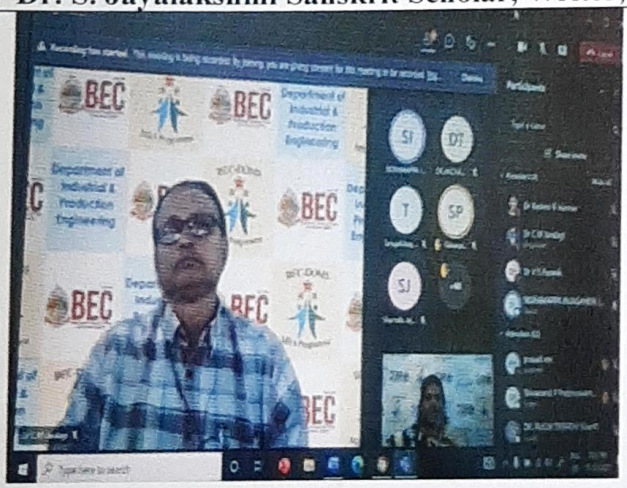


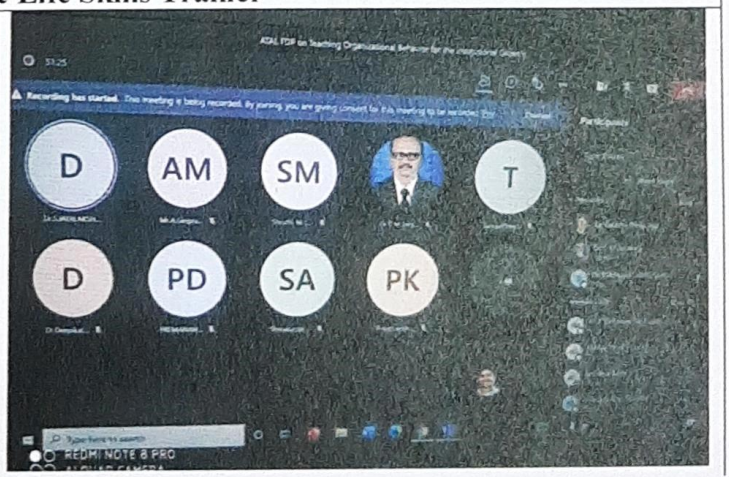
Session 12 : Case Teaching & Case Writing
Resource Person: Dr. Thillai Rajan A., IIT, Madras

Day 5: 12.11.2021 (Friday) : Session 13: Shaping Organization Culture through Key Habits
Resource Person: Mr. Mohankumar, HR Practice Head, Wipro Tech.

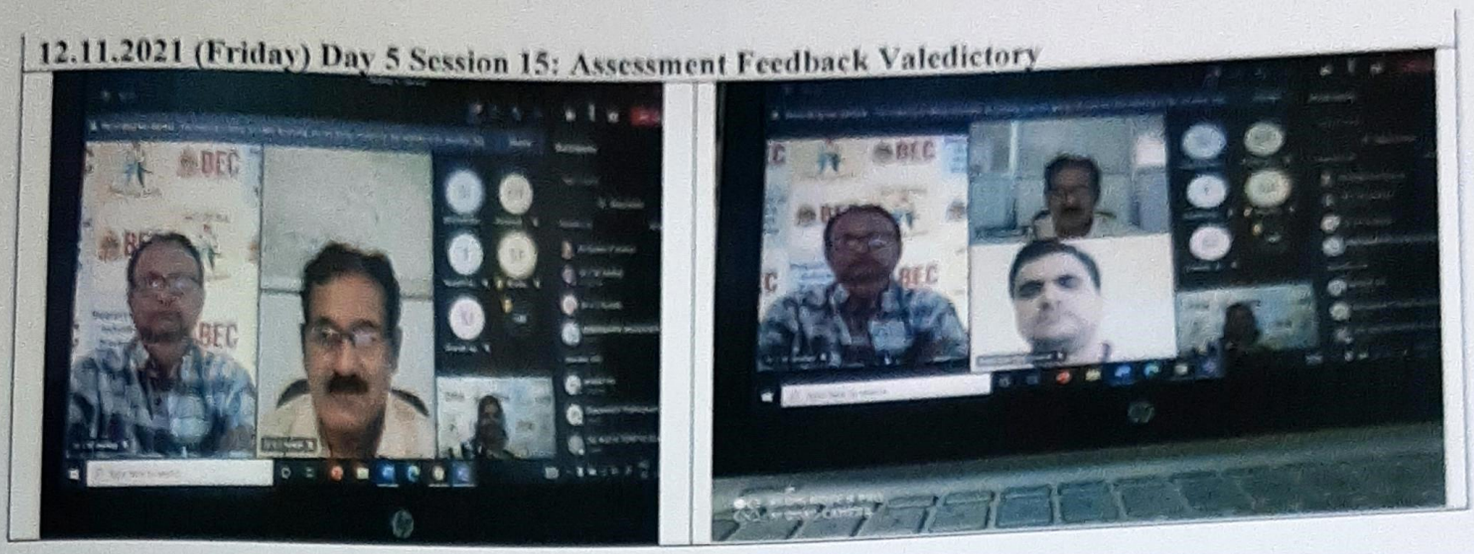


Session 14: Need for Human Values in Modern Society
Dr. S. Jayalakshmi Sanskrit Scholar, Writer, & Life Skills Trainer





12.11.2021 (Friday) Day 5 Session 15: Assessment Feedback Valedictory



****

Sl. No.	Professional development/ administrative training programs organised for teaching staff	From - To
1	Role of Faculty in Implementation of NEP	20th Feb. 2021
2	Latex and Moodle Learning Management System (LMS)	19-30th July 2021

1. Role of Faculty in Implementation of NEP

B. V. V. Sangha's

Basaveshwar Engineering College (Autonomous)

Bagalkot - 587 102, Karnataka

In collaboration with

Bharatiya Shikshan Mandal (BSM) and NITI Aayog

Report of webinar on

Role of Faculty in Implementation of NEP

Event Coordinators

Dr. Vijaylakshmi S. Jigajinni
Assistant Professor
Dept. of ECE
BEC, Bagalkot
Mob. No.: 9880500028
talk2vijusj@gmail.com

Dr. Rashmi R. Hunnur
Associate Professor
Dept. of Management Studies
BEC, Bagalkot
Mob. No.: 9449159015
hunnurmba@gmail.com

Invitation Card

BHARATIYA SHIKSHAN MANDAL

and

NITI AAYOG

in Collaboration with

BASAVESHWAR ENGINEERING COLLEGE [A] BAGALKOT

Cordially invites you for the webinar on

Role of Faculty in Implementation of NEP

Inauguration by

Dr. Veeranna C. Charantimath
MLA, Bagalkot, GoK. & Chairman B.V.V.Sangha

Chief Guest

Theme 1

Dr. Subramanya B. A.
National Asst. Incharge Institutional Project
Bharatiya Shikshan Mandal

Keynote Speaker

Theme 2

Dr. Ravindra D. Gudi
Head, Dept. of Chemical Engineering
IIT, Bombay

Presided by

Theme 3

Dr. R. N. Herkal
Technical Director
B.V.V.Sangha, Bagalkot

Date & Time : 20th February 2021 (10:30 AM to 1:30 PM)
Mode : Online through MS Teams

Dr. Meena Chandawarkar
Chief Advisor - Quality Assurance
B.V.V.Sangha
Bagalkot

Dr. S. S. Injaganeri
Principal
Basaveshwar Engg. College (A)
Bagalkot

ಬಾಗಲಕೋಟೆ

ಆನ್‌ಲೈನ್ ವೆಬಿನಾರ್ ಕಾರ್ಯಕ್ರಮದಲ್ಲಿ ಡಾ. ರವೀಂದ್ರ ಗುಡಿ ಅಭಿಮತ

ಅಭಿವೃದ್ಧಿಗೆ ಹೊಸ ರಾಷ್ಟ್ರೀಯ ಶಿಕ್ಷಣ ನೀತಿ ಸಹಕಾರಿ

ಬಾಗಲಕೋಟೆ: ಹೊಸ ರಾಷ್ಟ್ರೀಯ ಶಿಕ್ಷಣ ನೀತಿಯಲ್ಲಿ ಶಿಕ್ಷಕರು ವಿದ್ಯಾರ್ಥಿಗಳ ಸಾಮರ್ಥ್ಯ ಮತ್ತು ಜ್ಞಾನಶಕ್ತಿಯನ್ನು ಪರಿವರ್ತನೆ ಮಾಡಿ ಭಾರತಕ್ಕೆ ಮತ್ತು ವಿಶ್ವಕ್ಕೆ ಉತ್ತಮ ನಾಗರಿಕರನ್ನು ನೀಡಲು ಒಂದು ಉತ್ತಮ ಅವಕಾಶವಿದ್ದು ಎಂದು ಪಬಟಿ ಮುಂಬೈನ ಕುಲಕರ್ ಇದಜನೀಯರಿಂಗ ವಿಜ್ಞಾನ ಸಂಸ್ಥೆಯ ಡಾ. ರವೀಂದ್ರ ಗುಡಿ ಅಭಿಪ್ರಾಯಪಟ್ಟಿದ್ದಾರೆ.

ಬಸವೇಶ್ವರ ಇಂಜನೀಯರಿಂಗ ಕಾಲೇಜಿನಲ್ಲಿ ಹೊಸ ರಾಷ್ಟ್ರೀಯ ಶಿಕ್ಷಣ ನೀತಿಯ ಅನುಷ್ಠಾನದಲ್ಲಿ ಶಿಕ್ಷಕರ ಪಾತ್ರ ಎಂಬ ವಿಷಯದ ಕುರಿತು ಆಯೋಜಿಸಿದ್ದ ಆನಲೈನ್ ವೆಬಿನಾರ್ ಕಾರ್ಯಕ್ರಮದಲ್ಲಿ ಮುಖ್ಯ ವಿಷಯ ಭಾಷಣಕಾರರಾಗಿ ಮಾತನಾಡಿದ ಅವರು ಹೊಸ ರಾಷ್ಟ್ರೀಯ ಶಿಕ್ಷಣ ನೀತಿಯು ಭಾರತದ ಮತ್ತು ಜಾಗತಿಕ ಅವಶ್ಯಕತೆಗಳನ್ನು ಪೂರೈಸುವ ನಿಟ್ಟಿನಲ್ಲಿ ಬದಲಾವಣೆಯ ದೃಷ್ಟಿಕೋನವಾಗಿದೆ. ಕಾಳಜಿ ಮತ್ತು ಪರಿಣಾಮಕಾರಿಯಾದ ಅನುಷ್ಠಾನದಿಂದ ದೇಶದ ಭವ್ಯ ಕನಸನ್ನು ನನಸಾಡಿಗೊಳಿಸುವ, ಮತ್ತು ನಮ್ಮ ಗತವೈಭವದ ಇತಿಹಾಸವನ್ನು ಮನರ್ ಸ್ಥಾಪಿಸುವ ದೃಢ್ಡ ಪ್ರಯತ್ನವಾಗಿದೆ ಎಂದರು.

ರಾಷ್ಟ್ರೀಯ ಶಿಕ್ಷಣ ನೀತಿಯ ಅನುಷ್ಠಾನದಲ್ಲಿ ಶಿಕ್ಷಕರ ಪಾತ್ರ ಎಂಬ ವಿಷಯದ ಕುರಿತು ಆಯೋಜಿಸಿದ್ದ ಆನಲೈನ್ ವೆಬಿನಾರ್ ಕಾರ್ಯಕ್ರಮದಲ್ಲಿ ಶಾಸಕ ಡಾ. ವೀರಣ್ಣ ಚರಂತಿಮಠ ಮತ್ತಿತರರು ಚಿತ್ರದಲ್ಲಿದ್ದಾರೆ

ಹಿಂದಿನ ಕಾಲದಲ್ಲಿ ನಮ್ಮ ದೇಶದ ನಳಂದಾ, ತಕ್ಷಶಿಲಾ ವಿಶ್ವವಿದ್ಯಾಲಯಗಳು ವಿಶ್ವಕ್ಕೆ ಮಾದರಿ ಎನ್ನುವಂತಿದ್ದವು, ಭಾರತೀಯ ಭಾಷೆಗಳಲ್ಲಿ ವಿಜ್ಞಾನ ಮತ್ತು ತಂತ್ರಜ್ಞಾನ ಅಭಿವೃದ್ಧಿ ಪಡಿಸುವ ಪ್ರಯೋಗವು ನಮ್ಮ ದೇಶದ ಭೌದ್ಧಿಕ ಶ್ರೀಮಂತಿಕೆಯನ್ನು ಎತ್ತಿಹಿಡಿದು ಹೊಸ ಪ್ರತಿಭೆಗಳನ್ನು ಗುರುತಿಸುವುದಕ್ಕೆ ಅವಕಾಶವಾಗಿದೆ. ಶಾಲೆಕ್ಕೆ ತಕ್ಕಂತೆ ಹೊಂದಿಕೊಳ್ಳುವ ಮತ್ತು ಪ್ರತಿಭೆಯನ್ನು ಜ್ಞಾನವನ್ನು ವಿದ್ಯಾರ್ಥಿಗಳಿಗೆ ನೀಡಿ ಶಿಕ್ಷಣ ವ್ಯವಸ್ಥೆಯನ್ನು ನಿರಂತರವಾಗಿ ಉನ್ನತೀಕರಿಸಿಕೊಳ್ಳಬೇಕು ಎಂದರು.

ಶಾಸಕ ಬಿವಿವ ಸಂಘದ ಕಾರ್ಯಾಧ್ಯಕ್ಷ ಡಾ. ವೀರಣ್ಣ ಚರಂತಿಮಠ ರವರು ಕಾರ್ಯಕ್ರಮ ಉದ್ಘಾಟಿಸಿ ಮಾತನಾಡಿ, ಮಾನವನ ಸಮಗ್ರ ವಿಕಾಸಕ್ಕೆ ಶಿಕ್ಷಣವು ಉತ್ತಮ ಸಾಧನವಾಗಿದ್ದು, ಇದಕ್ಕೆ ಭಾರತೀಯ ಸರ್ಕಾರವು ಹೊಸ ಶಿಕ್ಷಣ ನೀತಿಯನ್ನು ಜಾರಿಗೆ ತಂದಿದೆ. ಈ ನೀತಿಯು ವಿದ್ಯಾರ್ಥಿಗಳಲ್ಲಿ ಕೌಶಲ್ಯಗಳನ್ನು ಕಲಿತುಕೊಂಡು ದೇಶಕ್ಕೆ ಪ್ರತಿಭಾವಂತ ಯುವಕರನ್ನು ಶಿಕ್ಷಕರು ನೀಡಬೇಕು ಎಂದು ಸಲಹೆ ನೀಡಿದರು.

ಭಾರತೀಯ ಶಿಕ್ಷಣ ಮಂಡಳಿಯ ರಾಷ್ಟ್ರೀಯ ಸಂಘಟನಾ ಕಾರ್ಯದರ್ಶಿ ಮುಕುಲ ಕಾನಿಟ್ಕರ್ ಅವರು ಶಿಕ್ಷಕರು ವಿದ್ಯಾರ್ಥಿಗಳ ಭಯಕ್ಕೆ ತಕ್ಕಂತೆ ಶಿಕ್ಷಣ ನೀಡಿ ಸಮಸ್ಯೆಗಳಿಗೆ ಸೂಕ್ತ ಪರಿಹಾರ ಕಂಡುಹಿಡಿಯಲು ಸಾಮರ್ಥ್ಯ ಇರುವಂತೆ ವಿದ್ಯಾರ್ಥಿಗಳನ್ನು ತಯಾರು ಮಾಡಬೇಕೆಂದರು.

ಮುಖ್ಯ ಅತಿಥಿಗಳಾದ ಭಾರತೀಯ ಶಿಕ್ಷಣ ಮಂಡಳಿಯ ರಾಷ್ಟ್ರೀಯ ಸಹಾಯಕರಾದ ಡಾ. ಸುಪ್ರದಾ ಬಿ.ಎನ್. ಅವರು ಹೊಸ ಶಿಕ್ಷಣ ನೀತಿಯು ಸಮಗ್ರ ಶಿಕ್ಷಣಕ್ಕೆ ಚರಿತ್ರಾರ್ಹವಾಗಿದೆ. ವ್ಯಕ್ತಿಯ ಉತ್ತಮ ವರಿಕಲ್ಪನೆಯೊಂದಿಗೆ ಸ್ವಯಂ ಶ್ರೇಷ್ಠತೆಯನ್ನು ಸಾಧಿಸುವಂತೆ ಶಿಕ್ಷಕರು ವಿದ್ಯಾರ್ಥಿಗಳನ್ನು ತಯಾರು ಮಾಡಿದಲ್ಲಿ ಪ್ರಮುಖ ಪಾತ್ರವಹಿಸಬೇಕು ಎಂದರು.

ಬಿವಿವ ಸಂಘದ ತಾಂತ್ರಿಕ ಶಿಕ್ಷಣ ನಿರ್ದೇಶಕರಾದ ಡಾ. ಜಿ.ಬಿ. ಎನ್. ಜೆರಕಲ್ ಅವರು ಹೊಸ ಶಿಕ್ಷಣ ನೀತಿಯು ಒಂದು ಸವಾಲು ಇದನ್ನು ಸಕಾರಾತ್ಮಕವಾಗಿ ಅನುಷ್ಠಾನಗೊಳಿಸಲು ಶಿಕ್ಷಕರಿಗೆ ತರಬೇತಿಯ ಅವಶ್ಯಕತೆ ಇದೆ ಎಂದರು.

ಕಾಲೇಜಿನ ಪ್ರಾಚಾರ್ಯ ಡಾ. ಎಸ್.ಎಸ್. ಇಂಡಗನೇರಿ ಅವರು ಅತಿಥಿಗಳನ್ನು ಸ್ವಾಗತಿಸಿ ವರಿಚಯಿಸಿದರು. ಪಿಜಿ ವಿಭಾಗದ ಡಾ. ವಿಜಯಲಕ್ಷ್ಮಿ ಜಗಜ್ಜಿ ಕಾರ್ಯಕ್ರಮ ನಿರೂಪಿಸಿದರು. ಎಂಬಿಎ ವಿಭಾಗದ ಮುಖ್ಯಸ್ಥರಾದ ಡಾ. ಶ್ರೀಶೈಲ ಬಿ. ಹಿರೇಮಠ ವಂದಿಸಿದರು. ಕುಮಾರಿ ಇಂಜಿನಾ ಉಮರ್ಜಿ ಪ್ರಾರ್ಥಿಸಿದರು.

2. Latex and Moodle Learning Management System (LMS)

About Spoken Tutorial

The Spoken Tutorial project is funded by the National Mission on Education through Information and Communication Technology (ICT), launched by the erstwhile Ministry of Human Resources and Development, Government of India. Here one can learn various Free and Open Source Software all by oneself. Our self-paced, multi-lingual courses ensure that the learner with a computer and a desire for learning, can learn from any place, at any time and in a language of their choice.

About Course

LaTeX: LaTeX is a document markup language and a documentation preparation system for TeX typesetting program which is most widely used by Mathematicians, Scientists, Engineers, Philosophers, Lawyers, Linguist, Economists, Researchers and other scholars in academia. Moreover, besides many advantages of LaTeX, look and feel features of technical report, internal question paper, and Ph.D. thesis in LaTeX format are much superior over that of other text formats.

Moodle Learning Management System (LMS): Moodle is a free and open-source software learning management system written in PHP and distributed under the GNU General Public License. Developed on pedagogical principles, Moodle is used for blended learning, distance education, flipped classroom and other e-learning projects in schools, universities, workplaces and other sectors. It allows students access resource media, engage in active and collaborative learning, submit assignments & quizzes online, self-check progress and view grades online.

Registration Details

Registration Link:
https://forms.gle/duoHKt3Vjh2kkfUTA

Registration Fee:

- Free for faculty from Institutions having active Spoken Tutorial subscription
- Rs. 590/course for other institutions (Should be paid to IIT Bombay)

Date: 19th to 30th July 2021

Open to faculty members and research scholars of any recognized University/College of all streams

Registration last date: 17-07-2021(5.00 PM)
Platform: MS Teams (Link will be shared) for Inauguration session only

For details visit: https://www.spoken-tutorial .org

SPOKEN TUTORIAL
SOFTWARE TRAINING PROJECT
Developed by IIT BOMBAY
spoken-tutorial.org

IIT Bombay Spoken Tutorial Sponsored

Two Week National Level Faculty Development Programme

On

"Latex and Moodle Learning Management System (LMS)"

(19th to 30th July 2021)

Online Flexible Mode

Organized by

Basaveshwar Engineering (Autonomous) College
(Govt. Aided, AICTE Recognized
Affiliated to VTU-Belagavi, Karnataka)
Department of Electronics and Communication Engineering
Bagalkot - 587 102, Karnataka
www.becbgk.edu

Course Objective

* The workshop aims to provide a comprehensive theoretical and hands-on practical experience on LaTeX to the beginners
* The workshop enables participants to understand the basics of LATEX. By the end of the workshop, the participants will be confident enough to prepare documents using LATEX
* To familiarize the teachers of Higher Education with the Moodle Learning Management System (LMS)
* To empower the faculty to build flexible, interactive, dynamic, collaborative, and constructive learning environment using Moodle

Note:

- This programme is considered under Career Advancement Scheme (CAS) as per UGC regulations as a two-week FDP
- Flexible course means no fixed timings for this FDP. Participants can login at any time using the link provided through WhatsApp to access the material at their own convenience
- For registration use an e-mail address which is not earlier registered in Spoken-Tutorial, IIT Bombay for any other courses from any institute
- E-Certificates will be provided by Spoken Tutorials, IIT Bombay office after completion of training
- Participants will be assessed based on quiz and test conducted by the spoken tutorial, IIT Bombay
- Course Completion Certificate will be provided to the participants who secures more than 40% in the test

About ECE Department

Electronics and Communication Engineering (ECE) Department was established in the year 1985, offering UG program and a PG program in Digital Communication. The department is recognised as research centre by VTU and Quality Improvement Program (QIP) of the Government of India for Ph.D. program. The department has adequate infrastructure with well-equipped state-of-art laboratories. The qualified and experienced faculty of the department impart knowledge to the students in the fundamental and applied aspects of communication engineering, wireless networking, VLSI, MEMS and signal processing by adopting conventional as well as the latest teaching and assessment tools.

Mrs. Chaitra H. Gawade
Training Manager, IIT Bombay ST Training
(+91-9738471845)

About the Institution

Basaveshwar Engineering College is a premier technical institution in Karnataka, catering to the needs of technical education since its inception in 1963. At present, it offers eleven under graduate programs and nine post graduate programs including MBA. Ten departments of the college have been recognized as Research Centers by VTU, and five departments as QIP Centers for Ph.D. programs by AICTE, New Delhi.

The college was granted autonomous status by VTU and UGC in the year 2007. Since then, the college has introduced academic reforms by restructuring the curriculum keeping in view the technological developments, needs of the industry and society. The campus is located on an elevated stretch of 93.81 acres on the outskirts of the city and is adjoining to new Bagalkot town. Ten UG and three PG programs of the college are accredited by NBA and also, by NAAC with 'A' grade. The college has received a grant of Rs. 39.30 crores, under TEQIP and also, selected by AICTE, New Delhi at National level to setup IDEA lab (1.10 crores).

through their departmental coordinators on spoken tutorial website (spokentutorial.org), where they can download spoken tutorials free of cost.

Mrs. Chaitra Gawade training manager from IIT Bombay emphasized the role of spoken tutorial project in training students and faculty members. She explained Spoken tutorial project, which helps in providing training and certifications to students of different streams at their comfort in their campus where they can access study material and can have certifications which are totally free. The FDP was attended by around 62 participants from different state colleges.

Details of the Participants:

E-mail	Name of the Faculty	Department	Name of the College

INSTRUCTIONS for PARTICIPANTS

1) BEC, Bagalkot, Karnataka is organising a online remote learning Two weeks FDP on "LaTeX and Moodle LMS" in association with IIT Bombay – Spoken Tutorial.
2) Please go through the above recorded audio-video tutorial links prepared by IIT Professors and experts.
3) Participants are requested to watch and carefully listen the audio-videos tutorials in your free time (request to complete all lecture videos by 30th July, 2021) and attempt the online test at end of the FDP.
3) Practicing assignments provided at end of each video is left to you. No need to submit assignments. Complete all the assignment for better learning.
4) This is a remote learning FDP, there is no exact time table/schedules and no online training. Just watch the videos by clicking above links like MOOCs courses and write online test for certification.
5) IIT Bombay-ST Certificate will be issued to all the Participants those who appear the Examination after two weeks of FDP and securing minimum 40% Marks.
6) Proposed Date of Examination is 5th August 2021 (Thursday) and we will send link for exam on the day at 11 AM and exam duration is 60 min.
7) Questions in FDP exam broadly divided into Objective Type (MCQ) and Fill in the blank questions.
8) To clarify any queries, you can make use of forum available in the website: ***https://spoken-tutorial.org/***

Basaveshwar Engineering College (A), Bagalkot

A Workshop Report on

"Soft Tools for Researchers to Enhance Research Productivity"

Under

TEQIP – III

Jointly Organized by

Department of Mechanical Engineering

&

Department of Industrial and Production Engineering

On

11th October 2019 & 12th October 2019

Venue: Seminar Hall, Department of Industrial and Production Engineering

Coordinators

Prof. S. S. Davanageri	Prof. H. R. Patil	Dr. C. M. Javalagi
Dept. of Mech	Dept. of Mech	Dept. of IPE

Covering Letter

To ,

The Principal

Basaveshwar Engineering College

Bagalkot – 587 103

Respected Sir,

Sub.: Permission to organize workshop titled **Soft tools for researchers to enhance research productivity** reg...

With reference to the subject cited above, we faculty from Department of Mechanical Engineering and Department of Industrial and production engineering are organizing workshop titled **Soft tools for researchers to enhance research productivity,** under TEQIP-III, from 11th October 2019 to 12th October 2019. Hence we request your kind self to approve and permit us to organize the workshop.

Thanking you

Yours Faithfully

Dr. C. M. Javalagi

Prof. H. R. Patil

Prof. S. S. Davanageri

Enclosures.

1. TEQIP – III TRNG- II Format
2. About Resource persons
3. Course objectives & outcomes
4. Schedule

TEQIP-III: Format for Proposals to Conduct National/International Conference/Seminar/Workshop/Symposium.

(Please complete the checklist with 'YES or NO' wherever applicable and attach the relevant document/certificates/papers along with the proposal)

Sl. No	Documents/Certificates/Papers Attached	YES/NO
1.	Clear Objectives of the National/International Proposed Programme linked with the Project	YES
2.	Clear indication of the expected outcome of the Proposed Programme and value addition	YES
3.	Programme Brochure	NA
4.	Daily schedule of activities to be covered in the Conference/Workshop/ Seminar/Symposium	YES
5.	List of Guest Faculty/Experts/Technical Speakers with Name, Designation, Organization and Contact details	YES
6.	Details about collaboration with Industry, Institute any other training provider/ agency involved in conducting the training programme	NA
7.	Certificate that the expenditure incurred for conducting training programme under TEQIP-III is not claimed elsewhere i.e. any other organization/department	YES
8.	Split up of expected expenditure with supporting documents (as per Annexure-1)	YES
9.	'Political Clearance or No Objection Certificate' from the Ministry of External Affairs, the Ministry of Home Affairs and other competent authorities of Government of India and State Government in respect of conduct of International conference and list of Foreign Delegates/Participants	NA
10.	Any other	NO

TEQIP Coordinator
(Signature with Seal)

Principal
(Signature with Seal)

About Resource Persons

S.No.	Resource Person	Contact Details
1.	Mr. Girish Kulkarni	Regional Sales Manager Global information Systems Technology, New Delhi Cell No.: 097506480844
2	Dr. S. B. Kerur	Principal BilurGurubasavMahaswamiji Institute of Technology, Mudhol Cell No.: 9343331335
3	Dr. S. G. Karkun	Assistant Librarian Basaveshwar Engineering College (Autonomous) Bagalkot Cell No.: 9448514872

Workshop Objectives and Outcomes

The workshop has the following course objectives and outcomes

Course Objectives

1. To bring awareness about top referencing tools and reference management software for academic rating.
2. To educate popular writing tools and software for authors and researchers.
3. To bring awareness about publishing research finding in scientific journals with high impact factors
4. To learn and understand research publication ethics

Course Outcomes

1. Participants will exhibit knowledge about referencing tools and reference management softwares
2. Became aware of writing tools for technical paper and reports
3. Became more familiar about H Index, Impact factor and Citation
4. Aware about similarity index and plagiarism

Schedule

Day : 01 [11th October 2019]				
S.No	Event	Time	Place	Resource person
1	Inguaration	10.00 am to 10.30 am	Dept. IPE Seminar Hall	
2	Introduction to Latex	10.30 am to 11.15 am	Dept. IPE Seminar Hall	Dr. S. B. Kerur
	Tea break	11.15 am to 11.30 am	"	
3	Hands on training	11.30 am to 1.00 pm	"	Dr. S. B. Kerur
	Lunch	1.00 pm to 2.00 pm	College Canteen	
3	Journal paper writing using latex	2.00 pm to 3.15 pm	Dept. IPE Seminar Hall	Dr. S. B. Kerur
	Tea break	3.15 pm to 3.30 pm	"	
4	Hands on training	3.30 pm to 5.00 pm	"	Dr. S. B. Kerur
Day : 02 [12th October 2019]				
1	Need of soft tools for better publication	9.30 am to 11.00am	Dept. IPE Seminar Hall	Mr. Girish Kulkarni
	Tea break	11.00 am to 11.15 am	"	
2	Introduction to soft tools	11.15 am to 12.45pm	Dept. IPE Seminar Hall	Mr. Girish Kulkarni
	Lunch	1.00 pm to 2.00 pm	College Canteen	
4	Introduction to search tools	2.00 pm to 3.15 pm	Dept. IPE Seminar Hall	Dr. S. G. Karkun
	Tea break	3.15 pm to 3.30 pm	"	
5	Hands on training	3.30 pm to 5.00 pm	"	Dr. S. G. Karkun
	High tea	5.00 pm to 5.30 pm	"	

A two days workshop on

SOFT TOOLS FOR RESEARCHERS TO ENHANCE RESEARCH PRODUCTIVITY

INAUGURATION PROGRAMME

AGENDA

Venue: Department of I & P Engg., Seminar Hall **Date: 11th Oct 2019**

Time: 10.00 am to 10.30 am **Anchoring: Prof. H. R. Patil**

Invocation song		3 min
Welcome Speech	Dr. B. K. Venkanna	3 min
Flower Presentation		9 min
About Course	Dr. C. M. Javalagi	3 min
Course Inauguration	By watering the Plant	3 min
Speech by TEQIP Coordinator	Dr. S. S. Injaganeri	3 min
Guest Speech	Dr. S. B. Kerur	4 min
Presidential Remarks	Dr. C. B. Shivayogimath	4 min
Vote of Thanks	Dr. V. S. Puranik	3 min

A two day work shop on

Soft Tools for Researchers to Enhance Research Productivity

Registration

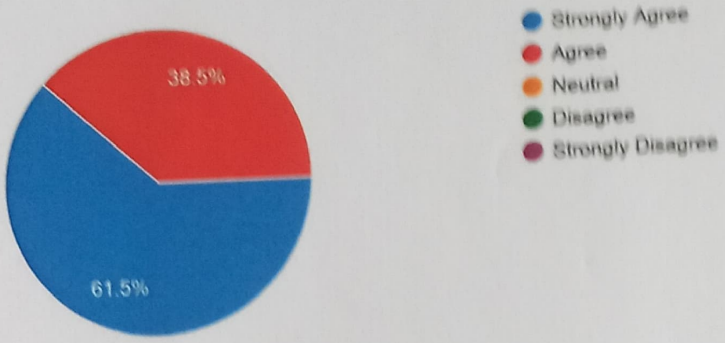
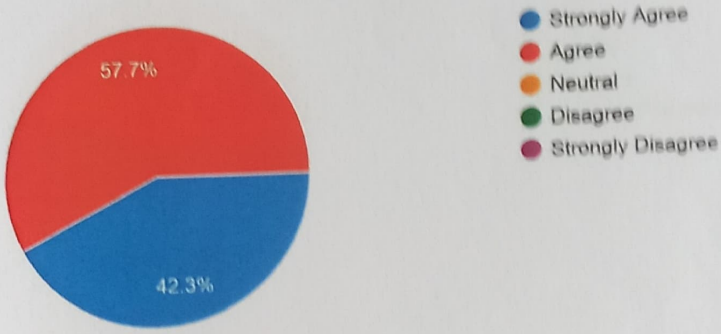
1. The course met its stated aims and objectives

26 responses



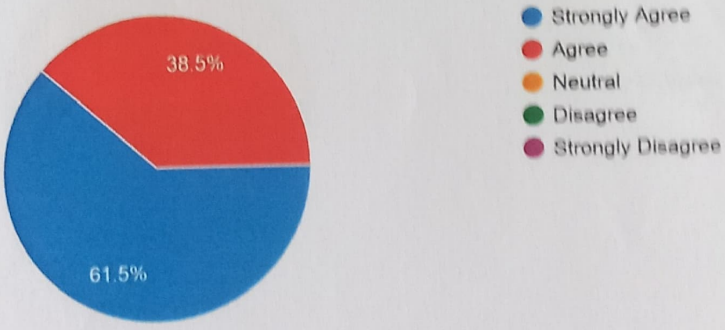
2. The workshop was scheduled at a suitable time.

26 responses



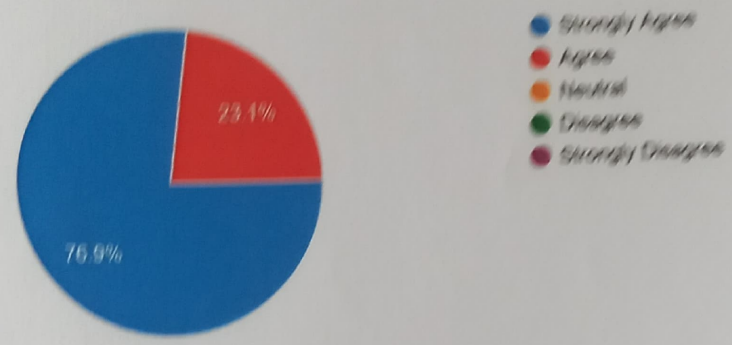
3. The workshop was appropriate and satisfactory

26 responses



4. The workshop facilities were appropriate and satisfactory.

26 responses



5. The workshop was paced appropriately.

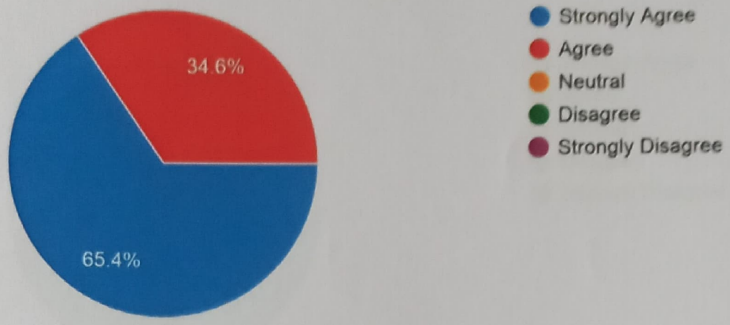
26 responses

6. The workshop material was presented in a clear and organized manner.

26 responses

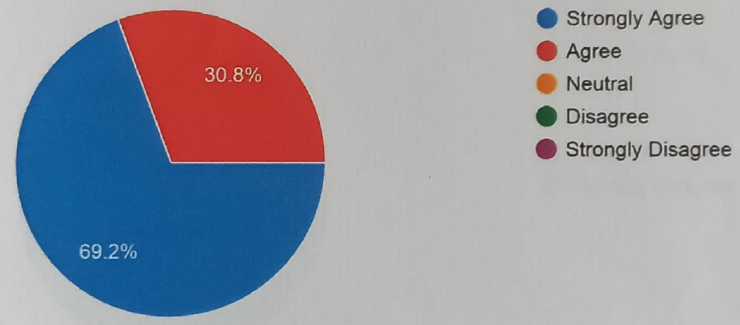
7. The workshop presenters were well prepared.

26 responses



8. The presenters responded to questions in an informative, appropriate and satisfactory manner.

26 responses

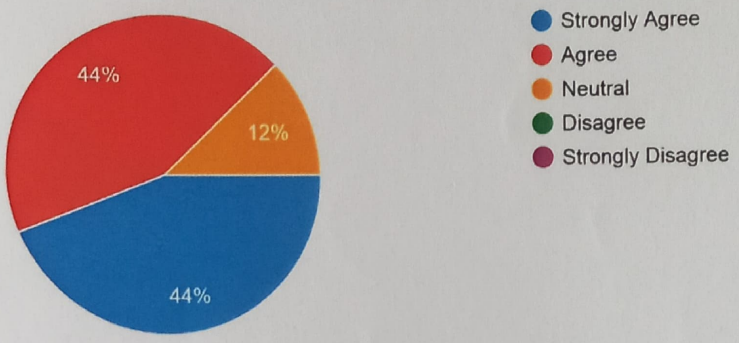


9. The workshop administration was efficient and informative.

26 responses

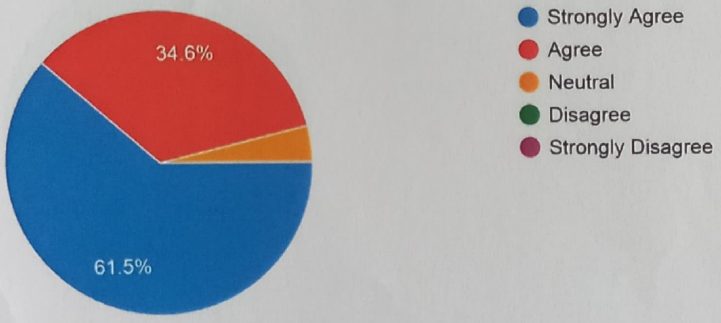
10. The time allocated to presentations and interactive group work was appropriate and satisfactory.

25 responses



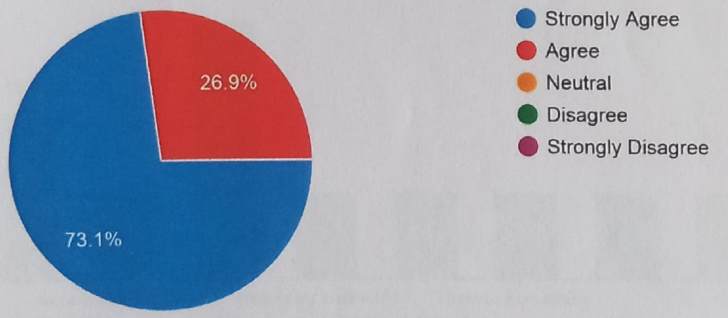
11. The hands on experience of the workshop was appropriate

26 responses



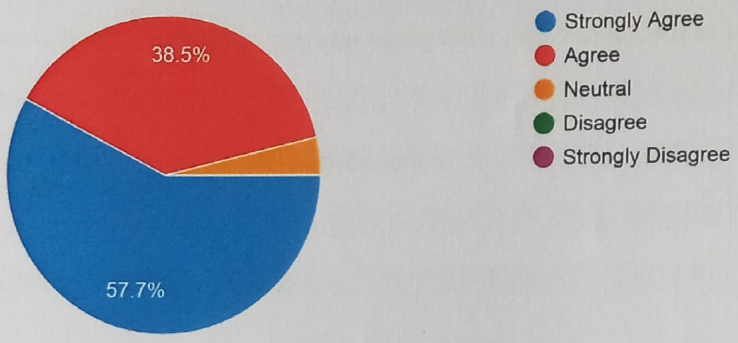
12. Overall, the sessions of the workshop were informative and valuable.

26 responses



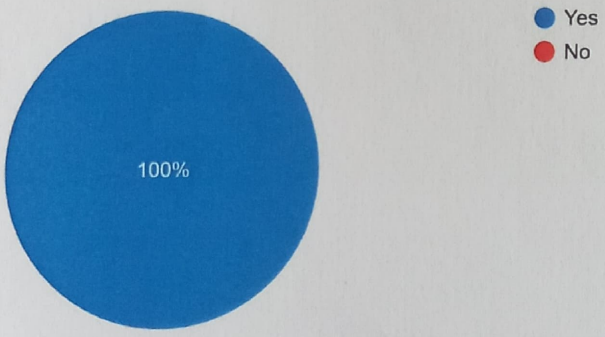
13. Given an opportunity, would you like to attend the workshops/Seminars going to be conducted by the department

26 responses



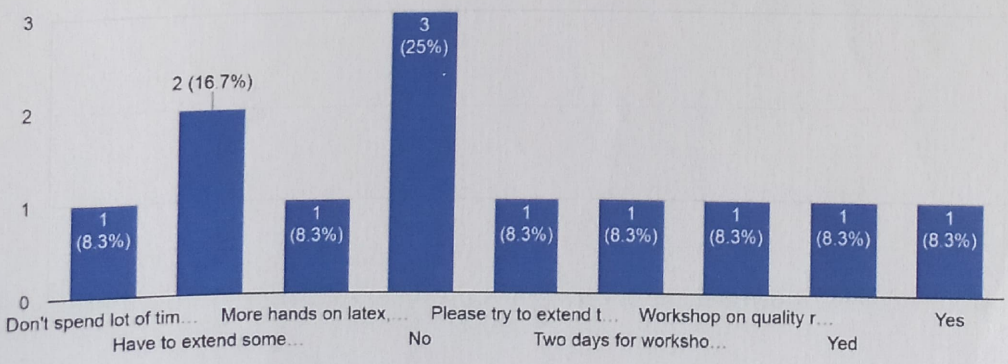
14. Would you recommend this or a similar FDP to a colleague?

26 responses



15. Do you have any suggestions for future Workshops/events that you would like us to organize?

12 responses



16. What aspects of the Workshop, if any, would you like to change in future? 15 responses

Everything was perfect.
Arrange program in Cs lab
No
Provide desktop computers with net facility..You can easily store required softwares in machines before session starts.it saves time.
Tools provided well earlier before using
No Suggestions. Everything was good
Arrange in the computer laboratory for hands on experience
Hands on session should me more
--
Everything is good
Arrangements should be done in Computer lab

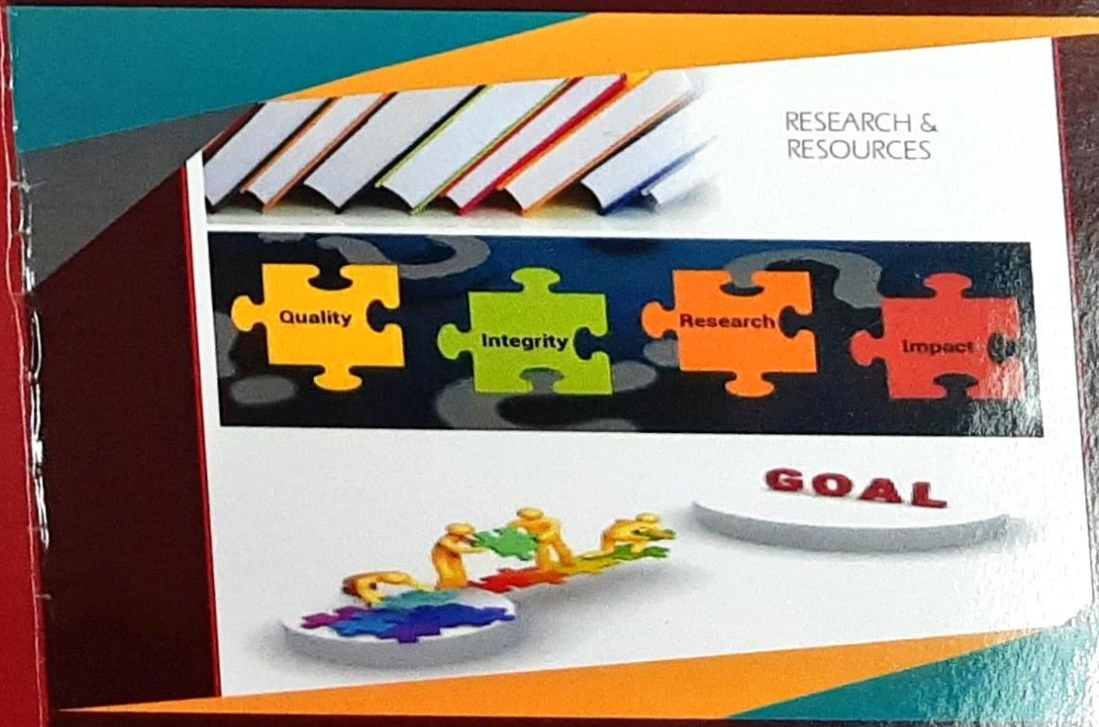
Publishing Research in High Quality Journals

19th December 2019



Organized by

Basaveshwar Engineering College

Basaveshwar Engineering College (BEC) is a premier technical institute located in northern part of Karnataka on a scenic stretch of land spread over 93.8 acres of land in the new township of Bagalkot. It was started in the year 1963 as a private college, offering three undergraduate degree programs. At present, it offers ten undergraduate and seven post graduate degree programs. The college is a Government Aided institution affiliated to Visvesvaraya Technological University (VTU), Belgaum in Karnataka and approved by All India Council for Technical Education (AICTE), New Delhi. The college has secured 191 rank by NIRF, MHRD, New Delhi in 2019. The college is accredited by NAAC & all the ten UG programmes are accredited by NBA. The college persistently works for national development by producing high quality technical graduates and proactively contributes to socially relevant technological services. Over the years, the college has emerged as one of among the leading technical educational institutions due to the valuable contributions of its alumni who hold key positions in government, Industrial and Business organizations across the globe.

Department of Management Studies (BEC-DOMS)

Department of Management Studies (BEC-DOMS) is the latest addition to Basaveshwar Engineering College list. The department was established in the year 2009 with an objective of bringing out high-quality professionals to meet the emerging and every growing demands and challenges of the industry in an ethical and socially responsible manner. It offers two-year full time MBA programme which is an autonomous programme affiliated to Visvesvaraya Technological University (VTU), Belagavi and approved by AICTE, New Delhi. The department is equipped with all necessary infrastructures. The faculty members are drawn from different specializations with varied experiences. The course content of the branch has been planned systematically, covering all the basics as well as advanced topics in Marketing, Finance, Human Resources, Operations and General Management. The curriculum has been designed to suit all kinds of industries and business organizations. Since its inception, the department has shown remarkable growth in the direction of achievement of its objectives.

About the FDP

Writing research papers and getting it published in reputed journals is the need of hour. Research papers are the main differentiation criteria for faculty members. Good quality research paper publications and conferences determine chances of getting a desired job or while getting that progression in the career. It is the research papers which get recognitions and awards for the faculty members. It is the quality research work which attracts major consultancy work and project works. Major accreditation agencies ask for research work published in reputed journals (ABDC/ABS/SCI indexed/SCOPUS ranked journals). Even it is becoming mandatory for research scholars to get their research work published in such journals. There is a huge pandemonium and confusion among the teaching community on how to get the research published in good journals; what editors and reviewers are looking in research articles, why research papers get rejected in good journals; do's and don'ts while writing a research paper etc. Hence, the main objective of the FDP is to improve and enhance the research paper writing skills of the participants and help them to come up with quality research papers that can be published in top-tier journals.

Objectives of the FDP

- This FDP is intended to discuss basic issues and challenges of writing
- To provide necessary inputs for writing quality research papers
- To enable the participants to publish their research work in top-tier international journals

Topics Covered

- Importance of writing quality research paper
- How to choose a journal for publication
- Choosing right area of carrying out research
- What editors and reviewers are looking in research articles
- Proper method to carry out literature review
- Why research papers get rejected in good journals
- Do's and don'ts while writing a research paper
- Steps and tips to improve article quality and content

Resource Person

Dr. Sumukh Hungund is a faculty in the Department of Humanities and Management at Manipal Institute of Technology, Manipal. He has published his research work in Emerald and Inderscience which are in Q1 and Q2 category in Scopus. His research proposal on innovation has received technical approval for funding from DST. He has presented his research paper in prestigious conferences in India and abroad such as at Tata Institute of Social Sciences Mumbai, Indian Institute of Technology Kanpur, Pan IIM-New Delhi, Assumption University. He has completed his PhD from National Institute of Technology, Surathkal with full fellowship from MHRD, GoI. His current research interests are in the area of Innovation, SME and Industry 4.0.

Target Participants

The participants of the program could be academicians, research scholars, and students from various streams and executives from industry engaged in research.

Registration

Contact details for Registration: 9449159015, 9743391794
Confirm your registration on or before 17/12/2019

Venue: MBA Seminar Hall, BEC, Bagalkot
Time: 9.30am

3. Workshop on Examination reforms

FDP-7

BEC(A), BAGALKOT

Report for

Two Days' workshop on

AICTE-Examination Reform Policy

(14-15, February,2020)

TEQIP-3
NPIU
A Unit of MHRD

BASAVESHWAR ENGINEERING COLLEGE(AUTONOMOUS), BAGALKOT

Schedule for Two-days' Workshop on "AICTE - Examination Reforms Policy"

(14-15, February,2020)

	Session 1 (10:15AM-11:30 AM)		Session 2 (11:45AM-1.00 PM)		Session 3 (2:00PM-3:15 PM)		Session 4 (3:30PM-4.45 PM)
Day 1	Need for outcome based education and AICTE examinations reforms policy	Tea Break (11:30AM-11:45 AM)	Assessment strategy for outcome based education	Lunch 1PM-2PM	Two-step process towards attainment of POs (Activity)	Tea Break (3.15PM-3.30PM)	Branch specific identification of PI and Competencies
Day 2	Improving structure and quality of Assessment		Assessing higher order abilities and professional skills through rubrics (For HOTS)		Activity: Design of question paper to assess, align CO, BLL, PO and PI		Activity: Design of question paper to assess, align CO, BLL, PO and PI

Venue: Room No 130, MBA Department

What are the "THREE TAKE AWAYS" from the workshop?

42 responses

-

Developing questions to evolve with global standards
Communication has to be improved
Teachers attitude has to change

1. Understood the writing of to COs
2. Understood about POs
3. Understood how to attain CO & POs

Bol, CO,,Po and pi

Competence and indicators, rubrics, assessment planning

1. PO mapping
2. Qualities of good question paper
3. Importance of rubrics

What are your suggestions for improving the quality of Examinations in BEC.

42 responses

-

The conscience of faculty members should become clear and help in taking the institution to greater heights

No suggestions

Number of examination to be reducef

More weigtage for assignments, decrease number of CIE, Lab SEE not required

Make all questions compulsory

All faculty need to be trained about this workshop to improve the question paper pattern

Improvement in quality of question papers

Coordinators

Dr. Ashok V. Sutagundar
Dr. Lokesh B. Bhajantri

About the Institution

Basaveshwar Engineering College was started in the year 1963. At present it offers degree programs in ten disciplines and seven post graduate programs including MBA. Eight departments of the college have been recognized as Research Centers by VTU. Also five departments are recognized as QIP Centers for Ph.D programs by AICTE New Delhi. The college was granted autonomous status by VTU and UGC in the year 2007. Since then the college has introduced Academic reforms by restructuring the curriculum keeping in view the technological developments and needs of the industry. College campus is located on beautiful elevated stretch of land over 93.18 acres on the outskirts of the city and is adjoining to New Bagalkot town. All UG and five PG programmes are accredited by NBA. The college is also accredited by NAAC with 'A' grade. The college was entitled for grants of over Rs. 38.52crores, under TEQIP.

About the Departments

The Electronics and Communication (E&C) Engineering Department was established in the year 1985. The Department offers an Under Graduate program in Electronics and Communication Engineering, a PG program in Digital Communication. The department of Information Science and Engineering was established in the year 1999 with an initial intake of 30 students. With the growth in demand from student fraternity the intake has been enhanced to strength of 90.

About the Programme

Machine learning (ML) is the scientific study of algorithms and statistical models that computer systems use to perform a specific task without using explicit instructions, relying on patterns and inference instead. Machine learning is effectively a method of data analysis that works by automating the process of building data models. The faculty members and research scholars are interested to upgrade their academic skills in the advances in Machine Learning and Its applications. The objective of the workshop is to provide research issues and challenges in Machine Learning. This FDP programme covers the following areas by the resource persons are machine learning, python for data analysis/data wrangling and data visualization, Dimensionality Reduction Techniques, Linear Regression Using Python, Instance based learning - KNN Learning, Case study for Machine Learning using Python, etc.

The programme is open to faculty members of TEQIP institutions, AICTE approved engineering colleges, polytechnics, research scholars, and industrial professionals.

Registration Details

Interested applicants are requested to fill online registration form. Selection will be done in first come first serve basis and it will be limited to 100 participants.

Registration fee : **Free**
Last date for registration : **13-06-2020**
Confirmation of registration : **14-06-2019**

Prelude

Machine Learning is the scientific study of algorithms and statistical models that computer systems use to perform a specific task without using explicit instructions, relying on patterns and inference instead. Machine Learning is effectively a method of data analysis that works by automating the process of building data models. The faculty members and research scholars are interested to upgrade their academic skills in the advances in machine learning and it's applications. In this direction, FDP on "Machine Learning based Project Architecture Design" was jointly organized by the department of ISE and E&CE from 15th to 19th June 2020 under TEQIP – III. The objective of the workshop is to provide research issues and challenges in Artificial Intelligence and Machine Learning using Python.

Objectives

The primary objectives of the FDP are:

- To enhance the knowledge about the latest technologies pertaining to Machine Learning using Python.
- To develop skills on Machine Learning using Python programming to solve the real time problems.
- To enrich the research scholars with latest trends and areas in current research environment.
- To interact with experts from different research areas on cutting-edge and ground breaking topics in machine learning.
- To promote need based technology in IT.

Participants

The FDP got a very good response from academicians and research scholars. A total of 274 participants attended the FDP of which from Iraq and one from Nepal countries, 54 were from other non-Karnataka, 200 from Karnataka and the remaining 50 were in-house participants from different departments. Attendees included research scholars and academicians from various backgrounds. The outside participants were from different engineering colleges or universities and polytechnics of Maharashtra, Haryana, Gujarat, Andhra Pradesh, Telangana, Tamilanadu, Goa, and Jharkhand.

Resource Persons

The distinguished resource persons of the FDP are as follows:

1. **Dr. S. S. Manvi,** Professor and Director, Reva University, Bengaluru
2. **Mr. Sudhanshu Kumar**, CEO and Chief AI Engineer, Ineuron Solutions, Bengaluru
3. **Mr. Yadunandan L. H.,** Data Science Engineer, Ad2pro Media Solution, Bangalore.
4. **Prof. Raghavendrachar S.,** KSIT, Bangalore
5. **Prof. S. S. Yendigeri,** Dept. of CSE, BEC, Bagalkot
6. **Dr. B. M. Reshmi,** Dept. of ISE, BEC, Bagalkot
7. **Prof. Smita Gour,** Dept. of CSE, BEC, Bagalkot
8. **Prof. V. C. Kagawade**, Dept. of MCA, BEC, Bagalkot

Inaugural Function

The inaugural function of the FDP was organized on 15th June 2020, Monday, at 9.30 am through online platform (**GoToMeeting**). The principal, **Dr. S. S. Injaganeri** presided over the event and shared his views on FDP, especially in the fast changing Machine Learning and AI. **Dr. S. G. Kambalimath**, coordinator TEQIP-III ignited on various achievements of the college under phases I, II, and III of TEQIP. Head of Department of Information Science and Engineering, **Dr. S. R. Patil** welcomed the gathering. **Prof. R. B. Math**, Department of Information Science and Engineering, welcomed the principal and proposed vote of thanks.

The program has two sessions per day, each of the sessions was followed by an interactive question–answer and also hands on experience sessions, where the participants could clarify their doubts.

Day 1, 15th June 2020, Monday

The inaugural was followed by a keynote talk on "Artificial Intelligence and Machine Learning" by **Dr. Sunilkumar S. Manvi**, Professor and Director, REVA University, Bengaluru. In this session, Sir dealt with artificial intelligence overview, AI adoption, AI in daily life, benefits of AI applications, and machine learning algorithms. Also, he discussed research opportunities in AI and ML.

It was followed by talk on "The importance of Data Science and AI" by **Mr. Sudhansu Kumar,** CEO and Chief AI Engineer, Ineuron Solutions, Bengaluru. He emphasized the

importance of data and the use of AI in industry. Also, he has discussed projects, products, and architectures.

The post lunch session was handled by **Mr. Virat Sagar**, Senior Data Scientist, Ineuron Solutions, Bengaluru, who highlighted the smart motor insurance claims using AI and ML.

Day 2, 16th June 2020, Tuesday

Day 2 began with a talk by **Prof. Raghavendrachar S.,** Assistant Professor, KSIT, Bangalore, who discussed various concepts of Python programming like variables, expressions, functions, iterations, etc., The post lunch session was handled by **Mr. Yadunandan L. H,** Data Science Engineer, Ad2pro Media Solution, Bangalore, who highlighted the Python for data analysis/data wrangling.

Day 3, 17th June 2020, Wednesday

On day three **Mr. Yadunandan L. H,** presented a talk on Python for data visualization. He discussed various aspects related to data visualization using python programming. Also, he underlined the various data visualization libraries in Python, namely Matplotlib, Numpy, Pandas, sklearn, etc. The second session was on the topic "Linear Regression Using Python", by **Dr. B. M. Reshmi**, Associate Professor, Dept. of ISE, Basaveshwar Engineering College(A), Bagalkot. She covered the overview of Linear Regression by taking the numerical example. Also, she has discussed with the case study of Boston Housing dataset for predicting the value of prices of the house using Python programming.

Day 4, 18th June 2020, Thursday

The session for the fourth day covered the introduction of dimensionality reduction (DR) technique, DR Categories, non-linear DR, etc., by **Prof. Smita Gour**, Assistant Professor, Basaveshwar Engineering College, Bagalkot. The last session for the day was engaged by **Prof. S. S. Yendigeri,** Associate Professor, Dept. of CSE, Basaveshwar Engineering College, Bagalkot. She discussed various concepts of instance based learning like K-Nearest Neighbour, K-NN using Python and Scikit-Learn, and An Application of K-NN.

Day 5, 19th June 2020, Friday

The last day began with a session by **Prof. Raghavendrachar S.,** Assistant Professor, KSIT, Bangaluru. He discussed the case study various concepts of machine learning such as regression, classification, random forest algorithm and it's applications, etc. The post lunch session was handled by **Prof. V. C. Kagawade**, Assistant Professor, Dept. of Master of Computer Application, Basaveshwar Engineering College, Bagalkot. He emphasized the case study for the classification of fruits and titanic data sets. Apart from these, also he

discussed the python as a driver for data science concepts like pandas, Numpy, Matplotlib, Seaborn, and Gmplot. This was followed by a talk on "Machine Learning and It's Applications" by **Dr. Sunilkumar S. Manvi**, Professor and Director, REVA University, Bengaluru.

Outcomes

The topics of the FDP were great benefit for the participants as topics match with the research areas. From the feedback of participants, the FDP was successful in achieving the following outcomes.

1) Good understanding of the concepts and range of problems.
2) Realize the research issues and challenges in machine learning.
3) Explore and leverage various research opportunities and topics.
4) Able to problem solving aptitude and programming capabilities.
5) Interaction with industry persons with possible collaborations.

The programme was concluded with the valedictory function. At last, feedback taken from the participants and all the participants expressed their pleasure on talk. After this, the vote of thanks was given by Dr. L. B. Bhajantri, Associate Professor, Dept. of ISE and he acknowledged the management, Principal, TEQIP Coordinator, HODs, guest speakers, participants, and teaching and non teaching staff members for their kind effort and co-operation to conduct this programme very successfully.

Acknowledgement

We, the coordinators of the guest lecture are indebted to the management for the infrastructure and resources, Principal, Dr. S. S. Injaganeri, for extending all the support in smooth conduction of the programme. We are grateful to the authorities of TEQIP-III, Dr. S. G. Kambalimath, TEQIP-III Coordinator for extending the financial support, and Dr. P. N. Kulkarni and Dr. S. R. Patil, Head of the Department of E&CE and ISE respectively, for encouraging the participation and organization of the event. We finally thank all those who supported and helped us directly or indirectly.

Coordinators

Dr. A. V. Sutagundar

Dr. L. B. Bhajantri

Organized by Departments of Information Science & Engineering and Electronics & Communication Engineering

B.V.V.Sangha's

Basaveshwar Engineering College (A), Bagalkot, Karnataka, India

TEQIP-III

Certificate of Participation

This is to certify that

Vilas H.Naik

of BEC Bagalkot

has participated National Level One-Week Faculty Development Programme on ***"Machine Learning Based Project Architecture Design"***, under TEQIP-III, held from 15th to 19th June 2020.

Dr. S. G. Kambalimath
TEQIP-III, Coordinator

Dr. S. S. Injaganeri
Principal

6. International Webinar on Electric Vehicle-Design, Development and Testing

Report
Of

International Webinar
On

Electric Vehicle – Design, Development and Testing

(4th July 2020)

Under TEQIP –III

Organized by: Dr Raghuram L Naik, Department of Electrical and Electronics Engineering

Name of the Institution: Basaveshwar Engineering College (Autonomous), Bagalkot

Project Sub-component: 1.2
Category of the Institution: Govt. Aided

Sl.No	Content
1	Program Schedule
2	Profile of the Speaker
3	Registration of Participants
4	Banner
5	Certificate
6	Feed back
7	Presentations
8	Outcome of Webinar

1. Program Schedule

Time / Day	10.00-10.30 am	10.30 am -12.15 pm
04-07-2020	Inauguration	Session on Electric Vehicle : Design, Development and Testing

2. Profile of Speaker

- Dr. B. Chandra Sekhar currently working as Technical Lead in Automotive Business Division at TATA Consultancy Services Limited (TCS), Bangalore. In TCS, he his handling team of 10 people for design, development, verification & validation of TATA group owned Jaguar Land Rover (JLR) Electric Vehicles (EV). Prior to joining TCS, he worked as a Senior Research Fellow at Energy Efficiency and Renewable Energy Division, Central Power Research Institute (CPRI), Bangalore. Subsequently he worked as a R&D Engineer in Solar Division at ABB Group Inc. Bangalore. (Formerly known as Power One Micro Systems Pvt. Ltd.)
- He received his Ph.D degree in Electrical Engineering from CPRI Research Centre, Bangalore, Karnataka.
- He is a Professional Member in IEEE (94812129) as well as member in Society of Automotive Engineers (SAE). He is Board of Studies (BoS) committee member for New Horizon College of Engineering (NHCE), Bengaluru, SJB Institute of Technology, Bengaluru, NBKR Institute of Technology, Nellore, AP and Global Academy of Technology, Bengaluru.
- He has been filed a Two patents on the power electronic converters. He has published over 21 papers in peer reviewed journals & conferences (International journals (04), International conferences (08), National journal (07) and National conferences (02)).
- His research areas are Hybrid Electric Vehicles, EV chargers, Battery Management Systems (BMS), Power Electronics Converters, DC micro grids, LED drivers and Hybrid Renewable Energy Systems.

About the Institution

Basaveshwar Engineering College was started in the year 1963. At present, it offers degree programs in ten disciplines and seven post graduate programs including MBA. Eight departments of the college have been recognized as Research Centers by VTU. Also, five departments are recognized as QIP Centers for Ph.D. programs by AICTE, New Delhi. The college was granted autonomous status by VTU and UGC in the year 2007. Since then the college has introduced academic reforms by restructuring the curriculum keeping in view the technological developments and needs of the industry. College campus is located on a beautifully elevated stretch of land over 93.18 acres on the outskirts of the city and is adjoining to New Bagalkot town. All Ten UG and five PG programmes are accredited by NBA. The college is also accredited by NAAC with 'A' grade. The college was entitled for grants of over Rs. 38.52 Crores, under TEQIP. The college is awarded QS-IGuage E-LEAD Certification, June 2020. As per NIRF, MHRD, GoI, the college has been placed in the rank band of 201-250 for the academic year 2020-21.

IQAC is constituted in Basaveshwar Engineering College (Autonomous), Bagalkot, to ensure quality in Academic and administrative processes.

The objectives of IQAC are:

- To develop a system for conscious, consistent and catalytic action to improve the academic and administrative performance of the institution.
- To promote measures for institutional functioning towards quality enhancement through internalization of quality culture and institutionalization of best practices

About the Department

Electronics and Instrumentation Engineering (E&IE) Department was established in the year 1991. The Department offers an Under Graduate program in Electronics and Instrumentation Engineering. The department faculty members are specialized in the areas of Sensor design and development, Embedded systems for process industries, MEMs, and Computer networks.

About the Programme

Quality plays an important role in the success and failure of any organization. Organizations will not survive for long time when quality aspect is neglected. Six sigma ensures superior quality of products by removing the defects in the processes and systems. It is process of detecting and eliminating the defect in a system, so as to enhance the quality.

The objective of the workshop is to provide the recent advances in the field of quality assurance through Six sigma. This programme covers the basic topics such as significance of Six sigma in industries, overview of Six sigma, DMAIC process, tools and techniques and industry related topics such as Six sigma as a process improvement tool, applications of Six sigma in supply chain management, and few case studies.

Who can attend?

Faculty members of TEQIP institutions, AICTE approved engineering colleges, Polytechnics, Research scholars, and Industry professionals.

Five-days Online Faculty Development Programme on Six Sigma
(06-10 July, 2020)

Organized by IQAC and Department of Electronics and Instrumentation Engineering

SCHEDULE

	Session 1* (9.00 AM-10.30 AM)	Session 2* (11.00 AM -12.30 PM)
Day 1 (06.07.2020)	Why Six Sigma? Mr. Shivaprasad, Senior Faculty, HAL Management Academy, Bangalore	Overview of Six Sigma Mr. Shivaprasad, Senior Faculty, HAL Management Academy, Bangalore
Day 2 (07.07.2020)	Six Sigma Tools and Techniques Mr. Ashok Gourish, COO PMD Division, Uflex Limited, New Delhi	DMAIC Process Prof. M.M.G. Math, Professor BEC, Bagalkot
Day 3 (08.07.2020)	Application of Lean Six Sigma in Supply Chain Management Dr.R.S.Kadadevarmath, Professor, Dept. of IEM, SIT Tumkur	Six Sigma Tools and Techniques Mr. Arunkumar C K, Assistant General manager in Aequs Consumer & Heading the Quality function department
Day 4 (09.07.2020)	Data Patterns & Measurement Techniques Mr. Prashanth Kamath Flipkart, Bangalore	Data Patterns & Measurement Techniques Mr. Prashanth Kamath Flipkart, Bangalore
Day 5 (10.07.2020)	Case Studies on Six Sigma Dr. Vinod Puranik, Professor, Dept. of IPE, BEC Bagalkot	Quality and Reliability in Six Sigma Mr. Mustaq Basha, Scientist, LRDE, DRDO

(* Sessions will be conducted through Google Meet platform.)

(The live video will be streamlined through YouTube.)

Profile

Dr. Shivaprasad CG is a Mechanical Engineer with M Tech in Industrial Engineering from NIT, Calicut. He has obtained his doctorate in mechanical engineering from NITK, Surathkal. He also holds a PG Diploma in Materials Management from IIMM.

He has many professional certificates to his credit. He is a **Six Sigma Master Black Belt**. He is a **Certified Quality Engineer** and **Certified Reliability Engineer** from American Society for Quality (ASQ). International Project Management Association, has certified him as **Level C -Certified Project Manager.** He has received '**Best paper award**' from renowned quality guru **Shin Taguchi** in International Conference on Robust Quality Engineering. He has coauthored a book titled "**Applied Six Sigma with Aerospace Case Studies**"

Dr. Shivaprasad is having 26 years of industrial and consulting experience. Prior to HAL, he has worked as Chief Consultant in SAP domain and as Sr. Consultant with ABC Consultants and has helped nearly 30 companies in India and overseas in the areas of Lean Manufacturing, Six Sigma, ERP, Industrial Engineering, Production and Operations Management.

Six Sigma, Lean Manufacturing, Reliability engineering, Process excellence and Systematic Innovation (TRIZ) are his areas of interest and is passionate about converting theoretical concepts to business solutions.

ASHOK R GOURISH

Chief Operating Officer, PMD Division, Uflex Limited

Top Management Professional – Managing Director

P&L MANAGEMENT / BUSINESS OPERATIRONS / PLANT HEAD

Strategic & Solution Oriented leader, a Visionary, successful in spearheading **strategic business operations** within rapid changing environment using excellent people management & analytical skills

Executive Profile

Contact details

+91 9158881001

ashok.gourish@gmail.com

- Currently associated with **Syntegon Technology India Pvt Ltd (formerly known as Robert Bosch Packaging India Pvt. Ltd) as Managing Director ;** managing complete business value chain & responsible for India, Bangladesh, Sri Lanka, Middle East & Africa market for Food, non-food & Confectionery segments
- **Effective in high-profile executive roles**: Provided strategic vision & executive direction across various departments like **Sales, Marketing, Product Development, Supply Chain & Manufacturing, Quality, Spares & Services, Finance & Control, HR, IT, Company secretary…**

- *P & L Management*
- *Manufacturing Operations/ New Product Development*
- *Strategy development*
- *Stakeholder Management*
- *Cross-functional Coordination*
- *Team Building & Leadership*
- *Health & Safety Management*

Key Skills

- *Strong & effective Leadership*
- *Communicator*
- *Analytical*
- *Collaborator*
- *Innovator*
- *Planner*
- *Motivator*
- *Coach & Mentor*

Career Timeline

Syntegon Technology India Pvt Ltd, Goa
Robert Bosch Packaging Pvt Ltd, Goa
Managing Director – Oct '19

M & A Carve-out

Bosch Ltd, Goa
VP & Business head - Mar '09 to Sept '19

Essel Propack, Silvassa, Egypt, Mumbai
Business & Unit head Jan '04 to Mar '08

GE Medical Systems, Bangalore
Manufacturing Leader – Dec '99 to Apr '03

Sandur Laminates Limited, Sandur
Dy. Manager – May '94 to Mar '99

SRS Industries, Bangalore
Engineer - Feb '92 to May '94

RESUME

PERSONAL DETAILS

Name	-	**MAHANTESH** M. GANGANAHALLIMATH
Date of Birth	-	22nd July 1967
Married to	-	- Roopa Math, Faculty, ISE Dept., BEC Bagalkot - Son, studying in IV-Year B.V.Sc at GVC Shivamoga

EDUCATIONAL QUALIFICATION

Ph D.	🕮	- VTU, Belgaum, (Registered), - Six Sigma (Quality Management)
M.Tech. (CAD/CAM)	🕮	- Motilal Nehru National Institute of Technology (MNNIT) - Deemed university, ALLAHABAD. (U.P.) - Passed out in **2003**
B.E. (Mech)	🕮	- BLDEA's College of Engineering & Technology, BIJAPUR – 586 103, - Karnataka University Dharwad - Passed out in **1991**
P.U. (10+2)	🕮	- S B Arts & K C P Sc. College, BIJAPUR - 586 103 - Pre University Education Board, Bangalore - Passed out in **1985**
S S E (X)	🕮	- Sainik School BIJAPUR - 586 102 - Central Board of Secondary Education, New Delhi - Passed out in **1983**

- **Six Sigma : Green Belt** from Indian Statistical Instititute (ISI), Bangalore
- **Six Sigma : Black Belt** from Indian Statistical Instititute (ISI), Bangalore
- **Design For Six Sigma (DFSS):** from Indian Statistical Instititute (ISI), Bangalore

PROFESSIONAL EXPERIENCE

Organization	🕒	**BVV's Basaveshwar Engineering College, BAGALKOT-587102,** (From **Sep 2010 to Till Date**)
Designation		✧ Associate Professor, Mechanical Engineering Department.
Organization	🕒	**BLDEA's College of Engineering & Technology, Bijapur-586103,** (From **Aug 2007 to Sep 2010**)
Designation		✧ Assistant Professor, Mechanical Engineering Department. ✧ Co-coordinator, Industry Institute Interaction Cell-Mechanical sciences (IIIC-MS)
Organization	🕒	**SJPNT's Hirasugar Institute of Technology, Nidasoshi–591236,** (From **Sep 2003 to Aug 2007**)
Designation		Sr. Lecturer, Mechanical Engineering Department, Training & Placement Officer , Coordinator, Entrepreneurship Development Cell
Organization	🕘	**Kalyani Forge Ltd. Koregaon (Bhima) PUNE-411014,** **(From** Jan 1995 to July 2003)
		ISO-14000 and Q.S.-9000 certified Company and leading manufacturers of precision forgings in small weight range (Kalyani Group).
Designation	-	Assistant Manager (Design)
Organization	🕘	**Task Metrology Systems Pvt Ltd. PUNE – 411 036, Maharastra**
		Manufacturers & Marketers of Computerized Measuring systems.
Designation	-	Sr. Executive - Sales & Marketing Period: **Sep 1992 to Dec 1994**
Organization	🕘	**Fabtech Engineers, J-Block, Bhosari MIDC, PUNE– 411 026, Maharastra**
Designation	-	Engineer - Vendor Development Period: **May 1991 - Sep 1992**

Membership in Societies/Bodies:

	I S T E	Life Member	Indian Society for Technical Education
	I S E	Life Member	Indian Society of Ergonomics
	I I I E	Life Member	Indian Institution of industrial Engineering
	I S I	Ordinary Member	Indian Statistical Institute

Curriculum Vitae

Dr . RAJESHWAR .S.KADADEVARAMATH

ACADEMIC BACKGROUND : Did his Masters in PRODUCTION MANAGEMENT Karnataka University Dharwad , and obtained Ph.D from PSG Tech Coimbattore Anna University in Dec 2008 on Modelling and Analysis of Multi-echelon SUPPLY CHAIN architectures using PSO algorithms.

Presently working as Professor & Former Head in The Department Of Industrial Engineering And Management and he is in Siddaganga Institute Of Tumkur , Karnataka State India since 1987.

PRIMARY AREAS AND INTERESTS OF RESEARCH are in Supply chain management-mathematical designing, modeling and analysis, application of new heuristics like particle swarm algorithms and genetic algorithms, Decision Making and Decision Support systems ; Revenue Management.

Presently working as

- Editor , International Journal of Business and Systems Research (IJBSR)Scopus indexed (Elsevier), Inderscience publisher, Switzerland.
- Editorial Board Member, International Journal of Revenue Management (IJRM), Scopus indexed (Elsevier), Inderscience publisher, Switzerland.
- Editorial Board Member, Journal of Industrial Engineering and Management (International) OMICS Publishing Group 5716 Corsa Ave, Suite 110,Westlake, Los Angeles, USA

Book and research papers Publications:

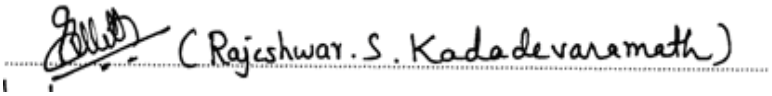
- Published Book on Practical Application of PSO in Supply Chain Network Optimization , Lap Lambert Academic Publishing, Germany &
- Published 6 Special Issues Lead Guest Editor in International Journal of Business and Systems Research (IJBSR)Scopus indexed (Elsevier), Inderscience publisher, Switzerland.
- Published 52 research papers international refereed journals(Scopus indexed)
- Published 105 Papers in research papers in national and international conferences
- Invited by New York university USA to participate as chair person in international editorial meet in International Conference on Applied Business and Economics (ICABE), on 2nd - 4th October, 2013.
- Presented paper in International Conference on Applied Business and Economics Newyork university, NEWYORK, USA on 2nd - 4th October, 2013.
- Attended 60 short term training programmes

- Outstanding international Faculty Award (Industrial Engg. & Management) - Venus International Foundation-Faculty awards VIFFA 2015
- Appreciation Award-2013 Indian Institute of Industrial Engineering (IIIE) Chapter Bangalore
- He acted as organizing committee member /technical programme committee member for

international conferences Organised by various Universities in India, USA and China

RESEARCH COLLABORATION OUTSIDE THE WORLD SINCE 2008 :

Prof. Jason C H Chen / Gonzaga University School of Business Management USA
Prof. Immanuel Edinbarough / The University of Texas at Brownsville and Texas Southmost College, USA
Prof. Navneet Vidyarthi / Concordia University John Molson School of Business, CANADA
Professor Dr. Erween Abd Rahim ,Precision Machining Research Center (PREMACH) Faculty of Mechanical and Manufacturing Engineering ,University Tun Hussein Onn Malaysia
Dr.Chen, Shiou-Yu (Sherry). Professor Department of Shipping & Transportation Management National Taiwan Ocean University, Taiwan.
Dr. Sunday Ayoola OKE,Professor, Room 10, Mezzanine Complex Department of Mechanical Engineering, Faculty of Engineering,University of Lagos, Akoka-Yaba, Lagos. Nigeria



RAJESHWAR .S.KADADEVARAMATH
(Asso Editor IJBSR,Ed.Member IJRM Inderscience, Ed.Member JIEM,OMICS PUB USA)
Professor (Former Head)& Coordinator-MTech (CIM) & Research Center-Ind Engg & Mgt
Department Of Industrial Engineering And Management
Siddaganga Institute Of Technology
(An Autonomous Institute , Affiliated to Vishweswaraya Technological University) ,
Tumkur - 572103, Karnataka State India
****

Arunkumar Candade

- Currently working as Assistant General manager in Aequs Consumer & heading the Quality function department (*Wish to keep it confidential, not to declare my role and company as i have not taken permission with concerned from my company and participating on my own)*

- **Accomplished professional with 29+ years of progressive experience** and proven record of significant, successful contribution as Quality Head in cl**ient relationship management**, Compliance to Quality, Environment system and toy safety standard requirement, program management, Process governance as Plant quality Expert, people management, and Delivery Management

- Worked in highly progressive and renowned companies in Automotive, Electronics and IT Service Industries. and education institution such as,
    - Automotive component Manufacturing companies such as Shriram piston & Rings for Piston manufacturing and Sundram clayton (TVS Motors) for cylinder head manufacturing for four stroke engines.
    - Electronic Industries such as TE Connectivity (TYCO Electronics) for supplying cable assembly to Aerospace Industry and Commercial requirements, & components for power transmission lines.
    - IT Services companies such as IHS-Markit and Enventure, providing data services which generate high value by providing critical information in business decisions for Oil & Gas, Aerospace, Technology, Automotive and financial data support services.
    - Worked as Lecturer in mechanical Engineering Department of Shri Jayachamarajendra College of Engineering, Mysore

- Engineering Graduate in Mechanical Engineering and Experienced business process Excellence with certified Green belt for Six-Sigma, Lead auditor for ISO:9001:2015, ISO:27001:2005

Heading Quality Initiatives for HR at Flipkart
Bengaluru, Karnataka, India

Summary

15 years of rich experience with the BPO / KPO industry -

•Demonstrated abilities in cementing healthy relationship with the corporate clients for generating business and accomplishing business and corporate goals.

•Proficiency in handling systems/procedures for change management in operations entailing:
Mapping processes, studying requirements, designing, implementing & transitioning.
Customizing processes, solutions, and products in line with the guidelines specified by partners.
Ensuring business functionality adherence and enhancement of competitive advantage.

•Track record of successfully planning and executing complex transitions.

•Strong business acumen & comprehensive experience in creating business development procedures, service standards, operational policies & guidelines.

Specialties: • Lean implementation, six sigma, continuous improvement, Process transitions, Operations management, Resource budgeting, Process training, balance scorecard, MIS, KPI implementation, Process governance & audits

Experience

Flipkart
Heading Quality for HR
September 2019 - Present (11 months)
Bengaluru Area, India

Akamai Technologies

Senior Process Improvement Analyst II - Corporate IT Services

August 2015 - September 2019 (4 years 2 months)

Bengaluru Area, India

. Lead Cross Functional IT Program for Finance systems to deliver efficient end user applications.

. Drive Projects Prioritization along with Stakeholders for Efficient Project Pipeline Management.

. Executed Invoicing Bulletproofing Project to improve performance of Invoicing Processes/Systems.

. Implemented Agile Practices across multiple Projects for superior Execution.

. Delivered ‘Basics of Lean’ training program for IT team to induce Culture of Process Improvement.

Target

7 years 5 months

Consultant Strategy & Process

April 2011 - August 2015 (4 years 5 months)

Bangalore

•Expertise in lean and six sigma tools & methodologies in terms of developing customized solutions for business problems.

•Experience in conducting training programs on DMAIC, RCA, VSM, process mapping etc.

•Experience in mentoring and guiding yellow/green belt projects to manage quality, improve process efficiency and control variance.

•Responsible for identifying expansion of current services and in identifying additional service opportunities for existing/new teams in conjunction with their current capabilities.

•Hands on experience in transition planning and execution, periodic business reviews with business partners for identifying potential growth opportunities.

•Exposure to Resource budgeting, deployment & career planning for high ROI team members.

•Led efforts in terms of understanding Partner business models, operational processes related to channel management, business operations and related

decision making, engagement with partners within the organization, ensuring flawless delivery, driving internal automation and process optimization.

•Development of an in-depth understanding of business processes around forecasting, planning, pricing, and other processes that rely heavily on channel sales and inventory data.

Assistant Manager Merchandising Operations
April 2008 - March 2011 (3 years)
Bangalore

Part of the team who set up the Operations, and then moved in full time to manage & expand the projects and process scope.

Roles and responsibilities:

Formed a team of 20 team members that is responsible for Data Management, Transaction Processing, Operations and Reporting.
Key responsibility includes business development, client business support, client management, process transition, operations management, and continuous improvement through developing appropriate tools.
Ensure effective recruiting, head count management, relationship management, resource allocation as per the requirements of the business.

Deutsche Bank
Team Manager, Bilateral Loan Operations
October 2006 - April 2008 (1 year 7 months)
Bangalore

Managed a team of 10 executives performing following functions for North America:

Loan Operations & servicing - Servicing the bilats & syndicated loans for activities and liaising with credit, front office, clients & treasury.

Trading Operations - Accountable for affirmation / confirmation, closing the trades, execution of trade documents, system update, settlement and brokerage payment. Liaising with Trade Desk, Traders, Back Office Operations, Clients and Brokers.

Trade Finance - Providing limits to the clients, splitting the facility, managing LC facilities.

Role & Responsibilities:

Deliverable Management: Monitoring production and quality as per SLAs and works towards resolutions of controllable errors and delays through appropriate quality management procedures.
Client & Business partner relationship: Identifying improvement areas & implementing measures to maximize customer satisfaction levels. Ensuring continuous interaction with the customer.

Process Enhancement: Monitoring the overall functioning of processes and identifying improvement areas. Mapping business requirements and coordinating in developing and implementing processes.

Metrics Management: Preparing & presenting various metrics for weekly / monthly MIS reports pertaining to process / productivity / CSAT.

People Management: People initiatives implemented Career graph, Communication Calendar, Mentoring circle, Mobility, Fun & learn programs, Skips & Super skips with teams.

Risk & Control: Set up Control team, Controls put in place to prevent Client Confidentiality issues, and Deep dive in processes on yearly basis. Had stretch assignment on Controls across all IB functions and submitted the projects with suggestions which has been implemented.

Ocwen Financial Solutions Pvt. Ltd. - APAC
Floor Leader, Mortgage Fulfillment Operations
January 2005 - October 2006 (1 year 10 months)
Bangalore

As a floor leader, primarily responsible for knowledge transfer, content development and domain specific training on lending policies and practices followed by 200 plus US mortgage lenders in secondary market thus contributing in seamless production of over 50,000 loans in secondary market with a portfolio size of over 5 billion USD.

Role & responsibilities:

Successful Transitioning 3 processes involved in performing end to end mortgage due diligence.

Developed training manuals and best methods for seamless execution and provide superior client satisfaction.

Performed “process normalization” for more than 200 lenders in order to improve process efficiency which contributed to Expansion of scale of operations by 100% from 2500 loans per month to 5000 loans per month.

Created “quick reference guide” for unique loan products like Prime, Subprime, ARM, HELOC etc provided by 200 plus lenders and thus helped analysts in achieving greater accuracy and productivity.

Infosys BPO

Process Executive, Infosys BPO (formerly known as Progeon)
March 2004 - December 2004 (10 months)
Bangalore

Process executive, Loan Operations, Green-Point Mortgage Services

Education

Symbiosis Center For Distance Learning

PGDBA, Finance

Sri Bhuvanendra College

Graduation, Commerce

Madurai Kamaraj University

M.com, Finance

UGC

NET qualified, Business Administration and Management, General

Resume

Name	:	**Dr. Vinod S. Puranik**
Designation, Department & Affiliated Institution		Professor, and Head Department of Industrial and Production Engineering, Basaveshwar Engineering College, Bagalkot - 587 102
Research Area		Management Techniques, Industrial Engineering , Energy Management , Total quality management, Scheduling and Additive Manufacturing
e-mail ID		vinodpuranik36@gmail.com

a. Academic profile:

Qualifications:

Qualifications	Specialization	Institute	Year
Ph.D.	Energy Management Studies	PSG College of Technology, Coimbatore	2003
M.E	Industrial Engineering	PSG College of Technology, Coimbatore	1990
B.E.	Mechanical Engineering	BEC, Bagalkot.	1984

b. Teaching:

S No.		From	To	Designated Position held
1	Basaveshwar Engineering College Bagalkot in Mechanical Engineering Department	1985	1987	Lecturer
2	Basaveshwar Engineering College Bagalkot in Department of Industrial and Production Engineering	1987	1993	Lecturer
3	---------Do-------	1993	2003	Assistant Professor
4	---------Do-------	2003	Till today	Professor
6	---------Do-------	2009	2015	HOD Management Studies
	---------Do-------	2018	Till today	Professor and HOD
Total teaching experience 35Years				

c. Administrative Responsibilities:

Sl. No.	Nature of work	Worked for	Year
1	Professor and Head, Department of Industrial and Production Engineering,	B E C Bagalkot.	2018-till today
2	Coordinator Examination Section	-do-	2007-2009
3	College Coordinator Strategic Management	--do	2003-06
4	Member Secretary Academic Council	B E C Bagalkot.	2008-2015
5	HOD Management Studies	B E C Bagalkot.	2009-2015
6	BOS Member	VTU	2019 till today
7	LIC Committee member	VTU	2020

d. Publications:

Total Number of Papers Published in National and International Journals= 54

Research Students Details:

No. of M.Tech Projects guided: **10**

No. of Ph.D.' s completed: **06**

No of Ph.D candidates currently working**: 06**

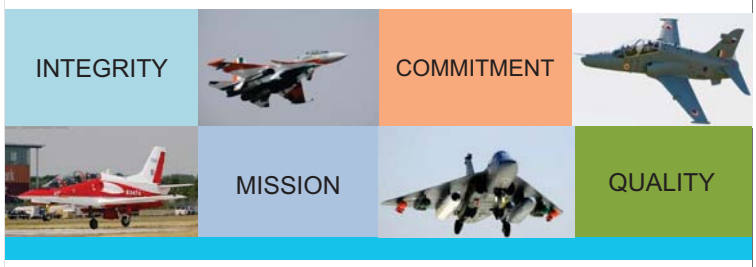
MUSTAQ BASHA received his B.E Degree in Mechanical Engineering from Vijayanagar College of Engineering (Gulbarga University) Bellary with a Distinction.

He Joined LRDE, DRDO in June 2002 as Scientist B and posted to LRDE Lab. Initially he was in Mechanical Engineering Division looking after design and fabrication of Radar hardware structures and environmental test fixtures etc., in 2007 he got transferred to Quality and Reliability assurance group of Radar Integration Test Engineering Division (RITED) which exclusively works on Quality and reliability assurance for radar hardware, software, EMI/EMC for all the three services. He is currently holding Scientist 'E' grade (Joint Director) and also Heading RAMS (Reliability) Group of LRDE. He is the only scientist in LRDE who was successfully qualified as Certified Reliability and Quality Engineer from American Society of Quality in 2016. He has around 10 plus years of experience in this field of Quality, reliability & environmental testing. His main area of work involves Dynamic testing, Quality assurance, Quality control and RAMS analysis of the Radar system design, developed by LRDE for all the three services. He has published around 22 national and international papers in IEEE conference in the field of Quality, Reliability, Dynamic/Climatic testing, Field data acquisition, reliability demonstration and accelerated life testing.

Today he will be taking webinar on the topic "Quality and Reliability in Six Sigma".

Dr. C.G.Shivaprasad

Why Six Sigma?



SHIVAPRASAD CG
Senior Faculty
Six Sigma Master Black Belt
ASQ Certified Quality Engineer
HAL Management Academy, Bangalore

1

Guru Purnima is the day dedicated to our teachers and gurus.
My gratitude and love for all of you.

Welcome for this Faculty Development Program

- My Special Thanks to

The Principal, Faculty Members and Staff
Basaveshwar Engineering College, Bagalkot
For this opportunity to interact with you!

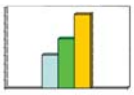
A Brief on Hindustan Aeronautics Ltd (HAL)

"Navratna" Company since 2007

20 Production & 10 R&D Centres

~ 29,000 Employees

ISO-9001, AS-9100, NADCAP Certifications

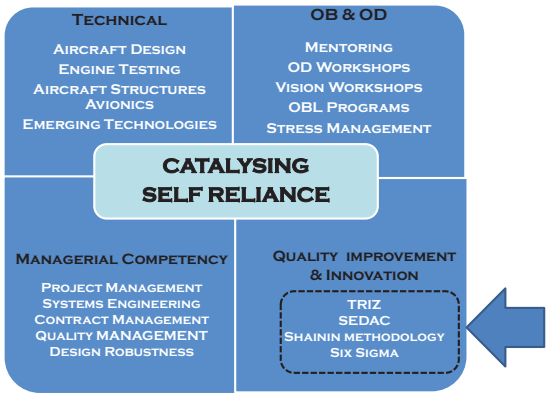


Turnover : Rs.21,100 Cr (2019-20)

Export to more than 20 Countries

4

Strategic L & D Initiatives with R & D Focus at HAL Management Academy



HAL Management Academy has opened its courses to outside world

- AICTE Approved Post Graduate Diploma Programmes

HAL Management Academy has opened its courses to outside world

- Certification Programmes
- Technical Programmes

HAL Management Academy has opened its courses to outside world

- Industry led Electives for Engineering Colleges

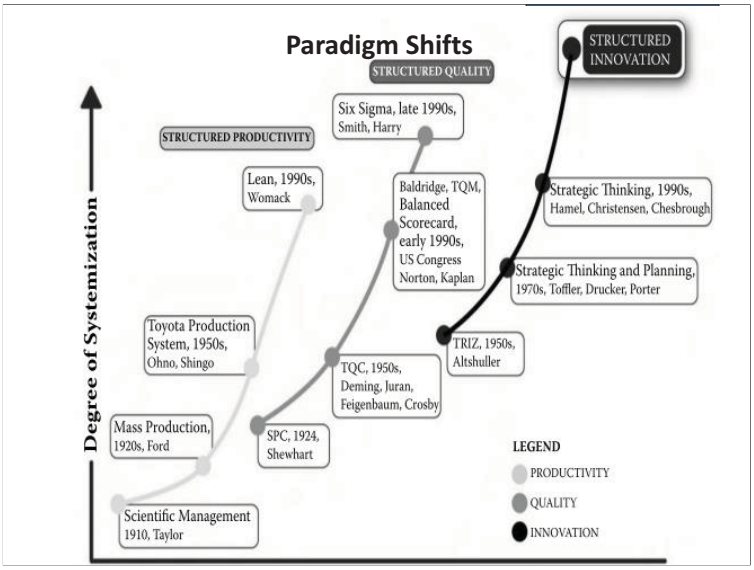
	Session 1 (9.00-10.30 AM)	Session 2 (11.00 -12.30 PM)
Day 1 (06.07.2020)	Why Six Sigma? (Dr. Shivaprasad C. G., Senior Faculty, HAL Management Academy, Bangalore)	Overview of Six Sigma (Dr. Shivaprasad C. G., Senior Faculty, HAL Management Academy, Bangalore)
Day 2 (07.07.2020)	Six Sigma-A powerful process improvement tool (Mr. Ashok R. Gourish, Business Head, Packaging Bosch India Pvt Ltd, Goa)	DMAIC Process (Prof. M.M.G. Math, Assoc. Prof, Dept. of Mechanical Engg., BEC, Bagalkot)
Day 3 (08.07.2020)	Application of Six Sigma in Supply Chain Management (Dr. R. S. Kadadevaramath, Professor & Head, Dept. of IE&M, SIT, Tumkur)	Data Patterns and Measurement System Analysis (Mr. Anilkumar C. K. Quality Head, Quest, Bangalore)
Day 4 (09.07.2020)	Six Sigma Tools and Techniques (Mr. Prashanth Kamat, Manager,People Operations, Flipkart Internet Pvt Ltd, Bangalore)	Six Sigma Tools and Techniques (Mr. Prashanth Kamat, Manager,People Operations, Flipkart Internet Pvt Ltd, Bangalore)
Day 5 (10.07.2020)	Case Studies (Dr. Vinod S. Puranik, Professor & Head, Dept. of IPE, BEC, Bagalkot)	Case Studies (Dr. Vinod S. Puranik, Professor & Head, Dept. of IPE, BEC, Bagalkot)

Session 1: Why Six Sigma?

Session 2: Overview of Sigma

Session Coverage

- Changing business environment and Changing Management Paradigms
- Productivity – Quality – Innovation Imperative
- Paradigms of Quality
- Classification of problems and approaches for solving them
- Why Six Sigma?
- Overview of Six Sigma



Pre Industrial Paradigm

- The first paradigm of quality, starts from ancient times until industrial revolution; and is best described by "caveat emptor."
- Caveat emptor is a principle; "that the buyer is responsible for checking the quality of goods he or she buys."

Paradigms of Quality

- Paradigm of "Quality" was different in different period
- Quality paradigms can be divided into 3 main categories:
  1. A pre-industrial paradigm *of caveat emptor.*
  2. An industrial paradigm *of Quality Control.*
  3. A post-industrial paradigm *of Total Quality Management*

2. Industrial Paradigm of "Quality Control"

- Industrial revolution and the factory system gave rise to increased product and process complexity and hence difficulties with the Control of Quality.

Quality Control

- The revolutionary changes in the work environment led to a new paradigm of the "Quality discipline"- Paradigm of Quality Control.
- And the responsibility for controlling quality characteristics shifted from the consumer back to the producer, and it became systematized and functionalized.

- The Quality control department eventually gave way to the Quality Assurance department, which typically had elevated status and reported directly to the Vice President of manufacturing.

Quality Control

- New procedures, quality control manuals, in house statistical trainings, quality data systems, formal problem solving approaches, measurement standards, quality audits and quality reports.
- The carrying out of these new functions became the task of the "Quality Engineer", and associated quality control department.

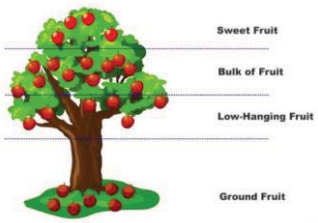
Total Quality Control

- There was also realization that the management of Quality of manufactured products require Quality Control of all functional areas of the organization.
- This gave Concept of "Total Quality Control" or TQC i.e., "QUALITY IS EVERYBODY`S JOB IN A BUSSINESS"

Quality is…….

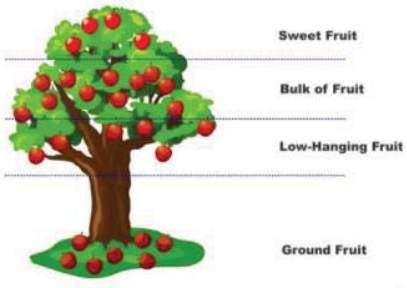
- Meeting Specifications
- Fitness for intended use.
- Meeting or exceeding customer expectations

Ground Fruits

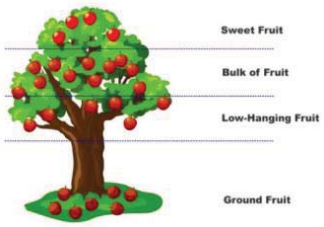


Known causes – Known Solutions – Action required

Levels of Problems

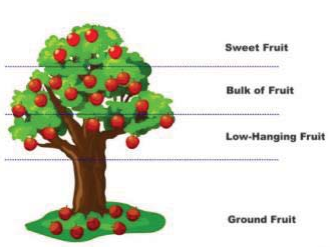


Low Hanging Fruits



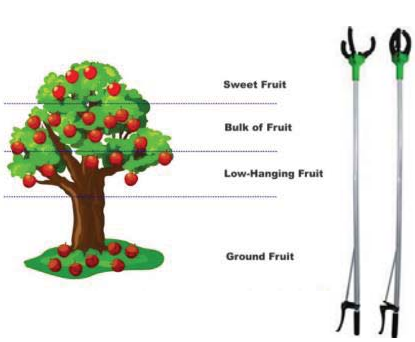
Known causes – Known Solutions –Effort required

Bulk of Fruits



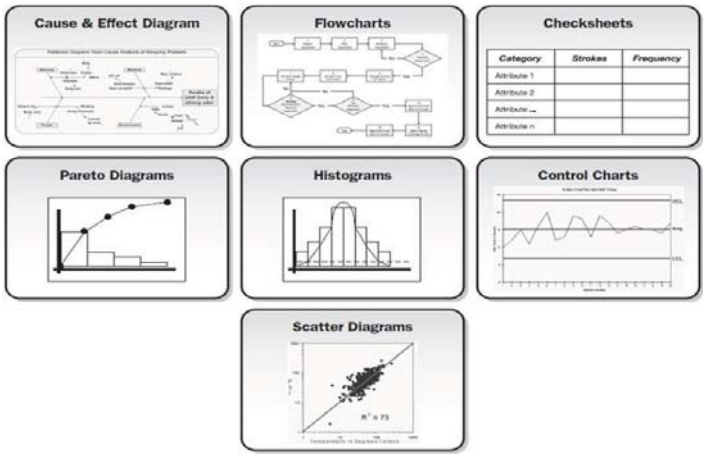
Systematic identification of causes & Solutions –Team Effort

High Hanging Fruits

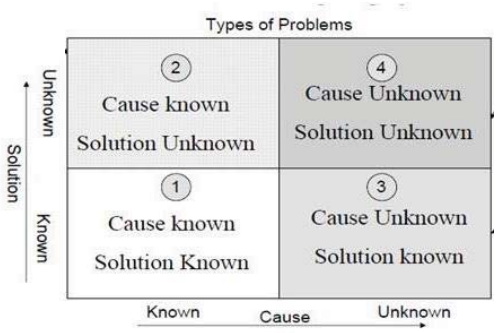


Causes are not obvious – Root cause to be identified among many probable causes
Solution known / Unknown

Basic Quality tools….

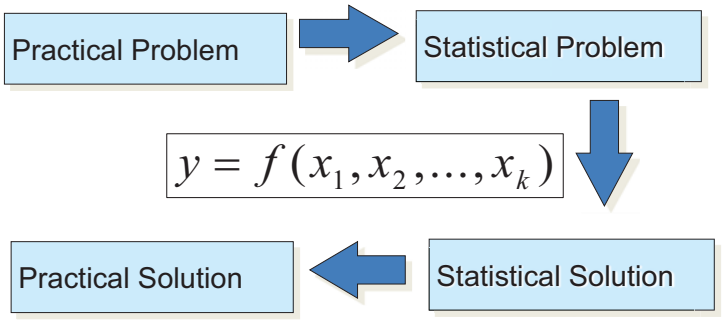


Classification of Problems



Six Sigma methodology helps us to systematically find out the root cause of the problem

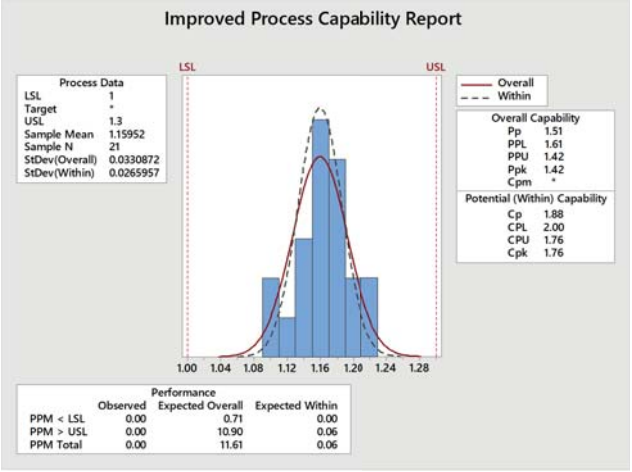
Six Sigma Case Study -1

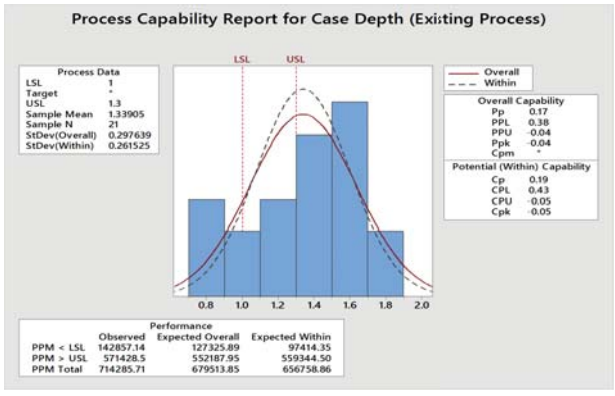


32

Six Sigma Case Study -2

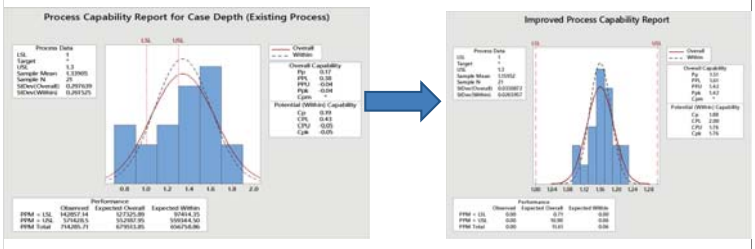
Case Carburizing Process





- Acetylene Cycle Time; Diffusion Cycle time, Carburizing Temp, Acetylene Flow Rate

Key Concept: Variability Reduction



Quality is inversely proportional to variability

This definition of **D. Montgomery** implies that if the variability in a product's **important characteristics** decreases, the quality of the product increases. Thus, **quality improvement is the reduction of variability in processes and products**

Six Sigma Methodology helps in variability reduction

Transmissions: Case Study

Example:

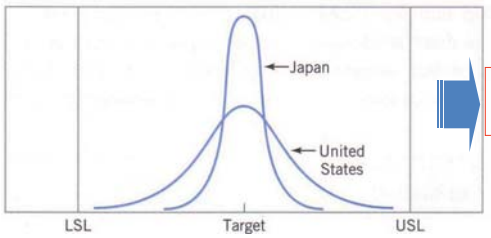
- Real case study performed in ~1980 for a US car manufacturer
- Two suppliers of transmissions (gear-box) for same car model

  Supplier 1: Japanese; Supplier 2: USA
- USA transmissions has 4x service/repair costs than Japan transmissions

Dr. Deming

"If I had to reduce my message to management to just a few words, I'd say it all has to do with reducing variation."

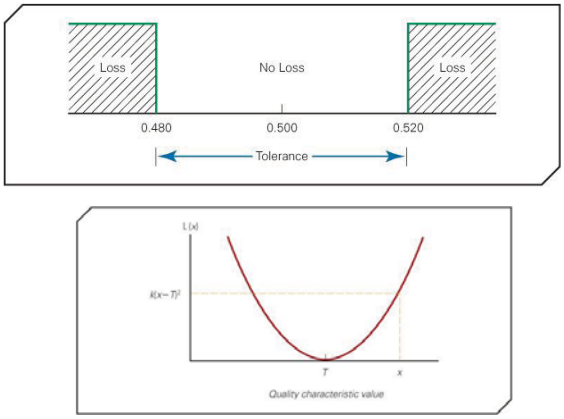
Transmission Example:
Distributions of Critical Dimensions



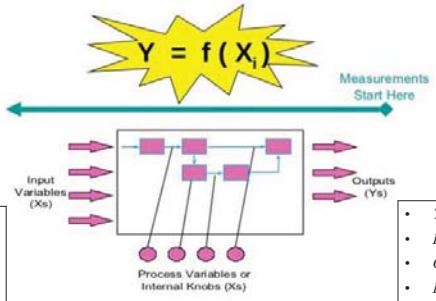
Lower variability ➔
Lower failure rate

Distribution of critical dimensions from transmissions

Taguchi Loss Function



The Focus of Six Sigma

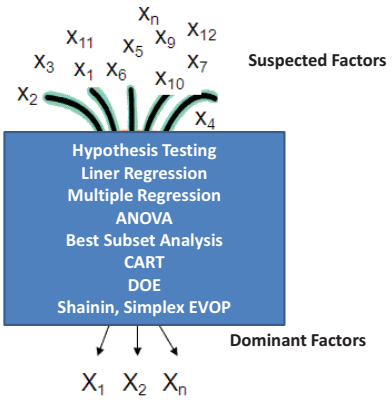


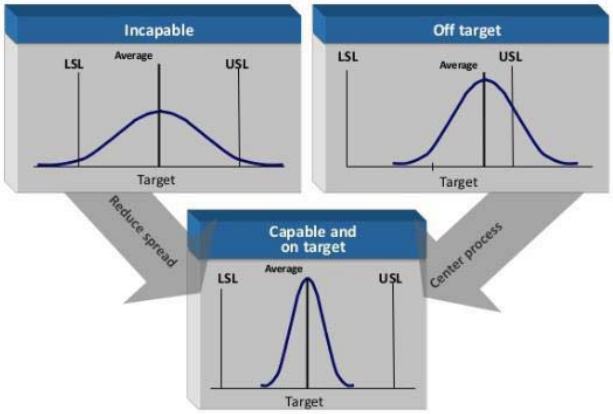
- $X_1, X_2, \ldots\ldots, X_n$
- *Independent variable*
- *Input to the process*
- *Cause*
- *Problem*
- *It is controlled*

- *Y*
- *Dependent variable*
- *Output of the process*
- *Effect*
- *Symptom*
- *It is monitored*

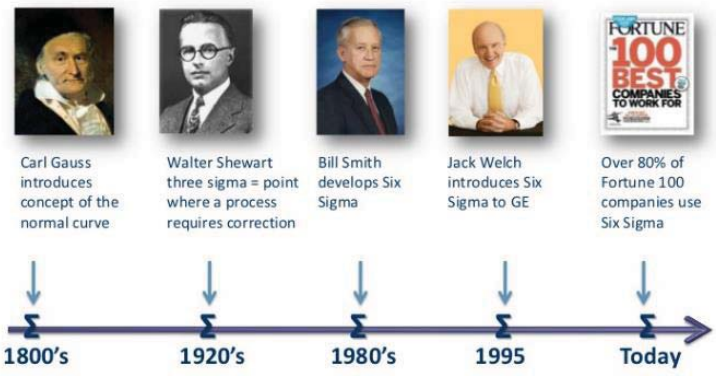
Six Sigma focuses on the measurement of Y and its relationships with the process inputs Xs to drive real improvements

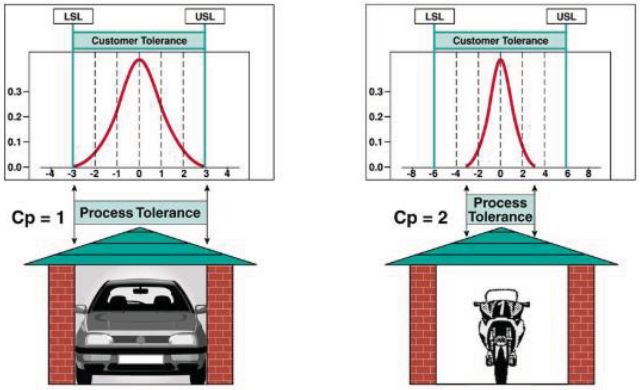
Six Sigma uses Process approach



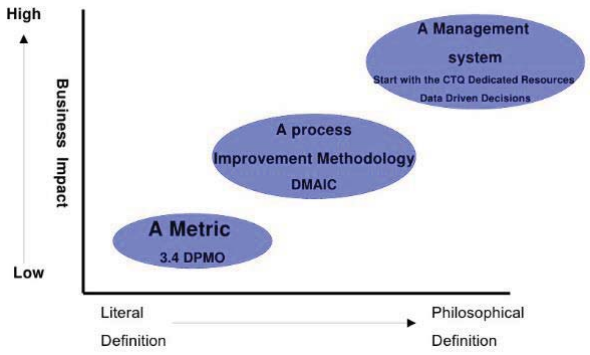


Evolution of Six Sigma

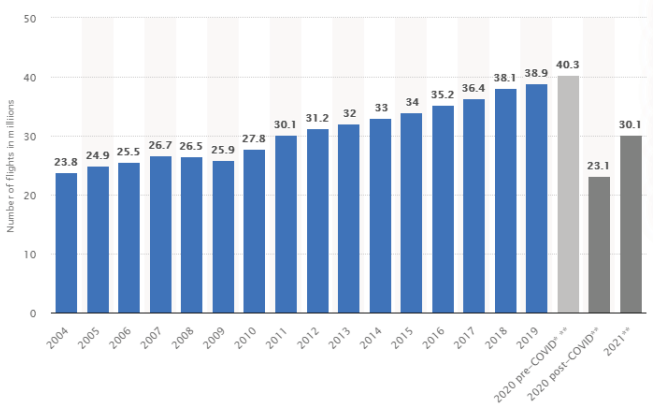




Overview of Six Sigma



Number of Flights Data



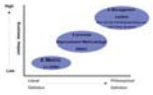
https://www.statista.com/statistics/564769/airline-industry-number-of-flights/

Six Sigma Metric

Sigma quality level	Nonconformities per million opportunities
1.5	501 350
2.0	308 770
2.5	158 687
3.0	66 811
3.5	22 750
4.0	6 210
4.5	1 350
5.0	233
5.5	32
6.0	3.4

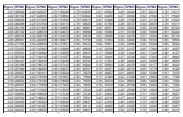
No. of Flights	Defect %	No. of Defects
400,00,000	1.000000%	4,00,000
400,00,000	0.100000%	40,000
400,00,000	0.010000%	4,000
400,00,000	0.001000%	400
400,00,000	0.000100%	40
400,00,000	0.000010%	4
400,00,000	0.0000010%	0.4

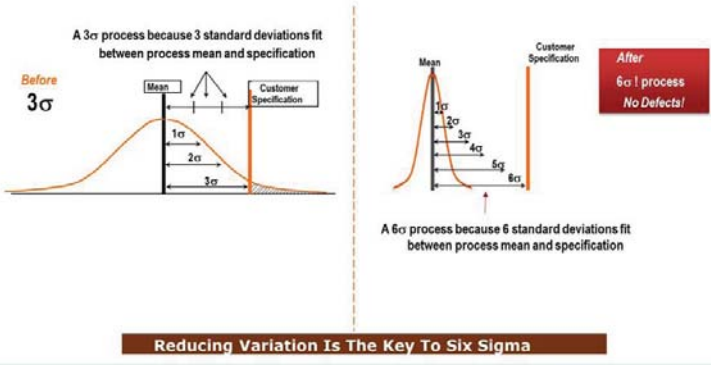
Six Sigma Metric



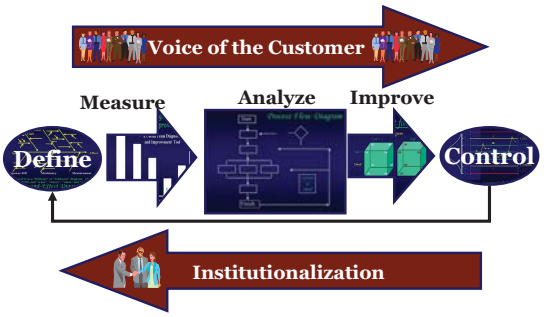
- The term “Sigma” is used to designate the distribution or spread about the mean (average) of any process or procedure
- For a business or manufacturing process, the Sigma level is a metric that indicates how well that process is performing. The higher the sigma level, the better/ sigma level measures the capability of the process to perform defect free work.
- A defect is anything that results in customer dissatisfaction.

Six Sigma Metric

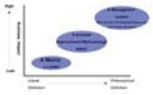




Six Sigma as a Methodology



Six Sigma: A methodology



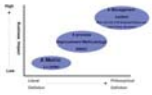
Six Sigma is a business improvement methodology that focuses an organization on:

Understanding and managing customer requirements
Aligning key business processes to achieve those requirements
Utilizing rigorous data analysis to minimize variation in those processes
Driving rapid and sustainable improvement to business processes

At the heart of the methodology is the DMAIC model for process improvement. DMAIC is commonly used by Six Sigma project teams and is an acronym for:

Define opportunity
Measure performance
Analyze opportunity
Improve performance
Control performance

Six Sigma as a Management System



- When practiced as a management system, Six Sigma is a high performance system for executing business strategy.

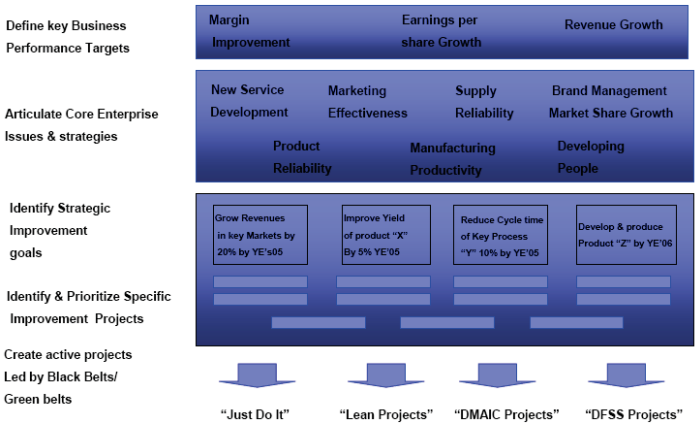
  Six Sigma is a top-down solution to help organizations:

  Align their business strategy to critical improvement efforts
  Mobilize teams to attack high impact projects
  Accelerate improved business results
  Govern efforts to ensure improvements are sustained

  The Six Sigma Management System drives clarity around the business strategy and the metrics that most reflect success with that strategy.

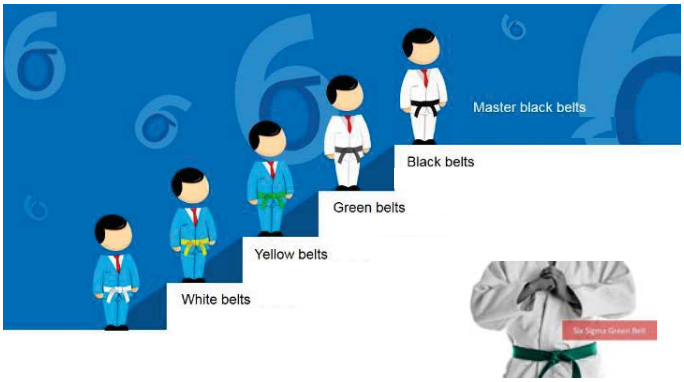
  It provides the framework to prioritize resources for projects that will improve the metrics, and it leverages leaders who will manage the efforts for rapid, sustainable, and improved business results.

Strategic Six Sigma – form strategy to action



Six Sigma Certifications

Six Sigma Certifications



Six Sigma Certifications

Students to be made industry ready by offering courses on

- Data based problem solving
- Data based decision making
- Statistical Engineering
- Six Sigma methodology

Six Sigma methodology is useful in resolving both
- Reducing quality issues and
- Improving Cycle Time

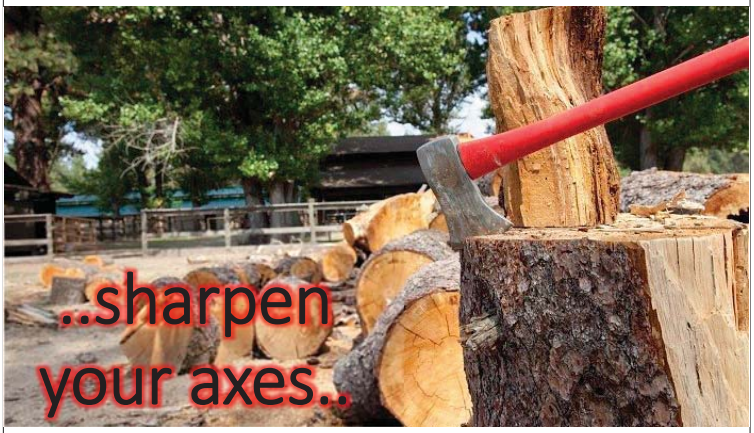
Six Sigma

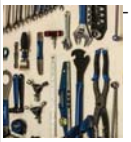
SIX SIGMA

Six Sigma

ACCELERATE



What is 6-Sigma?

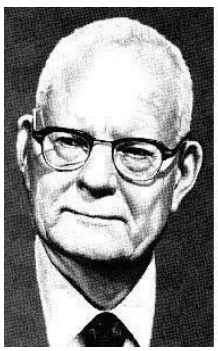


- A set tools & technics to improve Parts, Process & Product quality & capability by identifying and eliminating defects and minimizing variation in Manufacturing & Business processes
- A data driven approach based on *Measurement* of the process variation using Statistical Process Control

What is defect?

- Defect is anything that is not meeting specification/s

What is 6-Sigma?

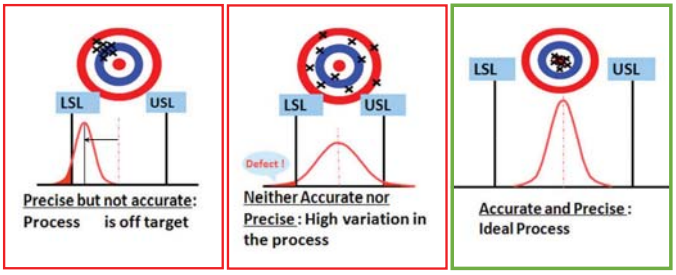


"Without data you're just another person with an opinion"

- W. Edwards Deming

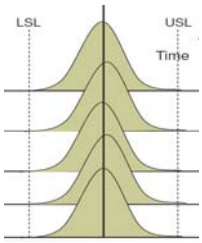
Goal of 6-Sigma?

- The goal of Six Sigma is to reduce process variation



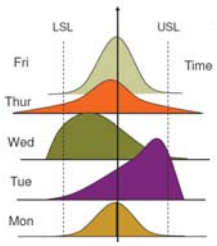
Stable & Varying process

Stable process



- Near constant Mean
- Low Variations
- Process that is centered in spec-window
- Predictable output

Un-Stable process



- Shifting Mean
- Wide variations
- Process that is not centered in spec-window
- Unpredictable output

6-Sigma : Rewards

- Increased value to the customers, shareholders & stakeholders
- Improved reliability and predictability of products, processes and services
- Significant reduction in defects
- Institutionalization of a “process” culture & mindset
- Increased competitive advantage

6-Sigma

- **Was introduced by American engineer Bill Smith while working at Motorola**

- **Jack Welch made it epicenter of business strategies at General Electric in 1995**

6-Sigma v/s Lean

Six Sigma	Lean
- Reduce Variation	- Improve flow & Stability
- Improve Process Effectiveness	- Improve System Efficiency
- Improve Yield	- Eliminate Waste
- Problem Solving Method	- Method of Operation
- Focus on Quality for Customer	- Focus on Value for Customer

VS

6-Sigma : Where to start?

- Business Transformation -> Full scale change initiative

- Strategic Improvement -> Address strategic weakness ; to build a core competency that is missing (such as VOC, or measurement systems)

- Problem Solving -> Most popular starting point. Focus on key short-term and long-term improvement projects to get maximum impact

6-Sigma : Roles & Responsibilities

- Executive Team
Provide continuous support to drive for results. Sets strategic direction, identify core business process issues, prioritize

- Champion
Identifies high impact projects by combining the strategic vision of the executive team & the key customer and process needs of the business. Facilitates successful project completion, coaches teams

- Master Black Belt
Highly skilled & experienced in all aspects of Six Sigma. Coach and mentor to Black Belts, works with Champion on project selection

- Black Belt
Project Leader. Highly trained in Six Sigma methods and tools Influencer, team facilitator, project manager

- Green Belt
Project team member. Trained in Six Sigma methods and tools

6-Sigma landscape in a typical organization

- Implementation is top-down! CEO driven with executive management and Champions (process owners) leading the initiative

- Improvement projects must be integrated with the goals of the organization

- Uses several levels of competency in Six Sigma. Implementation by Champions, Master Black Belt, Black Belt & Green Belt

6-Sigma : Defects definition

6 Sigma = 3.4 defects per million
5 Sigma = 230 defects per million
4 Sigma = 6,210 defects per million
3 Sigma = 66,800 defects per million
2 Sigma = 308,000 defects per million
1 Sigma = 690,000 defects per million

6-Sigma process defects

99% Good - 3.8 Sigma	99.99966% Good - 6 Sigma
- 20,000 lost articles of mail per hour	- Seven articles of mail lost per hour
- Unsafe drinking water for almost 15 minutes per day	- One unsafe minute every seven months
- 5,000 incorrect surgical operations per week	- 1.7 incorrect operations per week
- Two short or long landings at most major airports each day	- One short or long landing every five years
- 200,000 wrong drug prescriptions each year	- 68 wrong prescriptions each year
- No electricity for almost seven hours each month	- One hour without electricity every 34 years

DMAIC

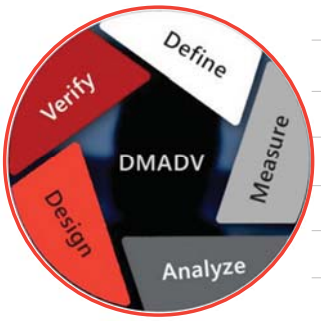
Define	Define the problem or project goal that needs to be addressed
Measure	Measure the problem and process from which it was produced
Analyze	Analyze data and process to determine root cause of defects and opportunities
Improve	Improve the process by finding solutions to fix, diminish, and prevent future problems
Control	Implement, control, and sustain the improvement solutions to keep the process on the new course

6-Sigma : Methodologies

DMAIC A methodology is used to improve an existing business process

DMADV This methodology is used to create new product designs or process designs

DMADV



Define	Define the Problem or Project Goal that needs to be addressed
Measure	Measure and determine customers' needs and specifications
Analyze	Analyze the process to meet the customer needs
Design	Design a process that will meet customers' needs
Verify	Verify the design performance and ability to meet customer needs

	Session 1 (9.00-10.30 AM)	Session 2 (11.00 -12.30 PM)
Day 1 (06.07.2020)	Why Six Sigma? (Dr. Shivaprasad C. G., Senior Faculty, HAL Management Academy, Bangalore)	Overview of Six Sigma (Dr. Shivaprasad C. G., Senior Faculty, HAL Management Academy, Bangalore)
Day 2 (07.07.2020)	Six Sigma-A powerful process improvement tool (Mr. Ashok R. Gourish, Business Head Packaging Bosch India Pvt Ltd, Goa)	DMAIC Process (Prof. M.M.G. Math, Assoc. Prof, Dept. of Mechanical Engg., BEC, Bagalkot)
Day 3 (08.07.2020)	Application of Six Sigma in Supply Chain Management (Dr. R. S. Kadadevaramath, Professor & Head, Dept. of IE&M, SIT, Tumkur)	Six Sigma Tools and Techniques (Mr. Arunkumar C. K. Quality Head, Quest, Bangalore)
Day 4 (09.07.2020)	Data Patterns and Measurement System (Mr. Prashanth Kamat, Manager,People Operations, Flipkart Internet Pvt Ltd, Bangalore)	Data Patterns and Measurement System (Mr. Prashanth Kamat, Manager,People Operations, Flipkart Internet Pvt Ltd, Bangalore)
Day 5 (10.07.2020)	Case Studies (Dr. Vinod S. Puranik, Professor & Head, Dept. of IPE, BEC, Bagalkot)	Case Studies (Dr. Vinod S. Puranik, Professor & Head, Dept. of IPE, BEC, Bagalkot)

DMAIC: is the problem-solving approach that drives Lean Six Sigma.

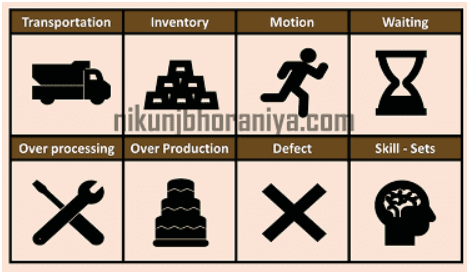
| Day 1 (06.07.2020) | Why Six Sigma? (Dr. Shivaprasad C. G., Senior Faculty, HAL Management Academy, Bangalore) | Overview of Six Sigma (Dr. Shivaprasad C. G., Senior Faculty, HAL Management Academy, Bangalore) |

It's a five-phase method:

D	Define
M	Measure
A	Analyze
I	Improve
C	Control

- It is used for improving existing process problems with unknown causes.
- It is based on the Scientific Method.

The 7 Wastes of Lean



Lean is defined as a set of management practices to improve process efficiency and effectiveness by eliminating waste .

The core principle of lean is to reduce and eliminate non-value adding activities and waste.

2. INVENTORY

Often times it is difficult to think about excess inventory as waste.

Excess inventory can be caused by over-purchasing, overproducing work in process (WIP), or producing more products than the customer needs.

Manufacturing inventory waste could include broken machines sitting around, more finished products than demanded, extra materials taking up work space, and finished products that cannot be sold.

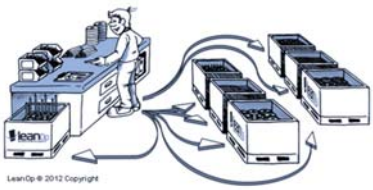
1. TRANSPORTAION

Waste in transportation includes movement of people, tools, inventory, equipment, or products further than necessary.

Excessive movement of materials can lead to product damage and defects. Additionally, excessive movement of people and equipment can lead to unnecessary work, greater wear and tear, and exhaustion.

In the factory, materials necessary for production should be easily accessible at the production location and double or triple handling of materials should be avoided.

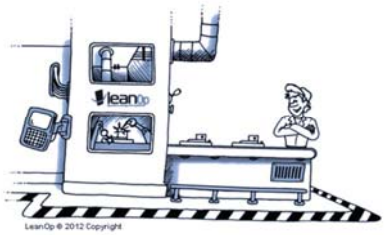
3. MOTION



The waste in motion includes any unnecessary movement of people, equipment, or machinery. This includes walking, lifting, reaching, bending, stretching, and moving.

Manufacturing motion waste can include repetitive movements that do not add value to the customer, reaching for materials, walking to get a tool or materials, and readjusting a component after it has been installed.

4. WAITING

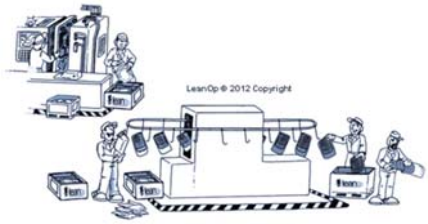


The waste of waiting includes: people waiting on material or equipment and idle equipment.

Waiting time is often caused by unevenness in the production stations and can result in excess inventory and overproduction.

Some countermeasures for waiting include: designing processes to ensure continuous flow or single piece flow, leveling out the workload by using standardized work instructions

6. OVER-PROCESSING



Over-processing refers to doing more work, adding more components, or having more steps in a product or service than what is required by the customer.

In manufacturing this could include using a higher precision equipment than necessary, using components with capacities beyond what is required, running more analysis than needed, over-engineering a solution, adjusting a component after it has already been installed, and having more functionalities in a product than needed.

5. OVER-PRODUCTION

Manufacturing overproduction involves producing more products than demanded through a 'push production system' or producing products in higher batch sizes than needed.

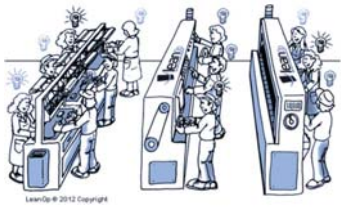
Overproduction occurs when manufacturing a product or an element of the product before it is being asked for or required. It may be tempting to produce as many products as possible when there is idle worker or equipment time.

7. DEFECTS

Defects occurs when the product is not fit for use. This typically results in either reworking or scrapping the product. Both results are wasteful as they add additional costs to the operations without delivering any value to the customer.

There are four countermeasures for defects.
1. Look for the most frequent defect and focus on it.
3. Design a process to detect abnormalities and do not pass any defective items along the production process.
3. Redesign the process so that does not lead to defects.
4. Use standardize work to ensure a consistent manufacturing process that is defect free.

8. SKILLS

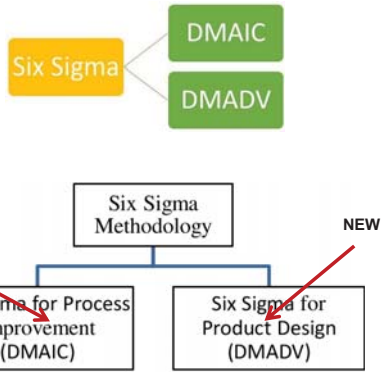


Even though it was not part of the Toyota Production System (TPS), many people are well aware of the 8th waste - the waste of human potential. The 8th waste is also described as the waste of unused human talent.

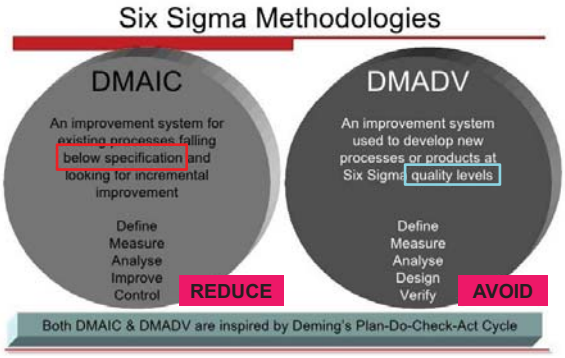
The employee's role is to simply follow orders and execute the work as planned. By not engaging the frontline worker's knowledge and expertise, it is difficult to improve processes.

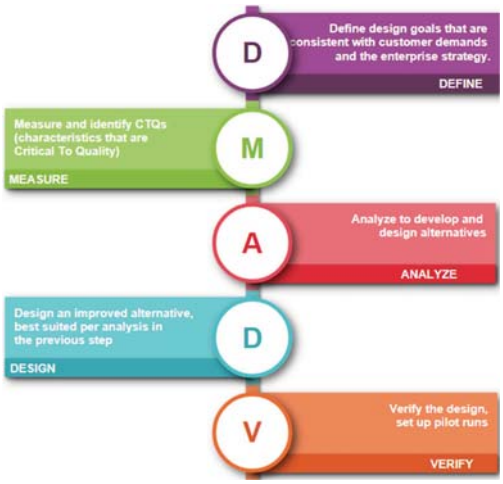
In manufacturing, this waste can be seen when employees are poorly trained, employees not knowing how to effectively operate equipment, when employees are given the wrong tool for the job

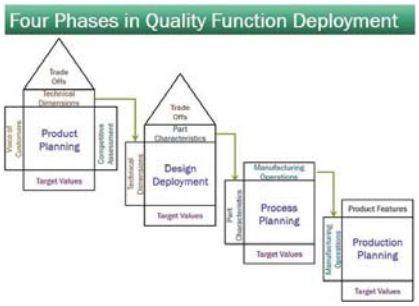
PROCESS



EXISTING PROCESS



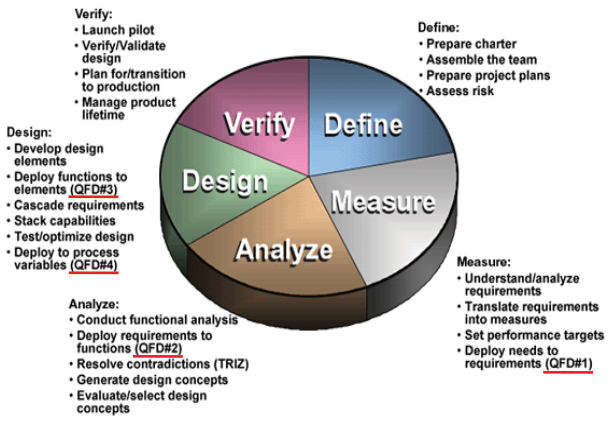


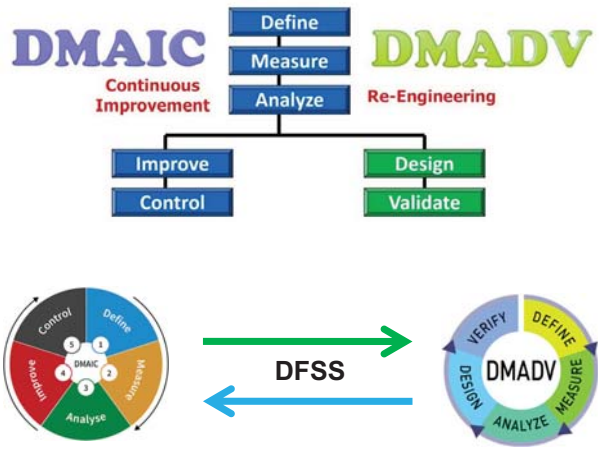


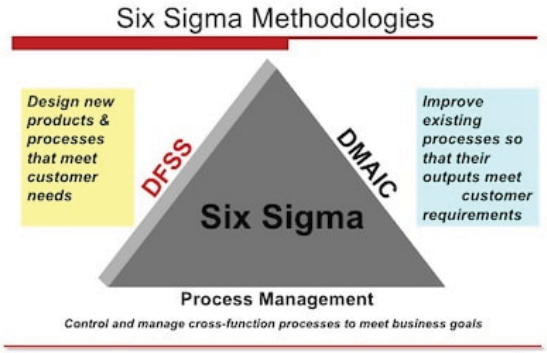
WHAT IS QUALITY FUNCTION DEPLOYMENT (QFD)

QFD is a process and set of tools used to effectively define customer requirements and convert them into detailed engineering specifications and plans to produce the products that fulfill those requirements.

QFD is used to translate customer requirements (or VOC) into measureable design targets.





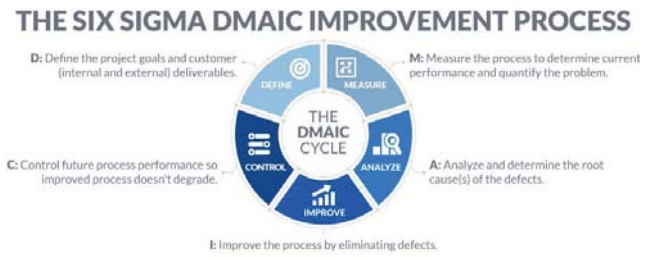


Before Starting DMAIC:

(Select a Good Project)

The focus of any process improvement, effort is in selecting the **right project**. Good candidates (Six Sigma-Green Belt, Black Belt, Lean Six Sigma, Champion...) for improvement will achieve success with DMAIC.

ONLY

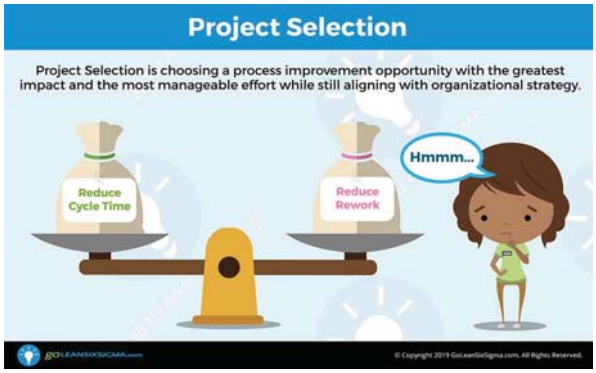


KEY GUIDELINES FOR SELECTING A PROJECT

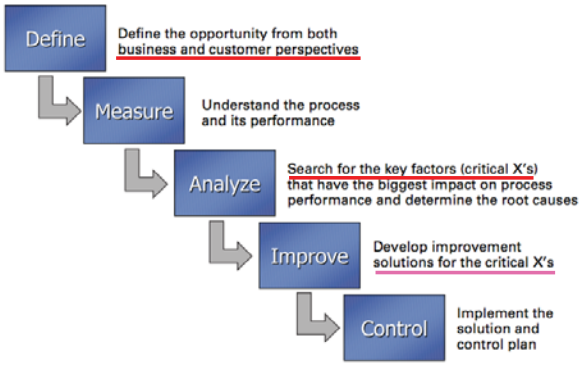
- ✓ Choose an obvious problem within an existing process
- ✓ Choose something that would make a difference but would not be overly complex to address - Meaningful but Manageable
- ✓ Make sure there is **Potential** to reduce lead time or defects while resulting in cost savings or improved productivity
- ✓ Check if you can collect data about the selected process - you want to achieve **Measurable** improvement

Once you've selected a good project, you and your team can apply DMAIC to dig into process issues and deliver quantifiable, sustainable results.

Good Project



Improve: Surface Finish, Tolerance . . . .
Reduce: Defects, Rework, Scrap . . . . .



27

ONLY

DMAIC: PROCESS

Source: https://www.slideshare.net/goleansixsigma/dmaic-the-5-phases-of-lean-six-sigma

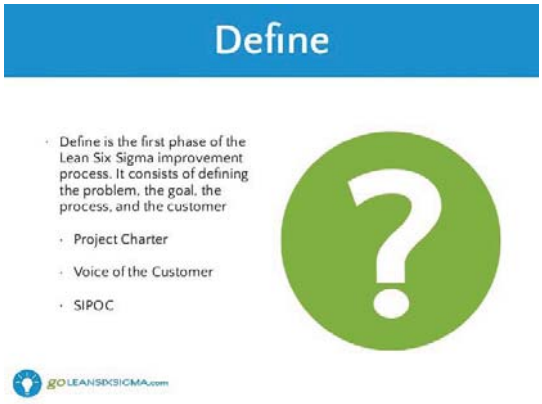
PHASE-1



Source: https://www.slideshare.net/goleansixsigma/dmaic-the-5-phases-of-lean-six-sigma

PROJECT CHARTER

A Project Charter lists the main goals of a project and a detailed plan for, how to attain those goals.

This detailed plan involves identifying the relevant stakeholders and determining the roles and responsibilities of each individual involved with the project.

A Project Charter is beneficial because it can be created for an existing or future project, making it a useful project management tool.

A Project Charter is an effective presentation tool for upper-level management, organizational clients, or potential investors and can be used as an accountability mechanism that ensures each member of the project team is doing their job and has a shared understanding of the project.

ROAD MAP

Define Phase

- **Why this Project ? – Business Case**
- **Project Charter**
- **SIPOC – to find process scope and inputs**
- **CTQ identification – to come down from Macro to micro objectives – CTQs have to be specific and measurable.**
- **Create CTQ specification table – Operational definition of measure – Specifications / defect definition – Kano status**
- **Review and Finalize Your Project Charter**

30

ELEMENTS, ESSENTIAL FOR A GOOD PROJECT CHARTER

- ✓ Identity of the project.
- ✓ Mention the start date and the deadline for the project.
- ✓ People involved in the project.
- ✓ Outlined objectives and set targets.
- ✓ Reasons for a project charter to be carried out - (referred to as 'business case).
- ✓ Detailed description of a problem or an opportunity.
- ✓ The return expected from the project.
- ✓ Results that could be expected in terms of performance.
- ✓ The expected date that the objectives are to be achieved.
- ✓ Clearly define roles and responsibilities of the Project Team members.
- ✓ Resources that will be needed for the objectives to be achieved.
- ✓ Barriers and the risks involved with the project.
- ✓ Effective communication plan.

Source: https://www.pinterest.com/pin/546342998541007692/

Voice of the Customer

The customer judges and buys the product.

The VOC is customer-driven.

Voice of the Business

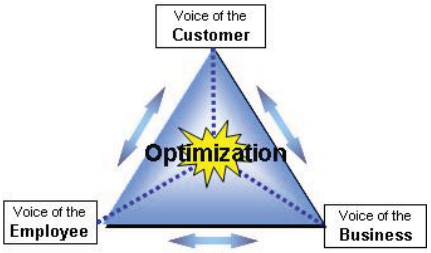
The business has its own needs which must be met to stay in business.

The VOB is profit-driven.

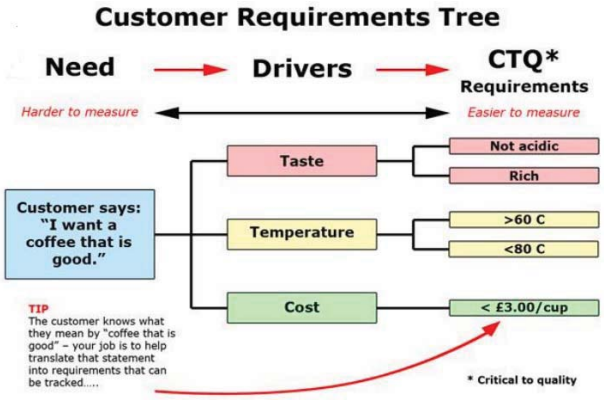
Voice of the Employee

The voice of the employee is important to meeting the employees' needs so they will stay with the company .

The VOE is process-driven.



CTQ



CRITICAL-TO-QUALITY (CTQ)

A CTQ is a Six Sigma tool used to identify the needs of the customer and translate that information into measurable product and process requirements.

It allows organizations to understand the characteristics of a product or service that most drives quality for customers.

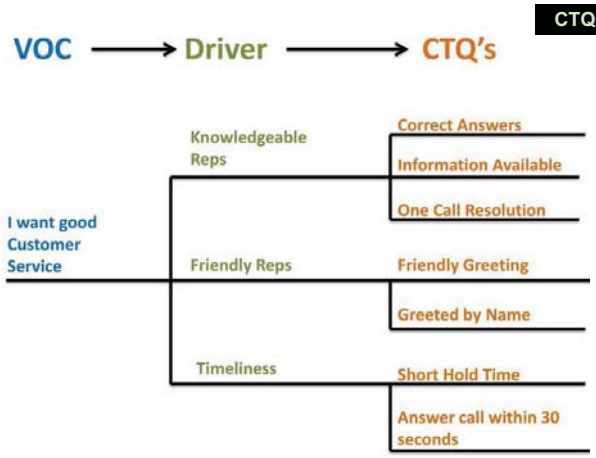
Creating a CTQ Tree determines the drivers behind those characteristics and helps companies find ways to meet them.

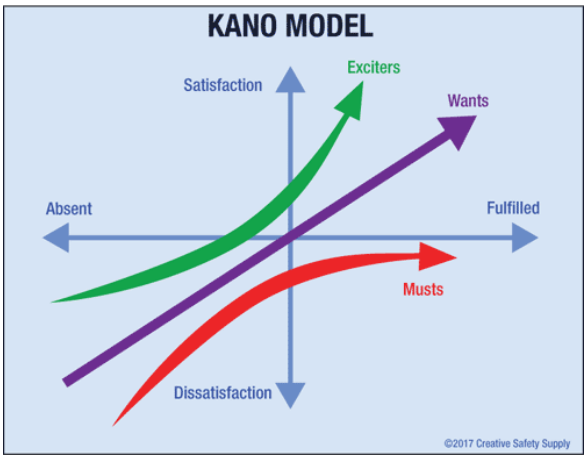
Need – What customer need, are you fulfilling with your product or service?

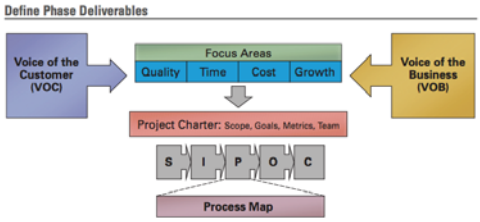
Drivers – What elements or characteristics will your customers most likely consider when judging the quality of your product or service?

Requirements – What process or product requirements are needed to make those drivers meet customer standards?

CTQ



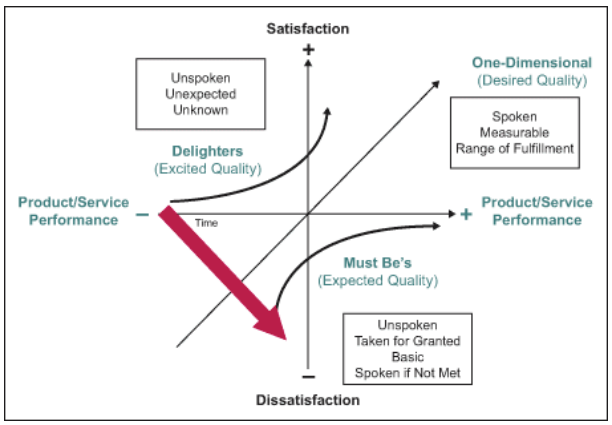




Define Phase **Deliverables** include:

- Determine VOC
- Determine VOB
- Determine Focus Areas
- Develop Project Charter
  - Scope
  - Goals
  - Key metrics
- Team members
- Map the Process (Suppliers, Inputs, Process steps, Outputs, Customers)

43



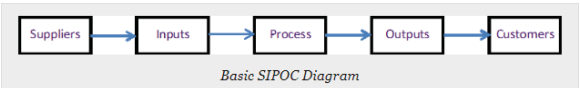
Understanding VOC is very Important for DMAIC implementation

SIPOC - DIAGRAM

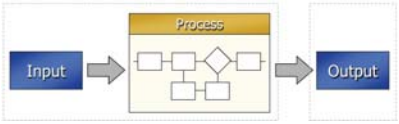
SIPOC is a method to properly describe the transformation process within a company that offers products and/or services.

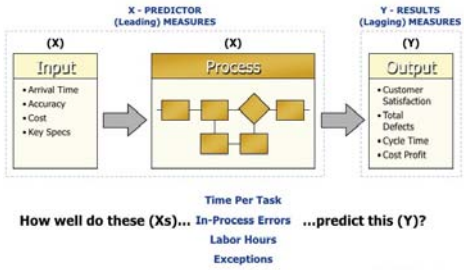
It's a tool for process improvement that summarises the input and output of one or multiple processes in tables.

SIPOC is an acronym for **Suppliers, Inputs, Process, Output and Customers**, also the names of the columns.



Basic SIPOC Diagram





SIPOC

SIPOC diagram is a Six Sigma tool used for documenting business processes.

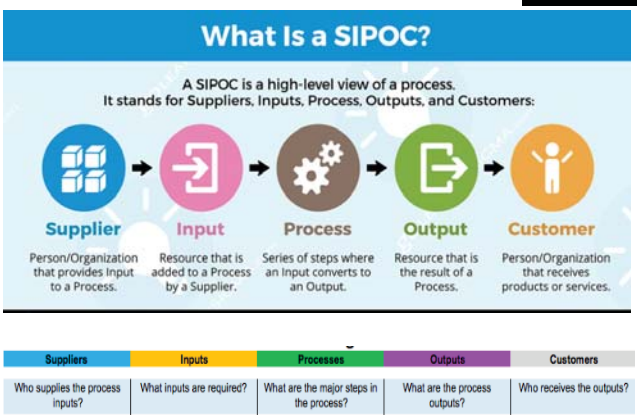
SIPOC diagram visually documents a business process from beginning to end.

Because the diagram doesn't contain much detail about the process, it is often called a high-level process map.

SIPOC diagram can clarify a few things for your team:

- Who are the suppliers of the given process?
- What requirements should the inputs fulfill?
- Who are your true customers?
- What specification do customers want for the end product?

SIPOC



SIPOC

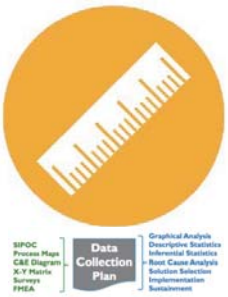
- A SIPOC diagram is a form of process mapping.
- Process mapping is a term used to describe the task of putting a project's goals and, detailed steps on how those goals will be accomplished.
- It's a simple but effective method for ensuring every project team member.
- It also offers an overview of a project at a glance.
- SIPOC diagram quickly explain a project and provide common reference to team members.
- It also can help identify problems and isolate areas that are not needed or add little value.

SIPOC diagrams are helping team members agree upon a common language and understanding a process for continuous improvement.

PHASE-2

Measure

- In the Measure phase, the team focuses on data collection, which takes time and effort
  - Select Measures
  - Data Collection Planning
  - Operational Definitions
  - Baseline Data



Source: https://www.slideshare.net/goleansixsigma/dmaic-the-5-phases-of-lean-six-sigma

SIPOC
Process Maps
C&E Diagram
X-Y Matrix
Surveys
FMEA

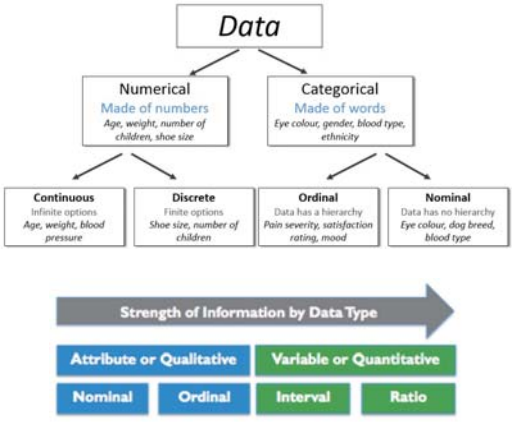
Data Collection Plan

- Graphical Analysis
- Descriptive Statistics
- Inferential Statistics
- Root Cause Analysis
- Solution Selection
- Implementation
- Sustainment

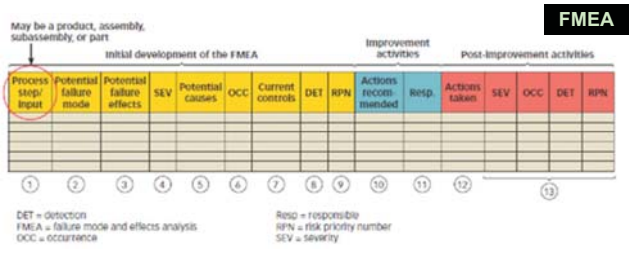
Root Cause Analysis: Late Shipments

Check Sheets Quantify Occurrences

Reason	Tally
Material shortage	||||| ||
Quality issue requiring rework	|||||
Staffing/absenteeism	|||
Order entry error	||||| |||||
Changing customer requirements w/ no adjustment to expected delivery	||||| ||||| |||
Equipment failure		

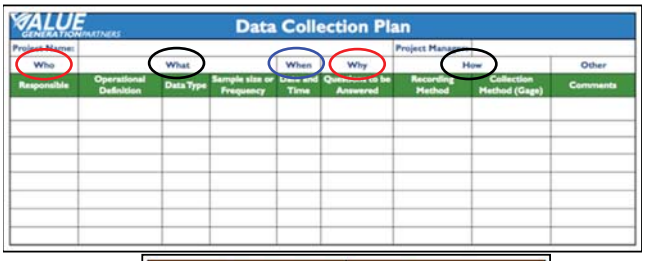


FMEA



WHEN TO USE FMEA

- ✓ When a process, product, or service is being designed or redesigned
- ✓ When an existing process, product, or service is being applied in a new way
- ✓ Before developing control plans for a new or modified process
- ✓ When improvement goals are planned for an existing process, product, or service
- ✓ When analyzing failures of an existing process, product, or service
- ✓ Periodically throughout the life of the process, product, or service



Factors	Examples
What	Complaints, Defects
When	Month, Day
Where	Region, City
Who	Department, Individual

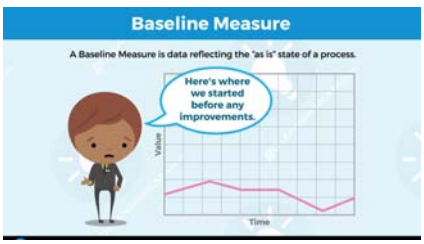
Source: https://www.slideshare.net/Leanleaders/ng-bb-20-data-collection

DETERMINE HOW THE PROCESS CURRENTLY PERFORMS

Teams establish the current state of the process before considering changes.

The baseline becomes the standard against which the team assesses the impact of their solutions.

This is a key step since the team must eventually compare the data collected during the Measure Phase against the data collected during the Improve Phase to confirm there is actual improvement.



MEASURE

CREATE A PLAN TO COLLECT THE DATA

Once the team clarifies the baseline measure, they must consider where to get the data, how much to collect, who will get it and how.

A well-thought-out Data Collection Plan is critical since accurate and reliable data are key to good decision making.

ENSURE THE DATA IS RELIABLE

Process measures leads to collecting critical process information. This enables the team to make good project decisions. Reliable data ensures corrective actions are based on facts rather than assumptions and opinions.

You should also ask yourself, what are the drivers that could lead to variation? E.g. a heating element, temperature, pressure, operator actions, supplier amount and range. These measurement points should be clear from the process map. Collect data on each of these as well.

"Remember, at this point you're not trying to solve the problem, you're just trying to characterise it," Dr Davidson says.

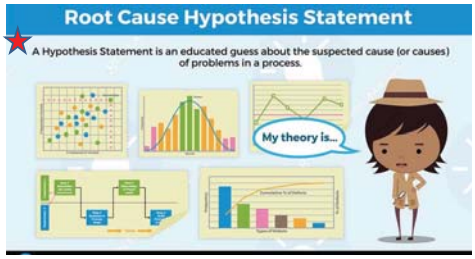
ANALYSE

GRAPHICALLY DISPLAY THE DATA

After collecting data, the team is able to display it using charts and graphs providing visual clues to process problems.

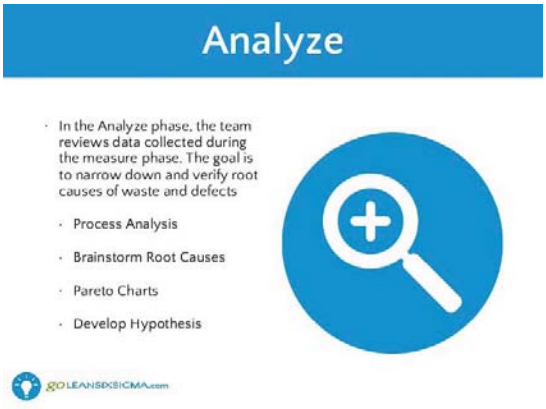
Transforming spreadsheets of numbers into revealing visuals allows the team to easily communicate their findings to leadership and other process participants.

Selecting the right charts and graphs provides the team with valuable insights about the causes of process issues.



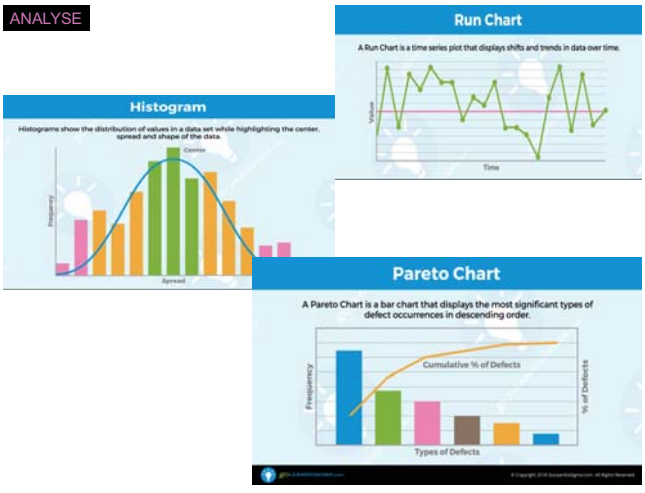
Source: https://goleansixsigma.com/dmaic-five-basic-phases-of-lean-six-sigma/

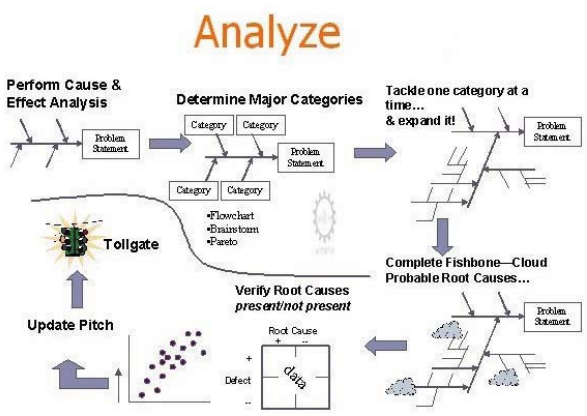
PHASE-3



Source: https://www.slideshare.net/goleansixsigma/dmaic-the-5-phases-of-lean-six-sigma

ANALYSE





Now, the team understands what's causing the problem, and how to solve it. Once the project team has gone through the data and studied the process to verify the root causes, it's time to develop solutions.

The Improve Phase is where the team gets to solve the problem. They develop solutions, pilot the process changes, implement their ideas and collect data to confirm they made a measurable difference. This is where their hard work pays off.

If they've done their **work right**, they'll have the opportunity to create innovative and **elegant solutions**. They'll positively impact the baseline measure, create better work life for employees and a better product or service experience for customers.

IMPROVE

PHASE-4

Source: https://www.slideshare.net/goleansixsigma/dmaic-the-5-phases-of-lean-six-sigma

IMPROVE

GATHER THE BEST IDEAS TO FIX THE PROBLEM

Throughout the life of the project, the team has been gathering ideas from process participants, colleagues, customers and suppliers. Problem-solving opportunities generally start cropping up early on in the project.

Teams come into the project with ideas and immediately find more opportunities during the Process Walk in the Define Phase.

With a good Solution Parking Lot they'll amass a useful collection of counter-measures by the Improve Phase.

It's good to research internally but it's also good to look beyond the process for innovations. Other departments, other business units or even other companies and industries may have solved a similar problem. The team can benchmark and cast a wide net for ways to address the root cause of the problem.

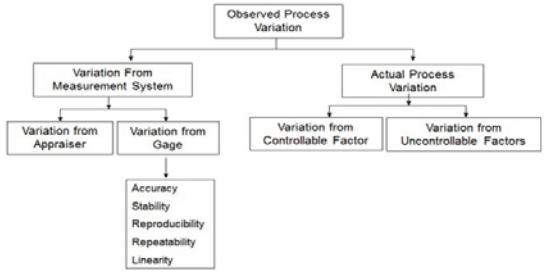
They could also revisit the many classic solutions developed in the Quality world. There may be new ways to solve the problem but there's no reason to reinvent the wheel. Many teams draw from time-tested techniques like 5S, Work Cell Design, Setup Reduction, Kanbans and other well-defined methods to improve process flow.

IMPROVE

SELECT THE PRACTICAL SOLUTIONS

In some cases, a project team can employ as many improvements as they see fit. But given the time and effort involved in most process changes, it makes sense to apply some criteria to make good choices between options.

Tools like the Solution Selection Matrix allow them to list the possibilities and assess each one to make the best decisions. They can also assess which solutions provide the most impact for the least cost or effort.



https://www.sixsigminstitute.org/Six_Sigma_DMAIC_Process_Measure_Phase_Measurement_System.php

IMPROVE

IMPLEMENT THE SOLUTION(S)

Make sure, solutions are successful & requires careful planning. The team has to consider logistics, training, documentation change management and communication plans.

For large-scale implementations, the team can run a pilot to ensure the changes work prior to implementation. It's a good practice to create an Implementation Plan.

Running pilots and including others prior to making process changes is a great way to build a sense of ownership of the new process. Acceptance of change is equally important to the quality of the improvement.

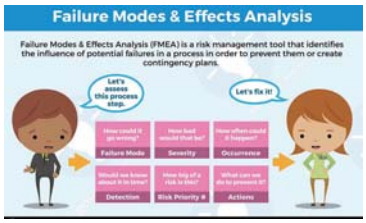
IMPROVE

TEST AND REFINE THE BEST SOLUTIONS

The team may run mini-testing cycles known as PDCA or Plan Do Check Act to refine the solutions while collecting valuable Stakeholder feedback. These cycles are a great way to find out if small improvements are viable in a fast and low impact way.

Also consider the unintended consequences of making changes to the process. Any changes, even good ones, introduce an element of risk.

Tools like the Failures Modes & Effects Analysis (FMEA) help the team think through the potential impacts of altering the steps and features of the process and plan ahead.



IMPROVE

MEASURE TO VALIDATE IMPROVEMENT

Once the team has implemented their changes to the process, they can collect data to check whether or not they have improved the baseline.

This can take anywhere from 1 week to 4 months depending on the length of the process cycle. Once the team demonstrates that their solutions resulted in measurable improvement, it's time to celebrate success!

The team should recognize themselves as well as all the process participants who helped with the implementation.

It's important to give credit and spread the good news. A little momentum goes a long way. Then the team can move on to the Control Phase.

PHASE-5

Control

- The Control phase is the final phase of Lean Six Sigma. The team focuses on how to sustain newly achieved improvements by passing it on to other employees
- Process Control Plan
- Monitoring & Response Plan
- Documentation & Storyboard

GOLEANSIXSIGMA.com

Source: https://www.slideshare.net/goleansixsigma/dmaic-the-5-phases-of-lean-six-sigma

CONTROL

The primary objective of the Control phase is to ensure that the gains obtained during Improve are maintained long after the project has ended.

To that end, it is necessary to standardize and document procedures, make sure all employees are trained and communicate the project's results.

In addition, the project team needs to create a plan for ongoing monitoring of the process and for reacting to any problems that arise.

The Process Owner is responsible for the continued welfare of the process. The team is busy moving on to tackle the next improvement effort, so it's key to leave the process in good hands.

CONTROL

THE FINAL PHASE OF A DMAIC PROJECT

The Control phase is the conclusion of the team's journey. The project team members are responsible for a solid hand-off to the Process Owner to maintain the gains. The purpose of the control phase is close the project and ensure improvements are sustained.

The final capability is determined and the closing performance and all related changes are documented on the closing contract.

Rewarding the team and stakeholders is important because they not only deserve it but to leave on a final positive note and grow credibility for the team members and the company's Six Sigma program.

The first step of the Control phase is to document and standardize the improvements that were rolled out during **Improve**. This takes several forms.

CONTROL

The four techniques used for process control plans are:

1. Standardization
2. Documentation
3. Monitoring Plan
4. Response Plan

In the Control Phase the team develops a Monitoring Plan to keep an eye on the continued success of the updated process.

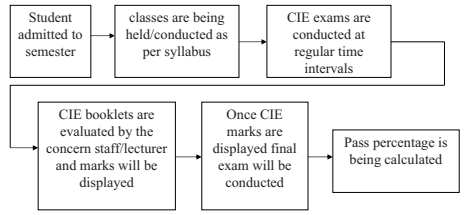
CELEBRATION AND RECOGNITION

Define

Define the problem.

Application of Six Sigma to Improve Passing Percentage in Basic Thermodynamics

PROJECT CHARTER		
Project Title:	To improve the pass percentage of students in "**Basic Thermodynamics**" subject of Mechanical Engineering. Dept.	
Background and Reason for selecting the project:	The pass percentage of students is seen around 89% having minimum as low as 85%. Hence this study was taken up to improve the pass percentage	
Aim of the project:	By taking the third quadrille we took 88% i.e., at the average of 85% the students should pass the examination.	
Project Leader:	Prof. ---- (Project Guide)	
Project Champion:	Prof. ----(Head, Mechanical Engineering Department)	
Characteristics of product/process output & its measure		
CTQ	Measure & Specification	Defect definition
Pass percentage of the Students	It's the ratio of students passed to students appeared	Failure Percentage
Expected Statements:	Improve Teaching-Learning Process	
Expected Customer Benefits:	Improved Results, Better Passing Percentage, Decreased Backlogs and Better scope for higher studies/job	
Schedule:	Define: 20 Aug 2013	Improve: SEE EXAM date
	Measure: 30 Aug 2013	Control:10 Dec 2013
	Analyze: 10 Sep 2013	



Process Steps

CTQ	Operational definition of measure	Specification	Defect Definition
Pass Percentage of the students in "Applied Thermodynamics subject of Mechanical Engineering department	(PASSED/APPEARED)* 100	IT SHOULD BE >= 85 %	IF IT IS <= 85 %

CTQ Specification Table

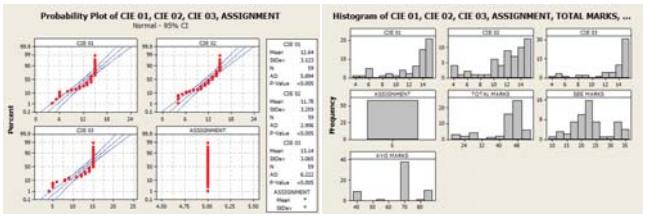
Measure

Quantify the problem.

SIPOC				
Suppliers	Input	Process	Output	Customers
College/ Management	1. student's 2. Teaching aid's 3. Study Materials 4. Teaching Staff 5. Infrastructure	1.Students admitted to class 2. classes are being held/conducted according to syllabus 3.CIE exams are conducted at regular time intervals 4.CIE booklets are evaluated by the concern staff and marks will be displayed 5.Once CIE marks are displayed final exam will be conducted 6.pass percentage is being Calculated	Exam Result	Students Parents Industries wherever they join.

DATA COLLECTION PLAN

Sl. No	Characteristics	Data type	Measure (units)	sampling	Related conditions	Where recorded
1	SCORE OF STUDENTS IN CIE 01	Continuous	--	100%	For each student	Dept.
2	SCORE OF STUDENTS IN CIE 02	Continuous	--	100%	For each student	Dept.
3	SCORE OF STUDENTS IN CIE 03	Continuous	--	100%	For each student	Dept.
4	ASSIGNMENT	Continuous	--	100%	For Each student	Dept.
5	SCORE OF STUDENTS IN CIE 04	Continuous	--	100%	For each student	Dept.
6	SCORE OF SEMESTER END EXAMINATION	Continuous	--	100%	For Each student	Dept.



Software Used: Minitab (Version-14)

CALCULATION OF SIX SIGMA LEVEL

CTQ	AVERAGE	S.D	DPMO	SIGMA LEVEL
Pass percentage of the students	87.45 %	--	1,25,500	2.66

HOW TO CALCULATE PROCESS SIGMA

Defects per opportunity (**DPO**)= Defect/(Product x Opportunities).

Defects per million opportunities (**DPMO**)
ultiply the DPO by one million.

Process Sigma Once you have determined the DPMO, you can now use a Six Sigma table to find the process sigma.

Sigma	DPMO	Sigma	DPMO	Sigma	DPMO	Sigma	DPMO	Sigma	DPMO	Sigma	DPMO	Sigma	DPMO	Sigma	DPMO
2.01	305026	2.26	223627	2.51	156248	2.76	103835	3.01	65522	3.26	39204	3.51	22216	3.76	11911

Application of Lean Six Sigma in Supply Chain Management

Basic Concepts Strategies And Role

Hearty welcome to one and all

Presentation by:
Dr.Rajeshwar. S. Kadadevaramath
Professor & Head, Dept of Ind Engg & Mgt
Siddaganga Institute of Technology Tumkuru

Present Challenges Of Businesses in Global Market

- Competitiveness in today's marketplace depends heavily on the ability of a company to handle the challenges of reducing total supply chain operating cost and lead-times, increasing customer service levels, and improving product quality level
- World – class organizations now realize that non-integrated manufacturing processes, non integrated distribution processes and poor relationship with suppliers and customers are inadequate for their success.
- Supply chain network (SCN) and to optimize decisions is increasingly being recognized as a crucial competitive factor in order to make good decisions within a SCN.

Projections

1.NASSCOM, leaders unanimously agreed that the Indian market has reached the next level of maturity and is set to grow

2.By 2025, forecasts , IT services and back-office work in India will swell fivefold, to a 157 billion dollars annual export industry

3.Global trade in manufacturing products is projected 4500 billion dollars to 9000 billion dollars by 2025

4.More than half of the Fortune 500 companies are already outsourcing work to India

INDIA IS NICHE IN ENGINEERING,IT HENCE THEY ARE THE CRITICAL I/P TO MANUFACTURING.
INDIA IS PREIDICTED AS MFG HUB FOR THE WORLD
TUMKUR IS MFG HUB KARNATAKA
HENCE SUPPLY CHAIN RELIBILITY IS IMPORTANT

© 2007 Pearson Education

- According to a report published by the World Economic Forum,
- The Indian economy has taken a big leap following the significant changes made by the present Union Government.
- India has reached the 40th rank in a group of 137 countries in International competitiveness index

© 2007 Pearson Education 1-5

When whole world is targeting At India for its BPO hence we

The Indian companies need to promise to deliver the quality products and quality services to its clients or customer at right time to……

- Defend their trust and business
- Defend brand , products
- Defend markets
- Defend market share & increase the mkt share
- Defend Profits
- Need to improve quality to PPM level
- Need to Improve reliability consistency-no variance

…..

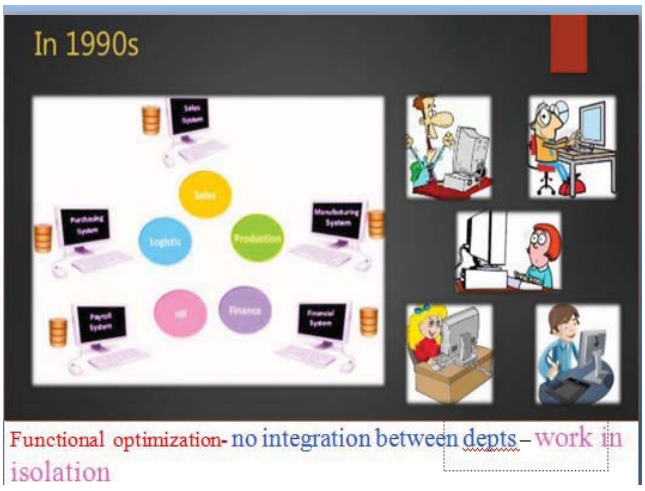
- Corporate leaders facing unpredictable and chaotic markets.
- Market Demand, Products, Technology. Competitive Behavior ,Political Conditions **CHANGE RAPIDLY**

Sudden globalization…..…… Need of SCM

- WTO Negotiation
- EXIM Policy changes
- Quantitative restrictions off
- Tariff barriers dropping
- Proactive efforts to bring in foreign capital
- Requires Higher responsiveness

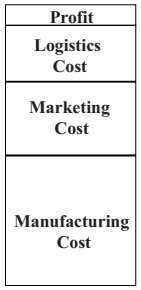
How do we compete with foreign companies ?

© 2007 Pearson Education



Traditional View: Logistics in the Manufacturing Firm (COST SCENARIO)

- Profit 4%
- Logistics Cost 21%
- Marketing Cost 27%
- Manufacturing Cost 48%



© 2007 Pearson Education

- Ensuring competitiveness in today's globally connected marketplace is very demanding and calls for different business strategies than what were employed by businesses in the past.
- Today's businesses have to be more adaptive to change. In order to stay competitive and continue to subsist they need to be better suited to handle fluctuations in an ever-changing market than their competitors.

© 2007 Pearson Education

Competitiveness in today's marketplace depends heavily on the ability of a company to handle the challenges of

- Reducing total supply chain operating cost and lead-times.
- Increasing customer service levels, and improving product quality
- In today's global market , managing the entire supply chain becomes key factor for the successful business.
- World – class organizations now realize that non- integrated manufacturing processes, non integrated distribution processes and poor relationship with suppliers and customers are inadequate for their success.
- Supply chain network (SCN) decisions are increasingly being recognized as a crucial competitive factor in order to make good decisions within a SCN.

© 2007 Pearson Education

How to meet these world class global market challenges ?

- Through the Fallowing various manufacturing strategies and practices ---
- Best manufacturing practices
  - ---Supply Chain Management
  - ----Lean Manufacturing
  - ----Agile or Flexible Manufacturing
- Quality approaches –TQM , Six sigma and Zero defect practices
- ERP,E-Business ,Industry 4.0 Etc
- And digital marketing others

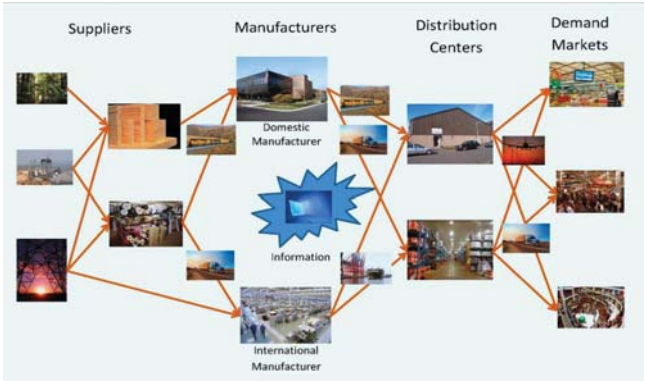
SUPPLY CHAIN MANAGEMENT IN BUSINESS

Supply Chain Network



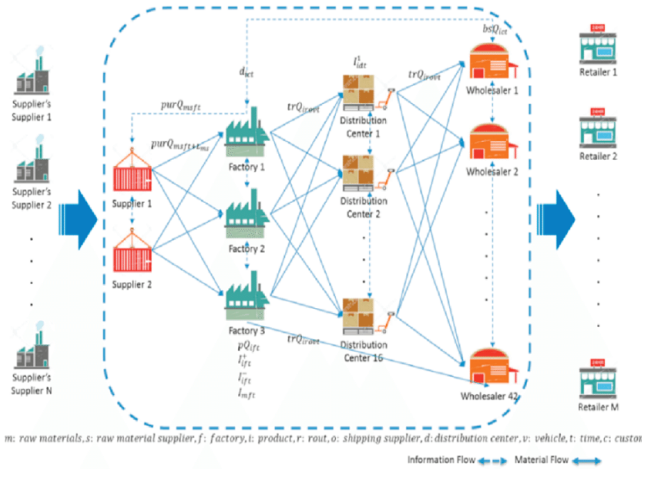
The Simple Supply Chain

Information Flow Goods Flow Revenue Flow

Simchi- Levi et al. (2000) defined SCM as a set of approaches utilized to efficiently integrate suppliers, manufacturers, warehouses and stores, so that merchandise is produced and distributed at the right quantities, to the right location and at the right time in order to minimize system-wide cost, while satisfying service level requirements

14

© 2007 Pearson Education



Objectives of Supply Chain Management

The objective of supply chain management is to minimize total supply chain cost to meet given demand in the market.

This total cost may be comprised of a number of terms including

- Raw material and other acquisition costs
- In-bound transportation costs
- Direct and indirect manufacturing costs
- Direct and indirect distribution center costs
- Inventory holding costs
- Reduce Cost of Rework, Rejections and
- Reduce cost of Waste
- Inter-facility transportation costs
- Out-bound transportation costs.
- Facility investment costs

17

What is an optimization problem in supply chain management?

Generally, optimization problems seek a solution where decisions need to be made in a constrained or limited resource environment

Decision Variables are within the planner's span of control:

- When and how much of a raw material to be ordered to supplier?
- When to manufacture an order ?
- When and how much of the product to ship to a customer or distribution center ?

Constraints are limitations placed upon the supply plan:

- A supplier's capacity to produce and supply raw materials or componen
- A production capacity
- Distribution center's capacity

Objectives maximize, minimize, or satisfy something

Building mathematical model-----apply optimization algorithms /AI tools arrive optimized decision variables of the supply chain

19

© 2007 Pearson Education

Supply Chain Modeling, Design and Optimization

Many companies rationalize their worldwide manufacturing and logistics strategies and supply chain designs.

These firms have asked questions such as:

- How many plants to setup? Where located?
- How much capacity of each process in each plant?
- What products in each plant?
- What demand regions should each plant serve?
- Which vendors to serve each plant?
- Which parts from each vendor?

18

Decision Phases of a Supply Chain

- Supply chain strategy or design
- Supply chain planning
- Supply chain operation

© 2007 Pearson Education

1-20

Supply Chain Strategy or Design

- Decisions about the structure of the supply chain
- Strategic supply chain decisions
  - Locations and capacities of --- suppliers , manufacturing plants ,ware houses ,DCs etc
  - Modes of transportation
  - Information systems—decision about IT platforms /software for supply chain

© 2007 Pearson Education

Supply Chain Planning

- Planning decisions:
  - Which markets will be supplied from which locations
  - Planned buildup of inventories
  - Subcontracting, backup locations
  - Inventory policies
  - Timing and size of market promotions
- Must consider in planning decisions demand uncertainty, exchange rates, competition over the time horizon

© 2007 Pearson Education

Supply Chain Operation

- Time horizon is weekly or daily
- Decisions regarding individual customer orders
- Allocate orders to inventory or production, set order due dates, generate pick lists at a warehouse, allocate an order to a particular shipment, set delivery schedules, place replenishment orders

© 2007 Pearson Education

Process View of a Supply Chain

- Cycle view: processes in a supply chain are divided into a series of cycles, each performed at the interfaces between two successive supply chain stages
- Push/pull view: processes in a supply chain are divided into two categories depending on whether they are executed in response to a customer order (pull) or in anticipation of a customer order (push)

© 2007 Pearson Education

Cycle View of Supply Chains

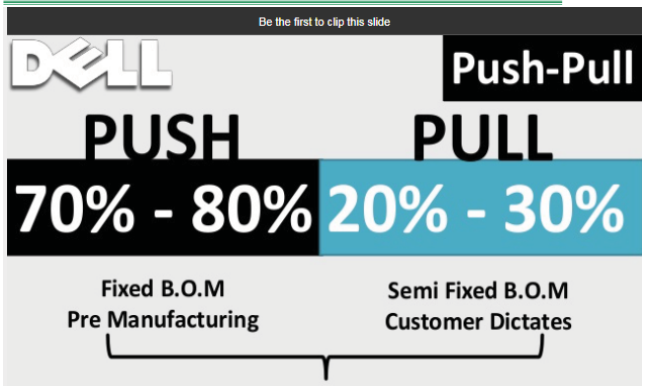
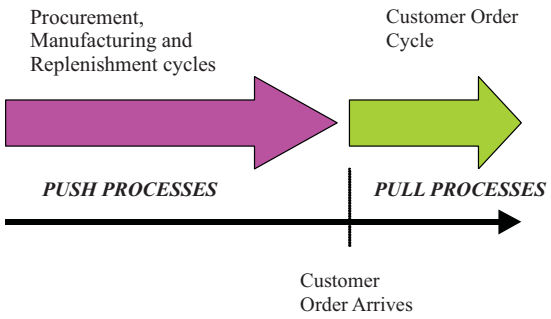
Dell case study



Push/Pull View of Supply Chains



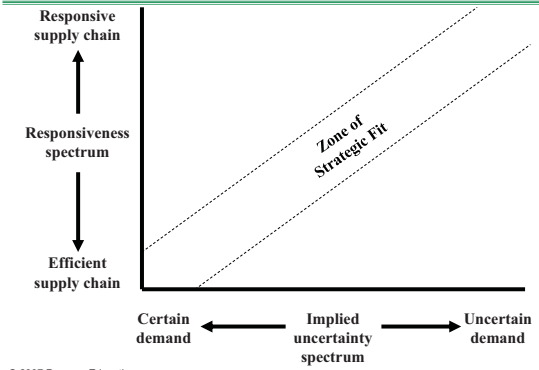
© 2007 Pearson Education

Achieving Strategic Fit

- Strategic fit:
  - Competitive and supply chain strategies have the same goal

© 2007 Pearson Education

Achieving Strategic Fit Shown on the Uncertainty/Responsiveness Map (Fig. 2.5)



© 2007 Pearson Education

Drivers of Supply Chain Performance

- Facilities(Decisions-All The Stages Of Supply Chain)
  - places where inventory is stored, assembled, or fabricated
  - production sites and storage sites
- Inventory
  - Decisions-raw materials, WIP, finished goods within a supply chain
  - inventory policies
- Transportation
  - Decisions-moving inventory from point to point in a supply chain
  - combinations of transportation modes and routes
- Information
  - Decisions-data and analysis regarding inventory, transportation, facilities throughout the supply chain
  - potentially the biggest driver of supply chain performance
- Sourcing
  - Decisions-functions a firm performs and functions that are outsourced
- Pricing
  - Price associated with goods and services provided by a firm to the supply chain

© 2007 Pearson Education

How is Strategic Fit Achieved?

- Step 1: Understanding the customer and supply chain uncertainty
- Step 2: Understanding the supply chain
- Step 3: Achieving strategic fit

© 2007 Pearson Education

LEAN MANUFACTURING

COMPETITIVENESS PROGRAMME

© 2007 Pearson Education

LEAN MANUFACTURING

- It is the production of goods, using less of everything, i.e;
  - less human effort
  - less manufacturing space
  - less investment in tools
  - less engineering time etc.
- It is a business initiative to reduce "waste" in manufactured products.
- Lean is one of the latest management tools in cost reduction .

© 2007 Pearson Education

What is Waste ?

Waste is 'anything other than the *minimum* amount of equipment, materials, parts, space, and worker's time, which are absolutely essential to *add value* to the product.'

— Shoichiro Toyoda
President, Toyota

© 2007 Pearson Education

Operations Excellence Team Excellence Business Excellence
www.avci-lean.com

HOW DOES LEAN MANUFACTURING WORK

It reduces cost by:

- **Improving** labour usage.
- **Decreasing** inventories.
- **Reducing** manufacturing order to shipment cycle time.
- **Increasing** capacities, without substantial capital inputs

© 2007 Pearson Education

Just-In-Time Manufacturing

JIT seeks to reduce waste. Waste is viewed as a symptom of some unsolved problem. Types of waste include:

- Overproduction
- Waiting Time
- Movement
- Inventory
- Product Defects
- Process Waste

© 2007 Pearson Education

Operations Excellence Team Excellence Business Excellence

Six Sigma for Managers

Quality Foundation Stones

- Walter A. Shewhart was a statistician at Bell Labs during the 1920s and 1930s. His work created the foundation for today's statistical process control, and he is often referred to as the "Grandfather of quality control"
- W. Edwards Deming is often referred to as the "Father of quality control." He was a statistics professor at New York University in the 1940s. After World War II he assisted many Japanese companies in improving quality. The Japanese regarded him so highly that in 1951 they established the Deming Prize, an annual award given to firms that demonstrate outstanding quality

© 2007 Pearson Education 1-39

Quality Evolution

Time	Focus	Concepts
Early 1900s	Inspection	Old Concept of Quality: Inspect for quality after production.
1940s	Statistical sampling	
1960s	Organizational quality focus	
1980s and Beyond	Customer driven quality	New Concept of Quality: Build quality into the process. Identify and correct causes of quality problems.

© 2007 Pearson Education 1-38

Quality-Pillars

Quality Guru	Main Contribution
Walter A. Shewhart	–Contributed to understanding of process variability. –Developed concept of statistical control charts.
W. Edwards Deming	–Stressed management's responsibility for quality. –Developed "14 Points" to guide companies in quality improvement.
Joseph M. Juran	–Defined quality as "fitness for use." –Developed concept of cost of quality.
Armand V. Feigenbaum	–Introduced concept of total quality control.
Philip B. Crosby	–Coined phrase "quality is free." –Introduced concept of zero defects.
Kaoru Ishikawa	–Developed cause-and-effect diagrams. –Identified concept of "internal customer."
Genichi Taguchi	–Focused on product design quality. –Developed Taguchi loss function.

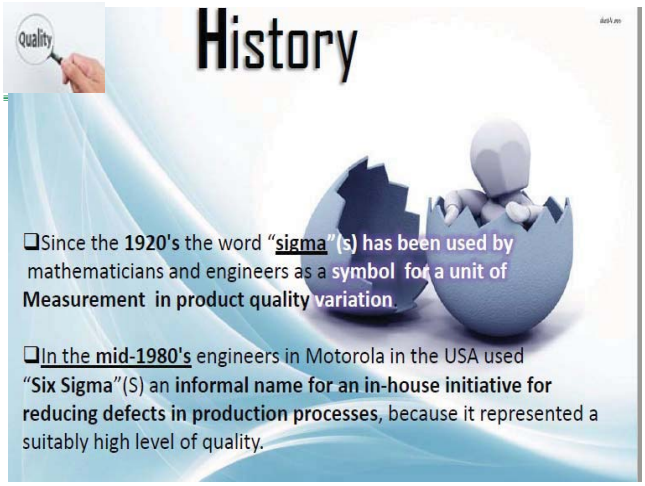
1-40

- From holistic historical review quality revolution, we can deduce that Quality can be classified into four evolutionary phases:
- Inspection
- Quality control
- Quality assurance
- TOTAL QUALITY MANAGEMENT

Now today , we are at Six Sigma

© 2007 Pearson Education

History



❑Since the **1920's** the word "**sigma**"(s) **has been used by** mathematicians and engineers as a **symbol for a unit of Measurement in product quality variation**.

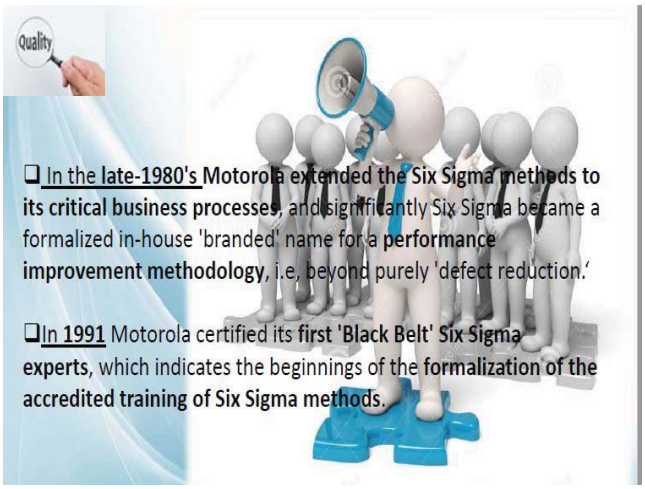
❑In the **mid-1980's** engineers in Motorola in the USA used "**Six Sigma**"(S) an **informal name for an in-house initiative for reducing defects in production processes**, because it represented a suitably high level of quality.

Introduction

❑**Six Sigma** is a set of techniques, and tools for process improvement. It was developed by **Motorola in 1986**.

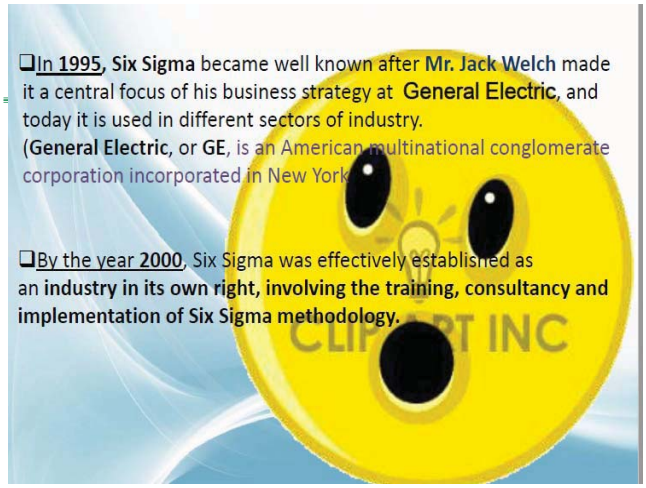
❑ **Sir Bill Smith**, " *the Father of six sigma*" introduce this quality improvement Methodology to Motorola.

❑ Six Sigma is now an enormous 'brand' in the world of corporate development.



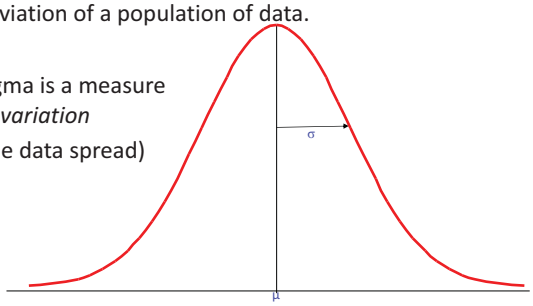
❑ In the **late-1980's** Motorola **extended the Six Sigma methods to its critical business processes**, and significantly Six Sigma became a formalized in-house 'branded' name for a **performance improvement methodology**, i.e, beyond purely 'defect reduction.'

❑**In 1991** Motorola certified its **first 'Black Belt' Six Sigma experts**, which indicates the beginnings of the **formalization of the accredited training of Six Sigma methods**.



What's in a name?

- Sigma is the Greek letter representing the standard deviation of a population of data.
- Sigma is a measure of *variation* (the data spread)



© 2007 Pearson Education

What is Sigma ?

Sigma

A term used in statistics to represent standard deviation, an indicator of the degree of variation in a set of a process

© 2007 Pearson Education

ean Academy

Defects

- "Defect" is defined as any process output that does not meet the customer's specifications.
- Improving quality means reducing the defects per million opportunities (DPMO). There are two attributes to this metric that can be controlled:
  - *Opportunities* – reducing the number of steps, handoffs and other "opportunities" will help improve quality
  - *Defects* – reducing the number of defects for each process step through continuous process improvement will help improve quality

What is Six Sigma?

Six Sigma

- A statistical concept that measures a process in terms of defects – at the six sigma level, there 3.4 defects per million opportunities
- A philosophy and a goal : as perfect as practically possible
- A methodology and a symbol of quality

© 2007 Pearson Education

What is Six Sigma?

Six Sigma is the concept of improving the quality by reducing process variations, making continuous improvements, reducing defect rates and improving the processes.

The Definitions & Concepts of Six Sigma have been changing since its evolution as per the requirements of time & market conditions.

Six Sigma has been labelled as a metric, a methodology, and now, a management system

© 2007 Pearson Education 1-51

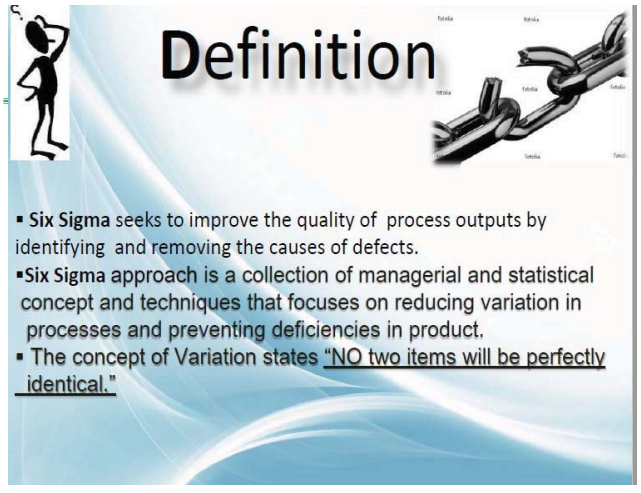
What is Six Sigma?

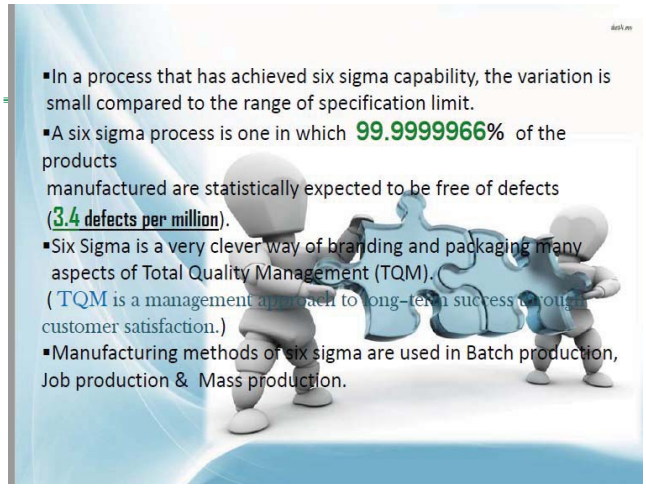
•Six Sigma evolved into a rich set of different standardized methods, tools, and best practices.

•Six Sigma started as a problem-solving approach to reduce variation in a product and manufacturing environment.

•That application has expanded to process improvement and other areas of the business. These areas include product or process redesign, research, and technology design, offering portfolio renewal, product development, and post-launch operations management.

© 2007 Pearson Education 1-50





Why Six Sigma?

- Money
- Quality
- Customer Satisfaction
- Competitive Advantage
- Growth
- Employee Pride

© 2007 Pearson Education

Father of Six Sigma

Sir Bill Smith

" the Father of six sigma"

Why Six Sigma?

Six Sigma is about practices that help you eliminate defects and always deliver products and services that meet customer specifications

© 2007 Pearson Education

Cost of Poor Quality

What is cost of scrap?

What is cost of rework?

What is cost of excessive cycle times and delays?

© 2007 Pearson Education

Critical-to-Quality (CTQ)

Elements of a process that significantly affect the output of that process. Identifying these elements is figuring out how to make improvements that can dramatically reduce costs and enhance quality.

© 2007 Pearson Education

Cost of Poor Quality

What is cost of business lost because customers are dissatisfied with your products or services?

What is cost of opportunities lost because you didn't have time or the resources to take advantage of them?

© 2007 Pearson Education

The Characteristics of Six Sigma

➢ Statistical Quality Control

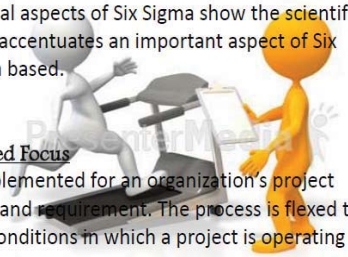
Six Sigma is clearly derived from the Greek letter σ (Sigma) from the Greek alphabet, which is used to denote Standard Deviation in Statistics. Standard Deviation is used to measure variance, which is an important tool for measuring non-conformance as far as the quality of the output is concerned.

➢ Methodical Approach

The Six Sigma is not merely a quality improvement strategy in theory, as it features a well defined methodical approach of application in DMAIC and DMADV which can be used to improve the quality of production. DMAIC is an acronym for Design-Measure-Analyze-Improve-Control. The alternative method DMADV stands for Design-Measure-Analyze-Design-Verify.

➢Fact and Data Based Approach

The statistical and methodical aspects of Six Sigma show the scientific basis of the technique. This accentuates an important aspect of Six Sigma that it is fact and data based.



➢Project and Objective Based Focus

The Six Sigma process is implemented for an organization's project tailored to its specifications and requirement. The process is flexed to suit the requirements and conditions in which a project is operating to get the best results.

Apart from that, the Six Sigma is also objective based. The management needs some incentive to invest in the Six Sigma process. It is aimed to enhance profitability and to generate financial.

Six Sigma Objectives

✓Overall Business Improvement

Six Sigma methodology focuses on business improvement. Beyond reducing the number of defects present in any given number of products.

✓Remedy Defects/Variability

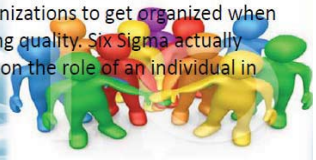
Any business seeking improved numbers must reduce the number of defective products or services it produces. Defective products can harm customer satisfaction levels.

➢The Customer Focus

The customer focus is fundamental to the Six Sigma approach. The quality improvement and control standards are based on the explicit customer requirements.

➢Teamwork Approach to Quality Management

The Six Sigma process requires organizations to get organized when it comes to controlling and improving quality. Six Sigma actually involves a lot of training depending on the role of an individual in the Quality Management team.



✓Reduce Costs

Reduced costs equal increased profits. A company implementing Six Sigma principles has to look to reduce costs wherever it possibly can--without reducing quality.

✓Improve Cycle Time

Any reduction in the amount of time it takes to produce a product or perform a service means money saved, both in maintenance costs and personnel wages. Additionally, customer satisfaction improves when both retailers and end users receive products sooner than expected. The company that can get a product to its customer faster may win her business.

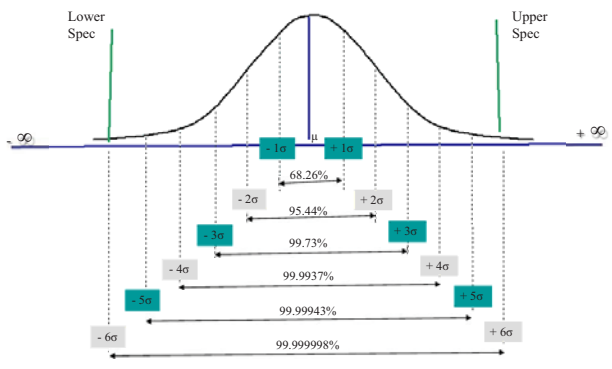
✓Increase Customer Satisfaction

Customer satisfaction depends upon successful resolution of all Six Sigma's other objectives. But customer satisfaction is an objective all its own.

Levels of Six Sigma

	Six Sigma Level	% Accuracy	DPMO
Virtual Perfection	6	99.9997%	3.4
	5	99.98%	233
	4	99.4%	6210
Good	**3.5**	**97.7%**	**22,700**
	3	93.3%	66,807
Improvement Needed	2	69.1%	308,537

Normal Distribution Curve



Sigma	% Good	% Bad	DPMO
1	30.9%	69.1%	691,462
2	69.1%	30.9%	308,538
3	93.3%	6.7%	66,807
4	99.38%	0.62%	6,210
5	99.977%	0.023%	233
6	99.9997%	0.00034%	3.4

© 2007 Pearson Education

Methodologies

Six Sigma projects follow two project methodologies :

1. DMAIC
2. DMADV

These methodologies, composed of five phases.

1. DMAIC

The DMAIC project methodology has Five phases:

1. *Define*
2. Measure
3. Analyze
4. Improve
5. Control

1. DMAIC

DMAIC is used for projects aimed at improving an existing business process.

2. DMADV

DMADV is used for projects aimed at creating new product or process designs.

Simple DMAIC Example

Control

Define

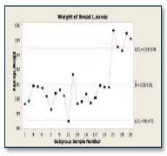
Input

Improved Process

Output

Measurement System

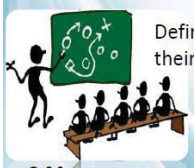
Measure



Improve

Analyze

1.Define



Define the system, the voice of the customer and their requirements, and the project goals, specifically.

2.Measure

Measure key aspects of the current process and collect relevant data.

5.Control

Control *the future state process to ensure that any deviations from target are corrected before they result in defects. Implement control systems such as statistical process control, production boards, visual workplaces, and continuously monitor the process.*

3.Analyze

Analyze the data to investigate and verify cause-and effect relationships. Determine what the relationships are, and attempt to ensure that all factors have been considered. Seek out root cause of the defect under investigation.

4.Improve

Improve or optimize the current process based upon data analysis using techniques such as design of experiments, poka yoke or mistake *proofing,* and standard work to create a new, future state process. Set up pilot runs to establish process capability.

2. DMADV

DMADV project methodology has Five phase:

1. *Define*
2. Measure
3. Analyze
4. Design
5. Verify

1.Define :

Define design goals that are consistent with customer demands and the enterprise strategy.

2.Measure

Measure and identify CTQs (characteristics that are Critical To Quality), product capabilities, production process capability, and risks.

5. Verify

Verify the design, set up pilot runs, implement the production process and hand it over to the process owner(s).

3.Analyze

Analyze to develop and design alternatives.

4. Design

Design an improved alternative, best suited per analysis in the previous step

Tools and Roles for Six Sigma

© 2007 Pearson Education

Tools for Six Sigma

- Creating flowcharts of the step in a process – operations, decision points, delays, movements, handoffs, rework, loops, and controls or inspections.
- A process map is illustrated description of how a process work.

Process Mapping

© 2007 Pearson Education

Tools for Six Sigma

- A group of rows and columns, with one set of increments marked along the X (horizontal) axis and another set of increments marked along the Y (vertical) axis.
- The purpose of using XY matrix is to study and understand the relationship between what you are putting into a process and what your customer is getting out of it.
- The XY matrix allows the team to identify gaps, areas for improvement.

XY Matrix

© 2007 Pearson Education

Tools for Six Sigma

- DOE is a structured, organized method for determining the relationship between factors (Xs) affecting a process and the output of that process (Y).

Design of Experiments or DOE

© 2007 Pearson Education

Tools for Six Sigma

- The goal of this tool is to ensure that your measurement system is statically confident – that it's both accurate and precise each and every time it is used.
- Undertaken during Measure phase, your MSA determines whether or not you can take a certain measurement and repeat or reproduce it among different people who take the same measurement.

Measurement System Analysis

© 2007 Pearson Education

Tools for Six Sigma

- Process capability tool is the measure of a process being able to meet specification requirements and fulfill customer CTQ needs on a long term basis.

Process Capability Tool

© 2007 Pearson Education

Tools for Six Sigma

- The manner in which a part or process can fail to meet a specification, creating a defect or non-conformance, and the impact on the customer if that failure mode is not prevented or corrected.

Failure Mode Effect Analysis

© 2007 Pearson Education

Tools for Six Sigma

- Investigating a theory about the suspected cause (s) of a particular effect in a process to determine if it is correct.
- It's a compass that points you directly to the vital few factors that are most affecting your process.

Hypothesis Testing

© 2007 Pearson Education

Tools for Six Sigma

- A detailed assessment and guide for maintaining all the positive changes you, your black belt, and the project team have made.
- It ensures that all your analysis and efforts stay in effect and that you have information at your disposal to prevent backsliding or a return to less than optimal performance standard.

Control Plan

© 2007 Pearson Education

Key Roles for Six Sigma

Executive Leadership — Includes CEO and other key top management team members. They are responsible for setting up a vision for Six Sigma implementation.

Champions — Are responsible for the Six Sigma implementation across the organization in an integrated manner. Champions also act as mentor to Black Belts.

© 2007 Pearson Education

Key Roles for Six Sigma

Green Belts — Are the employees who take up Six Sigma implementation along with their other job responsibilities. They operate under the guidance of Black Belts and support them in achieving the overall results.

© 2007 Pearson Education

Key Roles for Six Sigma

Master Black Belts — Identified by champions, act as in-house expert coach for the organization on Six Sigma. They devote 100% of their time to Six Sigma.

Black Belts — Operate under Master Black Belts to apply Six Sigma methodology to specific projects. They primarily focus on Six Sigma project execution.

© 2007 Pearson Education

Levels of Six Sigma Certification in India

Officially, there are three levels of Six Sigma Certification in India. These are as follows:

1.Six Sigma Green Belt
2.Six Sigma Black Belt
3.Six Sigma Master Black Belt

© 2007 Pearson Education

Best Institutes for Six Sigma Certification in India

Six Sigma Certification in India #1: American Society for Quality

No matter where your business is in the world, ASQ can deliver training solutions right to your location
ASQ India offers;
1.Six Sigma Green Belt (SSGB) (Duration: 8 Days)
2.Six Sigma Black Belt (SSBB) (Duration: 15 Days)
3.Weekend (Sat-Sun) classes. Weekend classroom training is conducted in Delhi, Chennai, Bangalore, Mumbai & Pune. There is option for remote learning from any part of the country through web based delivery (WebEx)

ASQ South Asia and IIT Kharagpur have jointly developed a unique on-campus residential offering to build capability in LEAN and Six Sigma (Green & Black belt) to be held in Kharagpur

© 2007 Pearson Education

What is Lean Six Sigma?

What is Lean ?

- **Goal** – Eliminate waste and increase process speed
- **Method**
  - – Genchi Genbutsu– Go and See the workplace (Gemba)
  - – Kaizen (Change for better) workshops

© 2007 Pearson Education

Six Sigma Certification in India #2: Indian Statistical Institute (ISI)

It's a government institution. Indian Statistical Institute (ISI) is an academic institute of national significance as recognized by a 1959 act of the Indian Parliament.
It offers training programs; which are certified by the Institute itself. There are three courses Green Belt, Black belt, Masters Black belt.

Six Sigma Certification in India #3: Benchmark Six Sigma

Benchmark Six Sigma happen to be the biggest provider of LEAN Six Sigma programs in different parts of India since 2001..

© 2007 Pearson Education

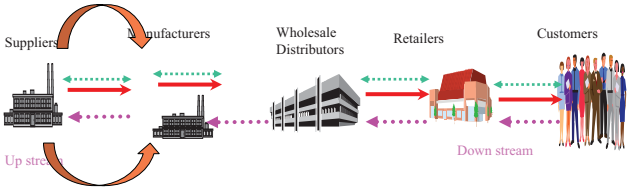
What is Lean Six Sigma ?

What is Six Sigma ?

- **Goal** – Reduce variation to improve performance on CTQs
  (Variation means system does not produce same result each time)
- **Method** – DMAIC, DMADV,DFSS approach

© 2007 Pearson Education

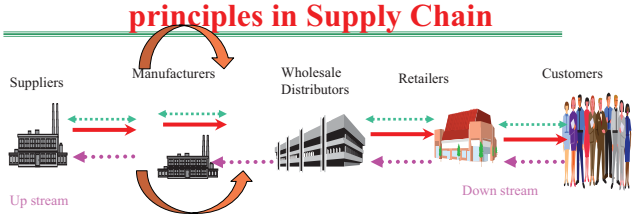
Implementation of six sigma and lean principles in Supply Chain



Supply chain 1st stage --------Raw material procurement process:
Raw material order from manufactures to raw material suppliers Specifies--
-
--What Qty of material supplied
--What Quality of material to be supplied—w r to size, material specification
--Delivery schedules and on what dates orders to be supplied

© 2007 Pearson Education

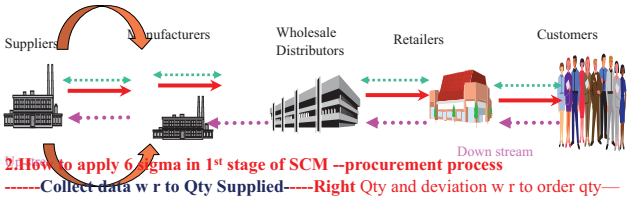
Implementation of Six sigma and Lean principles in Supply Chain



Implementation of six sigma and lean principles in supply chain management 2nd stage : Manufacturing functions includes
1.Planning and scheduling
2.Component Manufacturing
3.Sub assembly process
4.Final Assembly of Product

© 2007 Pearson Education

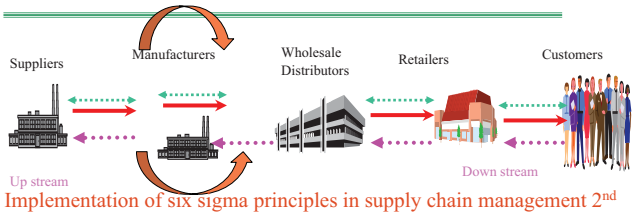
Implementation of six sigma in Supply Chain



2.How to apply 6 sigma in 1st stage of SCM --procurement process
------Collect data w r to Qty Supplied-----Right Qty and deviation w r to order qty—rate the vendor/suppliers w r to 2σ or 3σ or 4σ or 5σ or 6σ
-----Collect data w r to Quality Supplied-----deviation w r to size and specification —rate the vendor/suppliers w r to sigma level
-----Collect data w r to delivery schedule ------deviation w r to **delivery schedule** —rate the vendor/suppliers w r to sigma level
APPLY 6 SIGMA METHODOLGY- DMAIC for the procurement process and improve continually to reach 6 sigma and it is not being achieved overnight it takes years to achieve .

© 2007 Pearson Education

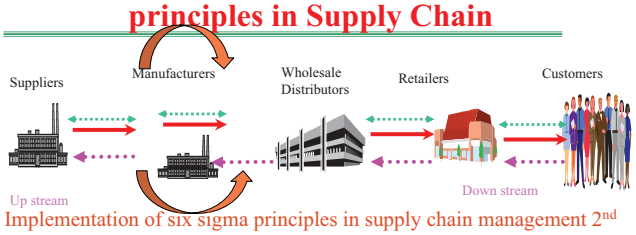
Implementation of Six sigma and Lean principles in Supply Chain



Implementation of six sigma principles in supply chain management 2nd stage : Manufacturing functions
1.Planning and scheduling –Planned and actually met targets & schedules
2.Component Manufacturing—Measure dimensions and collect data
3.Sub assembly process– Collect data about testing -accepted and rejected
4.Final Assembly of Product -- Collect data about testing -accepted and rejected

© 2007 Pearson Education

Implementation of Six sigma and Lean principles in Supply Chain



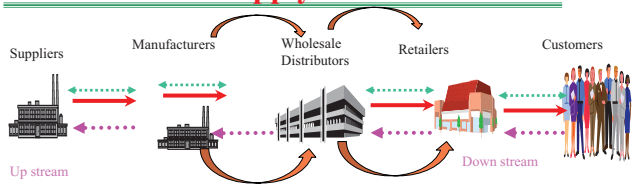
Implementation of six sigma principles in supply chain management 2nd stage : Manufacturing functions

APPLY 6 SIGMA METHODOLGY- DMAIC for the manufacturing process and improve continually to reach 6 sigma and it is not being achieved over night it takes years to achieve

TOYOTA PRACTICES ALL THESE 6 SIGMA TOOLS FOR IMPROVEMENT OF MFG PROCESSES

© 2007 Pearson Education

Implementation of six sigma in Supply Chain



2.How to apply 6 sigma in in Supply chain 3rd & 4th stage --------Finished goods delivery process:
Finished good orders comes from distributors or retailers to manufacture Specifies---

-----Collect data w r to Qty Supplied-----Right Qty and deviation w r to order qty— w r to sigma level
-----Collect data w r to Quality Supplied-----deviation w r to size and specification — w r to sigma level
-----Collect data w r to delivery schedule ------deviation w r to **delivery schedule** —rate the w r to sigma level

APPLY 6 SIGMA METHODOLGY- DMAIC for the **---------Finished goods delivery process** and improve continually to reach 6 sigma and it is not being achieved over night it takes years to achieve .

Case Studies

Caterpillar Inc.

Caterpillar, or also known as Cat, is the world's largest manufacturer of construction and mining equipment.

In 2018, Caterpillar Inc., a corporation which designs, develops, manufactures, markets and sells machinery, engines, financial products and insurance,

claimed the 65th position in Fortune 500 list.

• The CEO of Caterpillar Inc., Glen Barton, introduced Six Sigma to the company's operational system. He realized the need for a tool to analyze the complications, make the changes and develop the company's growth .

•Since then, the company has made significant progress by implementing step-by-step metrics to ensure long-term effectiveness and profitability.

•Their success was a result of their focus on energy efficiency improvement in buildings and manufacturing processes and in deploying cleaner sources of energy.

© 2007 Pearson Education

Honeywell International Inc.

Honeywell International Inc. is a multinational company that produces a variety of commercial and consumer products, also delving into engineering services and aerospace systems.

Back in 1999, AlliedSignal Inc. and Honeywell decided to merge their business operation which brought two effective Quality Management Systems (QMS) together. Program introduced Lean and Six Sigma

•Six Sigma and Lean system has brought positive changes to the company. that escalates improvements in all of the company's process, products and services.

•Honeywell International Inc., which focuses on Lean concept in waste elimination and variation reduction in Six Sigma, gained a total of $1.2 billion from productivity improvements in 2012.

© 2007 Pearson Education 1-105

3M:Minnesota Mining and Manufacturing

The **3M** Company is an American multinational conglomerate corporation operating in the fields of industry, worker safety, US health care, and consumer goods.

3M, an American multinational conglomerate corporation, was introduced to Six Sigma In 2005, 3M appointed a new Chief Executive Officer (CEO), George Buckley who preserved Six Sigma's benefits cost-cutting and efficiency-improvement efforts and re-stimulated 3M's innovative efforts

•This hybrid approach resulted to Lean Six Sigma methodology in which elements that were considered less useful were dropped while specific and custom elements were maintained.

• By 2017, 3M made $31.7 billion in total sales and

•The company ranked 97th in the 2018 Fortune 500 list of the largest United States corporations by total revenue

© 2007 Pearson Education 1-107

General Electric (GE)

General Electric is known as an American multinational conglomerate company which operates through various segments including aviation, healthcare, power, renewable energy, digital industry, additive manufacturing, venture capital and finance, lighting and oil and gas

Jack Welch was the chairman and Chief Executive Officer (CEO) of GE when he became the initiator of the implementation of Six Sigma in the operation of the company back in 1995

GE reported that $300 million invested in Six Sigma delivered between $400 million and $500 million savings, with additional incremental margins of $100 to $200 million .

In 2018,GE managed to place themselves in the Fortune 500 list as the 18th largest firm in the U.S. by gross revenue.

Six Sigma Tools & Techniques

Your Expectations from Training

Key expectation from your inputs

1. **More on six sigma concepts**
2. **The tool six sigma, importance of six sigma, steps in achieving six sigma**
3. **Fundamental skills**
4. **To aware about six sigma in quality control techniques**
5. **Eliminating defects in a product, process .**

Basic Definition

- Sigma
  - A mathematical term used to designate the distribution or spread of any process around the average (mean) as expressed in "standard deviations"
  - For a business or manufacturing process, the sigma value is a metric used to indicate how well the process is performing

6σ

Descriptive Statistics

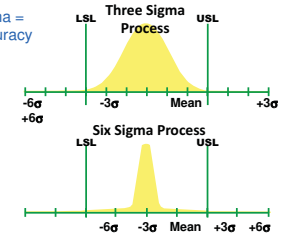
σ	% Non-Defective
2	69.1%
3	93.32%
4	99.379%
5	99.9767%
6	99.99966%

Why is 99% not good enough?

Statistically Speaking

Six Sigma refers to a process that produces only 3.4 defects per million opportunities (DPMO). In other words:

- Six Sigma = 99.99966% accuracy
- Three Sigma = 93.3% accuracy



Practical meaning of Six Sigma

99% Good (~ +/- 3 Sigma)	99.99966% Good (+/- 6 Sigma)
Postal System 20,000 Lost Articles of Mail / Hr	Postal System 7 Lost Articles of Mail / Hr
Airline System Two Short-Long Landings / Day	Airline System 1 Short-Long every 5 Years
Medical Profession 200,000 Wrong Drug Prescriptions / Week	Medical Profession 68 Wrong Drug Prescriptions / Week

Six Sigma Means

...an initiative
- Improvement
- Breakthrough
- Right Projects
  - Linked to Business Goals
- Right People
  - Selected & Trained
- Project Management
  - Management Reviews
- Right Results
  - Process & Financial ($$)
- Sustaining Gains

...a methodology
- Process Thinking
- Process Variation
- Facts, Figures, Data
- DMAIC or CDOV
- Statistical Tools
- Critical Few Variables

...a measurement
- Quantifies our Process Capability

- Six Sigma is a philosophy for managing process improvement.
- Six Sigma is a way to integrate quality into day-to-day activities.
- Six Sigma is a means of continuously improving to meet customer needs.
- Six Sigma is a measurement of defects and variation.

6σ

Basic Road Map of Six Sigma improvement is

Two Roadmaps
- DMAIC (Also known as Operational Six Sigma)
  - Define, Measure, Analyze, Improve, Control: disciplined methodology utilized to manage Six Sigma projects that are focused on improving an existing product or an existing process
- CDOV (Also know as DFSS – Design for Six Sigma)
  - Concept, Design, Optimize, Verify: disciplined methodology utilized when we need to design a new product or a new process

Six Sigma Focus on

- Not all variation is bad
  - New products
  - New services
- All variation degrades performance
- Variation buffers include:
  - Inventory
  - Time
  - Extra Capacity
- Six Sigma focuses on
  - Variation due to process
  - Variation due to flow

Sources of variation can be:
- Identified
- Quantified and prioritized
- Eliminated or greatly reduced

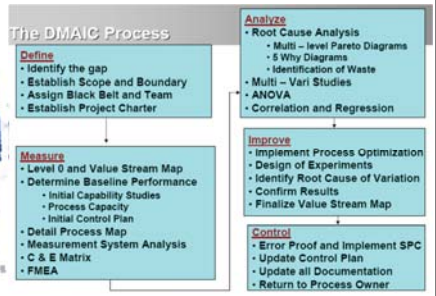
TYPICAL SIX SIGMA QUALITATIVE TOOLS

- Audits
- Benchmarking
- Brainstorming
- Cause and Effect Diagrams
- Design Review
- FMEA
- Housekeeping
- Process Mapping
- Quality Function Deployment
- Total Employee Involvement
- Workplace Organization
  - "5S + 1"

TYPICAL SIX SIGMA QUANTITATIVE TOOLS

- Capability Analysis
- Check Sheets
- Control Plans
- Design For Six Sigma
- Design Of Experiments
- Gage Reliability and Reproducibility Studies
- Histograms
- Lead Time Analysis
- Pareto Analysis
- Statistical Process Control
- Statistical Tolerance Analysis

DMAIC Process is



DMAIC

- Once Projects are identified, the Six Sigma Methodology is applied to provide a structure to problem solving

The Methodology:

- Define the Process / Problem
- Measure the Process / Problem
- Analyze the Process / Problem
- Improve the Process / Problem
- Control the Process / Problem

What is Variable & what to Control

- ***Y's – the output of X's***
  - Key process output variable or customer requirement
  - The Y (output) is affected by the X's (inputs)
- ***X's***
  - Key process input variable
  - If the X's are not controlled then the Y is affected

$$y = f(x_1, x_2, \ldots, x_k)$$

If we understand and control the X's - then the Y's will be in control

Define:
-Imagine Future

Create a vision of the future with a clear and pressing need for change unconstrained by today's realities:

- Why is current reality bad?
- What's in it for the customer?
- Who is the sponsor and process owners?
- What is the proper scope?
- Are people ready to act?

1. Project Charter SMART Metrics

S pecific

M easurable

A ggressive but achievable

R elevant

T ime Bound

Example: Improve the ***Billing and Invoice process*** from a ***32% backlog*** to a ***4% backlog*** by ***August 31, 2020***

Types of Process Map

- 'Level 0' Process Map (I-P-O or SIPOC)
  - Used to define the macro level for Suppliers and Customers. (Only 3 or 5 blocks in map)
- Value Stream Map
  - Process and information flow (macro)
  - Key metrics (e.g. cycle time, yield, inventory) for key process steps and for the overall project. Shows constraints.
- Detailed Process Map shows all steps in the process, including non-value adding steps.

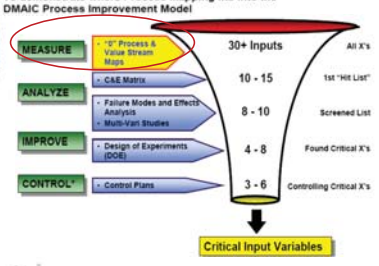
- Should describe:
  - Major activities / tasks
  - Sub-processes
  - Process Boundaries
  - Input Variables (X's)
  - Output Variables (Y's)
- Should be reviewed frequently and updated

$$y = f(x_1, x_2, ..., x_n)$$

Measure
- Process mapping

- Provide an overview of Process Mapping
- To show the step-by-step example of Process Mapping

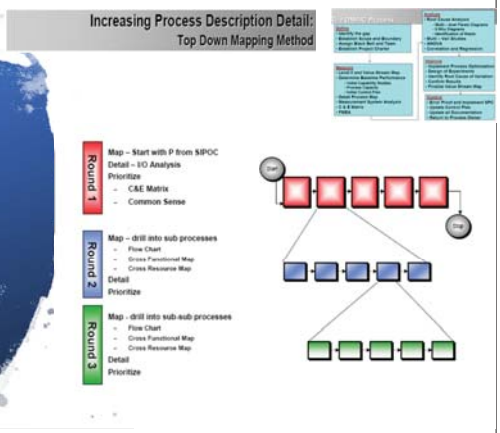
- To demonstrate where Process Mapping fits into the DMAIC Process Improvement Model



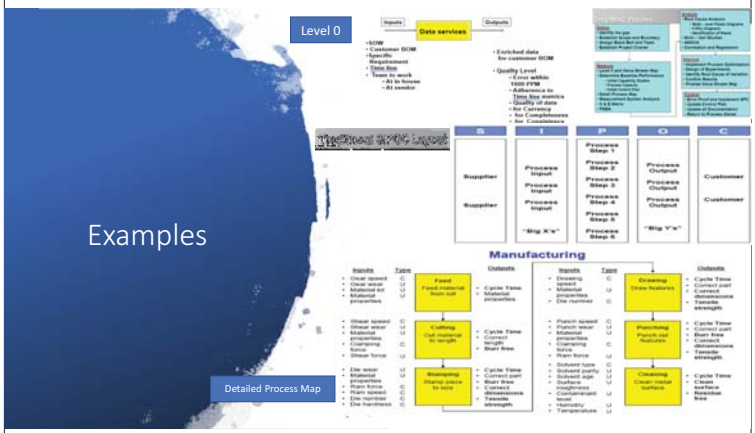
Process Map is

- *What is the tool?*
  - Graphical illustration of the work process
- *What will the tool identify?*
  - All value-added and non-value-added process steps
  - Process Inputs (X's)
  - Process Outputs (Y's)
  - Data Collection Points
  - First Input Variables to put in FMEA
- *When do you apply process mapping?*
  - Always
- *What are results of Process Mapping?*
  - Identify Output Variables for Capability Studies

Process Mapping Method

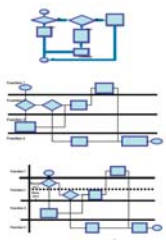


Examples



Types of Process Map

- Flow Chart (aka Block Diagram)
  - Shows process steps, without worrying about details
  - Useful as a first pass to understand process steps
- Cross Functional Map (aka "Swim lane")
  - Rearranges flow chart process steps into lanes of functions
  - Clearly shows hand-offs
  - Process steps move left to right as time progresses
- Cross Resource Map
  - Further drill down into functions, showing actual resource to resource hand offs



Measure
- FMEA

- Provide insight to the uses of FMEA
- Identification of risk sources
- A structured approach to:
  - identifying the ways in which a product or process can fail
  - estimating the risk associated with specific modes of failure
  - prioritizing the actions that should be taken to reduce the risk
  - evaluating the design validation plan (Product) or the current control plan (Process)
- Primary Directive: Identify ways the product or process can fail and eliminate or reduce the risk of failure

Measure
- FMEA

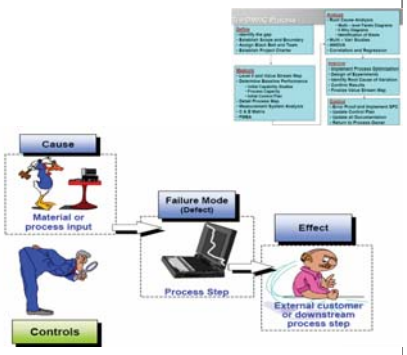
Type of Risk

The Opportunities to Reduce or Eliminate Failures Decrease with Time

Type of FMEA

- System - used to analyze complete systems and sub-systems in the early concept and design stages
  - Focuses on potential failure modes, caused by the design, associated with the functions of the system
- Design - used to analyze product designs before they are released to production
  - Focuses on Product Function
  - Assumes that the product is properly manufactured to the specifications
- Process - used to analyze manufacturing and assembly processes
  - Focuses on Process Inputs (what can go wrong in the manufacturing process)
  - Assumes that all components meet the design requirements

Measure
- FMEA Model



Measure
- FMEA

FMEA Input & Output

- Inputs
  - Process map
  - C&E matrix
  - Process history
  - Process technical procedures
  - Team experience and knowledge of the process
- Outputs
  - List of actions to prevent causes or to detect failure modes
  - History of actions taken

Failure Mode

- Failure Mode - the way in which a specific process input fails. If the mode is not detected and either corrected or removed it will cause Effect to occur
- Can be associated with a defect (in discrete manufacturing) or a process input variable that goes outside of specification
  - Anything that can be wrong with a process input or output is considered a Failure Mode

Effect

- Failure Effect - impact on customer requirements - generally external customer focus, but can also include internal customers / downstream processes

Cause

- Cause
  - Sources of variation that allow the Failure Mode to become active
  - Identification of Causes should start with Failure Modes associated with the highest severity ratings

Current Control

- Current Controls (Sometimes referred to as Methods of Verification)
  - Systematized methods/devices in place to prevent or detect Failure Modes
  - Three types of control methods
    - Type 1: Prevents the Cause or prevents the Cause from leading to the Failure Mode
    - Type 2: Detects the Failure Mode in time to lead to corrective action before the Effect takes place.
    - Type 3: Detects the Effect of the Failure Mode after it has occurred.
  - Prevention consists of mistake proofing (Poka Yoke), automated control and set-up verifications
  - Detection consists of audits, checklists, inspection, laboratory testing, training, SOP's, preventive maintenance, etc.
- Which is more important to process improvement -- prevention or detection?

FMEA Output

- The output of an FMEA is the Risk Priority Number
- The RPN is a calculated number based on information you provide regarding
  - the SEVERITY of the EFFECT,
  - the probability of OCCURRENCE of the CAUSE
  - the ability of the CURRENT CONTROLS to DETECT the failures modes
- It is calculated as the product of three quantitative ratings, each one related to the effects, causes, and controls:

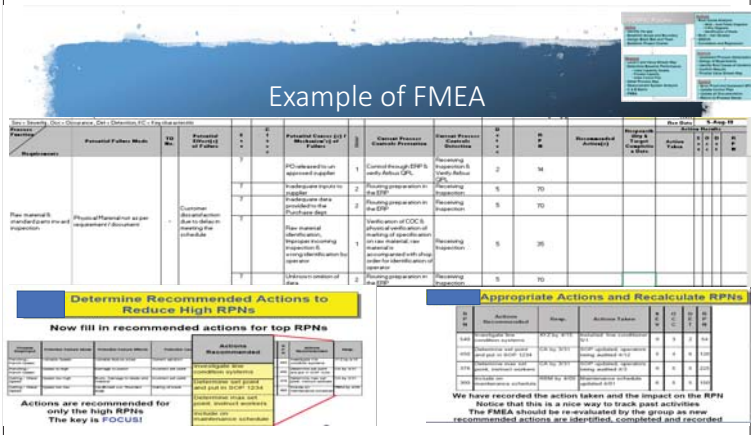
RPN = Severity X Occurrence X Detection
Effects | Causes | Controls

- Risk Priority Number is not perfect
- Scaling for Severity, Occurrence and Detection can be locally developed

- Severity (of Effect) - importance of effect on customer requirements - could also be concerned with safety and other risks if failure occurs (1=Not Severe, 10=Very Severe)
- Occurrence (of Cause) - frequency with which a given Cause occurs and creates Failure Mode. Can sometimes refer to the frequency of a Failure Mode (1=Not Likely, 10=Very Likely)
- Detection (capability of Current Controls) - ability of current control scheme to detect or prevent:
  - the causes before creating failure mode
  - the failure modes before causing effect
  - 1=Likely to Detect, 10=Not Likely at all to Detect

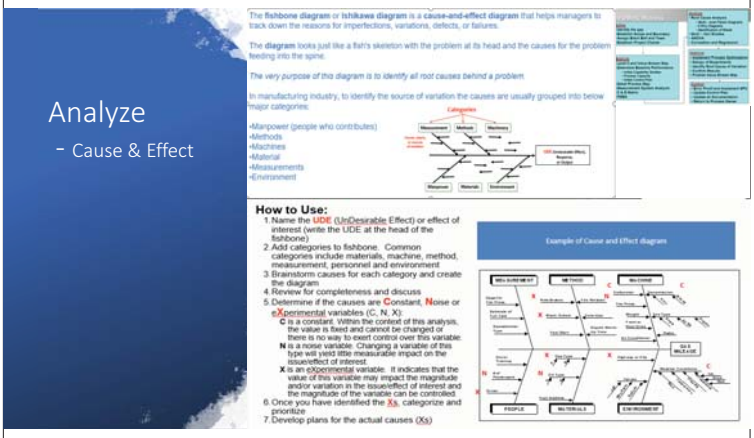
Rating	Severity of Effect	Probability of Occurrence	Ability to Detect
10	Hazardous without warning	Very high: Failure is almost inevitable	Can not detect
9	Hazardous with warning		Very remote chance of detection
8	Loss of primary function	High: Repeated failures	Remote chance of detection
7	Reduced primary function performance		Very low chance of detection
6	Loss of secondary function	Moderate: Occasional failures	Low chance of detection
5	Reduced secondary function performance		Moderate chance of detection
4	Minor defect noticed by most customers		Moderately high chance of detection
3	Minor defect noticed by some customers	Low: Relatively few failures	High chance of detection
2	Minor defect noticed by discriminating customers		Very high chance of detection
1	No effect	Remote: Failure is unlikely	Almost certain detection

Example of FMEA



Analyze

- Cause & Effect



Analyze

- Check Sheet

STEPS FOR MAKING A CHECK SHEET

1. Establish what Information is needed
2. Determine 5W and 2H
3. Construction
4. Testing
5. Take the final approval for Use.

Step 1. Establish what Information is needed

1. Define what Information is needed?
2. Sometimes this sheet is known as record form, data form, etc..

Step 2. Determine 5W 2H :

1. Why is the Data needed?
2. What type of Data collection is required?
3. Where the Data should be collected from? (Plant/Machine/Place)
4. Who must collect the Data? (Operator/Supervisor/Manager)
5. When will the Data be collected? (Every hour/Every shift/Every Day)
1. How the Data should be measured? (Instrument)
2. How much the Data is essential?

Step 3. Construction of the Sheet

Check Sheet has three types of Information.
1. Title
2. Source Information
   a. Name of the Project/Problem theme.
   b. Location of data collection.
   c. Date and/or Time.
   d. Name of the person recording data.
3. Content Information.
   a. Column/Row with defect/event name.
   b. Then Column/Row to record frequency.
   c. And Column/Row to record total.

Mistakes	March			
	1	2	3	Total
Centering	||	|||	|||	8
Spelling	𝍸 ||	𝍸 𝍸 |	𝍸	23
Punctuation	𝍸 𝍸 𝍸	𝍸 𝍸	𝍸 𝍸 𝍸	40
Missed Paragraph	||	|	|	4
Wrong numbers	|||	||||	|||	10
Wrong page numbers	|	|	||	4
Tables	||||	𝍸	||||	13
Total	34	35	33	102

Analyze

- 5 WHY

Example of 5 Why Steps

A brainstorming tool used to identify root causes for process problems

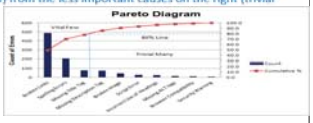
1.0 Why has the machine stopped?
The Fuse had Blown
2.0 Why had the fuse blown?
There was an Overload
3.0 Why was there an overload?
Poor lubrication due to low pump pressure
4.0 Why was the pump pressure low?
The Pump shaft was Worn
5.0 Why was the shaft worn?
Metal shavings were getting into the pump because there was no strainer on the inlet

Analyze
- Pareto Analysis

- Pareto Analysis is a statistical technique in decision-making
- Used for the **selection of a limited number of tasks** that produce significant overall effect.
- It uses the Pareto Principle (also known as the **80/20 rule**).
- The idea that by doing **20% of the work** you can **generate 80% of the benefit** of doing the entire job.

Here are steps to identify principle causes, using Pareto Analysis:

- Create a vertical bar chart with causes on the x-axis and count (number of defects) on the y-axis.
- Arrange the bar chart in descending order of cause importance that is, the cause with the highest count first.
- Calculate the cumulative count percentage for each cause in descending order. Percentage calculation: (Individual Cause Count) / (Total Causes Count)*100
- Create a second y-axis with percentages descending in increments of 10 from 100% to 0%.
- Plot the cumulative count percentage of each cause on the x-axis.
- Join the points to form a curve.
- Draw a line at 80% on the y-axis running parallel to the x-axis. Then drop the line at the point of intersection with the curve on the x-axis. This point on the x-axis separates the important causes on the left (vital few) from the less important causes on the right (trivial many).



Control
- Control Chart

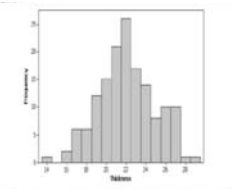
Control chart is also called as **Shewhart Chart** named after **Walter A. Shewhart** is basically a statistical chart which helps in determining if an industrial process is within control and capable to meet the customer defined specification limits.

The very purpose of control chart is to determine if the process is stable and capable within current conditions.

In Control Chart, data are plotted against time in X-axis. Control chart will always have a central line (average or mean), an upper line for the upper control limit and a lower line for the lower control limit.

This tool also helps in identifying how well any manufacturing process is in line with respect to customer's expectation.

Control
- Histogram



Now imagine the same data, grouped into "intervals" with the number of times that a thickness data point falls within a given interval determining the height of the interval bar.

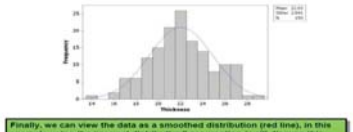
Purpose:
- A bar chart showing a visual representation of the spread, or distribution, of data
- It is used with either continuous data or counts of attribute data

When to Use:
- To visually understand the variation in the data
- To visually understand the normalcy of the data compared to the bell curve

How to Use:
- Use an analysis tool to graph the data
- Look at the data compared to the mean; the closer the data is to the mean the less variation
- Appearance of a histogram is dependent on the number of "classes" for the horizontal axis
  - Too few classes will "over summarize" the data
  - Too many classes will not adequately summarize the data

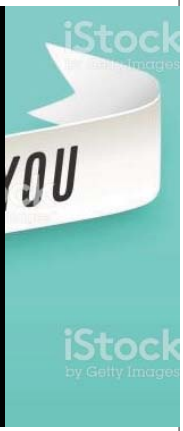
WHEN TO USE A HISTOGRAM

Use a histogram when:
- The data are numerical
- You want to see the shape of the data's distribution, especially when determining whether the output of a process is distributed approximately normally
- Analyzing whether a process can meet the customer's requirements
- Analyzing what the output from a supplier's process looks like
- Seeing whether a process change has occurred from one time period to another
- Determining whether the outputs of two or more processes are different
- You wish to communicate the distribution of data quickly and easily to others



Finally, we can view the data as a smoothed distribution (red line), in this example using the "normal distribution" assumption (we'll discuss this later). It provides an approximation of how the data might look if we were to collect an infinite number of data points.

Q & A



Mr. Prashanth Kamath

Six Sigma Overview

What is 6SIGMA?

A step-by-step, **fact-based problem solving** methodology for continuous improvement. It is a method that uses critical thinking skills to help drive sound business decisions and deliver positive business impact.

Six sigma Problem solving method is recommended when

- A **known problem** exists, with an **unknown solution**
- Solving the problem will address **business objectives**
- The problem is of a manageable size (i.e., can be addressed within 3-6 months)
- **Data** can drive decisions
- Many **differing opinions** about the problem exist
- An openness to **new perspectives** exists

Introduction

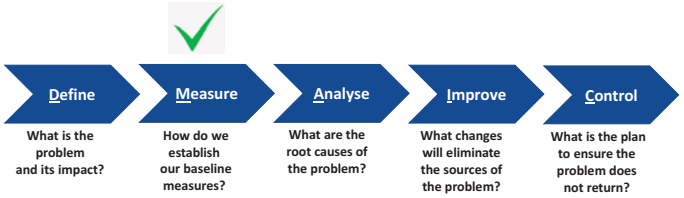
Name: Prashanth Kamath

Experience: 15years of experience in Banking Operations, Retail supply chain, Corporate IT and HR operations

Qualification: Finance Post Graduate, and a Certified Six Sigma Black Belt from Indian Statistical Institute, Bangalore

Presently working with Flipkart, Bangalore

Six Sigma Methodology



Measure Phase Overview

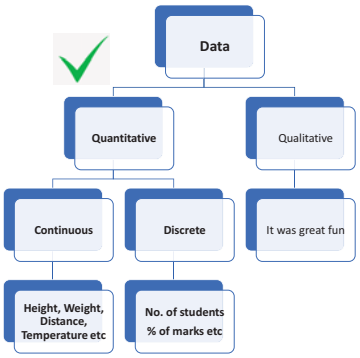
What is a Measure?

A measure is a quantified evaluation of characteristics or level of performance, based on observable data. Example, length of time (speed, age), Size (length, height, weight), Rupees (costs, sales revenue, profits), counts of characteristics or —attributes (types of customer, types of payment, vehicles, gender) counts of defects (number of errors, late deliveries, complaints)

Why Measure?

- Establish the current performance level (baseline)
- Determine priorities for action—and whether or not to take action
- Confirm the magnitude of the problem
- Confirm where the problem is the largest
- Gain insight into potential causes of problems and changes in the process
- Prevent problems and predict future performance

Data Types Overview



Data Overview

What is a Data?

The **word data** means "known facts". **Data** refers to numbers.

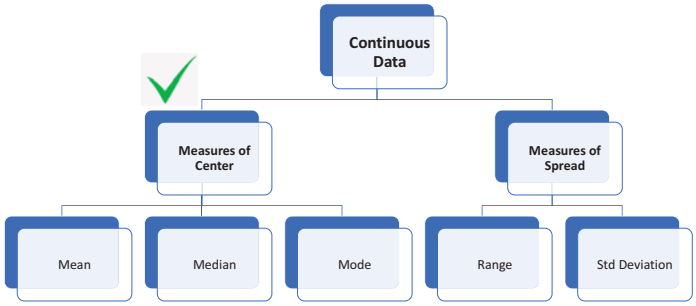
Examples of Data:

- No. of cars sold by Maruti Suzuki in Bagalkot dist.
- Quantity of grapes grown by the farmers in the year 2019.
- No. of students who scored 75% or more in all semesters in Mechanical engineering dept.
- Time taken to travel in a car from Bagalkot to Hubbali.
- Amount of rainfall received in the year 2020.

Continuous Data

Continuous Data Overview

Continuous data is quantitative data that can be measured. Example, Mileage, temperature, Height, weight, length etc.



Measures of Center continued..

Median: This is the **middle number** in a sorted (ascending or descending) data set. When we have too many outliers in a given data set, **we use Median instead of Mean**

Date	Travel time (in Mins)
1/6/2020	100
2/6/2020	139
3/6/2020	102
4/6/2020	145
5/6/2020	103
6/6/2020	102
7/6/2020	163
8/6/2020	102
9/6/2020	144
10/6/2020	209
11/6/2020	108
12/6/2020	155

Mean: 131 Minutes

Date	Travel time (in Mins)
01-06-2020	100
03-06-2020	102
06-06-2020	102
08-06-2020	102
05-06-2020	103
11-06-2020	108
02-06-2020	139
09-06-2020	144
04-06-2020	145
12-06-2020	155
07-06-2020	163
10-06-2020	209

Median: 108 Minutes

Measures of Center

A **measure of center** is a summary statistic that represents the **center point** of a dataset.

Mean: This is also known as the **average** of a data set. It is quick and easy to calculate the Mean. Example, average time taken to travel from Bagalkot to Vijayapura.

Date	Travel time (in Mins)
1/6/2020	100
2/6/2020	105
3/6/2020	102
4/6/2020	108
5/6/2020	103
6/6/2020	102
7/6/2020	100

- **Step 1** – Add all the data points in the column – Travel time
- **Step 2** – Count the number of data points in the column – Travel time
- **Step 3 –** Divide step 1 by Step 2

102.85 or 103 minutes

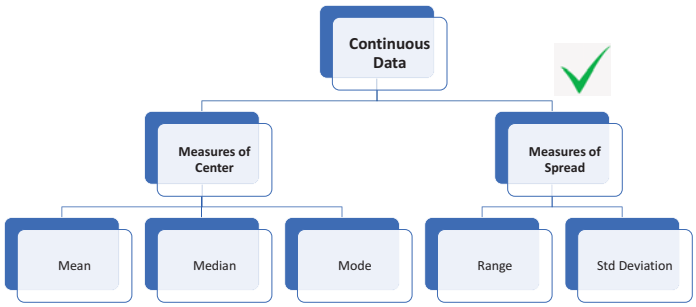
Measures of Center continued..

Mode: This is the number that appears **most frequently** in a data set.

Date	Travel time (in Mins)
01-06-2020	100
03-06-2020	102
06-06-2020	102
08-06-2020	102
05-06-2020	103
11-06-2020	108
02-06-2020	139
09-06-2020	144
04-06-2020	145
12-06-2020	155
07-06-2020	163
10-06-2020	209

Mode: 102 Minutes

Measures of Spread



Measures of Spread contd..

Standard deviation is a measure of the amount of variation of a set of values. A low standard deviation indicates that the values tend to be close to the mean of the set, while a high standard deviation indicates that the values are spread out over a wider range.

Name	Marks Scored
Prakash	63
Harish	68
Raman	61
Rama	72
Raghav	66
Vinay	62
Sudha	70
Vijay	69
Sailaja	65
Sameera	60

Measures of Spread

Range is the difference between the Highest and Lowest values in a given data set

Student name	Marks obtained
Ajay	100
Vijay	102
Suresh	102
Mahesh	102
Raghav	103
Ravi	108
Sumanth	139
Peter	144

Calculation of Range:

Step 1: Identify largest Value in the data set

Step2: Identify Smallest value in the data set

Step3: Subtract Step 2 from Step 1

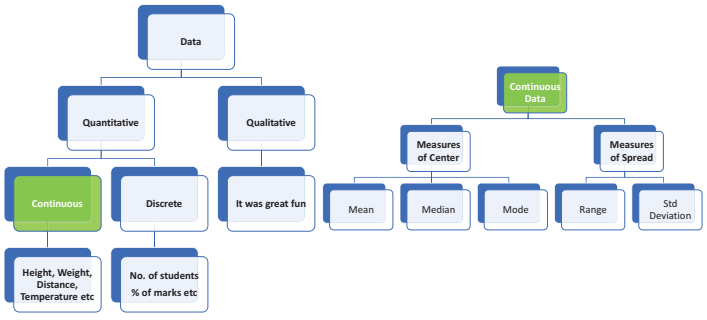
Range of the data is **44**

Calculation of Standard Deviation

Name	Marks	Marks - Average	(Marks - Average)2
Prakash	63	-2.6	6.76
Harish	68	2.4	5.76
Raman	61	-4.6	21.16
Rama	72	6.4	40.96
Raghav	66	0.4	0.16
Vinay	62	-3.6	12.96
Sudha	70	4.4	19.36
Vijay	69	3.4	11.56
Sailaja	65	-0.6	0.36
Sameera	60	-5.6	31.36
Total	656		150.4
# of students	10		10
Average	65.6		15.04
Square root (Std deviation)			3.88

1) **Total** the marks of all the students
2) **Calculate** number of students
3) **Calculate** the average of the marks scored by all
4) **Subtract** marks of all students from the average.
5) **Calculate** square of values derived in step 4
6) **Add** all the values derived in step 5
7) **Divide** the value derived in step 6 by # of students
8) **Calculate** square root of the value derived in step 7. **This is the standard deviation**

Recap

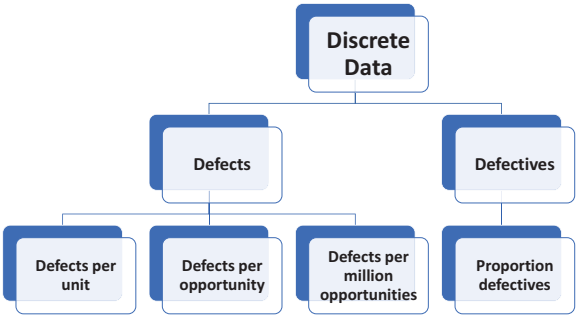


Discrete Data

Break time

Discrete Data Measurement Overview

Discrete data is that data which can only be counted. Example, # of students in the class, Percentage of marks scored by the students etc.



Defects & Defectives Overview

Defects and Defectives: The term **Defect** means a **shortcoming** or **imperfection** in a product or service delivered. If a product or a service has **one or more defects** in it, then such a product or service is called as a **Defective** product.

1) How many cups are there?
2) In total how many defects are there in this lot of cups?
3) How many cups have more than 2 defects in them?
4) How many cups have only 1 defect in them?
5) How many defective cups are there?

Defects Measurement contd..

DPO: Defects per opportunity is method where we calculate number of defects based on number of opportunities per unit

Calculation method: DPO = Number of defects / Number of units X Number of opportunities per unit

A cup manufacturer in order to control the quality of cups manufacturing has identified 3 opportunities in a cup namely the **base of the cup**, the **cup handle** and the **top of the cup** as critical to quality. If any of these parameters are found to be broken, then such a cup will be thrown away. Calculate DPO for the output of 5 cups manufactured.

Number of defects – 5

Number of units (Cups) – 5

# of opportunities per unit – 3

DPO = 5/5*3 = 0.333

Defects Measurement Overview

DPU: Defects per unit is a method where we calculate number of defects in a product or a service. It is calculated by dividing defects by total units.

Student Name	# of physics questions attempted	# of questions answered correctly	# of questions answered incorrectly
Hari	15	12	3
Sudha	14	9	5
Pratap	13	12	1
Sumana	11	8	3

Defects Measurement contd..

DPMO: Defects **P**er **M**illion **O**pportunities is method where we calculate number of defects based on per million opportunities.

Calculation of DPMO

$$\frac{\text{Number of defects}}{\text{Number of units X No. of opportunities per unit}} \times 10{,}00{,}000$$

Number of defects – 5

Number of units (Cups) – 5

# of opportunities per unit – 3

DPMO = 5/5*3 X 10,00,000 = 3,30,000

Proportion defectives

Proportion defectives is a percentage value. It is calculated by **dividing** the number of **defective** units by the **total number** of units, and then **multiplying** by 100 to get a percentage.

Number of defective cups – 5

Total Number of cups – 11

Proportion defectives – 5/11 X 100 =45.45%

Quality is not act. It is a habit." ~Aristotle

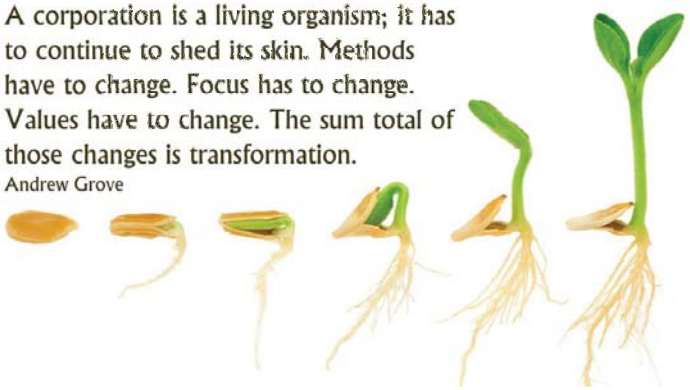
SIX SIGMA CASE STUDIES

BY

Dr VINOD S PURANIK
Professor and Head
Department of Industrial and Production Engineering
Basaveshwar Engineering College Bagalkot-Karnataka

A corporation is a living organism; it has to continue to shed its skin. Methods have to change. Focus has to change. Values have to change. The sum total of those changes is transformation.
Andrew Grove



Session Coverage

- Six Sigma Projects
- **Strategy for Implementation of SIX SIGMA Projects**
- Case Analysis

Six Sigma Projects

- **The Six Sigma method adopted the idea of project-driven business system improvement. A Six Sigma project is targeted to have a duration of three to six months.**
- **Six Sigma Project Management Tools include project identification and selection methods, basic team development approaches, basic project planning and control tools, and post project evaluation methods.**

Continued

- Any project should have identifiable process inputs and outputs.
- A good Six Sigma project should never have a pre-determined solution.
- If you already know the answer, then just go fix it!
- For projects that have operator or operator training as an input, focus on ways to reduce operator variation, therefore making your process more robust to different or untrained operators.
- All projects need to be approached from the perspective of understanding the variation in process inputs, controlling them, and eliminating the defects.

FINDING AND SELECTING GOOD SIX SIGMA PROJECTS

- Obvious Areas For Improvement
- External Defects
- Anything you have recently been audited or formally rejected for
- Anything you haven't been audited or rejected for, but you know is out of specification or not meeting regulations
- Anything you inspect and/or contain to protect the customer
- Internal Defects
- Any scrap issues, parts, or materials
- Anything you rework/recycle in house – you should keep accurate track of rework by defect
- Efficiency/Capacity Issues
- Anywhere you make less parts than expected
- Anytime you are currently working non-customer driven overtime

Ways to Avoid a Six Sigma Project Failure

What happens when a process improvement method fails to improve a failing process?

This forces the question: Is it the methodology itself, or is the problem in the application?

With factors like these working in its favor, why aren't some organizations getting better process improvement results from Six Sigma?

This flawed application can take on several forms:

- Little or no support from upper management
- Erratic team leadership
- No connection to financial performance

How to find the perfect project for Six Sigma success

With its deep emphasis on process, Six Sigma isn't a tool for every problem. Here are six tips for finding just the right organizational issues that Six Sigma can successfully address

- Poll leadership
- Look for process-oriented problems
- Look to the customer
- Ask your stakeholders
- Ask your stakeholders
- Identify variations, but consider the impact
- Try something new

How to Improve Quality Improvement Projects

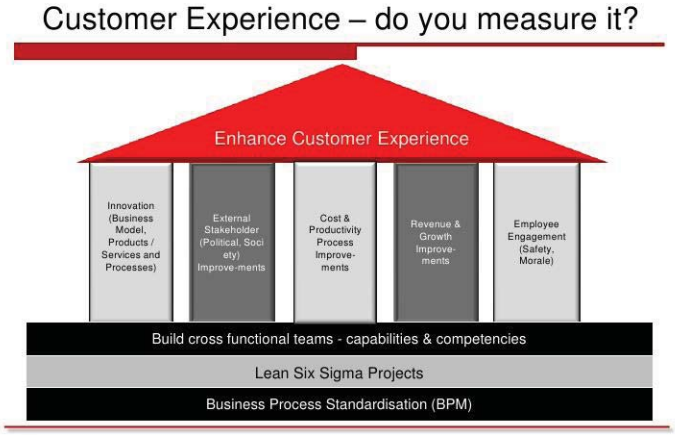
Several actions can address common reasons for Six Sigma project failure:

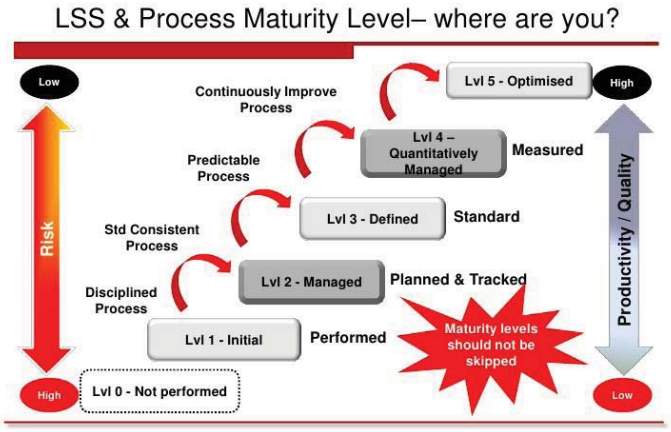
- Bridge the gap with management.
- Consistent team leadership
- Promote a project's financial impact
- Use of better method

Strategy for Implementation of SIX SIGMA Projects

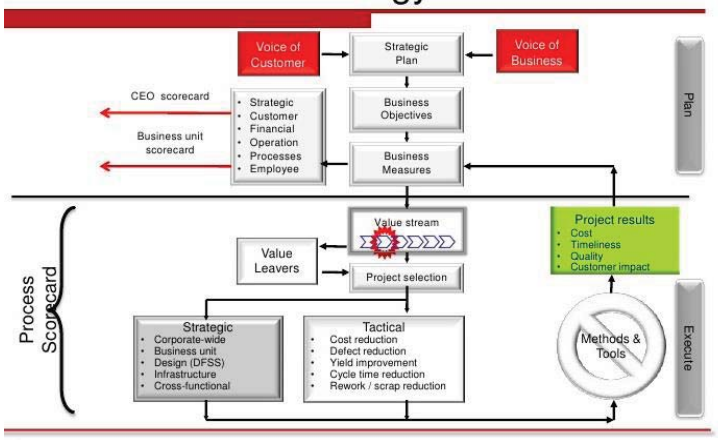
	Launch	Early Success	Scale Replication	Institutionalization	Culture Transformation
Culture Change					DNA of Org.
Beyond DMAIC				DFS, Lean	IT, Product Dev.
Strategy Maturing			Maps, Goals	Project Roll-up	Full Closed-Loop
Software		Excel, Stats	Project Tracking	Portfolio Mgmt.	Strategy + Portfolio
Reporting	Anecdotal	Aggregate, Average	Aggregate, Average	Cross-org. Comps.	Multi-Year History
Financial Impact	Ad hoc	Cost Reduction	Consistency, EP	Validation	General Ledger
Project Selection	Burning Platform	Low Hanging	Copy Success	Idea Pipeline	Formalized Eval.
People	Driven Few	More Believers	Career Development	Repatriated	Majority
Training	Champion, Exec.	External	External, Custom	Internal, eLearning	Internal, Specialty
Leadership Support	1 or 2 Visionaries	Validated	Across Company	Expected	Ingrained
	Level 1	Level 2	Level 3	Level 4	Level 5
	3-9 Months	6-18 Months	12-36 Months	24-48+ Months	

Overview of the Six Sigma Maturity Model



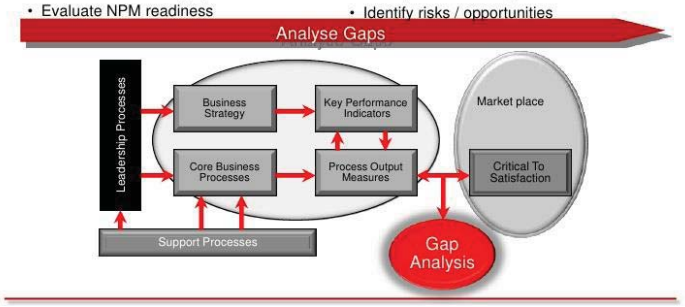


Your Business Strategy & VOB / VOC

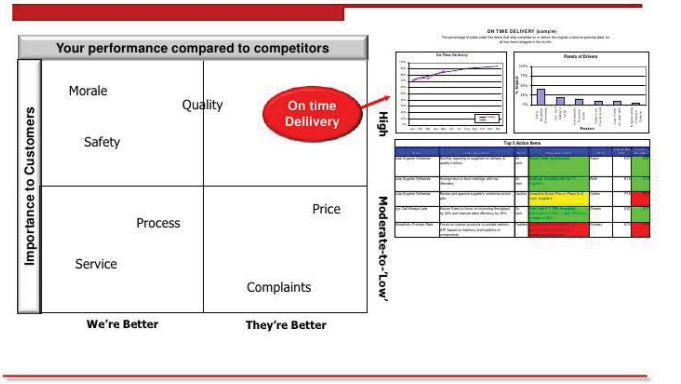


Have you analysed your gaps?

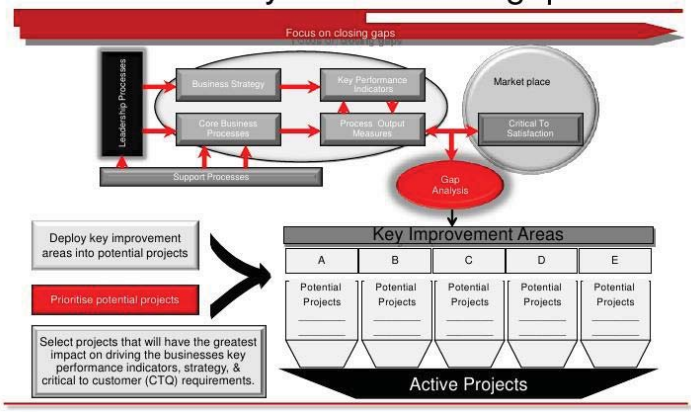
- Business alignment planning
- Evaluate market position
- Estimate breakthrough potential
- Evaluate NPM readiness
- Establish benchmarks
- Executive ownership of findings
- Identify barriers to implementation
- Identify risks / opportunities



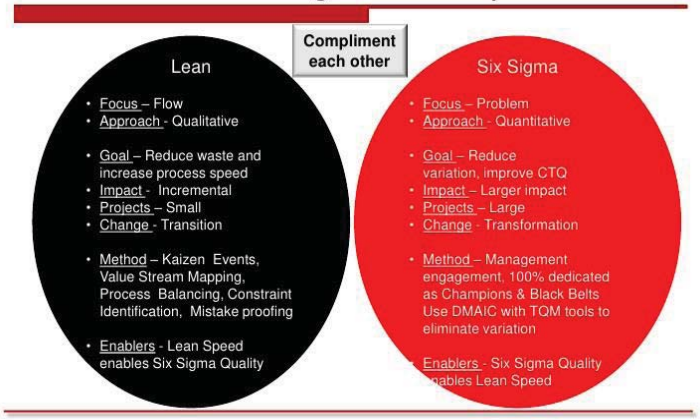
Customer Focused



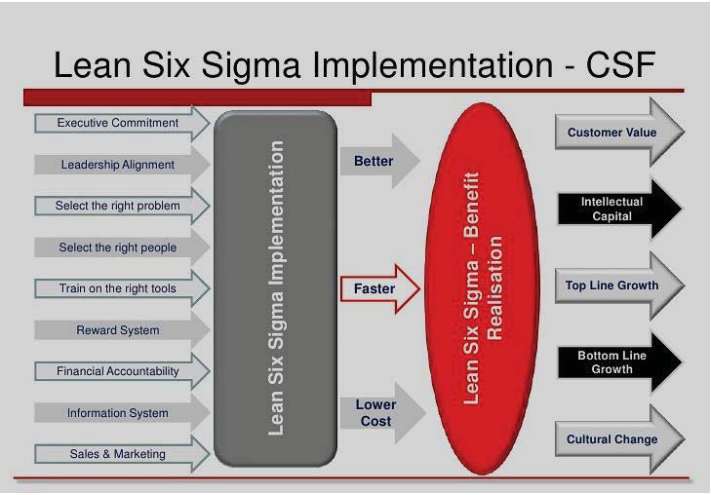
How have you closed the gaps?



Lean & Six Sigma - Comparison



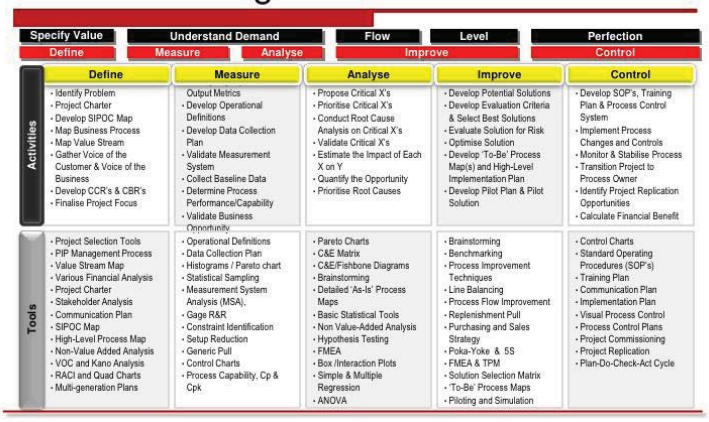
Lean Six Sigma Implementation - CSF



Lean & Six Sigma – Tool Comparison

Tools / Techniques	*6 sigma*	*Kaizen*	*Lean*	*Process capability assessment*
Cp/Cpk	x			Process capability assessment
DOE	x			Design of experiments
SPC	x			Process control based on statistics and data analysis
FMEA	x			Risk assessment tool
Regression	x			Correlate effect one variable has on another
Process Map	x	x	x	Map process steps to communicate and identify opportunities
5 whys /2 hows	x	x	x	Determination methods for root cause discovery
Pareto	x	x	x	Column chart ranking items highest to lowest
Fishbone	x	x	x	Cause / Effect Diagram
5S		x	x	Elimination waste
Visual Mgmt	x	x	x	Emphasis on visual techniques to manage process
Poka-Yoke		x	x	Error proofing techniques
Spaghetti Chart		x	x	Data collection
Kanban		x	x	Material storage technique used to control process
Takt Time		x	x	Determine pace or beat of a process
Std Work		x	x	Evaluate tasks done during a process
SMED		x	x	Single minute exchange of dies - Quick machine set up
TPM			x	Integrate maintenance strategy with process
Cellular Flow			x	Reduce stock & cycle time via process layout and pull techniques

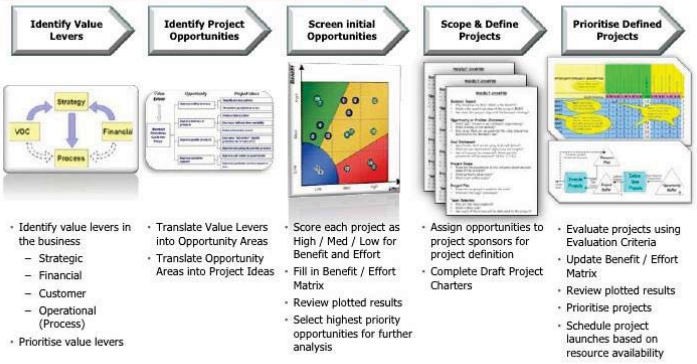
Lean Six Sigma – Activities & Tools



Lean Six Sigma – Common Tools

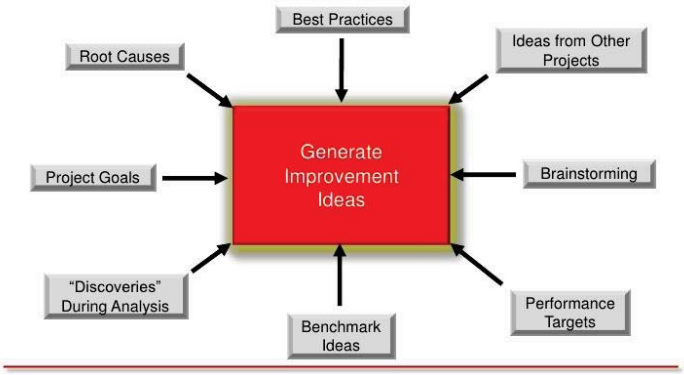
Six Sigma	Common	Lean
Statistical Methods	Project Charter	Lean transformation
Sigma Calculation	Process Base lining	Demand Flow Management
Regression Analysis	Poka-Yoke	Cycle Time Reduction
Analysis of Means	Workplace Organisation 5'S	Setup Reduction
Analysis of Variance	Procedure Documentation	Material Replenishment Models
Control Plans	Control Charts	Waste Identification
Design of Experiments	Advanced SPC	Product Segmentation
	Visual Management	Takt Time/ Line Balancing
	Total Productive Maintenance	Kaizen Blitz
	Process Mapping	Value Tree
	Problem Solving Method	Value Stream
	Quality Tools and Techniques	

How is your project selection done?

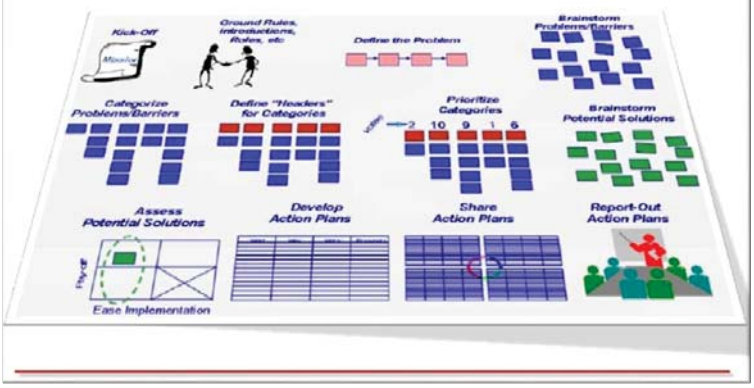


- Identify value levers in the business
  - Strategic
  - Financial
  - Customer
  - Operational (Process)
- Prioritise value levers
- Translate Value Levers into Opportunity Areas
- Translate Opportunity Areas into Project Ideas
- Score each project as High / Med / Low for Benefit and Effort
- Fill in Benefit / Effort Matrix
- Review plotted results
- Select highest priority opportunities for further analysis
- Assign opportunities to project sponsors for project definition
- Complete Draft Project Charters
- Evaluate projects using Evaluation Criteria
- Update Benefit / Effort Matrix
- Review plotted results
- Prioritise projects
- Schedule project launches based on resource availability

How do you generate improvement ideas?

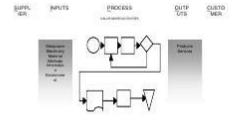


Team Plan



Measure Phase – Key Elements

1. Identify key metrics
2. Complete SIPOC



3. Operational Definitions

4. Data Collection

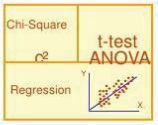
Hypothesis-Testing

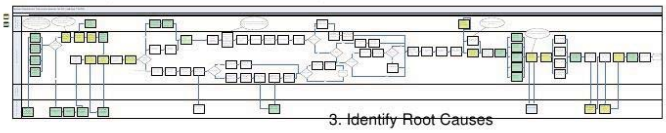


Regression Analysis

Design of Experiments

Analyse Phase – Key Elements

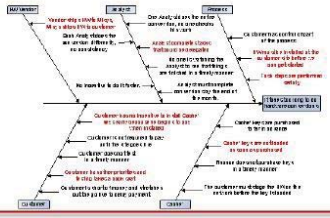
1. Develop Detailed "As-Is" Process Map



2. Conclusion on existing process:

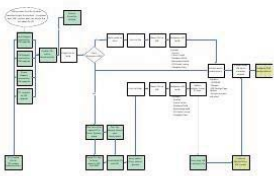
- Hub does not invoice the good until 30 days of receipt of goods to the loading dock
- Misys does not invoice Cache' key until installed Depot does not invoice for the goods delivered until 50 days from shipment date
- Inter-state travel take 10+ days as compared to air freight

3. Identify Root Causes



Improve Phase – Key Elements

1. SMEs accelerate parallel tasks



2. Improve new process and check data

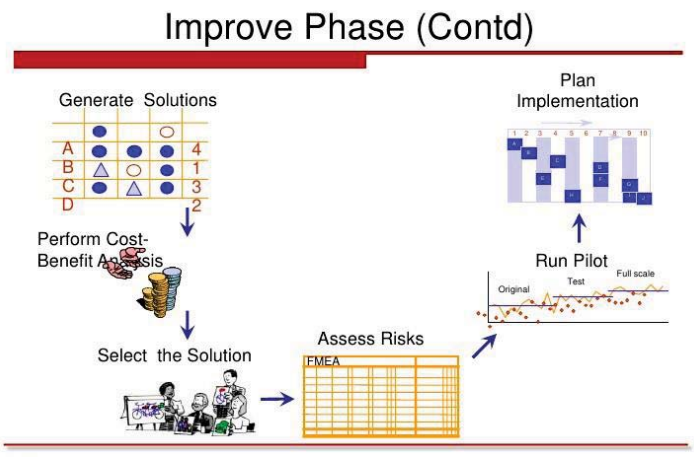
- Shipped data
- Customer receipt of goods (time & correct delivery location
- Evaluate the correct routines are followed

3. Executed Pilot

- Use new process for before and after shipment
- Upon shipment check that the customer is invoiced immediately
- Recorded hours spent
- Recorded time stamp when PO received
- Recorded time stamp when goods are shipped

4. Reviewed Pilot

- Black Belt and process owner review the results
- Process owner decided to continue with Pilot for all new process changes



Importance of Higher-order Abilities and Professional Skills

- In the present examination system, memorization occupies a dominant place.
- The assessment process must also test higher level skills viz. ability to apply knowledge, **solve complex problems, analyse, synthesise and design.**
- Further, professional skills like the ability to communicate, work in teams, lifelong learning have become **important elements for employability of the graduates.**
- It is important that the examinations also give appropriate weightage to the assessment of these higher-level skills and professional competencies.

CASE ANALYSIS

The Application of Six Sigma for Quality of Engineering Education"

The key to assessing quality in academia is to clearly define the process that occurs in the educational settings, and to identify those processes important to customer satisfaction. A vital process to customer satisfaction in academia is an educational program. Educational programs rather, than institutions, departments, or degrees are assessed for quality.

Core Processes and Key Customers

- **Essential processes behind an engineering program strategic plan are broken down into two parts – coursework and professional practice with an actual employer.**
- **Also, the driving forces of the program are: the primary customer, the student, and the program external customers – parents, employers, graduate schools, community and society, and professional societies.**

Define" Phase

In this phase it is important to understand what customers really want – and how their needs, requirements, and attitudes change over time. Making it a continuous effort may be critical to success.

Defining Customer Requirements and Program Objectives

A program should be driven by: establishing goals, by defining measurable program objectives,

Establishing an effective process,

Determining program outcomes that result from achieving program objectives.

Define program objectives and seek outcomes.

The objectives of the program would broadly reflect the needs of the students and the community as well.

Measuring Current Performance

Multiple assessment tools must be developed and implemented to validate the achievement of program outcomes.

To collect this kind of information, colleges use different assessment tools.

"Measurement" Phase

- This phase is about gathering enough data to compare business core processes.
- In many cases it can take a lot of time to collect enough evidence to perform valid analysis.
- The measurement phase must answer two fundamental questions: what to measure, and how to measure.

The course work is broken down into different educational aspects, the eight portfolio aspects,

The educators simultaneously monitor different skills that students should master as college graduates.

The professor will assign different grades for student's **writing skills, engineering design skills, IT skills, management skills, economics skills, and skills in engineering science**.

Students' achievements assessed this way highlight potential problems in education, and alter the outcomes of a program as well.

EMPLOYER SURVEY

1. Student's ability to apply knowledge of mathematics, science, and engineering is:
2. Student's communication skills (effective presentation, writes clearly and concisely, speaks effectively and clearly) is:
3. Student's ability to evaluate situations effectively is:
4. Student's ability to solve problems/make decisions is:
5. Student's professional attitude toward work assigned is:
6. Student's ability to demonstrate original and creative thinking is:
7. Student's ability to apply classroom learning to work situations is:
8. Student assumes responsibility and is accountable for actions.
9. Student shows initiative.
10. Student demonstrates a positive attitude toward change.
11. Student understands and contributes to the organizational goals.
12. Student functions well on multidisciplinary teams.
13. Student possesses honesty, integrity, and personal ethics.
14. Student uses technology, tools, instruments, and information.
15. Student understands complex systems and their interrelationships.
16. Student understands the technology of the discipline.
17. Student understands and works within the culture of the group.
18. Student respects diversity.
19. Student recognizes political and social implications of actions.

Student Exit Survey	Alumni Survey	Employer Co-op Survey	Student Co-op Survey	Portfolio Aspects

Some of the valuable information can be drawn from statistics on the data taken directly from the tables –

1. Report on the course work for a particular student evaluated for all portfolio aspects.
2. Report on a particular student co-op performance.
3. Report on the Programme outcomes of the program from the alumni survey aspect.

"Analysis" Phase

- **In this phase the assessors use measures to find out why things are happening in the process the way they do.**
- **Find out which process is involved, what is wrong, and what and how big is the opportunity for improvement.**
- **The model responds to these questions through the database design, a key building block for organizational Six Sigma system**

"Implementation" Phase

- Measurements are important to the effectiveness of a Six Sigma program.
- However, measurement by itself does not fix anything Moreover, it can reduce the effort if the organization spends considerable time and money collecting and analyzing data.
- The major value of a Six Sigma program should be the use of statistical techniques and the application of "continuous improvement" concept.
- If this is the focus of a Six Sigma initiative, customer satisfaction, cycle times, defect rates, and so on, will improve. outcomes.

❖ After the collected data is analyzed and conclusions are reached, the solutions must be implemented so that the overall process is improved (continuous improvement).

❖ In the implementation phase faculty together with other assessment team members will identify and implement solution for implementation of learning

Control" Phase

Following the implementation phase the process has hopefully improved.

- At this stage it is essential to institute steps that guarantee stability in the system – that is the process must be controlled and stabilized so that it can stay at the newly improved level until the next cycle begins.
- Final goal of an engineering program is to achieve its program objectives and program outcomes.
- In the control phase the emphasis is on the activities which help to control educational system that is in place as well as techniques to further develop and qualify potential solutions.
- Appropriate statistical process control (SPC) tools need to be used as screening techniques. The faculty and college administrators must implement measures that will control the key variables within the operating limits.

Implementing Improvements

- **This is the phase where all the work of Defining, Measuring, and Analysis process problems pays off.**
- **Six Sigma is usually a combination of ideas that together make up a plan for results**
- **reconstructing a program's curriculum, especially if the same problem is detected**
- **Faculty must also play a major role in program improvement**.
- These are the people who will initiate and implement necessary changes with respect to the above questions.

Control of the Process

Tests of Statistical Significance are very important techniques used to detect patterns or to test the quality of data.

Analysis of Variance (ANOVA) is a very important test of Statistical Significance. It is the test of significance for continuous data that can be used to compare more than two groups of data.

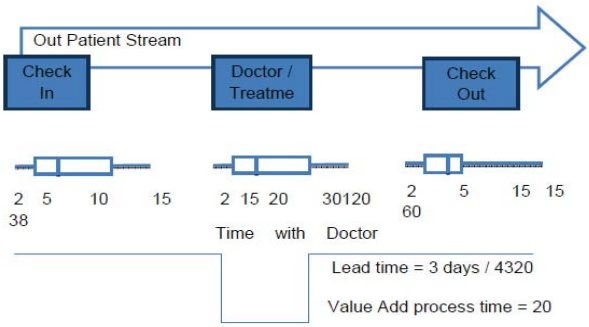
Using one-way ANOVA it is possible to conclude, for example, whether there is a sufficient amount of evidence to conclude that population means differ with respect to knowledge that students are required to demonstrate regarding the program objectives.

.

Conclusion

- Using Six Sigma methodology to improve the quality of engineering education
- superior approach to the problem and may be applied to any engineering college settings in order to support continuous quality improvement.
- The presentation given is a comprehensive guide to the real world application of Six Sigma in academia.
- It describes how this powerful methodology may be applied to any engineering program in order to offer high quality service for its internal as well as external customers.

• Opportunities Out-Patient value streams



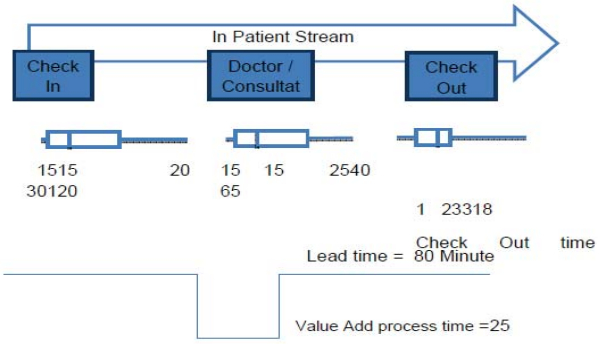
CASE ANALYSIS OF PATIENT WAITING TIME

A comprehensive analysis of the data pertaining to in-patient and out-patient waiting time and the scope of lean methods in this area.

Requiring management action to reduce waiting time which has been significantly high in order to bring much needed customer satisfaction levels in this regard.

Two types of survey techniques were employed for obtaining data, one through the in-patient and outpatient data, through online data gathering and the other through an independent sub-sample, through a personalized interview of Out-patients.

• Opportunities In-Patient value streams



It is observed in hospital content, the count of Out-Patient stream is 10 times higher than that of the In-Patient stream.

The overall Lead time for the out-patient stream has been on an average of 80 minutes and the process time / consultation time has been 20 minute

This reveals great opportunity to eliminate the 3 Mus. The following mapping of value streams brings out the area to reduce waiting time and to bring value addition within the entire lead time experienced by the patients / customers. The overall Lead time for the in-patient stream had been average at 4320 minutes (3 days of treatment) and the process time / treatment time with doctor had been 25 minutes This provides great opportunity to again eliminate the 3 Minutes in the system.
The sample analysis was based on close to 200 samples and the satisfaction levels at each stage of processing, ie., check in, treatment, consultation and check out shows that 50 to 60 % of the data are above the median value / USL Even though the doctors, paramedics and administrative staffs are busy and stressed out they are not able to satisfy close to 50 % of the patients and have got an average rating.

The Out-Patient overall treatment time is averaging at 81.5 mins with a mean and mode highly different and a large standard deviation of above 7. The distribution is also positively skewed. This indicates that management action to reduce treatment time is possible with simple root cause analysis.

• Out-Patient overall treatment time – Descriptive statistics

Out Patient overall Treatment Time (minutes)	
Descriptive Statistics	**Values**
Mean	81.5
Standard Error	9.4
Median	37.5
Mode	10
Standard Deviation	96.7
Sample Variance	9358.4
Kurtosis	1.475
Skewness	1.566
Range	370
Minimum	5
Maximum	375
Sum	8636
Count	106
Largest(1)	375
Smallest(3)	5
Confidence Level (95.0%)	18.6

Analysis of Patient Waiting Time

• Out-patient treatment time Vs at hospital departments

ANOVA: Single factor

SUMMARY

Groups	*Count*	*Sum*	*Average*	*Variance*
Department of Medicine	18	2455	136	14434.72
Department of ENT	5	155	31	1355
Department of Skin	19	375	20	248.538
Department of Surgery	19	425	22	1367.69
Department of Ophthalmology	24	3121	130	14649.61
Department of Paediatrics	2	415	208	25312.5
Department of Orthopaedics	11	770	70	1425
Department of OBG	8	920	115	3085.714

• **ANOVA Result**

ANOVA						
Source of Variation	*SS*	*df*	*MS*	*F*	*P-value*	F_{crit}
Between groups	304630	7	43518	6.2	4.19067E-06	2.10
Within groups	678005	98	6918			
Total	982636	105				

The ANOVA brings out that significant variation in overall time taken for giving treatment for both within and between departments.

A single factor analysis of variance (ANOVA) has been adopted to analyze department waiting time. The ANOVA indicates significant variation in waiting time from department to department with skin showing low of 20 minutes to Pediatrics at 208 minutes. Again Cause & Effect diagram, one of the TQM tools, will help to understand the root causes for these variations

- Proven technology

What is Required ?

- Design Assurance
- Quality Assurance
- Reliability Assurance
- Quality Control Including Parts, Materials & Processes
- Test and Evaluation
- Software Quality Assurance & Reliability
- Configuration Management

QUALITY MANAGEMENT PROCESS

QUALITY IN:

- DESIGN
  - MANUFACTURING
    - ASSEMBLY
      - TEST &EVALUATION

DETERMINES THE RELIABILITY

Meaning of Quality

- **Webster's Dictionary**
  - **degree of excellence of a thing**
- **American Society for Quality**
  - **totality of features and characteristics that satisfy needs**
- **Consumer's and Producer's Perspective**

Meaning of Quality: Consumer's Perspective

- **Fitness for use**
  - **how well product or service does what it is supposed to**
- **Quality of design**
  - **designing quality characteristics into a product or service**
- **A Mercedes and a Ford are equally "fit for use," but with different design dimensions**

Meaning of Quality: Producer's Perspective

- **Quality of Conformance**
  - **Making sure a product or service is produced according to design**
    - **If new tires do not conform to specifications, they wobble**
    - **If a hotel room is not clean when a guest checks in, the hotel is not functioning according to specifications of its design**

Meaning of Quality
A Final Perspective

- Consumer's and producer's perspectives depend on each other
- Consumer's perspective: PRICE
- Producer's perspective: COST

Consumer's view must dominate

Quality: Definition

- Quality is the totality of features and characteristics of a product or service that bear on its ability to satisfy stated or implied needs.
- Some goals of quality programs include:
  - Fitness for Use. (Is the product or service capable of being used?)
  - Fitness for Purpose. (Does the product or service meet its intended purpose?)
  - Customer Satisfaction. (Does the product or service meet the customer's expectations?)
  - Conformance to the Requirements. (Does the product or service conform to the requirements?)

Reliability

"Reliability is the probability that system should perform its intended functions for a specified period of time, under specified operating & environmental conditions".

- Probability
- Indented functions
- Specified period of time
- Specified operating & Environmental conditions

Why Reliability?

- ✓ Reduced Design Cycle Time
- ✓ Optimal Design
- ✓ Survivability in Manufacturing
- ✓ Survivability in Actual Usage
- ✓ Cost Reduction
- ✓ Customer Satisfaction
- ✓ Competitive in Business

RELIABILITY

Is the probability that an item will perform a required function under stated conditions, for a stated period of time.

$Rs(t) = e^{-\lambda t}$ (1) Arrhenius Equation

t = Mission time (Time of operation)

λ = Failure Rate in failures per million hour

Reliability express a probability value between 0& 1.

A value 0 means system definitely fails within its mission time &

'1' means system doesn't fails during its operational time.

Eg: An electric motor has MTBF of 1000Hrs,calculate its reliability for a continuous operation of one day

$R(t)= e^{-24/1000} = 0.9763$.The reliability of motor for one day operation is 0.976

General Concepts

Reliability is described by means of the single parameter

Exponential Distribution: $R(t)=e^{-\lambda t}$

Where:

λ	=	Failure rate
t	=	Mission time
M	=	MTBF = 1/λ

Reliability of a System:

$R_s = R_1 * R_2 * R_3 ********** R_n$

$R_s = e^{-\lambda s\, t}$

$R_s = e^{-(\lambda 1 + \lambda 2 + ... + \lambda n)\, t}$

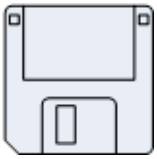
Additive term

NOTE: THESE CONCEPTS WERE ACCEPTED IN EARLY 1950'S AND HAVE BEEN APPLIED EVER SINCE.

Types of Systems

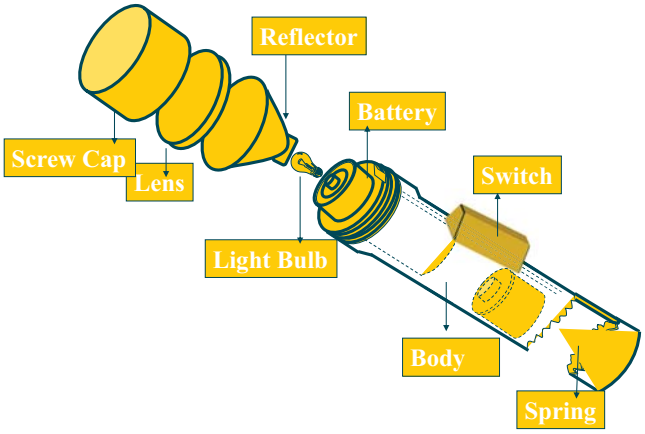
There are 2 basic types of systems

Non - Repairable



Repairable

Torch



Reliability of the Torch?

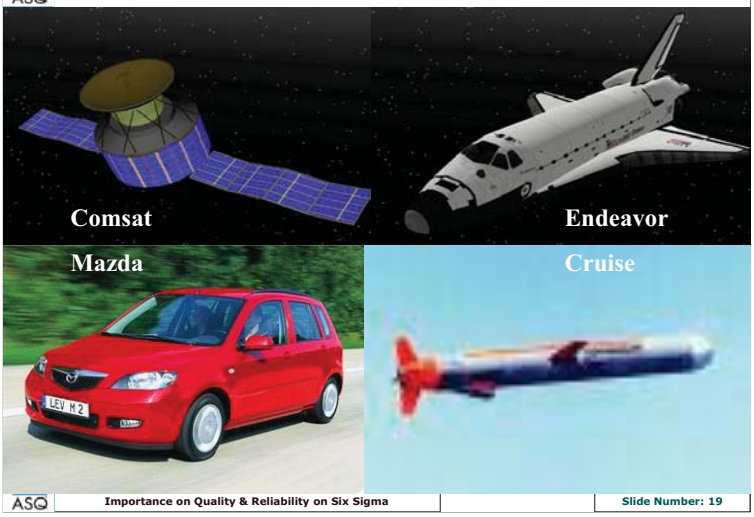
Well. It depends on the reliability of its parts.

Ok. Given that the parts have the following Reliability Levels ,what is the Reliability of the torch ?

1.	Screw cap	0.99
2.	Lens	0.99
3.	Bulb	0.95
4.	Battery	0.95
5.	Switch	0.80
6.	Body	0.99
7.	Spring	0.70

System Reliability Rs(t)= 0.490

What is the Mission Time?



Reliability of the Torch?

Well . It still depends on how it is used .

Usage includes :

Operation

Storage

Maintenance

Reliability Vs Mission Time

Mission Time (t)	Reliability (R)
t = MTBF	0.368
t = MTBF/2	0.606538
t = MTBF/4	0.77880091
t = MTBF/10	0.904837
t = MTBF/100	0.9900498
t = MTBF/1000	0.999000505

Desirable that MTBF >> Mission Time

Reliability - Objective

Objective :- Objective of Reliability engineering is to prevent the failures and to identify & control the causes of failures in order to have:

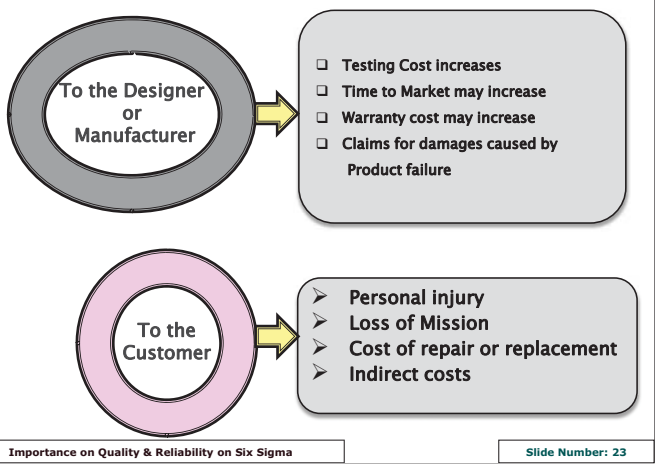
- Failure-free operation
- Mission safety
- Safety to People
- Reduce the overall economic losses
- Reduce schedule delay
- Safety to Property

Quality Vs Reliability

Reliability **is defined as the probability that an item will perform a required function without failure under stated conditions for a specified period of time.**

Quality **is a snapshot at the start of life and** ***reliability*** **is a motion picture of the day-by-day operation.**

When A Product Fails Its Effects



Causes Of Failure

- Deficiencies in design
- Deficiencies in material
- Deficiencies in processing
- Inadequate testing/Inspection
- Errors in assembly
- Improper service conditions
- Inadequate(Poor) Maintenance
- Over stressing
- Wear out
- Human Error
- Lack of protection against environmental condition

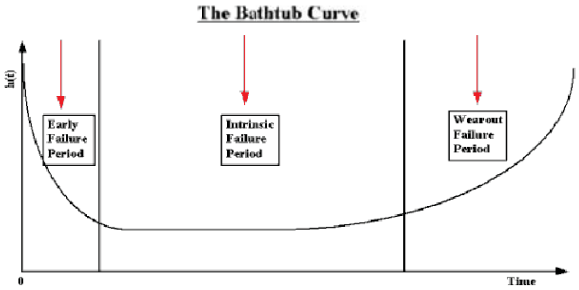
REASONS FOR POOR RELIABILITY

- IMPROPER DESIGN
- SELECTION OF MATERIALS/COMPONENTS
- WRONG MANUFACTURING TECHNIQUES
- LACK OF TOTAL KNOWLEDGE
- COMPLEXITY (ORGANIZATIONAL & DESIGN)
- POOR MAINTENANCE
- HUMAN ERRORS

HOW TO IMPROVE - RELIABILITY

- Translation of Customer's implicit and explicit requirements into specifications
- Quantitative Reliability requirement in terms of predicted MTBF
- Part selection & Derating
- Mechanical aspects
- FMECA
- Production ability and maintainability aspects
- Spares prediction
- Documentation
- Failure analysis and Corrective Action
- Environmental evaluation

BATH-TUB CURVE:



A plot of the failure rate over time for most products yields a curve that looks like a drawing of a bathtub

The initial region that begins at time zero when a customer first begins to use the product is characterized by a high but rapidly decreasing failure rate. This region is known as the **Early Failure Period** (also referred to as **Infant Mortality Period**

BATH-TUB CURVE (CONTD.)

Phase	Characteristic	Cause	Prevention
Infant Mortality	DFR	Manufacturing Defects; Poor Quality Control, Contamination, Poor Workmanship	Burn-in Testing, Screening Quality Control Acceptance Testing
Useful Life	CFR	Environment Random Loads, Human Error, "Acts of God" Chance Events	Redundancy Excess Strength
Wear-Out	IFR	Fatigue Corrosion Aging Friction Cyclic Loads	Derating Preventive Maintenance Parts Replacement

Q & R IN DESIGN

1. Design with sufficient margin
2. Derating of components
3. Reference to applicable Standards
4. Integrated Probabilistic Functional analysis
5. Quantitative /Qualitative Reliability, Availability, Safety ,Risk Assessment
6. Highly Reliable material Processes
7. Database of Field & Past Experience
8. Redundancy in system.

Q & R IN TEST AND EVALUATION

1. Rigorous Testing & Qualification at various test beds (Performance, ET, EMI /EMC etc.,)
2. Testing by Independent Agency
3. Non-Conformance / Failure Analysis
4. Detailed Analysis and Test Results Review
5. Quality Assurance Test Plan

Q &R IN MANUFACTURING AND ASSEMBLY

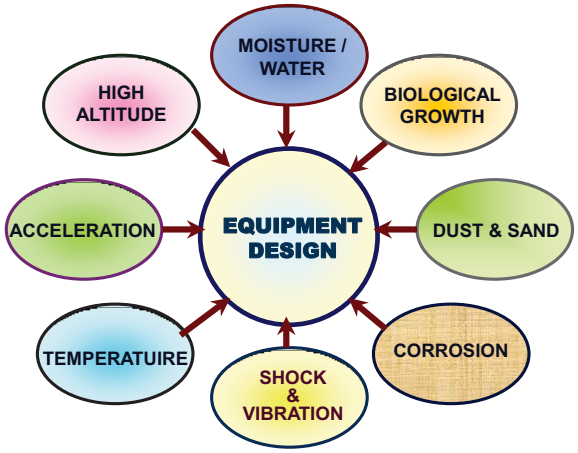
1. On-line Inspection
2. Inspection and Acceptance Procedures
3. Orientation & Training of Personnel
4. Key points Inspection by R&QA at Work centre.
5. Control at Every level of Fabrication & Assembly
6. Standardization /Certification of practices /Processes
7. Most of the products are out sourced , hence Vendor assessment, evaluation, Control, Vendor quality is most important

ENVIRONMENTAL DESIGN

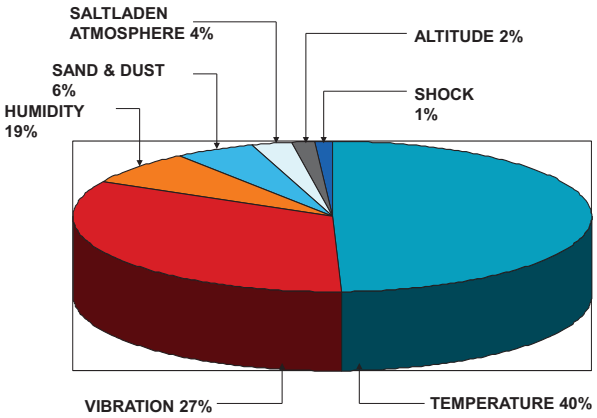
- Design to ensure the performance over the operating range of temperature and other stresses.
- This will ensure the performance in the field.
- A variety of electronic systems, equipment, modules, sub-assemblies and PCBs are being manufactured for Ground / Airborne application. These items have to operate over a wide temperature range, under severe environmental conditions like vibration, shock, humidity, high altitude, salt fog etc.

RELIABILITY IS NOT ON
ADD ON FUNCTION
IT HAS TO BE BUILT-IN
FROM THE DESIGN STAGE

Product should survive Natural & Human Induced Stresses



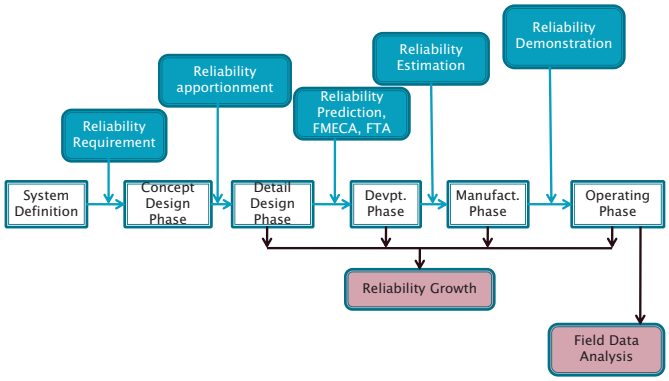
ENVIRONMENT VS. FAILURES CAUSED



ENVIRONMENTAL TEST

NATUARAL / CLIMATIC CONDITIONS	MAN MADE/INDUCED CONDITIONS
TEMPERATURE	VIBRATION
HUMIDITY	SHOCK
ALTITUDE	BUMP
CORROSION	ACCELERATION
RAIN	DROP
DUST	TOPPLE
MOULD GROWTH	ROADABILITY
IMMERSION	
SEALING	
SOLAR RADIATION	
TROPICAL EXPOSURE	
THERMAL SHOCK	

RAM Analysis Stages



FAILURE RATE

Is defined as the rate of occurrence of failures, generally expressed in terms of failure per million hours, failure rate is basically the anticipated number of times that an item fails in specified period of time.

Eg: If a component has 2 failures per million hours then it is anticipated that component fails 2 times in a million hour time period.

Measures Of Reliability - RAM

- Failure rate (λ)
- Alternative Measures:
  - ✓ Mean time between failure (MTBF)
  - ✓ Mean time to failures (MTTF)
- Reliability
- Availability
- Maintainability

MEAN TIME BETWEEN FAILURE (MTBF)

Is the inverse of failure rate, for constant failure rate of the systems. MTBF can be described as the number of hours to pass before a failure for a component ,assembly or a system occurs.

The mean life is a function, the Mean Time Between Failure (MTBF), is most widely used as the measurement of a product's Reliability metric.

It's calculated by summing the total operating time of the units tested or fielded by the total count of failures occurred.

Eg: If a system has a failure rate of 2 per million hours then MTBF would be inverse of failure rate.

I,e. $1/2 \times 10^6 = 500{,}000$Hrs, this value states that component fails every 500,000Hrs.

MEAN TIME TO FAILURE (MTTF)

This is similar to MTBF and this value is added when evaluating a non-repairable systems.

MTBF assumes device expects multiple failure in its life time and after each failure a repair occurs, but for non-repairable systems there is no repair therefore in its life time device fails once.

Eg: A satellite in orbit ,if it fails no one is sent there to repair a device , instead a new satellite will be launched to replace the failed one.

MTTF represents the average time until the failure occurs.

MEAN TIME TO REPAIR (MTTR)

Is the total downtime required to repair the item.

MTTR is based on exponential distribution applied to maintenance time and is similar to MTBF.

Eg: A fighter aircraft with MTBF of 1000HRs ,then required MTTR for 99% availability is computed as follows.

Availability = MTBF / MTBF+MTTR

1/A=MTBF+MTTR/MTBF

1+MTTR/MTBF=1/0.99=0.01

MTTR=MTBF x 0.01-1=9.0Hrs

MAINTAINABILITY

Is the ability to maintain an equipment with minimum of downtime. It is defined as the probability that an item will confirm to specified conditions within a given time when maintenance action is performed in accordance with prescribed procedures and resources.

Maintainability is strongly dependent on design features introduced into the equipment.

A quantitative expression for maintainability is MTTR and is based on exponential distribution applied to maintenance tasks.

MAINTAINABILITY (CONTD.,)

Maintainability is a design-related function and must be engineered during the initial design, definition, and development phases of the life cycle. Maintainability engineering is performed for the following reasons:

- To achieve ease of maintenance through design
- To estimate maintenance and equipment downtime
- To estimate system availability
- To estimate resources for proper maintenance

Maintainability: The device should be maintainable easily by the operators. There are many examples of poor reliability that can be traced to poor maintenance. Maintenance considerations should include:

- Reduction of Maintenance
- Ease of Maintenance

MAINTAINABILITY (CONTD.,)

Maintainability : The measure of the ability of an item to be retained or restored to a specified condition when maintenance is performed by personnel having specified skill levels, using prescribed procedures and resources , at each prescribed level of maintenance and repair. Maintainability is most commonly measured by mean-time-to-repair (MTTR).

$$MTTR = \frac{\sum_{i=1}^{n} \lambda_i t_i}{\sum_{i=1}^{n} \lambda_i}$$

n = number of subsystems

λ_i = Failure rate of the i^{th} system

t_i = Time to repair the i^{th} system

AVAILABILITY (CONTD.,)

Maintainability and reliability determine the availability of systems and equipment.

Availability : A measure of the degree to which an item is in the operable and committable state at the start of a mission, when the mission is called for at an unknown (random) time.

The three common measures of Availability are :

- Inherent Availability(AI)
- Achieved Availability (AA)
- Operational Availability (Ao)

AVAILABILITY

Is the probability that an item will be in OPERATIONAL STATE AT ANY TIME. Availability takes into account repairs.

When repairs are applicable a value referred to as MTTR can be applied and referred to the downtime required to repair a device.

Availability = MTBF / MTBF+MTTR

Eg: A device with a MTBF of 50Hrs& if fails it then need to be repair, if MTTR is 10Hrs ,then that means every time a unit fails it need to be down for about 10Hrs to repair and put back online.

Availability = 50/50+10 = 0.833

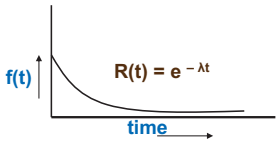
TYPES OF DISTRIBUTION:

Exponential Distribution:

This is perhaps most widely used probability distribution for reliability models.It is related to Poisson (descrete) distribution used for random accidents or failures.

$$R(t) = e^{-\lambda t}$$

Here in this distribution we obtain a constant failure rate , this property is of great importance since exponential distribution can be used as a model for second stage or maturity stage of bath-Tub curve.



TYPES OF DISTRIBUTION(CONTD):

Weibull Distribution:

This distribution is widely employed for modeling wear-out or third stage in the bath-Tub curve. It is suited for mechanical systems subject to fatigue ,wear, corrosion and other processes.

$$h(t) = \frac{\beta}{\eta^{\beta}} (t)^{\beta-1}$$ Weibull Hazard Function

$$f(t) = \frac{\beta t^{\beta-1}}{\eta^{\beta}} e^{-\left(\frac{t}{\eta}\right)^{\beta}}$$ Weibull Probability Density

$$R(t) = 1 - F(t) = e^{-\left(\frac{t}{\eta}\right)^{\beta}}$$ Weibull Reliability Function

Where:

t = Random Variable = failure time as measured in hours, days, years, cycles, Km, etc.

β = Weibull Shape Parameter, "Slope"

η = Weibull Scale Parameter, "Characteristic Life"

RELIABILITY BLOCK DIAGRAM (RBD)

RBD is an event diagram which tells us about the sequence of the elements / item under consideration for the fulfillment of the required function.

The elements which are considered for the required function are connected in series ,while elements which can fail with no effect on the required function (redundancy) are connected in parallel.

Order of RBD

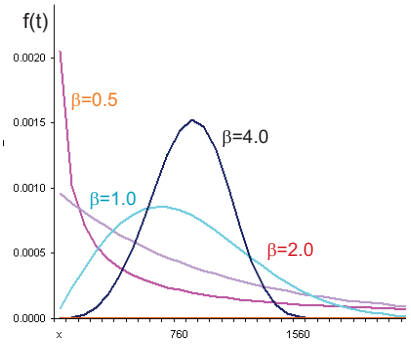
The block follow a logical order which relates the sequence of events during the prescribed operation of the item.

Title of RBD

Each RBD will have a title for identification of the item.

Weibull Shape Parameter - β

Weibull distribution can model other statistical distributions, as indicated for various values of β*, the Weibull Slope (Shape) parameter*



TYPES OF CONFIGURATION

Series configuration:

Consider two systems A & B connected in series , if subsystems reliability are R_A & R_B the system Reliability $R_s(t)$ becomes:

$R_s(t)=R_A(t).R_B(t)$

If exponential distribution is used then

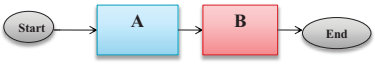
$R_A(t) = e^{-\lambda_A t}$, $R_B(t) = e^{-\lambda_B t}$.

$R_s(t) = e^{-\lambda_S t} = e^{-(\lambda_A + \lambda_B)t}$

$\lambda s = \lambda A + \lambda B$,MTBF=1 / λA + λB

$$Rs = \prod_{i=1}^{n} Ri(t)$$

Note: In series combination reliability decreases with increase number of sub-systems.

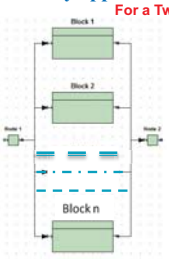


PARALLEL (REDUNDANCY) CONFIGERATION

Redundancy is defined as the existence of more than one means for performing a required function in an item. Two or more blocks are called parallel or redundant, if configuration is such that all units must fail for the system to fail. If one or more units operate, the system continue to operate.

Redundancy appear in parallel on the RBD.

For a Two component system in parallel and following CFR



$$Rs(t) = 1 - \prod_{i=1}^{n}\left[1 - e^{-\lambda i * t}\right]$$

$$Rs(t) = 1 - \left(1 - e^{-\lambda 1 * t}\right)\left(1 - e^{-\lambda 2 * t}\right)$$

$$Rs(t) = e^{-\lambda 1 * t} + e^{-\lambda 2 * t} - e^{-(\lambda 1 + \lambda 2) * t}$$

$$MTTF = \int_0^\infty Rs(t)dt = \int_0^\infty e^{-\lambda 1 * t}dt + \int_0^\infty e^{-\lambda 2 * t}dt - \int_0^\infty e^{-(\lambda 1+\lambda 2)*t}dt$$

$$MTTF = \frac{1}{\lambda 1} + \frac{1}{\lambda 2} - \frac{1}{\lambda 1 + \lambda 2}$$

K-OUT OF-N CONCEPT OF REDUNDANCY

Is a parallel active redundancy model consists of n (often statistically identical) elements in active redundancy of which k is necessary to perform the required function and the remaining n-k are in reserve .

Reliability R for the above condition is written as:

$$R = \sum_{x=k}^{x=n} e^{-\lambda xt}[1 - e - \lambda t]^{n-x}$$

$$MTBF = 1 / \lambda \sum_{x=k}^{x=n} 1/x$$

were λ is failure rate of one component

K=Total number of components in the system

X=Total number components required.

REDUNDANCIES TYPES

1.Active Redundancy(Parallel hot): Here in this redundant elements are subjected to the same load as operating elements. The failure rate in the reserve state is same as in operating state.

2. Warm Redundancy(Lightly loaded):Redundant elements are subjected to a light load until one of the operating elements fails. The failure rate in this state is lower than the operating state

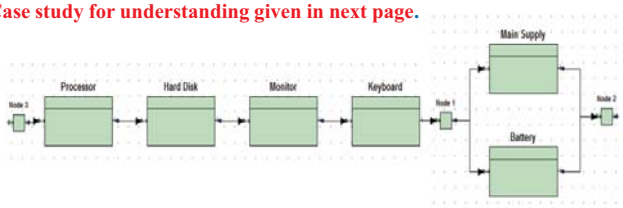
3.Standby Redundancy(Cold,nonloaded):Redundant elements subject to no load until one of the operating elements fails. The failure rate in the reserve state is assumed to be zero.

SERIES PARALLEL MODEL

As the increased complexity in configuration, it is unlikely to see any system either only series or parallel. Most of them would be combination of the Series- Parallel.

However, such structures can be easily decomposed into and analysed with the help of basic series and parallel models.

Case study for understanding given in next page.



Case Study

A personal computer having failure rate of each subsystem as follows, all subsystems are in series except the power system with a backup battery.

λ(processor)= 0.000023
λ(Monitor)= 0.00001
λ(Keyboard)= 0.0004
λ(Hard disk)= 0.000001
λ(main supply)= 0.002
λ(Battery)= 0.000004

$\lambda s = \lambda s_1 + \lambda$ (powersystem)

λs_1=0.000023+0.00001+0.0004+0.000001=0.000434

λ(powersystem)= 1/0.002+1/0.000004-(1/(0.002+0.000004))=4*E-6

λs = 0.000434 + 4*E-6 = 0.000438

MTTF=1/0.000438 =2283 hrs

RELIABILITY PREDICTION

Reliability prediction is the process of quantitatively assessing a system design relative to its specified reliability requirement.

Types of Reliability prediction:

1.Similar items or similar circuit prediction method:

the quickest method of estimating reliability is to compare the item or the circuit under consideration with a similar items whose reliability is known. This prediction permits very early estimation of the failure rate of a new component based on experience gained from operational side of similar design and function.

RELIABILITY PREDICTION(CONTD)

2. Parts Count Method:

The reliability prediction by parts count method is an approximate procedure often used in preliminary design stages when number of parts In each generic part type class such as microcircuit, resistors, capacitors etc., are reasonably fixed .The parts count method is based on average failure rate for each component part type.

This method implies that all parts are serially connected therefore the total failure rate is the sum of failure rates of all components.

$$\lambda_{Equip} = \sum_{i=1}^{n} N_i (\lambda_G \pi_Q)_i$$

Were

λ_{Equip}=total failure rate in million hours
λ_G=Generic failure for the i^{th} generic parts
π_Q=Quality factor for the i^{th} generic part
N_i=Quantity of the i^{th} generic part
N=Number of different generic part categories

RELIABILITY PREDICTION(CONTD)

3. Parts Stress Method:

The part stress analysis is used to determine parts failure rates in the detailed design stage when few assumptions about the parts used ,their stress derating ,their quality factor, operating stresses. This method is one of the most important method which provides estimate of reliability based on parts stress data, for each component .

$$\lambda_P = \lambda_b \pi_T \pi_A \pi_R \pi_S \pi_C \pi_Q \pi_E$$

Were

λ_P= the part failure rate
λ_b = the base failure rate usually related to electrical and temperature factor
π_E= the environment factor,π_Q= the Quality factor, π_C=complexity factor,
π_S =stress factor, π_R =Resistance factor, π_A =application factor,
π_T =Temperature factor

INTRODUCTION TO FMEA

- FMEA is a systematic method of identifying and preventing system, product and process problems before they occur
- FMEA is focused on preventing problems, enhancing safety, and increasing customer satisfaction
- Ideally, FMEA's are conducted in the product design or process development stages, although conducting an FMEA on existing products or processes may also yield benefits

What is FMEA

- Failure Modes and Effects Analysis
- FM: What could go wrong? And how?
- E: What are the consequences?
- Analyze: Probability of Occurrence, Detectability & Severity

Definition: Failure Mode and Effects Analysis

A bottoms-up, iterative approach for analyzing a design of a product in order to determine

- What could go wrong
- How badly it might go wrong
- And what needs to be done to prevent it

Purpose- FMEA

- study results or effects of item failure on system operation and to classify each potential failure according to its severity
- The fundamental purpose of the FMEA is to recommend and take actions that reduce risk
- Find the weaknesses in your system
- Fix the weaknesses before an event occurs
- Develop your systems thinking

A methodology to Analyze & Discover

- All potential failure modes of a system
- The effects these failures have on the system
- How to correct and/or mitigate the failures or effects on the system

Steps for FMEA-

1. Define the system
2. Block Diagram
   Functional & RBD
3. Identify all potential item
4. Severity classification
   Category I- Catastrophic
   Category II- Critical
   Category III-Marginal
   Category IV-Minor

Each potential failure is ranked by the severity of its effect in order that appropriate corrective actions may be taken to eliminate or control the high risk items

Steps for FMEA – Contd.,

4. Identify failure detection methods
5. Identify corrective actions
6. Document the analysis

Steps for FMEA – Contd.,

- Failure Mode
- Failure Cause
- Failure Effect
- Failure Severity
- Failure Detection
- Failure Mitigation

- **Blackout: northeast United states and northern Canada , November 9, 1965**

At Sir Adam Beck Station on the Ontario side of Niagara Falls led to the biggest power failure in U.S. history. At 5:16 p.m., the tripping of a 230-kilovolt transmission line began a domino effect resulting in a surge of power that overwhelmed transmission lines and put New York City in the dark at the height of a Tuesday rush hour. 800,000 people were reported trapped in the subway. Power was restored for most people within 13 hours.

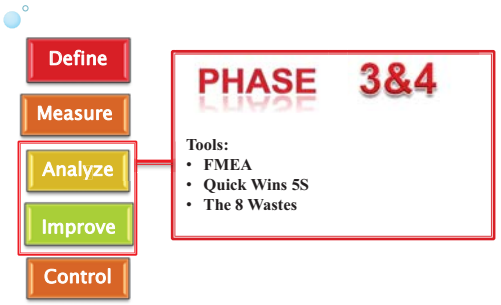
Reason :A faulty relay

- **Space Shuttle "Challenger" disaster**

On January 28, 1986, the tenth flight of Space Shuttle Challenger (OV-99) broke apart 73 seconds into its flight, killing all seven crew members, which consisted of five NASA astronauts and two Payload Specialists.

Reason :O-rings failure

The DMAIC of Process with Tools



Types of FMEAs ?

System/Concept "S/CFMEA"- *(Driven by System functions)* A system is a organized set of parts or subsystems to accomplish one or more functions. System FMEAs are typically very early, before specific hardware has been determined.

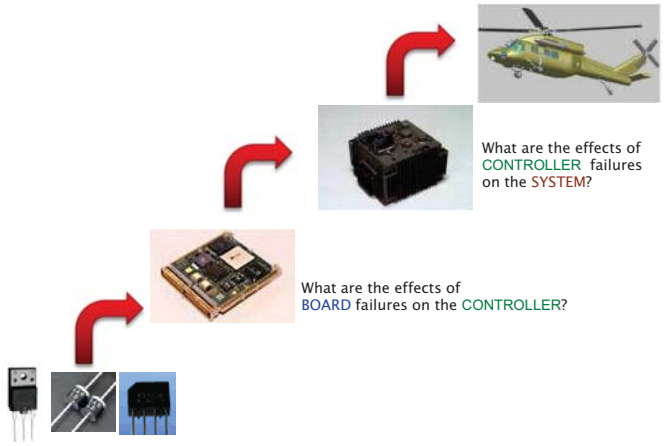
Design "DFMEA"- *(Driven by part or component functions)* A Design / Part is a unit of physical hardware that is considered a single replaceable part with respect to repair. Design FMEAs are typically done later in the development process when specific hardware has been determined.

Process "PFMEA"- *(Driven by process functions & part characteristics)* A Process is a sequence of tasks that is organized to produce a product or provide a service. A Process FMEA can involve fabrication, assembly, transactions or services.

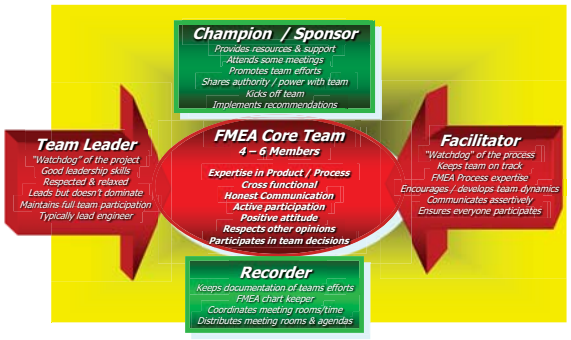
Benefits- FMEA

- Identify potential and known failures
- Reduce the number of engineering changes
- Reduce product development time
- Lower start-up costs
- Greater customer satisfaction
- Increased cooperation and teamwork between various functions
- Continuous improvement

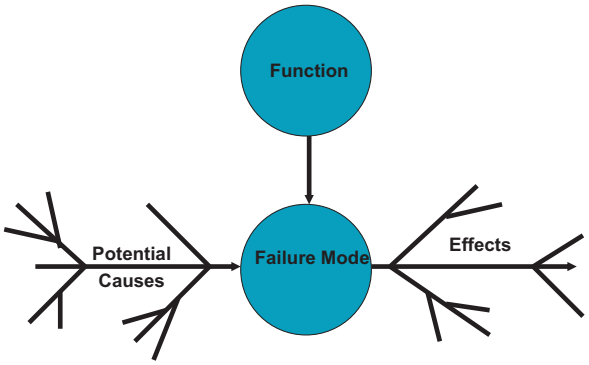
How to do a FMEA Analysis?



The FMEA Team Roles



FMEA – Contd.,



Example- FMEA

Function-Punch card before 8AM and attend meeting at 8:15PM

Failure Mode - 1. Traffic Jam

2. Vehicle failure

3. Break Fast not ready etc.

Failure Cause - Traffic Jam

a. Accident

b. More red signal

c. Selected road in general quite busy etc.

Failure Effect - i. Missed punching at 8AM

ii. Missed meeting at 8:15AM

Mitigation - 1. Leave to office early

2. Avoid busy road

Failure Modes and Effects Analysis (Worksheet)

Identification Number	Item Name	Function	Failure Modes	Failure Causes	Failure effects		Failure Detection	Severity Class
					Local Effects	End Effects		
1.	Personal	Punch card before 8AM and attend meeting at 8:15PM	1. Traffic Jam 2. Vehicle failure 3. Breakfast was not ready etc.	a. Accident b. More red signal c. Selected road in general quite busy etc	i. Missed punching at 8AM ii. Missed meeting at 8:15AM	Organization lost valuable input	Nil	III
2.								

Use of FMEA is called for –

- Design improvement
- Maintainability
- Maintenance plan analysis
- Safety analysis
- Survivability
- Logistic support analysis- MRLS
- Failure detection
- Isolation subsystem design

Failure Mode Effects Criticality Analysis (FMECA)

- FMEA (Qualitative)
  - Purpose is to study the effects of item failure on system operation and to classify each potential failure according to its severity
- CA (Quantitative)
  - To quantify the severity

FMECA

- Failure Modes, Effects and Criticality Analysis(FMECA).
- Addresses the criticality risk of individual failures.
- Critical Items List (CIL/MRLS) can be developed.

Input Requirements – FMECA

- Design drawings & functional block diagrams
- Previous or related FMEA
- Reliability or failure statistics (MTBF)
- Lessons learned file
- Historical data Etc…

CONCLUSION

Quality means doing it right when no one is looking

Reliability means the system must function to the expectation when everybody is watching

You will benefit by making a commitment to quality by Getting Involved

Online FDP on Six-Sigma

Day 5 Attendance

Sl.No.	Timestamp	1. Your E-Mail id	2. Your Name	3. Your Department	4. Your Organization	5. The sessions of FDP were appropriate to Six Sigma	6. Did the FDP meet your learning expectations?	7. Clarity of presentation by the speakers	8. Coverage/breadth of topics covered?	9. The FDP was scheduled at a suitable timeand sessions were appropriately designed	10. In the changing scenario, adopting six sigma methodology in an organization, this FDP has given many inputs	11. Six sigma is a business driven, multi-dimensional structured approach to:	12. How do you rate the FDP on "Six Sigma"?	13. What are the three TAKEAWAYS from this FDP?	14. Suggestions for improvement
1	7-10-2020 12:54:25	sharath.balarama@dr-ait.org	Sharath B	Civil Engineering	Dr. Ambedkar Institute of Technology	Yes	More than expected	Excellent	Excellent	Strongly disagree	Strongly agree	All the above	Very good	Understanding the tool, Methods to implement it in an industry, applications of six sigma	Na
2	7-10-2020 12:54:38	priya.s414@gmail.com	Priya R Sonar	Civil engineering	KLE POLYTECHNIC MAHALINGAPUR	Yes	Yes, met expectations	Excellent	Very good	Agree	Agree	All the above	Excellent	All	Nice presentation

19	7-10-2020 12:59:17	pksahooonline@gmail.com	Mr. PRASANTA KUMAR SAHOO	MECHANICAL ENGINEERING	DRIEMS POLYTECHNIC, CUTTACK	Yes	Excellent	Excellent	Excellent	Strongly agree	Strongly agree	All the above	Excellent	Quality improvement, Customer Satisfaction, Process Development	No
20	7-10-2020 12:59:24	rajasaheb3617@gmail.com	Dr KAZI KUTUBUDDIN SAYYAD LIYAKAT	E&TC	-	Yes	Excellent	Excellent	Excellent	Strongly agree	Strongly agree	All the above	Excellent	Quality control, productivity, lowering losses	Nil
21	7-10-2020 12:59:27	arathipuranik@yahoo.com	ARATHI P	CSE	DR.AIT, BANGALORE	Yes	Yes, met expectations	Excellent	Very good	Strongly agree	Agree	All the above	Excellent	Problem recognition, solution ,maintenance and improvement	It's a very good FDP.all speakers are experienced. Some more case studies related to educational organizations will be more helpful. Thank you.
22	7-10-2020 12:59:30	anandkk3004@gmail.com	Anand K Kadappanavar	Mechanical	Lecturer	Yes	Excellent	Excellent	Excellent	Strongly agree	Strongly agree	All the above	Excellent	Case studies	Nil
23	7-10-2020 12:59:35	rashmib1989@gmail.com	Rashmi B	Computer science & Engg	Govt polytechnic Harapanahalli	Yes	Yes, met expectations	Very good	Okay	Strongly agree	Agree	All the above	Good	Nothing as far my knowledge	Only network issues
24	7-10-2020 12:59:53	anilkumarmarolhvr@gmail.com	ANILKUMAR N MAROL	MECHANICAL ENGG	RURAL POLYTECHNIC HAUNSABAVI	Yes	More than expected	Very good	Very good	Agree	Agree	All the above	Excellent	Reduce complaints from students Improve quality of result by implementing Provide good facilities to student	Plz inform such programs in future
25	7-10-2020 13:00:04	bt.shobha16@gmail.com	Shobha B T	Civil Engineering	Government Polytechnic Lingasugur	Yes	More than expected	Very good	Very good	Agree	Agree	All the above	Very good	Qualitative and Quantitative of the six sigma process...	Some Network problem
26	7-10-2020 13:00:05	ravikumar.sajjanar@gmail.com	RAVIKUMAR SAJJANAR	E&C Engineering	Government Polytechnic Rabakavi Banahatti	Yes	Yes, met expectations	Good	Good	Agree	Agree	All the above	Good	Importance of six sigma in the industry and quality function and parameters of six sigma	Audio and video clarity is more required
27	7-10-2020 13:00:06	jacks12686@gmail.com	Ranjeet kumar	Electronics and communication engineering	Government polytechnic lingasugur	Yes	More than expected	Very good	Very good	Agree	Agree	All the above	Very good	Qualitative and quantitative of the six sigma process...	Some network problems...
28	7-10-2020 13:00:07	raghgk@gmail.com	Raghavendran G	Electrical & Electronics	DACG GOVERNMENT POLYTECHNIC CHIKMAGALURU - 577101	Yes	More than expected	Very good	Very good	Agree	Agree	All the above	Very good	New concept of approach, knowledge, and different methodology.	FDP organization was very good , and unavoidable parameters mainly audio due to network can't blame anyone.
29	7-10-2020 13:00:33	samueldayanand1981@gmail.com	Samuel Dayanand	Mechanical	Government Engineering College Raichur	Yes	Excellent	Excellent	Excellent	Strongly agree	Strongly agree	All the above	Excellent	Quality, improvement tools,	Well organized webinar
30	7-10-2020 13:00:48	contact.mspatil@gmail.com	MALAGOUDA PATIL	MECHANICAL ENGINEERING	GOVERNMENT POLYTECHNIC HUBBALLI	Yes	Yes, met expectations	Very good	Very good	Agree	Agree	All the above	Good	Concepts of six sigma, lean , and real life application	No
31	7-10-2020 13:00:48	jyothsnaratakonda@gmail.com	R Jyothsna	Industrial engineering and Management	Dr Ambedkar Institute of Technology	Yes	Yes, met expectations	Very good	Very good	Agree	Agree	All the above	Very good	•It was super informative and helped in brushing up of information. •Application of the process was well described making it simple to apply in future real time senarios with much ease. •Persistance, nothing stopped the team, including tech issues, they didn't mind repeating a session for audience sake, I really appreciate the team for the same.	It was great, but as according to IE terms anything that is measurable can be improved. The team was very professional with the support and everything, a little improvement in the tech section as in sending the mails part or such issues can be improved.
32	7-10-2020 13:00:51	himanshu_acharya@rediffmail.com	Himanshu sekhar Acharya	Computer science	Ravenshaw university	Yes	Yes, met expectations	Excellent	Excellent	Strongly agree	Strongly agree	All the above	Excellent	Challenge,expertise,implementation	More fdp
33	7-10-2020 13:00:52	gitshivu@gmail.com	Shivakumar Pujari	Mechanical engineering	Government polytechnic Bagalkot	Yes	Yes, met expectations	Very good	Very good	Agree	Agree	All the above	Very good	1. Use of six sigma tools 2. Minimizing the defects 3. Reduction in process and product variability	The sessions were wonderful. Some times I lost the connection because of internet problems. So such important FDP must have been planned in offline mode
34	7-10-2020 13:00:52	syedqutub16@gmail.com	Dr.QUTUBUDDIN S.M.	Industrial and Production Engineering	P.D.A.College of Engineering	Yes	Yes, met expectations	Very good	Very good	Agree	Agree	All the above	Very good	Updating the knowledge with practical exposure and case studies	Not Really. Program was well conducted with speakers from both Academia and Industry
35	7-10-2020 13:01:33	sanjuyadavbec@gmail.com	SANJAY S J	Mechanical Engineering	Basaveshwar Engineering college Bagalkot	Yes	More than expected	Excellent	Excellent	Strongly agree	Agree	All the above	Excellent	Delighting customers Outside in thinking Leadership commitment	No
36	7-10-2020 13:02:01	gmkirankumar311@gmail.com	Kiran kumar G M	Electrical and Electronics Engineering.	Rural Polytechnic, Haunsabhavi.	Yes	Excellent	Very good	Very good	Agree	Strongly agree	All the above	Excellent	Design and vision with feed back analysis should lead through the expected outcome.	Vwer well managed FDP.
37	7-10-2020 13:02:05	monikashree.ts@dr-ait.org	Monikashree T S	EIE	Dr AIT	Yes	I thinkso	Very good	Good	Agree	Agree	All the above	Good	Basics of six sigma,Analysis using six sigma, how much it is effective in business	No
38	7-10-2020 13:02:06	padaganursk@gmail.com	Dr. Satyanarayan Padaganur	E & C department	BLDEA's V P Dr PGH College of engineering and technology Vijayapur	Yes	More than expected	Very good	Very good	Agree	Strongly agree	All the above	Very good	multi-dimensional structured approach.	No
39	7-10-2020 13:02:12	angadividya44@gmail.com	Dr Vidya M Shettar	Mathematics	Basaveshwar Engineering College, Bagalkot	Yes	Yes, met expectations	Very good	Very good	Agree	Agree	All the above	Very good	Informative, useful Session for current scenario	All the session were good
40	7-10-2020 13:02:19	kymantur@gmail.com	Kiran Kumar Y.Mantur	Mechanical	Tippu Shaheed Institute Of Technology. Hubli	Yes	Yes, met expectations	Excellent	Very good	Strongly agree	Strongly agree	All the above	Excellent	Knowledge , examples,and applications of six sigma	well planned, hope forward for such FDP in coming days
41	7-10-2020 13:02:29	nirmala.pari@gmail.com	Nirmala bai L	Electronics and Instrumentation Engineering	Dr.Ambedkar institute of technology	Yes	More than expected	Very good	Very good	Agree	Agree	All the above	Excellent	Got to know many more things mainly the six sigma tools and applications	Very useful session . Thank you for conducting it.
42	7-10-2020 13:02:33	rajeevmn29@gmail.com	RAJEEV M N	Mechanical Engineering.	Government Polytechnic,Sira	Yes	More than expected	Excellent	Excellent	Agree	Agree	All the above	Excellent	Got more awareness of six sigma ,how important to implement in our teaching learning process,more illustration and case studies made us more interesting and those we can use it in future teaching	Everything was well organized by BEC team...We never felt this was the first online fdp organized .. Excellent exuberant resource persons. We except much more FDP'S in coming days... Can we except fdps one INDUSTRY 4.O ,ADDITIVE MANUFACTURING
43	7-10-2020 13:02:34	murmusagar@gmail.com	Sugar Kumar Murmu	Mechanical Engineering	Parala Maharaja Engineering College , Berhmapur, Odisha	Yes	Yes, met expectations	Excellent	Excellent	Agree	Strongly agree	All the above	Excellent	1-implementation of six sigma for improvemeing our organisation 2- got adequate knowledge on six sigma and reliability 3-learn different tool techniques method of six sigma	More case studies and sessional hands on practice on tools and techniques of six sigma
44	7-10-2020 13:02:45	bagalkotam@gmail.com	M A BAGALKOT	Civil engineering	TSIT polytechnic	Yes	Excellent	Excellent	Excellent	Strongly agree	Strongly agree	All the above	Excellent	Clearity, informative, awsome sessions	No
45	7-10-2020 13:02:59	lspatil1968@gmail.com	Mrs Latha S Patil	Electronics and Communication engineering	Anjuman-E-Islam Polytechnic Gadag	Yes	More than expected	Excellent	Very good	Strongly agree	Strongly agree	All the above	Excellent	We need to focus on experience..not just on education ,reflection is a great feedback,always learning.	It should be interactive
46	7-10-2020 13:03:04	canayak.che@bmsce.ac.in	Dr Chetan A Nayak	Chemical Engineering	BMS College of Engineering	Yes	Yes, met expectations	Very good	Good	Agree	Agree	All the above	Very good	SIX sigma can be implemented in any domain	No comments
47	7-10-2020 13:03:11	kesthara33@gmail.com	Kesthara V	Electronics and Communication	Dr Ambedkar Institute of Technology	Yes	Yes, met expectations	Good	Good	Agree	Agree	Improving processes	Good	knowledge regarding six sigma	nil
48	7-10-2020 13:03:15	prdhal@gmail.com	Prasant Ranjan Dhal	Mechanical engineering	I.G.I.T. SARANG	Yes	More than expected	Excellent	Very good	Strongly agree	Strongly agree	All the above	Excellent	Timing, course mateiral and quality of teaching	No suggestions.... It's an amazing course to cover.
49	7-10-2020 13:03:26	mkchavadi145@gmail.com	Mallikarjun. K. Chavadi	Science department	BVVS polytechnic bagalkot	Yes	More than expected	Excellent	Excellent	Strongly agree	Strongly agree	Increasing customer satisfaction	Excellent	We will adopt FDP in our day to day life and also in education system	The training programme's of this kind should be conducted repeatedly.
50	7-10-2020 13:03:37	pnsimpi15@gmail.com	Priyadarshi Simpi	Mech.Engg.	B.V.V.S. Polytechnic , Bagalkot	Yes	Excellent	Excellent	Excellent	Strongly agree	Strongly agree	Reducing process variability	Excellent	- Applications of six sigma - Concept - different tools of six sigma	- No
51	7-10-2020 13:03:49	deshpande.swetha1@gmail.com	Swetha Suresh kumar	Mechanical engineering	Thakur college of engineering	Yes	More than expected	Excellent	Excellent	Strongly agree	Strongly agree	All the above	Excellent	1. DMAIC concepts 2. Six sigma tools have to be done at all the phases of a product life cycle 3. Six sigma is a data driven approach based on the measurement done 4.importance of Realibity and FMEA in design and analysis phase	Hands on experience could be done for acquiring least yellow belt certifications
52	7-10-2020 13:03:50	angadsn@gmail.com	Angad S Naik	Mechanical Engineering	S.G. Balekundri Institute of Technology	Yes	Yes, met expectations	Good	Good	Agree	Agree	All the above	Good	DMAIC Approach for Business	nice session
53	7-10-2020 13:03:58	nagarathnabps@gmail.com	K NAGARATHNA	Electronics and Communication Dept	Bapuji polytechnic Shabanur, Davanagere	Yes	Yes, met expectations	Excellent	Very good	Strongly agree	Strongly agree	All the above	Very good	1 Concept of communication was well understood. 2 Understood applied mathematics	No
54	7-10-2020 13:04:00	sthalakatti35@gmail.com	Shambulinga Totappa Halakatti	E&C	B.V.V.S.Polytechnic(Autonomous), Bagalkot-587101	Yes	Yes, met expectations	Very good	Excellent	Agree	Strongly agree	All the above	Excellent	Teamwork, course values & six sigma techniques for improvement.	Network connectivity.
55	7-10-2020 13:04:03	padaganursk@gmail.com	Dr. Satyanarayan Padaganur	E & C department	BLDEA's V P Dr PGH College of engineering and technology Vijayapur	Yes	More than expected	Very good	Very good	Strongly agree	Strongly agree	All the above	Very good	multi-dimensional structured approach.	No
56	7-10-2020 13:04:12	pckme@becbgk.edu	Mr. Praveen Kolur	Mechanical Engineering	Basaveshwar Engineering College(Autonomous), Bagalkot	Yes	More than expected	Excellent	Excellent	Strongly agree	Agree	All the above	Excellent	Implementing the six sigma in the course delivery to improve the performances	NA
57	7-10-2020 13:04:16	mech007rakesh@gmail.com	Prof. RAKESH KUMAR MOHANTY	Mechanical Engineering	DRIEMS POLYTECHNIC	Yes	Excellent	Excellent	Excellent	Strongly agree	Strongly disagree	All the above	Excellent	Knowledge of six sigma method, sampling analysis, charts	NA
58	7-10-2020 13:04:21	sridevee@gmail.com	Sridevi N	Electronics and instrumentation engineering	Dr Ambedkar Institute of Technology	Yes	Yes, met expectations	Very good	Very good	Strongly agree	Agree	All the above	Very good	Exposure to six sigma in industry by experts Case studies by experts Simple examples to explain the concept	Informative and useful sessions, nicely organized

Online FDP on Six-Sigma

Day 5 Attendance

59	7-10-2020 13:04:35	123.rashmi@gmail.com	Rashmi Rekha Mishra	Instrumentation and Electronic Engineering	College of Engineering and Technology, Bhubaneswar ,Odisha	Yes	Excellent	Excellent	Excellent	Strongly agree	Agree	All the above	Excellent	Overview of Six sigma,its tools, analysis and design, different case studies delivered by dignitaries.	Nice and interactive session..
60	7-10-2020 13:04:40	sharatik68@gmail.com	SHARATH KUMAR U	ELECTRONICS AND COMMUNICATION	BAPUJI POLYTECHNIC DAVANGERE	Yes	Yes, met expectations	Very good	Very good	Agree	Agree	All the above	Very good	1 - A lot of interaction and practices 2. Customer Focus (my key takeaway!) 3. There are many tools that can support you on a daily basis	Nothing
61	7-10-2020 13:04:40	Umeshtegempure1982@gmail.com	Umesh	Science	Govt polytechnic Aurad(B)	Yes	Excellent	Excellent	Excellent	Strongly agree	Strongly agree	All the above	Excellent	Very nice and excellent sessions delivery by the experts	Very nice sessions and good arrangement oftraining
62	7-10-2020 13:04:43	sagupha.parween@gmail.com	SAGUPHA PARWEEN	Instrumentation and Electronics Engineering	College of Engineering & Technology, Bhubaneswar	Yes	Excellent	Very good	Excellent	Agree	Agree	All the above	Excellent	Overview of six sigma, Six sigma tools, and different casestudies delivered by the deigneteris	Connection quality may improved
63	7-10-2020 13:04:48	bpbadheel@gmail.com	B P Basavaraj	E & C	Bapuji Polytechnic Davangere	Yes	Excellent	Excellent	Excellent	Strongly agree	Strongly agree	All the above	Excellent	Total Quality Management	Thanks
64	7-10-2020 13:04:48	nirmala.bai@dr-ait.org	Nirmala bai L	Electronics and Instrumentation engineering	Dr. Ambedkar institute of technology	Yes	More than expected	Excellent	Very good	Strongly agree	Agree	All the above	Excellent	Got to know many more things and mainly the sixsigma tools and it's applications	Useful session and Thank you for conducting it.
65	7-10-2020 13:05:09	rajuagasagi@gmail.com	RAJE NDRA S AGASAGI	Mechanical	Rural Polytechnic Huansbhavi	Yes	More than expected	Excellent	Excellent	Strongly agree	Strongly agree	All the above	Excellent	1. Got idea about six sigma 2. If possible will try to implement in our field. 3. We can improve our work procedures	If possible interaction with participants?
66	7-10-2020 13:05:15	mohita.anand.sharma81@gmail.com	Dr. Mohita Anand Sharma	School of Management	IMS UNISON UNIVERSITY, Dehradun	Yes	Yes, met expectations	Very good	Very good	Agree	Agree	All the above	Very good	Enhance a vision and mission of the organization and execute a six- sigma development plan in the organization.	NA
67	7-10-2020 13:05:16	salagar.raju@gmail.com	Rajashekhar Salagar	Computer Science and Engineering	BLDEA'S, V.P.Dr.P.G.Halakatti, CET, Vijayapur	Yes	More than expected	Very good	Very good	Strongly agree	Strongly agree	All the above	Excellent	Improve the process, quality, skills	No
68	7-10-2020 13:05:48	bdmallapur12@gmail.com	Dr Jayashree D Mallapur	Electronic and communication	Basaveshwar Engg College	Yes	Yes, met expectations	Very good	Very good	Agree	Agree	All the above	Very good	Understood the six sigma concept It's usage in research It's application in present scenario	Assignments could help to understand It more
69	7-10-2020 13:06:05	Nithyashree.26@gmail.com	Nithyashree S	Ece	Dr.AIT	Yes	Excellent	Excellent	Excellent	Strongly agree	Strongly disagree	All the above	Excellent	Knowledge	Nil
70	7-10-2020 13:06:10	arathipuranik@yahoo.com	ARATHI P	CSE	Dr.AIT, Bangalore-98	Yes	Yes, met expectations	Excellent	Very good	Agree	Agree	All the above	Very good	Problem recognition, solution,maintenance and improvement.	Thank you
71	7-10-2020 13:06:13	jkarloopia@me.iitr.ac.in	Jimmy Karloopia	Mechanical and Industrial Engineering	Indian Institute of Technology Roorkee	Yes	I thinkso	Good	Good	Agree	Agree	All the above	Good	Resourceful, informative, well planned	Make it more interactive
72	7-10-2020 13:06:15	siddushine19@gmail.com	Pandu Ranga .Y	ECE	Ses Polytechnic Siruguppa	Yes	Excellent	Very good	Very good	Agree	Agree	All the above	Excellent	Got the difference between the qualitative and quantitative. Aware of Fishbone method of process analysis.. DMAIC method of Managing and Controlling the Process in Any Industry or it be in Academic senerio..	If the true feedback is the the best teacher to improve and correct ourselves. Everything was Presented WELL .
73	7-10-2020 13:06:16	somuspujar@gmail.com	SOMASHEKHAR SHANKARAYYA PUJAR	E&C	B.V.V.S. POLYTECHNIC (AUTONOMOUS) BAGALKOT	Yes	More than expected	Very good	Excellent	Strongly agree	Agree	All the above	Excellent	1.Process improvement, 2.Process design & re-design 3.Process control.	None
74	7-10-2020 13:06:29	deepakkumta7@gmail.com	Deepak M Prabhu	Mechanical	Shree Vidhyadhiraj Polytechnic Kumta	Yes	Yes, met expectations	Excellent	Very good	Agree	Agree	All the above	Very good	Collaborative learning, preparing students for industry, self implementation	Videos should be incorporated along with slides during presentations. Any way done well in the first attempt. Thanks
75	7-10-2020 13:07:08	kiran.mandre@gmail.com	Kiran a mandre	E&C	B V V S POLYTECHNIC (A) Bagalkot	Yes	I thinkso	Good	Good	Neutral	Agree	All the above	Good	Improvement,process control & Process design	Webinar on Networking
76	7-10-2020 13:07:29	gopalganiga73@gmail.com	Gopal A Ganiga	Science Department	Rural Polytechnic Haunsabhavi Karnataka state	Yes	More than expected	Excellent	Excellent	Strongly agree	Strongly agree	All the above	Excellent	Quality, low defects, precision at our work	No comments. The FDP was excellent
77	7-10-2020 13:07:37	mmgmath@gmail.com	Mahantesh M Ganganallimath	Mechanical Engineering	Basaveshwar Engineering College (A), Bagalkot	Yes	Excellent	Excellent	Excellent	Strongly agree	Strongly agree	All the above	Excellent	1. Importance of Six Sigma 2. Application of Six Sigma 3. Six sigma in Supply chain	FDP on Statistical Tools or Softwares
78	7-10-2020 13:07:41	kmk.bdt@gmail.com	Dr K Mohamed Kaleemulla	Mechanical Engineering Department	University BDT College Of Engineering	Yes	More than expected	Very good	Very good	Strongly agree	Strongly agree	All the above	Excellent	Knowledge, application and depth of subject	Technical issues must be looked

83	7-10-2020 13:09:25	vinodpuranik36@gmail.com	Dr. Vinod S Puranik	Industrial and Production Engineering	Basaveshwar Engineering College Bagalkot	Yes	Excellent	Excellent	Excellent	Strongly agree	Strongly agree	All the above	Excellent	Knowledge of SIX SIGMA and its applications	It is OK
84	7-10-2020 13:09:29	hks.anand@gmail.com	H. K. SHANKARANANDA	Electronics & Communication Engineering	TMAES POLYTECHNIC(Govt Aided)	Yes	Yes, met expectations	Very good	Good	Agree	Agree	All the above	Very good	Teaching learning Various tools of management Implementation of six sigma in teaching	There were repetitive topics explained in all the sessions, except today's second session on Relability. Kindly see that each session presents different aspects...thank you
85	7-10-2020 13:09:50	jkarloopia@bm.iitr.ac.in	Jyoti Jinagal Karloopia	Management Studies	Indian Institute of Technology Roorkee	Yes	Yes, met expectations	Very good	Very good	Agree	Agree	All the above	Very good	Informative, knowledge, resourceful	Use some other platform for interactions
86	7-10-2020 13:10:00	pnsimpi15@gmail.com	Priyadarshi Simpi	Mech.Engg.	B.V.V.S.Polytechnic , Bagalkot	Yes	Excellent	Excellent	Excellent	Strongly agree	Strongly agree	Reducing process variability	Excellent	- Applications - concept - Different tools	No
87	7-10-2020 13:10:04	smitesh.patravali@gmail.com	Smitesh Patravali	Computer Science and Engineering	SDM COLLEGE OF ENGINEERING AND TECHNOLOGY	Yes	Yes, met expectations	Very good	Very good	Agree	Agree	Improving processes	Very good	Reduced defects Improve performance Organise products	Nil
88	7-10-2020 13:10:07	manjulahiloli@gmail.com	Mrs.H.T.Manjula	Information Science and Technology	P.V.P.Polytechnic, Bangalore	Yes	More than expected	Excellent	Very minimal	Agree	Strongly agree	All the above	Excellent	Information, knowledge	No
89	7-10-2020 13:10:19	veenapani.lect@gmail.com	VEENAPANI R	Mechanical Engineering	Government polytechnic Bagepalli	Yes	Yes, met expectations	Very good	Very good	Agree	Strongly agree	All the above	Excellent	What is Six Sigma and why is it important? What is Six Sigma? Six Sigma is a statistical-based, data-driven, disciplined approach and continuous improvement methodology for eliminating errors and defects in a process, service, and product. In simple terms, we can also say that "Six Sigma is a set of quality management technique intended to improve and upgrade your business processes by greatly eliminating the probability that an error or defect will occur.	Please conduct fdp based on reliability .very good fdp , well organized and thank u chaya mam for well coordination. Plz next time use some online websites like webinars for fdp, YouTube link is not so effective. Thank u
90	7-10-2020 13:11:01	talawarmn@gmail.com	Mahadev N .Talawar	E&E	B.V.V.S.Polytechnic Bagalkot	Yes	Yes, met expectations	Excellent	Excellent	Agree	Strongly agree	All the above	Excellent	Learning experiences. Development of organizations, cope up with changing scnerio	Sometime poor network we missed some /part of sessions

Online FDP on Six-Sigma

Day 5 Attendance

172	7-10-2020 13:33:10	santosharch80@gmail.com	Santosh Kumar	Planning	College of Engineering and Technology Bhubaneswar	Yes	Yes, met expectations	Very good	Very good	Agree	Strongly agree	All the above	Very good	Problem identification Technical methodology Process improvement	Technical issues during presentation should be minimised
173	7-10-2020 13:33:11	rsachin1494@gmail.com	Sachin R	Instrument Management	HSBC	Yes	Yes, met expectations	Very good	Very good	Agree	Agree	All the above	Very good	Six sigma tools and applications. Six sigma in different scenarios and industries.	Everything was well planned and met the expectationd
174	7-10-2020 13:34:21	vkparvati@gmail.com	Vasudev Parvati	Information Sc.& Engg.	SDM College of Engineering and Technology Dharwad	Yes	Yes, met expectations	Very good	Very good	Agree	Agree	All the above	Very good	The principle,the method and the application	Some examples from Engineering education
175	7-10-2020 13:35:28	aruntomar.tomar20@gmail.com	ARUN KUMAR SINGH TOMAR	Electrical Engineering	Rustam Ji Institute of Technology, Tekanpur, Madhya Pradesh	Yes	Excellent	Excellent	Excellent	Strongly agree	Strongly agree	All the above	Excellent	(1)six Sigma is a statistical based methodology (2) Organisation tools (3) Improvement in profits	New developments should be included
176	7-10-2020 13:35:52	nsmece@gmail.com	Neelambika I.Jirankali	Electronics and Communication	Anjuman- E- Islam Polytechnic,Gadag.	Yes	Excellent	Excellent	Very good	Agree	Agree	All the above	Excellent	Enhanced knowledge about six sigma, Presentations were excellent , Doubts are cleared.	No Sir.
177	7-10-2020 13:36:00	cmishra@cet.edu.in	CHANDRABHANU MISHRA	Instrumentation and Electronics Engineering	College of Engineering and Technology	Yes	More than expected	Excellent	Very good	Agree	Agree	All the above	Very good	(1) Example on Evaluation of Six Sigma in Academics (2) Tools of Qualitative Analysis (3) Tools of Quantitative Analysis (4) Techniques of identifying Practical Problem, Statistical Problem, Statistical Solution and Practical Solution	More Examples on Data Analytics related to Six Sigma
178	7-10-2020 13:37:28	pgsiddesh@gmail.com	GAVISIDDESHA PATTANASHETTY	MECHANICAL ENGINEERING	BELLARY INSTITUTE OF TECHNOLOGY AND MANAGEMENT	Yes	Yes, met expectations	Excellent	Excellent	Strongly agree	Strongly agree	All the above	Good	All session	Other topics like optimization techiniques for engineering
179	7-10-2020 13:37:50	suneethagksmg@gmail.com	suneetha g k	GRWPT	govt	Yes	Yes, met expectations	Very good	Very good	Agree	Strongly agree	All the above	Excellent	how rectify the defects how to overcome the problem fulfill customer needs	audio quality should improve
180	7-10-2020 13:38:04	chandrumk09@gmail.com	Chandrashekargouda.M.Kaggalagowdar	Mechanical Engineering	Smt.Kamala &Sri Venkappa M Agadi College of Engineering and Technology	Yes	More than expected	Very good	Very good	Agree	Agree	All the above	Excellent	Concepts of six sigma , Implementation of six sigma in industries. Content and flow of FDP is very excellent.	Well organized
181	7-10-2020 13:38:05	manjunath.gibbs@gmail.com	Manjunath S.Gabasavalagi	Computer Science & Engineering	BGMIT, Mudhol	Yes	Yes, met expectations	Excellent	Excellent	Strongly agree	Strongly agree	All the above	Excellent	About Six Sigma tools, Methodology,Process etc	-
182	7-10-2020 13:38:16	davanageri.ss@gmail.com	Somalingappa S Davanageri	Mechanical	Basaveshwar Engineering College (Autonomous), Bagalkot	Yes	Yes, met expectations	Very good	Okay	Agree	Agree	All the above	Very good	To control Quality and their methods	NC
183	7-10-2020 13:39:30	saritamahapatra4@gmail.com	Sarita Mahapatra	Computer Science and Information Technology	Siksha 'O' Anusandhan University	Yes	More than expected	Excellent	Very good	Strongly agree	Strongly disagree	All the above	Excellent	a. Clear process model is more or equi important than implementation, b. Regular feedback mechanism should be used for process improvement, c. Customer satisfaction is of utmost importance.	More mathematical models could have been made it more interesting.
184	7-10-2020 13:40:32	vmakdree@gmail.com	Mallikarjun S H	Electronics and communication engineering	Government polytechnic Kampli	Yes	Yes, met expectations	Excellent	Very good	Strongly agree	Agree	All the above	Very good	--	---
185	7-10-2020 13:40:44	meghuhalawar@gmail.com	Muktarani Halawar	Electronics and Communication	Government polytechnic Mundgod, Uttarkannada (part time faculty)	Yes	I thinkso	Very good	Good	Neutral	Agree	All the above	Very good	1.This FDP program helped to understand short snap about six sigma. 2. This program made to understand how to improve the process and how to create process by DMAIC and DMADV methods. 3.Came across the knowledge about lean and six sigma and their differences. And gain the knowledge about quantity, quality, tools , rules and needs of six sigma.. I thank BEC team for organizing such a underfull and necessary FDP program... Expecting such more program in future from ur team.. thank you whole team..	Please take care little about network issue... Other than this everything is nice.. and thank you Chaya madam for very good cooperation
186	7-10-2020 13:41:33	ashwinilaxman@bmsit.in	Ashwini N	Information Science and Engineering	BMS Institute of Technology and Management	Yes	Yes, met expectations	Excellent	Very good	Strongly agree	Agree	All the above	Excellent	Real time examples, case study	Nothing
187	7-10-2020 13:41:41	preetigoudar.bgk@gmail.com	Preeti R Goudar	Information Science and Technology	B V V S Polytechnic (Autonomous), Bagalkot	Yes	I thinkso	Good	Good	Agree	Agree	All the above	Good	PPT	Nothing
188	7-10-2020 13:41:58	sudhansudwibedi@gmail.com	SUDHANSU RANJAN DWIBEDI	INSTRUMENTATION AND ELECTRONICS ENGINEERING	COLLEGE BOF ENGINEERING AND TECHNOLOGY BHUBANESWAR	Yes	Yes, met expectations	Excellent	Very minimal	Strongly agree	Strongly agree	All the above	Excellent	It is a highly structured and logical TECHNOLOGY.The structure followed passed through DMAIC. We can improve our organisation by implementing six sigma TECHNOLOGY.it will improve bottom line profit	By increasing qualitative techniques and efficiency and more dependent inputs and considering today's present scenario .,we can reach at final goal
189	7-10-2020 13:42:50	rekroy24@gmail.com	Rekha S R	Electronics and Communication	Bapuji Polytechnic Shabanur,Davangere	Yes	Yes, met expectations	Good	Good	Agree	Agree	All the above	Good	Information about 6sigma , Application of core subject mathematics , Creative thinking.	Everything was Good
190	7-10-2020 13:43:39	bbdigit@gmail.com	BIBHUTI BHUSAN CHOUDHURY	department of mechanical engineering	I.G.I.T SARANG	Yes	Excellent	Excellent	Excellent	Strongly agree	Strongly agree	All the above	Excellent	Helps Nurture Managerial and Leadership Ability,Improve Business Processes and Sustain Quality Improvement,Gain Hands-On Experience in Quality Management.	NA
191	7-10-2020 13:43:46	aruntomar.tomar20@gmail.com	ARUN KUMAR SINGH TOMAR	Electrical Engineering	Rustam Ji Institute of Technology, Tekanpur, Madhya Pradesh	Yes	Excellent	Excellent	Excellent	Strongly agree	Strongly agree	All the above	Excellent	(1) organisation tools (2) Statistical methodology (3) Increasing profit	New developments should be included

200	7-10-2020 13:50:43	rajumattikpl@gmail.com	Raju S. Matti	Mechanical Engineering	Basaveshwar Engineering College, Bagalkot	Yes	Yes, met expectations	Very good	Excellent	Strongly agree	Agree	All the above	Excellent	Enhancement of knowledge. Why 6 sigma used. Where 6 sigma used.	Congratulations, keep it up.
201	7-10-2020 13:51:07	rajumattikpl@gmail.com	Raju S. Matti	Mechanical Engineering	Basaveshwar Engineering College, Bagalkot	Yes	Yes, met expectations	Very good	Excellent	Strongly agree	Agree	All the above	Excellent	Enhancement of knowledge. Why 6 sigma used. Where 6 sigma used.	Congratulations, keep it up.
202	7-10-2020 13:51:13	Kodbiel16@gmail.com	Dr. DEVENDRAPPA K C	Mechanical engineering	Bapuji Institute of Engineering and Technology	Yes	Yes, met expectations	Very good	Very good	Agree	Agree	Lowering defects	Very good	From this FDP gain the six sigma knowledge	Program is excellent
203	7-10-2020 13:51:23	Kerenalli@gmail.com	Sudarshana Kerenalli	Ise	AIET MOODBIDRI	Yes	Yes, met expectations	Good	Good	Neutral	Agree	All the above	Very good	Quality is more important but expensive to achieve...	Nill
204	7-10-2020 13:51:35	Kerenalli@gmail.com	Sudarshana Kerenalli	Ise	AIET MOODBIDRI	Yes	Yes, met expectations	Good	Good	Neutral	Agree	All the above	Very good	Quality is more important but expensive to achieve...	Nill
205	7-10-2020 13:52:45	shilpa.kc2@gmail.com	Dr.Shilpa K.C	Electronics and Communications Engineering	Dr.Ambedkar Institute of Technology	Yes	Yes, met expectations	Very good	Okay	Agree	Agree	All the above	Very good	concepts of six sigma	nil
206	7-10-2020 13:52:58	shalini.shalu164@gmail.com	Dr. Shalini H S	MBA	Acharya Bangalore B-School	Yes	More than expected	Excellent	Very good	Strongly agree	Strongly agree	All the above	Excellent	We have learnt what is six sigma? How it evolved? How to calculate measures of central tendency? And how to check for reliability in six sigma?	The only problem faced was connectivity. Though the speakers and coordinators did an excellent job, the technical problem posed a challenge in continuous learning. So that needs to be taken care. Bhat madam has done a wonderful job by organising such a knowledgeable FDP.
207	7-10-2020 13:53:10	sujatapm@rvce.edu.in	Sujata Priyambada Mishra	ECE	RVCE Bangalore	Yes	More than expected	Excellent	Very good	Strongly agree	Agree	All the above	Very good	strategic and operational issues of process improvement and variation reduction. Six-sigma is a measure of quality that strives for near perfection. It is a disciplined, data-driven approach for eliminating defects.	Timing can be changed
208	7-10-2020 13:53:17	arun.shidling@gmail.com	Arun Shidling	Physics	Mahesh PU College	Yes	Yes, met expectations	Very good	Good	Neutral	Agree	All the above	Very good	1. Learnt a new technique for running business efficiently, "Six Sigma method". 2. Understanding of the do's and don't in a business by analysis of all the aspects. 3. Learnt about difference about lean and sigma. Also learnt about quantity, quality, accessibilty, needs and rules of six sigma.	I thank BEC for organising the much needful FDP. I thank the whole team and expect such programs again one near future.
209	7-10-2020 13:53:19	heggannavarbalesh@gmail.com	BALESH S HEGGANNAVAR	Science	Tippu Shaheed Institute of Technology Hubli	Yes	Excellent	Excellent	Excellent	Strongly agree	Strongly agree	All the above	Excellent	Six sigma tools, Lean six sigma, Activities and Tools	No

245	7-10-2020 14:25:38	ndutt82@yahoo.co.in	Narottam dutt upadhyay	Electrical engineering	Vikrant institute of technology and management ,Gwalior	Yes	Yes, met expectations	Very good	Okay	Agree	Agree	All the above	Excellent	Nice fdp	Well managed fdp
246	7-10-2020 14:26:19	nagarajbhat@rvce.edu.in	Nagaraj Bhat	ECE	RV College of Engineering	Yes	Excellent	Excellent	Very good	Strongly agree	Strongly agree	All the above	Excellent	Learning	Nil
247	7-10-2020 14:26:57	anuj.y9@gmail.com	Anuj Kr. Yadav	Computer science	BIET ,Jhansi	Yes	I thinkso	Very good	Okay	Agree	Neutral	Lowering defects	Good	Knowledge presentation explaination	Nothing
248	7-10-2020 14:28:47	ss128.shettar@gmail.com	SANGEETA SHETTAR	Electronics and Communication engg	BVVS Polytechnic (Autonomous), Bagalkot	Yes	Yes, met expectations	Very good	Very good	Agree	Agree	All the above	Excellent	Quality, informative and impressive	Other platform to improve delivery of the sessions
249	7-10-2020 14:28:49	girishgv1@gmail.com	GIRISH G V	Mechanical Engineering	JNN COLLEGE OF ENGINEERING SHIMOGA KARNATAKA	Yes	Excellent	Excellent	Excellent	Strongly agree	Strongly agree	All the above	Excellent	Reducing process variability Increasing customer satisfaction Improving processes	Ok fine
250	7-10-2020 14:29:00	girishgv1@gmail.com	GIRISH G V	Mechanical Engineering	JNN COLLEGE OF ENGINEERING SHIMOGA KARNATAKA	Yes	Excellent	Excellent	Excellent	Strongly agree	Strongly agree	All the above	Excellent	Reducing process variability Increasing customer satisfaction Improving processes	Ok fine
251	7-10-2020 14:29:48	hammigimanjunath@gmail.com	Manjunath Hammigi	Civil engineering	Dr.G.S.Melkote Rural Polytechnic Kuknoor	Yes	Yes, met expectations	Good	Very good	Agree	Strongly agree	All the above	Very good	It's very helpful it give s direction to over come defects	Not required
252	7-10-2020 14:30:33	swagatikacharya1610@gmail.com	Swagatika Acharya	Electronics and instrumentation engineering	College of Engineering and Technology, Bhubaneswar	Yes	More than expected	Excellent	Excellent	Strongly agree	Strongly agree	All the above	Excellent	Process and methodology, tools and techniques, mindset and cultures	The FDP was wonderful and I learnt many things from these sections.I will look forward to attend this type of FDP and webinars on new technologies.
253	7-10-2020 14:31:02	asitpanda76@gmail.com	Asit Kumar Panda	Electronics and Instrumentation Engineering	College of Engineering and Technology, Bhubaneswar	Yes	More than expected	Excellent	Excellent	Strongly agree	Strongly agree	All the above	Excellent	Process and Methodology, Tools and Techniques, Mindset and Culture etc	FDP was successfully completed as expected. Now I'm looking forward to new FDPs like six sigma techniques in future. All the session are really very informative.
254	7-10-2020 14:31:28	sashmitn@gmail.com	Sasmita kumari Nayak	IEE	CET, Bhubaneswar	Yes	Yes, met expectations	Very good	Excellent	Strongly agree	Strongly agree	All the above	Excellent	1."Six Sigma" is a methodology adopted by companies to reduce defects thereby improves revenue and increase customer satisfaction. 2."Six sigma"is a set of tools. 3.Data is very important.	No suggestions. In this critical situation you have done a great job.
255	7-10-2020 14:31:33	dipakswain@cet.edu.in	Dipak ranjan swain	Electrical engineering	CET Bhubaneswar	Yes	Yes, met expectations	Very good	Good	Agree	Agree	All the above	Very good	Really learning a lot	No thanks
256	7-10-2020 14:32:13	siddharthjeet7@gmail.com	Siddharth Jeet	Mechanical Engineering	Centre for Advanced Post Graduate Studies (BPUT), Rourkela	Yes	Yes, met expectations	Good	Good	Agree	Agree	All the above	Good	Structured & Organized case studies gave me an insight depth to use the six sigma methodologies to achieve & apply it on both industrial/research oriented issues.	Try to avoid technical glitches
257	7-10-2020 14:32:14	deepinder13@gmail.com	DEEPINDER SINGH	MECHANICAL ENGINEERING DEPARTMENT	GURU NANAK DEV ENGINEERING COLLEGE LUDHIANA	Yes	Yes, met expectations	Excellent	Very good	Strongly agree	Agree	All the above	Very good	1. Understand the work process well 2. Focus on customers 3.Stop defects by controlling variations	Pre recorded lectures of all respective speakers is better option for interrupted sessions
258	7-10-2020 14:32:30	baruaabhishek69@gmail.com	ABHISHEK BARUA	Mechanical Engineering	Centre for Advanced Post Graduate Studies, BPUT, Rourkela, Odisha	Yes	Yes, met expectations	Very good	Very good	Agree	Agree	All the above	Very good	Good industrial exposures and case studies, basics of quality management, overview of six sigma for applying it in my research work	though some technical issues, still FDP went in a smooth manner
259	7-10-2020 14:34:46	sujathan13@gmail.com	SUJATHA N	E&C	BAPUJI POLYTECHNIC SHABANUR,DAVANAGERE	Yes	More than expected	Very good	Very good	Strongly agree	Strongly agree	Increasing customer satisfaction	Excellent	Six methologies	Well organized
260	7-10-2020 14:35:09	neoffical123@gmail.com	Dr.Nandini Prasad K.S	Information Science and Engineering	Dr.Ambedkar Institute of Technology	Yes	Yes, met expectations	Very good	Good	Agree	Agree	All the above	Very good	Got very good idea about Six Sigma.	It would have been good if PPTs were shared on the same day itself.
261	7-10-2020 14:36:45	swethams_ise2014@bmsit.in	Swetha M S	ISE	BMSIT&M	Yes	Yes, met expectations	Good	Good	Strongly agree	Strongly agree	All the above	Good	Excellent FDP	Need hands on session on six Sigma
262	7-10-2020 14:37:40	leenaignatiusakri@gmail.com	Leena I Sakri	Information Science and Engineering	SDM College of Engineering and Technology Dharwad	Yes	Excellent	Excellent	Excellent	Strongly agree	Strongly agree	All the above	Excellent	Very informative and will apply the different tools learnt in my research and academics	Nil
263	7-10-2020 14:39:27	kishnrgdg@gmail.com	KISHORE N REVANKAR	Electronics and communication	Anjuman-E-Islam Polytechnic Gadag	Yes	Excellent	Excellent	Excellent	Strongly agree	Strongly agree	All the above	Excellent	Exposure to New technologies Managing Resource persons and stake holders Time Management	Everything perfect
264	7-10-2020 14:40:09	dpdashie@cet.edu.in	DEBI PRASAD DASH	Instrumentation and Electronics Engineering	College of Engineering and Technology, Bhubaneswar	Yes	More than expected	Excellent	Very good	Strongly agree	Agree	All the above	Excellent	1. Implement in my institution 2. Discuss the knowledge gained in this FDP with the students who wants to be entrepreneur 3. Doing the work correctly and efficiently	It was good
265	7-10-2020 14:40:12	sashmitn@gmail.com	Sasmita Kumari Nayak	IEE	CET Bhubaneswar	Yes	Yes, met expectations	Very good	Very good	Strongly agree	Agree	All the above	Excellent	1.'Six Sigma' is a set of Tools 2.Basically Six Sigma does three actions to achieve its results: Process improvement, Process design & re-design and process control 3.Data is very important.	NA
266	7-10-2020 14:43:20	dilipbagal90@gmail.com	DILIP KUMAR BAGAL	DEPARTMENT OF MECHANICAL ENGINEERING	GOVERNMENT COLLEGE OF ENGINEERING, KALAHANDI,	Yes	More than expected	Excellent	Very good	Strongly agree	Strongly agree	All the above	Excellent	1. Understanding of Basics of Statistical approach in our real world problems. 2. Applying the 6-Sigma tool in optimization of engineering applications and others. 3. Analysis of outcomes which are obtained from the 6-Sigma statistical approach.	Firstly, some audible interruptions are there but then after 1-2 days.. It was managed by the Host.. Regarding further improvement, I think some practical simulations have to add with any tool Software...
267	7-10-2020 14:44:20	Hangaragibasu@gmail.com	Basavaraj N Hangaragi	Electronic Instrumentation &Control Engg	BVVS Polytechnic College Bagalkot	Yes	Excellent	Excellent	Very good	Strongly agree	Agree	All the above	Excellent	Improvement progressing design	No
268	7-10-2020 14:44:41	kiran.bk800@gmail.com	KIRAN KADAKUNTLA	ELECTRONICS AND COMMUNICATION ENGG	Govt. Polytechnic, Hubli	Yes	Yes, met expectations	Very good	Very good	Agree	Agree	All the above	Very good	Advanced learning About Six Sigma concept About increasing the business	It is very well organised
269	7-10-2020 14:49:55	cmallick75@gmail.com	Dr. Chittaranjan Mallick	Mathematics	Parala maharaja engineering college	Yes	Yes, met expectations	Excellent	Very good	Strongly agree	Agree	Increasing customer satisfaction	Excellent	Increase ability, satisfaction of customer, market demand	No
270	7-10-2020 14:51:00	amitkumarsa007@gmail.com	AMITKUMAR	Mechanical Engineering	Government Engineering College Raichur-584135	Yes	Yes, met expectations	Good	Good	Agree	Agree	Lowering defects	Good	How to apply the technical aspects to many processes	Please share presentation PPT's to mail id
271	7-10-2020 14:51:14	harnam16@gmail.com	Harnam Singh Farwaha	Mechanical Engineering	Guru Nanak Dev Engineering College Ludhiana	Yes	More than expected	Excellent	Excellent	Strongly agree	Strongly agree	All the above	Excellent	Excellent	NA
272	7-10-2020 14:52:27	rashmiranjan1@gmail.com	Rashmi Ranjan Tarai	Electronics and communication	GITAM BHUBANESWAR	Yes	Excellent	Excellent	Very good	Agree	Agree	All the above	Excellent	Improve process	Nothing
273	7-10-2020 14:53:36	hrhamsa8@gmail.com	HAMSA REKHA S D	Electronics and instrumentation engineer	Dr. Ambedkar institute of technology	Yes	More than expected	Very good	Excellent	Strongly agree	Strongly agree	All the above	Excellent	About all the concepts of six sigma	-
274	7-10-2020 14:53:49	nddeval@coe.sveri.ac.in	Ms. Nimisha Dinesh Deval	Computer science and engineering	SVERI's College of Engineering, Pandharpur	Yes	Excellent	Excellent	Excellent	Strongly agree	Strongly agree	All the above	Excellent	Increase customer satisfaction, improving process, lowering defects	None
275	7-10-2020 14:55:17	varshay212@gmail.com	Varsha J Rathod	Electronics and communication	Government Polytechnic Hubli	Yes	More than expected	Excellent	Very good	Strongly agree	Strongly agree	All the above	Excellent	Six sigma methodology, implementation, application	No suggestions.
276	7-10-2020 14:58:25	Veeru.baligeri@gmail.com	Veeresh Baligeri	Computer Science & Engineering	H.K.E SOCIETY'S S.L.N COLLEGE OF ENGINEERING	Yes	Yes, met expectations	Excellent	Excellent	Strongly disagree	Strongly agree	All the above	Excellent	Qualitative and quantitative analysis	Very well organised
277	7-10-2020 14:59:39	pcshruti@gmail.com	Shruthi P C	Telecommunication	Dr.Ambedkar Institute of Technology	Yes	More than expected	Excellent	Very good	Strongly agree	Strongly agree	All the above	Excellent	No take away	More FDP to be conducted
278	7-10-2020 14:59:43	iejsethi@cet.edu.in	Jagannath Sethi	Instrumentation & Electronics Engineering	College of Engineering & Technology, Bhubaneswar	Yes	Yes, met expectations	Excellent	Excellent	Agree	Agree	All the above	Excellent	Inspirational	No
279	7-10-2020 15:00:48	deepakalappanavar@gmail.com	Deepa I Kalappanavar	Information science and engineering	Basaveshwar engineering college ,Bagalkot	Yes	Yes, met expectations	Excellent	Excellent	Strongly agree	Strongly agree	All the above	Excellent	Learnt lot of information about six sigma	No suggestions
280	7-10-2020 15:01:42	Jo.jyotimailme@gmail.com	Jyoti B K	Electronics and Communication Engineering	H.K.E SOCIETY's S.L.N COLLEGE OF ENGINEERING	Yes	Yes, met expectations	Very good	Very good	Agree	Agree	All the above	Very good	About sigma tools etc	FDP was good.

Online FDP on Six-Sigma

Day 5 Attendance

281	7-10-2020 15:09:17	mamatajs.bec@gmail.com	Mamata J. Sataraddi	ECE	Basaveshwar Engineering College (Autonomous), Bagalkot	Yes	Yes, met expectations	Excellent	Very good	Strongly agree	Agree	All the above	Excellent	Nice topics Time management	No suggestions
282	7-10-2020 15:16:09	Rekha.kambli@gmail.com	Rekha S Kambli	Computer science	Government polytechnic k r pet	Yes	Excellent	Excellent	Very good	Agree	Agree	All the above	Excellent	Overall each sessions are too good and informative. Thanks to all organisers and resource speakers .	No suggestion
283	7-10-2020 15:16:17	kiransgptaccnt@gmail.com	KIRANAKUMAR NALAVADE	MECHANICAL	GOVERNMENT POLYTECHNIC HUBBALLI	Yes	Excellent	Excellent	Very good	Strongly agree	Strongly agree	All the above	Excellent	Always focus on the customer. Understand how work really happens. Make your processes flow smoothly.	Everything was arranged and communicated very well in this pandemic. I suggest and request to conduct more and more programs in coming days
284	7-10-2020 15:17:33	vj.panikatti@gmail.com	Vijayalaxmi Panikatti	Civil engineering	Government polytechnic Hubli	Yes	More than expected	Very good	Very good	Agree	Strongly agree	All the above	Very good	Adopting six Sigma in an organisation Advantages of six Sigma in this pandemic situation	Nil
285	7-10-2020 15:18:29	rohithmailbox@gmail.com	Rohith Kumar H V	Mechanical Engineering	Kalpataru Institute of Technology, Tiptur	Yes	More than expected	Very good	Very good	Agree	Agree	All the above	Very good	Process improvement, Process design & re-design and process control.	No suggestion
286	7-10-2020 15:20:01	banuflgpl25@gmail.com	Banashankaramma F Lakkannavar	Computer science and Engineering	Government Polytechnic Bagalkot	Yes	Yes, met expectations	Very good	Very good	Agree	Agree	All the above	Excellent	No takeaways	Everything is excellent
287	7-10-2020 15:24:27	smangaraje@cet.edu.in	Soumyashree Mangaraj	Instrumentation and Electronics Engineering	College of Engineering and Technology, Bhubaneswar	Yes	Excellent	Excellent	Excellent	Strongly agree	Strongly agree	All the above	Excellent	Knowledge, use and implementation of Six Sigma	No, nothing is required.
288	7-10-2020 15:27:53	sahanab@rvce.edu.in	Sahana B	ECE	R.V.College	Yes	Yes, met expectations	Excellent	Good	Agree	Agree	All the above	Very good	About six Sigma got clear idea.. measuring tools	No
289	7-10-2020 15:28:41	sushantaie@cet.edu.in	SUSHANTA KUMAR SAHU	Instrumentation and Electronics Engineering	College of Engineering and Technology Bhubaneswar	Yes	Yes, met expectations	Very good	Very good	Strongly agree	Agree	All the above	Excellent	Knowledge, experience and Technology	Excellent program
290	7-10-2020 15:37:41	shailad1964@gmail.com	Dr.Shaila Umesh Durgadsimi	Physics	Basaveshwar Engineering College Bagalkot	Yes	Yes, met expectations	Good	Good	Agree	Agree	All the above	Good	Know about six sigma,how to apply six sigma to solve my problems	Improvement in the network
291	7-10-2020 15:42:10	gj.naveenprakash@gmail.com	Prof. G J NAVEEN	Mechanical Engineering	Sambhram Institute of Technology	Yes	Yes, met expectations	Excellent	Very good	Strongly agree	Agree	All the above	Excellent	Overall idea on Six Sigma	Computer Techniques could been addressed.
292	7-10-2020 15:44:52	metibharathi@gmail.com	Mrs. METI. BHARATHI	Physics	Dr AIT Mallathalli Bengaluru-56	Yes	Yes, met expectations	Very good	Very good	Agree	Agree	All the above	Very good	Knowledge, confidence, skills	Kindly conduct more webinars in future
293	7-10-2020 15:45:24	svjagzap@coe.sveri.ac.in	Shamli Vilas Jagzap	E&TC	Sveri's College of Engineering	Yes	Yes, met expectations	Very good	Very good	Agree	Agree	Lowering defects	Excellent	Interesting topic	Nothing
294	7-10-2020 15:48:15	rachu.rsk@gmail.com	RACHANNA KALAGI	Mechanical	KLE POLYTECHNIC	Yes	More than expected	Excellent	Very good	Agree	Strongly agree	All the above	Excellent	Knowledge about six Sigma... New ideas... Good session	Well organised FDP
295	7-10-2020 15:47:28	ksoren@cet.edu.in	Karmila Soren	Instrumentation and electronics	College of engineering and technology, bhubaneswar	Yes	Yes, met expectations	Very good	Good	Strongly agree	Agree	All the above	Very good	A lot of interaction and practices, There are many tools that can support me on a daily basis, Customer Focus.	Standardize the Methodology, Set Times to Present the Ongoing Data
296	7-10-2020 15:47:52	shilpa.stjit@gmail.com	Mrs. Shilpa Halawar	Civil Engineering	Government Polytechnic for Women, Hubli	Yes	Yes, met expectations	Very good	Very good	Neutral	Agree	All the above	Very good	1. The huge topic like six sigma is covered in 5 days session.... 2. Knowledge about DMAIC and DMADV are clearly got ... and it very helpful . 3. Got to know about the tools, need, uses and reliablity of six sigma..	Sessions were very good... improve with network issues.. thank you whole BEC team..
297	7-10-2020 16:02:00	me_nishantkushwah@vitm.edu.in	Nishant Singh Kushwah	Mechanical Engineering	Vikrant Institute of Technology and Management	Yes	Yes, met expectations	Very good	Good	Agree	Agree	All the above	Very good	1. It gives vast knowledge 2. New method of improvement 3. Great Initiative	No. of days could be reduced to three days
298	7-10-2020 16:04:16	pbsurekha03@gmail.com	Surekha P B	Computer Science and Engineering	Government Residential polytechnic for women	Yes	Yes, met expectations	Very good	Very good	Strongly agree	Strongly agree	All the above	Very good	Six sigma application	As much as possible avoidAudio echoing
299	7-10-2020 16:07:43	rout.ranjita@gmail.com	Mrs.Ranjita Rout	Comouter science and engineering	Gandhi institute for education and technology	Yes	Excellent	Excellent	Excellent	Strongly agree	Strongly agree	Increasing customer satisfaction	Excellent	Multidimensional structure	Good
300	7-10-2020 16:10:59	anaik035@gmail.com	Anusha Naik	Electronics and Communication	Govt Residential Women's Polytechnic	Yes	More than expected	Very good	Very good	Strongly agree	Agree	All the above	Very good	.Always focus on the customer. .Understand how work really happens. .Make your processes flow smoothly. .Reduce waste and concentrate on value. .Stop defects through removing variation.	Well done all the best
301	7-10-2020 16:18:05	biradarraghu18@gmail.com	Raghavendra Biradar	History	R.V.Women's Degree College Hunnabad	Yes	Yes, met expectations	Excellent	Very good	Agree	Strongly disagree	All the above	Excellent	Good	Nothing
302	7-10-2020 16:22:56	raj.enggs@gmail.com	Raju A Nadaf	CSE	Government Polytechnic, Bagalkot	Yes	Excellent	Excellent	Excellent	Agree	Agree	All the above	Excellent	Excellent session	All was well
303	7-10-2020 16:24:23	rmuddebihal@gmail.com	RUBINA	Computer science	Government Polytechnic Bagalkot	Yes	Yes, met expectations	Excellent	Excellent	Agree	Agree	All the above	Excellent	Excellent PPT, resource person	No
304	7-10-2020 16:29:36	mantupv@gmail.com	Mahantesh Shivalingappa Devoor	Computer Science and Engineering	Jain College of Engineering	Yes	Excellent	Excellent	Excellent	Strongly agree	Strongly agree	All the above	Excellent	Learnt six sigma	Good conduction
305	7-10-2020 16:58:25	mail12kb@gmail.com	K Bhat	EIE	BEC	Yes	Excellent	Excellent	Excellent	Strongly agree	Strongly agree	All the above	Excellent	Six sigma tools can be implemented in institutions	Nothing
306	7-10-2020 17:03:35	sbkumbalavati@gmail.com	Dr. Santosh B. Kumbalavati	E&IE	Basaveshwar Engineering College Bagalkot	Yes	More than expected	Very good	Very good	Agree	Agree	All the above	Very good	Overview of Six sigma Six Sigma Tools	Nothing
307	7-10-2020 17:14:47	Sandeepbk3897@gmail.com	Sandeepkumar kulkarni	Electronica and Instrumentation engineering	Poojya Doddappa Appa college of engineering	Yes	Yes, met expectations	Good	Very good	Strongly agree	Agree	All the above	Very good	New tools , managing skills	Using new tools , appe for proper signaling
308	7-10-2020 17:15:19	bhamalok@gmail.com	Bhama C	Computer science	GRWPT SHIMOGA KARNATAKA	Yes	Yes, met expectations	Excellent	Excellent	Agree	Agree	All the above	Excellent	Six sigma tools,methodology,process improvement	Could have organized for 1 week
309	7-10-2020 17:39:26	be.khem2008@gmail.com	Dr. Khemraj Sahu	Mechanical Engineering	Government College of Engineering Kalahandi Odisha	Yes	More than expected	Very good	Very good	Agree	Strongly agree	All the above	Very good	To built a better concept of Six Sigma, Better Knowledge of DMAIC Process, Know about data pattern and measurement system	This FDP is very fruitful for me and enhances my knowledge about Six Sigma process and their peripheral. I am requesting to you please send the all ppt or pdf in our emails for better reference because if we forgot some concept or some other thing, then we follow the ppt.
310	7-10-2020 17:46:38	umrpatil@gmail.com	Milind Ravindra Patil	Applied Science Physics	Government Polytechnic Jalgaon	Yes	Excellent	Excellent	Excellent	Strongly agree	Strongly agree	All the above	Excellent	Knowledge information technology	Excellent
311	7-10-2020 19:23:07	dtkashid@coe.sveri.ac.in	Digambar Tukaram Kashid	Mechanical Engineering	SVERI's College of Engineering, Pandharpur	Yes	Excellent	Excellent	Excellent	Strongly agree	Strongly agree	All the above	Excellent	Six sigma	All sessions were very informative
312	7-10-2020 19:30:29	pushpask@bmsit.in	Dr. Pushpa S K	ISE	BMS Institute of Technology and Management	Yes	Excellent	Excellent	Excellent	Strongly agree	Strongly agree	All the above	Excellent	Improve quality, customer satisfaction,	Good Job, Nicely Organized
313	7-10-2020 19:33:27	sujatavmallapur@gmail.com	Dr. Sujata Mallapur	Computer Science and Engineering	Sharnbasva University, Kalaburagi	Yes	Yes, met expectations	Very good	Excellent	Strongly agree	Agree	All the above	Very good	Learned the concepts of six sigma	no comments
314	7-10-2020 19:34:42	sgdevika@gmail.com	Devika G	Computer science & engineering	Government Engineering College KRPET	Yes	More than expected	Good	Very good	Strongly agree	Strongly agree	All the above	Excellent	Got to about six sigma benifts, tools and usage in academic institutions	Include case studies with experimental results
315	7-10-2020 19:36:50	sgdevika@gmail.com	Devika G	Computer science &engineering	Government Engineering College KRPET	Yes	More than expected	Good	Good	Strongly disagree	Strongly disagree	All the above	Excellent	Sigma tools and applications	Conduct with hands on any tools
316	7-10-2020 19:42:04	prangya.p@gmail.com	Prangya Paramita Pradhan	I&E Engg	College of Engineering and Technology	Yes	Yes, met expectations	Very good	Very good	Agree	Agree	Increasing customer satisfaction	Very good	Mindset or SCRUM methodology, also puts the customer as the focus for its solution searching	Very good
317	7-10-2020 19:50:48	hunnurmba@gmail.com	Dr.Rashmi Ram Hunnur	Management Studies	Basaveshwar Engineering College	Yes	More than expected	Excellent	Excellent	Strongly agree	Strongly agree	All the above	Excellent	Overall FDP was really good. Very well organized and speakers were really good	Nothing. Everything was good
318	7-10-2020 19:57:05	brijmohanvyas11@gmail.com	Brijmohan A.Vyas	MBA	Basaveshwar Engineering College (A) Bagalkot	Yes	More than expected	Excellent	Very good	Agree	Agree	All the above	Very good	Came to know about six sigma concept.	No Suggestions
319	7-10-2020 20:11:20	rajeevmn29@gmail.com	RAJEEV M N	Mechanical Engineering.	Government Polytechnic,Sira	Yes	More than expected	Excellent	Excellent	Agree	Agree	All the above	Excellent	Got more awareness of six sigma ,how important to implement in our teaching learning process,more illustration and case studies made us more interesting and those we can use it in future teaching	Everything was well organized by BEC team...We never felt this was the first online fdp organized .. Excellent exuberant resource persons. We except much more FDP'S in coming days... Can we except fdps one INDUSTRY 4.O ,ADDITIVE MANUFACTURING
320	7-10-2020 20:27:49	swethams_ise2014@bmsit.in	Swetha M S	ISE	BMSIT&M	Yes	Yes, met expectations	Excellent	Good	Strongly agree	Strongly agree	All the above	Good	Good FDP	Hands on is required
321	7-10-2020 21:43:51	smkarve@coe.sveri.ac.in	Mr. Swagat Madhav Karve	Electronics and telecommunication	SVERI college of engineering	Yes	Excellent	Excellent	Excellent	Strongly agree	Strongly agree	All the above	Excellent	Knowledge about the six sigma	Nil
322	7-10-2020 21:44:22	dbjani@rediffmail.com	Jani dilip batukray	Mechanical	Government engineering college Dahod	Yes	Excellent	Excellent	Excellent	Strongly agree	Strongly agree	All the above	Excellent	Excellent	Excellent
323	7-10-2020 21:47:14	jkotresh@gmail.com	Jagadish K Nargund	EC	Anjuman-E-Islam polytechnic, Gadag	Yes	Excellent	Excellent	Excellent	Strongly agree	Strongly agree	All the above	Excellent	Quality, timelines, excellent presentation	No suggestion
324	7-10-2020 22:11:19	sutagundarm@gmail.com	Manjula Sutagundar	Electronics and Instrumentation	Basaveshwar Engineering College	Yes	Yes, met expectations	Very good	Very good	Agree	Agree	All the above	Excellent	Learnt Basics of six sigma and it's role in various domain	Can organize on six sigma in education sector
325	7-10-2020 22:42:42	s.karthik014@gmail.com	Karthik S	Electrical and Electronics Engineering	Acharya institute of technology	Yes	Yes, met expectations	Good	Good	Agree	Agree	All the above	Good	Skills	Good
326	7-11-2020 8:56:55	girishgv1@gmail.com	GIRISH G V	Mechanical Engineering	JNN COLLEGE OF ENGINEERING SHIMOGA KARNATAKA	Yes	Excellent	Excellent	Excellent	Strongly agree	Strongly agree	All the above	Excellent	Reducing process variability Increasing customer satisfaction Improving processes	Ok fine
327	7-11-2020 9:22:04	cmallick75@gmail.com	Dr. Chittaranjan Mallick	Mathematics	Parala Maharaja engineering college	Yes	Excellent	Excellent	Excellent	Strongly agree	Strongly agree	Increasing customer satisfaction	Excellent	Improving quality of customer	Very nice👍👍👍
328	7-11-2020 10:01:44	hammigimanjunath@gmail.com	Manjunath Hammigi	Civil engineering	Dr.G.S.Melkote Rural Polytechnic Kuknoor	Yes	Yes, met expectations	Very good	Very good	Strongly agree	Agree	All the above	Very good	1.it is very helpful in organising team work 2.it is give good knowledge about our defects. . 3.it gives direction how to overcome defects	Not required
329	7-11-2020 12:46:48	saatole@coe.sveri.ac.in	Seema Ashok Atole	ENTC	SVERI's CE,Pandharpur	Yes	Yes, met expectations	Excellent	Very good	Strongly agree	Strongly agree	Lowering defects	Very good	Six sigma	No

Basaveshwar Engineering College (Autonomous),Bagalkot
Technical Quality Improvement Programme - III

TEQIP – III
NPIU
A Unit of MHRD

CERTIFICATE OF PARTICIPATION

This is to certify that Mr./Mrs……..…….....

of ……..…….....has participated in TEQIP-III sponsored online Faculty Development Programme on "Six Sigma" held from 6th to 10th July 2020 organized by Internal Quality Assurance Cell (IQAC) and Department of Electronics and Instrumentation Engineering, Basaveshwar Engineering College (Autonomous), Bagalkot, Karnataka, India

Dr. Chayalakshmi C. L. Dr. C. M. Javalagi
Coordinators

Dr. Krishnamurthy Bhat
Head of the Department, EIE

Dr. S. G. Kambalimath
Coordinator, TEQIP-III

Dr. S. S. Injaganeri
Principal

3	National Symposium on Geotechnics for Sustainable Infrastructure Development	26-27 July 2019

1. FDP on Research Avenues in Information Technology

About the Institution

Basaveshwar Engineering College was established in the year 1963. At present it offers Engineering degree in ten disciplines and ten post-graduate programs including MBA & MCA. Eight departments of the college have been recognized as Research Centers by VTU. Also five departments are recognized as QIP Centers for Ph.D programs by AICTE New Delhi. The college was granted autonomy in the year 2007. College campus is located on beautiful elevated stretch of land over 91 acres on the outskirts of the city, adjoining to New-Township, Navanagar, Bagalkot.

All UG programs and five PG programmes are accredited by NBA, including M. Tech. (CSE). The college is also accredited by NAAC with A grade. Presently 82 faculty members are qualified with Ph. D. The college was entitled for grants of over Rs. 34 crores, under TEQIP. The college has secured 191st rank in NIRF ranking by MHRD.

The department of CSE was established in 1983, with an intake of 40. Present intake of the B. E. programme is 90 and M. Tech. is 18. The department of ISE was established in the year 1999 with an initial intake of 30 students. Present intake of B. E. programme in 90.

Objectives of the FDP

The purpose of this programme is to bring together the eminent researchers from academia, industry and R & D institutions to share the recent developments. The objective of the workshop is to provide current research issues and challenges in Information Technology. This FDP covers the research areas, including cloud computing, machine learning, intelligent sensor networks, Internet of Things, pattern recognitions, knowledge discovery and data mining, speech, video and image processing, edge computing, research pedagogy, etc. The primary emphasis of the programme is to help the budding researchers in Information Technology and allied areas.

Who can attend?

The programme is open to faculty members of TEQIP institutions, AICTE approved engineering colleges, polytechnics, research scholars, and industrial professionals.

Registration

Interested applicants are requested to send duly filled registration forms to coordinators along with the registration fee as crossed demand draft drawn in the name of "The Principal, Basaveshwar Engineering College, Bagalkot", payable at Bagalkot. Selection will be done in first come first serve basis and it will be limited to 50 participants.

Accommodation

Limited accommodation is available for outstation participants at BEC Hostel, on payment of nominal charges.

Registration Fee

Faculty Members	: Rs. 1,000
Research Scholars	: Rs. 500
Participants form Industries	: Rs. 1,500

Important Dates

Last date for Registration	: 29-05-2019
Confirmation of Registration	: 31-05-2019

About Bagalkot

Bagalkot is a district headquarter located on the banks of river Ghataprabha, part of which is submerged in the backwaters of Alamatti dam. The city is well-connected by road and rail. The nearest airports are Hubballi (130 km) and Belagavi (140 km). It is surrounded by many places of tourist interest, including Badami cave temples of Chalukya dynasty, Aihole, known as cradle of temple architecture, Pattadakallu, UNESCO World Heritage Center, Alamatti Dam, Koodala Sangama, the holy place of Aikyamantapa of Basaveshwar, a folklore museum, Shivayogamandir and Mahakoota, places of devotional interest.

TEQIP-III Sponsored

Faculty Development Programme on

Research Avenues in Information Technology

(3rd to 7th June 2019)

Registration Form

Name :

Designation:

Department:

Institution/Organization:

Address:_____

_____

_____

Mobile No. :

Email :

Details of the payment:

DD No. Date:

Amount: Bank:

Date: Signature of the Faculty/Researcher

Note: Photocopies may be used for more entries.

Declaration

The information furnished hereby me is true to the best of my knowledge. I agree to abide by the rules and regulations governed by the TEQIP-III sponsored programme. If selected, I shall attend the course for the entire duration. I also undertake the responsibility to inform the coordinators of the faculty development programme, well in advance, in case of I am unable to attend the course.

Place: Signature of the Faculty/Researcher

Date:

Sponsorship Certificate

Mr. / Ms._____

_____ is hereby deputed for attending the TEQIP-III sponsored Faculty Development Programme on "Research Issues in Information Technology", from 3rd to 7th June 2019, at Basaveshwar Engineering College, Bagalkot

Signature of Head of the Institution with seal

Chief Patrons

Dr. Veeranna C. Charantimath
Chairman, B. V. V. Sangha, Bagalkot

Sri. Mahesh N. Athani
Hon. Secretary, B. V. V. Sangha, Bagalkot.

A Report on

TEQIP-III Sponsored One-week Faculty Development Programme on

Research Avenues in Information Technology

(3rd to 7th June 2019)

Jointly organized by the Departments of CSE and ISE

Prelude

Information Technology has been one of the most promising research areas over the past two decades. To meet the ever-demanding needs of knowledge industry, Faculty development programmes (FDP) have always been an effective tool to enhance research competencies of educators. In this direction an FDP on "Research Avenues in Information Technology" was jointly organized by the Departments of CSE and ISE from 3rd to 7th June 2019 under TEQIP-III. The motive of this programme was to bring together the eminent researchers from academia, industry and R & D institutions to share the recent developments.

Objectives

The primary objectives of the workshop were:

- Explore the current research issues and challenges in Information Technology.
- Exposing various research issues and challenges in the areas, including machine learning, wireless networks, Internet of Things, pattern recognition, data mining, speech, video, and Image processing, research pedagogy, etc.
- Develop research culture among the budding and aspiring researchers in Information Technology and allied areas.
- Familiarity with techniques for different research approaches.
- Provides the researchers with insights on writing and publishing the research findings.

Participants

The FDP got very good response from academicians and research scholars. A total of 57 participants attended the FDP, of which 16 were from other institutes, and the remaining 41 were inhouse participants from different departments. Attendees included Research Scholars & Academicians form varied background. The outside participants were from different Engineering Colleges and polytechnics of Maharashtra and Karnataka State, viz. MIT Academy of Engineering, Alandi, Pune, TKIET Warnanagar, Dr. Ambedkar Institute of Technology, Bengaluru, Jain University Bengaluru, Govt. College of Engineering Haveri, Gogte Institute of Technology, Belagavi, BLDEA's CET Vijayapura, SK & SVMA CET Lakshmeshwar, and Govt. Polytechnic Kalgi.

Resource Persons

1. Dr. Ramachandra Hebbar, ISRO Bengaluru
2. Dr. Dinesh M. S., Philips Bengaluru
3. Dr. S. R. Mahadeva Prasanna, IIT Dharwad
4. Dr. S. G. Koolagudi, NITK Suratkal
5. Dr. B. N. Keshavamurthy, NIT Goa
6. Dr. B. R. Purushothama, NIT Goa,
7. Dr. S. V. Gangashetty, IIIT Hyderabad
8. Dr. C. B. Akki, IIIT Dharwad
9. Dr. Rajendra Hegadi, IIIT Dharwad
10. Dr. S. S. Patil, GKVK Bengaluru
11. Dr. Manesh Kokare, SGGS IE & T, Nanded
12. Dr. Vijay S. Rajpurohit, GIT Belagavi\
13. Dr. S. H. Jangamshetti, BEC Bagalkot
14. Dr. Shridhar K., BEC Bagalkot
15. Dr. A. V. Sutagundar, BEC Bagalkot
16. Dr. Vilas Naik, BEC Bagalkot
17. Dr. S. M. Hatture, BEC Bagalkot

Inaugural function

The inaugural function of the FDP was organized on 3rd June 2019, Monday, at 10 am in Multimedia Seminar Hall. Dr. Manesh Kokare, Associate Professor and Head, Electronics and Telecommunication Engineering was the Chief Guest. The FDP was inaugurated by the dignitaries by planting a tree. In the motivating speech as Chief Guest, Dr. Kokare enlightened the audience with his research experience in IT and its applications

The Principal, Dr. R. N. Herkal presided over the event and shared his views on faculty development, especially in the fast changing IT. Dr. S. S. Injaganeri, Coordinator TEQIP-III ignited on various achievements of the college under phases I, II and III of TEQIP. HoD of CSE, Dr. S. V. Saboji welcomed the gathering. HoD of ISE, Coordinator of the FDP Dr. V. B. Pagi introduced the Chief Guest and Dr. S. R. Patil proposed vote of thanks.

Dr. Manesh Kokare delivering the inaugural speech.

Also seen on the stage are Dr. S. V. Saboji, HoD CSE, Dr. S. S. Injaganeri, Coordinator TEQIP-III, Dr. R. N. Herkal, Principal, and Dr. S. R. Patil, HoD, ISE

The event was successful to attract the participation of 57 faculty members of which 16 were outsiders. The programme witnessed lectures by luminaries in IT industry, research organizations and higher learning institutes.

Day 1.3rd June 2019, Monday

The inaugural was followed by a technical talk on "Challenges of Research in Image Processing and Computer Vision" by Dr. Manesh Kokare. In this session, Dr. Kokare dealt with the current status, future prospects and challenges associated with image processing techniques. He discussed numerous examples and case studies to explain the significance of research in the field of image processing. The post lunch session was a continuation of the first session Dr. Kokare, by emphasizing "Research Issues in Pattern Recognition". His intellectual alacrity and thought provoking examples have insights for most of the fields of image processing and pattern recognition. This was followed by a lecture by Dr. Vijay S. Rajpurohit, Professor, CSE of GIT Belagavi. He underlined various aspects of "Research related to Agriculture based on IT". The session covered various related aspects of Smart Agriculture including GIS, Remote sensing,

GPS, Precision farming, Automatic grading of agricultural products. Dr. Rajpurohit elaborated the fundamental concepts behind the Smart Agriculture. Further, he discussed many ongoing projects that are being carried out in their research labs as case studies. In conclusion, he also shed light on research openings in IT for Indian agriculture sector.

Dr. Manesh Kokare, SGGS IE&T Nanded	Dr. V. S. Rajpurohit, GIT Belagavi

Day 2. **4th June 2019, Tuesday**

Day 2 began with a talk by Dr. Vilas H. Naik, who introduced Video Processing and the related research challenges. Dr. Naik explained the basic concepts of video processing techniques with numerous examples. Furthermore, he discussed how video processing techniques are different from conventional image processing approaches, and elaborated the challenges of video processing. It was followed by a talk by Dr. S. M. Hatture. He emphasized the Multimodal Biometric Techniques, feature extraction, recognition and the corpus he built for VTU-BEC. He quoted numerous case studies and examples about how biometric applications will help in building the better nation. Finally, he discussed fundamental aspects of multimodal biometric techniques followed by the numerous research challenges and applications. The first post lunch session was handled by Dr. Ashok Sutagundar, who highlighted extensive techniques and research issues related to Internet of Things. The role of IOT in the current scenario and its advantages over existing techniques was covered. Different IOT architectures and their implementation details with the present technology was also discussed. The last session for the day was handled by Dr. Shridhar K. The informative session opened up many research opportunities in the area of Speech signal enhancement for hearing aids. He covered various issues related to speech, domains of signal processing, enhancement in time, frequency and other domains.

Dr. V. H. Naik, BEC Bagalkot	Dr. S. M. Hatture, BEC Bagalkot
Dr. A. V. Sutagundar, BEC Bagalkot	Dr. Shridhar K., BEC Bagalkot

Day 3. **5th June 2019, Wednesday**

On day three Dr. S. G. Koolagudi, presented a talk on Speech Recognition Through Prosodic Features. He discussed various aspects related to speech synthesis and analysis in human system. Further, Dr. Koolagudi shed light on how combined features can be utilized for recognition of emotions of a person based on speech. The speaker took Kannada speech as a case study to demonstrate the challenges of speech processing in regional languages. The second session was on the topic "Stream Data Mining: Research and Applications", by Dr. B. N. Keshavamurthy, NIT Goa. Dr. Keshavamurthy first covered the fundamentals of stream data mining techniques. As a case study, he referred how Market Basket problem can be tackled with stream data mining using association rule mining. He also covered other data mining applications such as Privacy Preserving Data Mining and Social Media Mining. The next session was handled by Dr. B. R.

Purushothama, on "Cryptography and Network Security". Dr. Purushothama covered MD5, SHA1 and SHA2 algorithms with different key sizes and their impact on reconstruction and security. He discussed various aspects of data security in cloud computing. In particular, he elaborated on the topic called “Access Control Mechanisms for Outsourced Data in Public Cloud Environment”. The fourth session was by Dr. S. R. Mahadeva Prasanna of IIT Dharwad. He deliberated in detail the differences between traditional learning, machine learning and deep learning through illustrative examples. The technological developments in terms of computational power and memory have supported the deep learning, where the learning model directly acts on the input, extracts the features, adjusts the parameters and classifies.

Day 4. **6th June 2019, Thursday**

The sessions for the fourth day covered different issues related to information centric networking, biological computing, data mining and technical paper writing. Dr. S. S. Patil, GKVK Bangalore, introduced biological computing, genome sequence matching and algorithmic

facets of biology. He in his second session covered Data mining and the related research issues. The third session was handled by Dr. S. H. Jangamshetti. He imparted the skills of technical writing and publishing, including plagiarism, membership to professional societies, components of a paper, journals, conferences, citations, survey etc. The last session for the day was engaged by Dr. Rajendra Hegadi, IIIT Dharwad. The participants were exposed to the fundamentals and research issues related to information centric processing. He discussed both theoretical and practical aspects of the topic and highlighted through illuminating data and insightful videos.

Dr. Siddanagouda S. Patil, GKVK UAS Bengaluru

Dr. S. H. Jangamshetti, BEC Bagalkot

Dr. Rajendra Hegadi, IIIT Dharwad

Day 5. **7th June 2019, Friday**

The last day began with a session by Dr. Ramachandra Hebbar, a Scientist from ISRO. He discussed the contemporary challenges on Earth Observation and Geospatial Information, which opened up new avenues of research. Dr. Hebbar presented many real-time projects that they are collaboratively working with other organizations. Further, he discussed research avenues in GIS related to Bagalkot district. The second session was handled by Dr. C. B. Akki, IIIT Dharwad.

The session covered various features of the Industrial Revolution 4.0 standard, the framework and research areas. He explained the philosophy behind the evolution of technologies since the human developments. Dr. S. V. Gangashetty gave a lucid lecture on Artificial Neural Networks for Pattern Recognition. He correlated the human speech and hearing systems with the speech synthesis and analysis by computer system. The impact of the phonemes of speech, pitch and frequency was covered with illustrations. The last session for the day was handled by Dr. Dinesh M. S., Principal Engineer, Philips. He shared his professional knowledge with illustrations of various medical imaging systems, including X-Ray, CT Scan, MRI, PET Scan etc., and how image processing is helping the early diagnosis of the diseases which otherwise will have catastrophic effect.

Valedictory function

The FDP was concluded by a valedictory function followed the last session. Dr. Ramachandra Hebbar was the Chief Guest and Dr. Dinesh M. S. was the Guest of Honour. The Principal, Dr. R. N. Herkal presided over the event. Dean Academic and Planning, Dr. S. S. Injaganeri graced the function. Participation certificates were distributed to the participants by the dignitaries. The participants came on the dice and shared their experience and learning of the whole program. Participants' feedback also reveals that the programme is a perfect blend of technical knowledge on the advances in various research avenues. They expressed their wish to visit BEC for such future programs. Dr. S. M. Hatture welcomed the gathering and Prof. Roopa Math delivered vote of thanks.

Dr. Ramachandra Hebbar, Scientist ISRO, addressing the gathering at the valedictory.
Dr. S. S. Injaganeri, Coordinator, TEQIP-III, Dr. Dinesh M. S., Principal Engineer, Philips and Dr. R. N. Herkal, Principal, BEC Bagalkot were present on the stage

Outcomes

The topics of the FDP were of great benefit for the participants as the topics match with the research areas. From the feedbacks of the participants, the FDP was successful in achieving the following outcomes:

1. Exposure to various research avenues in Information Technology.
2. Orientation towards the research in focused areas.

3. Dissemination of knowledge related to diverse research areas including Space, Healthcare, Speech, Image and Video Processing, Biometrics, Internet of Things, IR4, Information centric networking, Cryptography and Hashing, Stream Data Mining.
4. Awareness to the researchers to different algorithmic tools and techniques.
5. Application of the learnt concepts to research in multi-disciplinary areas

Conclusion

The FDP became the scintillating platform of exchange of ideas and concerns among almost three generations of IT academicians and researchers. It is believed that this FDP will go a long way in improving the standard of research in the Faculty of Information Technology. All together it was a wonderful journey of one week which enlightened all the participants with full of knowledge in various research avenues.

Thanks

We, the Coordinators of the FDP are indebted to the management for the infrastructure and resources, Principal, Dr. R. N. Herkal, for extending all the support in smooth conduction of the FDP. We are grateful to the authorities of TEQIP-III, Prof. S. R. Gudisagar, Chairman BoG, TEQIP-III, Dr. S. S. Injaganeri, Coordinator, TEQIP-III for extending the financial support, and Dean Academic and Planning & Development, Dean Student Welfare Dr. C. B. Shivayogimath, Dean Research Dr. S. H. Jangamshetti for their timely advises and Dr. S. V. Saboji, Head of the Department of CSE for encouraging the participation and organization of the event. We finally thank all those who supported and helped us directly or indirectly.

Coordinators

Dr. Veerappa B. Pagi, Professor, CSE
Dr. Shobha R. Patil, Professor and Head, ISE
Dr. Lokesh B. Bhajantri, Associate Professor, ISE

Resource Persons and Topics :

- Mr. Raja S. Hiremath, Flexitron, Bangalore
  Electric Vehicle Scenario and a Roadmap for India
- Dr. Chandrasekhar Reddy Atla, PRDC, Bangalore
  Electric Vehicle System Analysis and Technologies
- Dr. Rupesh Wamidhare, IIIT, Hyderabad
  Electrical Machine Drives for EVs
- Dr. Rajil Ramchand, NIT Calicut
  Power Converter Topologies for EVs
- Dr. Venkatasubramanian Ramadesigan, IIT Mumbai
  Battery Management for Electric Vehicle
- Dr. Satish Naik, IIT Dharwad
  Power Converter Design for EV
- Dr. R. Chandrasekhar, TCS, Bangalore
  Automotive Electrification & Electric Vehicle Cyber Security
- Prof. S. R. Biradar, AISSMS College of Engg, Pune
  Hybridization of Power Sharing of Energy Resources in Electric Vehicle
- Dr. Suresh H. Jangamshetti, EEED,BEC, Bagalkot
  Charging Aspects of Electric Vehicle-Case Study of SPV
- Dr. Raghuram L. Naik, EEED, BEC, Bagalkot
  Multilevel Inverter for EVs
- Dr. Basangouda F. Ronad, EEED,BEC, Bagalkot
  System Design Using Homer Software

Target Group:
Academicians and industry personnel with engineering background, involved in R&D activities

Registration Fees:

Faculty from Academic and research institute	1000.00
Research Scholars	500.00
Industry	1500.00

Registration:
Registration form duly forwarded by Head of Institution /organization, along with DD in favor of "Principal Basaveshwar Engineering College, Bagalkot" should reach on or before 10th July 2019. Selected candidates will be informed via email.

Technically Supported by:

PRDC · FLEXITRON · AGE MOTORS · ISCO · SVSU

Patrons:
Dr. V. C. Charantimath, Chairman BVVS
Shri. M. N. Athani, Hon Secretary BVVS

Advisory Committee:
Prof. S. R. Gudisagar, BoG Chairman
Dr. R. N. Herkal, Principal
Dr. B. K. Tripathi, Director, REC, Bijnor, UP
Dr. S. S. Injaganeri, TEQIP Coordinator, Dean (Planning and Development & Academic)
Dr. S. H. Jangamshetti, HoD E&EE, Dean (R & D)
Dr. C. B. Shivayogimath, HoD Civil, Dean (Student Welfare)
Dr. C. M. Javalagi, Academic, Nodal Officer
Dr. S. G. Kambalimath, Finance, Nodal Officer
Dr. Mahableshwar S. K, Procurment, Nodal Officer
Prof. B. S. Haravi, Civil Works, Nodal Officer
Dr. Raghuram L. Naik, Twinning Coordinator
Dr. Sanjay Hanji, Industry Institute Coordinator
Dr. Anil Devangavi, MIS, Nodal Officer
Dr. Ishan Bhardwaj, TEQIP Coordinator, REC, Bijnor, UP

Accommodation:
Limited Accommodation is available for outstation participants at BEC Hostel on first come first serve basis with nominal charges.

Mr/Ms ..... is sponsored/deputed for attending the five days Faculty Development Program to be held in BEC Bagalkot during 22nd to 26th July, 2019.

Signature of the Head of the Institution

About Training Program

India is currently the fourth largest emitter of greenhouse gases (GHG) in the world. The transport sector accounts for 13% of India's energy related CO_2 emissions (INCCA, 2010). Recently, in India National Electric Mobility Mission Plan was announced to provide incentives for the usage and production of Electric Vehicles (EVs) with a view to mitigate adverse environmental impacts of vehicles by production of low carbon and to enhance energy security. In this context, power electronics play a vital role in designing of power converters to achieve high power density, high efficiency, high controllability and high reliability of machine drive. The selection criteria of motor drives for EVs are based on torque-speed characteristics and capability of bidirectional power flow. In general, the DC, AC or SR motor drives can offer the desired torque-speed requirements under proper motor design. This faculty development program aims to impart general theoretical aspects of electrical vehicles, selection of suitable motor drives, design of power converter and latest technological aspects in the area of EVs.

Objectives of the Programme

- To create awareness and provide information on Government Policies, Technology, Industry Status related to Electric Vehicles
- To address technical issues and challenges in the area of power electronics and machine drives, electric vehicles such as
  - Selection of AC/DC motors
  - Design of Power Converters for EV
  - Design of Control Strategies for Converters
  - Battery Management
- To provide latest technical know how on electric drives and energy source management

About the College (Estd. 1963)

Basaveshwar Engineering College (Autonomous), is a premier technical institute located in Northern Karnataka. It is Govt. aided institution recognized by AICTE, New Delhi, accredited by NBA and NAAC with A-grade. It is permanently affiliated to Visvesvaraya Technological University, Belagavi. Presently college offers 10 UG, 10 PG and 8 Research Centers (recognized by VTU) with student strength of 3500+. The college was granted autonomy in the year 2007. The college has secured 191 rank by NIRF, MHRD New Delhi. College has been under TEQIP Phase-I (2003-09), Phase-II (2011-17) and Phase-III (2017- till date). Qualified (38% Ph.D) and committed faculty drive the academic, curricular and co-curricular excellence on the campus. Research, innovation, industry-institute collaboration and transfer of technology to community are the core thrust areas.

About the Department (Estd. 1963)

The department of Electrical and Electronics Engineering was started with the inception of the college in 1963. The Department is a Govt. aided college and accredited by National Board of Accreditation (NBA). The department offers B.E program in E&E and is recognized as a Research Centre by VTU, Belgaum and QIP center, AICTE-New Delhi for offering Ph. D in Engineering. Over the years department has received 200+ Lakhs R&D grants and awarded 12 Ph.Ds. At present 12 research scholars are registered for Ph.D in different areas Viz. Wind hybrid Systems, WECS in micro grid, Power Electronics, Low speed wind turbine, Reactive power and Power Quality. Department has signed MOU with FLEXITRON, Bangalore, Power Research Development Consultant Pvt Ltd Bangalore, AG-Electro Services, Karad, Maharashtra and HESCOM Hubballi. The department has well qualified faculty and equipped with the state-of-art facilities in all the laboratories. The department has set up an exclusive R&D laboratory in the area of SCADA for distribution automation, Renewable Energy and FPGA based Machine Drives and Power Electronics.

Organized by

Department of Civil Engineering

Basaveshwar Engineering College (Autonomous)

Bagalkot – 587 103, Karnataka, India

and

Department of Civil Engineering

Rajkiya Engineering College, Bijnor, Uttarpradesh, India

About Bagalkot

Bagalkot is situated in the northern part of Karnataka. Geographically, it is located on the bank of Ghataprabha river with co-ordinates 16.18°N 75.70°E. The average elevation is 533 meters above mean sea level. The city is well connected by road and rail. The nearest airports are Hubballi (120 km) and Belagavi (130 km). It is surrounded by many places of tourist interest, including Badami cave temples of Chalukya dynasty, Aihole known as cradle of temple architecture, Pattadakallu, Almatti Dam, Kudala Sangama Aikyamantapa of Lord Basaveshwar, a folklore museum, Shivayogamandir and Mahakoota.

About Basaveshwar Engineering College

Basaveshwar Engineering College established in the year 1963 currently offers 10 under graduate programs and seven post graduate programs including MBA. The College is Government Aided institution affiliated to Visvesvaraya Technological University (VTU), Belagavi and approved by All India Council for Technical Education (AICTE), New Delhi. The College was granted autonomy in the year 2007. College campus is located on a beautifully elevated stretch of land over 93.8 acres on the outskirts of the city, adjoining to New- Township, Navanagar, Bagalkot. The college has secured 191 rank by NIRF, MHRD New Delhi. All the ten UG programs are accredited by NBA and also by NAAC.

About Civil Engineering Department

The Department of Civil Engineering started in the year 1963. The department came into grant-in-aid status in 1968 by Govt. of Karnataka. The department has qualified faculty and all the laboratories are equipped with state-of-art facilities. Department offers UG (Civil) and also three PG courses (M.Tech) in Structural, Geotechnical and Environmental Engineering. The department is recognized as a **Research Center** by VTU Belagavi for offering M.Sc (by Research) and Ph.D in 2003. The department is recognized as **QIP Center** for pursuing Ph.D program by AICTE New Delhi. It is also recognized as a State Resource Training Institution by Govt. of India for conducting training programs to Professional Engineers under National Program for Capacity Building for Engineers in Earthquake Risk Management **(NPCBEERM)**. The Govt. of Karnataka has recognized department as State level training institute for professional Engineers in the thrust areas of Civil Engineering under **Continuing Education Program (CEP).**

Symposium Theme

The main objective is to provide a comprehensive understanding of the geotechnics for sustainable infrastructure development, with an emphasis on the recent developments. In particular, the topics covered as part of the Symposium will mark the significance of th advancement in Geotechnical Engineering.

Symposium Topics

- Analysis and Rehabilitation of Deep Excavation Failures
  -Dr. B. R. Srinivas Murthy
- Role of Reliability Analysis in Geotechnical Engineering
  -Dr. Dilip Kumar Baidya
- Geotechnics for Sustainable Developments
  -Dr. T. G. Sitharam
- Best Practices in Geotechnical and Geoenvironmental Engineering
  -Dr. Shivakumar Babu
- Role of SSI in Seismic Response Analysis of Massive Masonry Structures
  -Dr. G. R. Dodagoudar
- Geosynthetic Application for Sustainable Pavements
  -Dr. S. V. Dinesh
- Relevance of Site Effect and Liquefaction to Construction Industry
  -Dr. S. K. Prasad
- Sustainability Aspects in Industrial Practices
  -Dr. Ravindra Gudi

Advisory Committee:

Prof. S. R. Gudisagar, Chairman, BOG, TEQIP
Dr. C. B. Shivayogimath, HOD Civil, Dean Student welfa
Dr. S. H. Jangamashetti, Dean Research
Dr. L. S. Ganesh, IIT, Madras
Dr. B. K. Tripathi, Director, REC Bijnur

Resource Persons:

Dr. B. R. Srinivas Murthy, IISC, Bangalore
Dr. Dilip Kumar Baidya, IIT, Kharagpur
Dr. T. G. Sitharam, IISc, Bangalore
Dr. Shivakumar Babu, IISC, Bangalore
Dr. G. R. Dodagoudar, IIT Madras, Chennai
Dr. Dinesh. S. V, SIT, Tumkur
Dr. S. K. Prasad, SJCE, Mysuru
Dr. Ravindra Gudi, IIT, Bombay

Coordinators:

Name	Mob No	Email Id
Dr. P. G. Rakaraddi	9448085007	pgraddi@yahoo.co.in
Prof. Geetanjali Patil	8317469488	rgeetapatil@gmail.com

Who Should Attend ?

Academicians, Research Scholars, Practicing Engineers and Students who are very keen in acquiring and enhancing their knowledge in the field of geotechnical engineering and its current trends.

Registration:

Students	– Rs 300 /-
Research Scholars	– Rs 500 /-
Faculty Members	– Rs 1000 /-
Industry Personnel	– Rs 2000 /-

* The registration fee shall be paid in the form of DD only
* DD shall be drawn in favour of "The Principal, Basaveshwar Engineering College, Bagalkot", payable at Bagalkot
* Registration fee includes: kit, course material, lunch and refreshments
* Seats are limited to 120
* For more information mail us at becsymp19@gmail.com

Accommodation:

Limited accommodation is available for outstation participants at BEC Hostel on first come first serve basis, with nominal charges.

Important Dates:

Completed Registration forms along with the registration fee (in the form of DD) should reach the coordinator not later than 15th July 2019.

Vision of the department:

To be a center of excellence of higher learning and research in civil engineering encompassing ethical Environmental and Economical aspects of the society.

Mission of the department:

The Department of Civil Engineering is committed to prepare globally competent engineers, in response to rapid economical and technological growth, through dynamic process of teaching-learning, research and sharing professional experiences for the betterment of the community.

REGISTRATION FORM

Symposium
on

Geotechnics for Sustainable Infrastructure Development

July 26-27, 2019

Name: .....

Designation: .....

Institution/ Organization: .....

.....

Address: .....

.....

.....

Mobile No:.....

Email Id:.....

Details of Payment :

DD No:..... Date:.....

Amount: Rs..... Bank:.....

Accomodation Required: (Yes / No)

I agree to abide by the rules and regulations governing the course.

Date: Signature of the Applicant

Signature & Seal of Head of Institution/Dept

(Additional registration forms may be photocopied)

Basaveshwar Engineering College (Autonomous), Bagalkot - 587 103

Symposium on
"Geotechnics for Sustainable Infrastructure Development"

Program Schedule

26th July 2019 (Day - 1)

09:00 – 10:00 Hrs.	:	**Registration**
10:00 – 11:00 Hrs.	:	**Inauguration**
11:00 – 12:15 Hrs.	:	"Role of Reliability Analysis in Geotechnical Engineering" **Dr. DilipKumar Baidya, Professor IIT, Kharagpur**
12:15 – 12:30 Hrs.	:	Tea Break
12:30 – 13:45 Hrs.	:	"Relevance of Site Effect and Liquefaction to Construction Industry" **Dr. S. K. Prasad, Professor SJCE, Mysuru**
13:45 – 14:30 Hrs.	:	Lunch Break
14:30 – 15: 45 Hrs.	:	"Sustainability Aspects in Industrial Practices" **Dr. Ravindra Gudi, Professor IIT, Bombay**
15:45 – 16:00 Hrs.	:	Tea Break
16:00 – 17:15 Hrs.	:	"Relevance of Site Effect and Liquefaction to Construction Industry" **Dr. S. K. Prasad, Professor SJCE, Mysuru**

27th July 2019 (Day - 2)

10:15 – 11:30 Hrs.	:	"Role of SSI in Seismic Response Analysis of Massive Masonry Structures" **Dr. G. R. Dodagoudar, Professor IIT Madras, Chennai**
11:30 – 11:45 Hrs.	:	Tea Break
11:45 – 13:00 Hrs.	:	"Analyses and Rehabilitation of Deep Excavation Failures" **Dr. B. R. Srinivas Murthy, Emeritus Professor IISc, Bangalore**
13:00 – 13:45 Hrs.	:	Lunch Break
13:45 – 15:00 Hrs.	:	"Best Practices in Geotechnical and Geo-environmental Engineering" **Dr. G. L. Sivakumar Babu, Professor IISc, Bangalore**
15:00 – 15:30 Hrs.	:	High Tea
15:30 – 16:00 Hrs.	:	Valedictory Function

Dt.: October 10, 2017

Dr. S. S. Injaganari,
TEQIP Co-ordinator,
Basaveshwar Engineering College,
Vidayagiri,
BAGALKOT - 587102, KARNATAKA.

Dear Sir,

Sub: CEP In-house programme on "Outcome based education".

This has reference to your emails and discussions with Prof.(Ms.) Sahana V Murthy, CDEEP, regarding the conduct of a two-days CEP in-house training programme on above subject for faculty members. I may inform that Prof.(Ms.) Murthy shall coordinate the above programme at Bagalkot during October 21-22, 2017. One copy of the course material would be provided to you in advance and you may replicate adequate copies for distribution to the participants.

The charges for the above programme would be ₹ 3,06,800/- (₹ Three lakh six thousand eighty only), for up to 25 participants. The course fee is inclusive of GST (@18%). (Course fee: ₹ 2,60,000/- + GST @ 18%: ₹ 46,800/- = Total: ₹ 3,06,800/-). Every additional participant would be charged @ ₹ 12,272/- (₹ Twelve thousand two hundred seventy two only) including GST @ 18% (10,400/- + 1872/- = 12,272/-). In addition, to & fro airfare, lodging & boarding and local hospitality of the course faculty would be borne by you.

May I request you to kindly confirm this programme at the earliest, by remitting the course fees by means of a **Demand draft made payable to "The Registrar, IIT Bombay, (CEP Account)"** and mail to the undersigned or through **e-transfer,** ahead of the course. **Kindly note that no tax should be deducted at source, as IIT Bombay is exempt from the same. The proforma invoice along with a copy of TDS exemption certificate, GST and Bank details are enclosed herewith. The invoice will be issued after the course fee is received.**

Kindly arrange to send the following details, if the payment is sent by e-transfer:

1. Transaction No.
2. Date of Transaction
3. Amount
4. Bank & Branch Name

With warm regards,

Yours sincerely,

Preeti Rao

Dt.: November 22, 2017

Dr. S. S. Injaganari,
TEQIP Co-ordinator,
Basaveshwar Engineering College,
Vidyagiri,
BAGALKOT - 587102, KARNATAKA.

Dear Sir,

Sub: CEP In-house programme on "Free and open source software in teaching and learning".

This has reference to your emails and discussions with Prof.Kannan Moudgalya, Dept. of Chemical Engg. regarding the conduct of a three-days CEP in-house training programme on above subject for faculty members. I may inform that Prof.Kannan shall coordinate the above programme at Bagalkot during November 15-17, 2017. One copy of the course material would be provided to you in advance and you may replicate adequate copies for distribution to the participants.

The charges for the above programme would be ₹ 5,52,240/- (₹ Five lakh fifty two thousand two hundred and forty only), for up to 30 participants. The course fee is inclusive of GST (@18%). (Course fee: ₹ 4,68,000/- + GST @ 18%: ₹ 84,240/- = Total: ₹ 5,52,240/-). Every additional participant would be charged @ ₹ 18,408/- (₹ Eighteen thousand four hundred and eight only) including GST @ 18%. In addition, to & fro airfare, lodging & boarding and local hospitality of the course faculty would be borne by you.

May I request you to kindly confirm this programme at the earliest, by remitting the course fees by means of a **Demand draft made payable to "The Registrar, IIT Bombay, (CEP Account)"** and mail to the undersigned or through **e-transfer,** ahead of the course. **Kindly note that no tax should be deducted at source, as IIT Bombay is exempt from the same. The proforma invoice along with a copy of TDS exemption certificate, GST and Bank details are enclosed herewith. The invoice will be issued after the course fee is received.**

Kindly arrange to send the following details, if the payment is sent by e-transfer:

1. Transaction No.
2. Date of Transaction
3. Amount
4. Bank & Branch Name

With warm regards,

Yours sincerely,

Preeti Rao

Professor-In-Charge

Management Development Programme on

ACADEMIC LEADERSHIP THROUGH EMOTIONAL INTELLIGENCE

Friday, 15th June 2018. at 9-30 am
Venue: Gallery Hall,
Basaveshwar Engineering College, Bagalkot

Organized by

Department of Management Studies (BEC-DOMS)
Basaveshwar Engineering College (Autonomous)
Bagalkot - 587103

Basaveshwar Engineering College

Basaveshwar Engineering College (BEC) is a premier technical institute located in northern part of Karnataka on a scenic stretch of land spread over 91 acres in the new township of Bagalkot. It was started in the year 1963 as a private college, offering three undergraduate degree programs. At present, it offers 10 undergraduate and 10 postgraduate degree programmes. The college is a Government Aided institution affiliated to Visvesvaraya Technological University (VTU), Belagavi in Karnataka and approved by All India Council for Technical Education (AICTE), New Delhi. The college persistently works for national development by producing high quality technical graduates and proactively contributes to socially relevant technological services. Over the years, the college has emerged one among the leading technical educational institutions due to the valuable contributions of its alumni who hold key positions in Government, Industrial and Business organizations across the globe.

Department of Management Studies (BEC-DOMS)

Department of Management Studies (BEC-DOMS) is the latest addition to Basaveshwar Engineering College list. The department was established in the year 2009 with an objective of bringing out high-quality professionals to meet the emerging and every growing demands and challenges of the industry in an ethical and socially responsible manner. It offers two-year full time MBA programme which is an autonomous programme affiliated to Visvesvaraya Technological University (VTU), Belagavi and approved by AICTE, New Delhi. The department is equipped with all necessary infrastructures. The faculty members are drawn from different specializations with varied experiences. The course content of the branch has been planned systematically, covering all the basics as well as advanced topics in Marketing, Finance, Human Resources, Operations and General Management. The curriculum has been designed to suit all kinds of industries and business organizations. Since its inception, the department has shown remarkable growth in the direction of achievement of its objectives.

About the MDP

This MDP focuses on developing creative management skills among institutional leaders and continually adding value to academia. One such factor which is repeated noticed in effective management of academic leadership is "Emotional Intelligence". Hence, the main focus of this Management Development Programme is to enhance the leadership skills of the institutional leaders through Emotional Intelligence.

Contents of the Program:

Module 1: IQ Vs EQ

ಬಸವೇಶ್ವರ ಎಂಜಿನಿಯರಿಂಗ್ ಕಾಲೇಜು: ಉಪನ್ಯಾಸಕರಿಗೆ ಕಾರ್ಯಾಗಾರ

ಪ್ರಜಾವಾಣಿ ವಾರ್ತೆ

ಬಾಗಲಕೋಟೆ: ಇಲ್ಲಿನ ಬಿ.ವಿ.ವಿ ಸಂಘದ ಬಸವೇಶ್ವರ ಎಂಜಿನಿಯರಿಂಗ್ ಕಾಲೇಜಿನ ಎಂ.ಬಿ.ಎ ವಿಭಾಗದ ವತಿಯಿಂದ ಇತ್ತೀಚೆಗೆ 'ಮ್ಯಾನೇಜ್‌ಮೆಂಟ್ ಡೆವಲಪ್‌ಮೆಂಟ್' ಕಾರ್ಯಾಗಾರ ನಡೆಯಿತು.

ಕಾರ್ಯಾಗಾರದಲ್ಲಿ ಸಂಪನ್ಮೂಲ ವ್ಯಕ್ತಿಯಾಗಿದ್ದ ಬಂದಿದ್ದ ಮುಂಬೈನ ಡಾ.ವಿಪುಲ್ ವ್ಯಾಸ್, 'ಭಾವನಾತ್ಮಕ ಬುದ್ಧಿಮತ್ತೆ (ಇಕ್ಯು) ಮೂಲಕ ಶೈಕ್ಷಣಿಕ ಉತ್ಕೃಷ್ಟತೆ' ಎಂಬ ವಿಷಯದ ಬಗ್ಗೆ ಉಪನ್ಯಾಸ ನೀಡಿದರು. ಕಾರ್ಯಾಗಾರದಲ್ಲಿ ವಿಜಯಪುರ, ಬಾಗಲಕೋಟೆ ಹಾಗೂ ಗದಗ ಜಿಲ್ಲೆಗಳ 60ಕ್ಕೂ ಹೆಚ್ಚು ಪದವಿ ಹಾಗೂ ಪದವಿಪೂರ್ವ ಕಾಲೇಜುಗಳ ಪ್ರಾಚಾರ್ಯರು ಹಾಗೂ ಹಿರಿಯ ಉಪನ್ಯಾಸಕರು ಪಾಲ್ಗೊಂಡಿದ್ದರು.

ಬಾಗಲಕೋಟೆಯ ಬಸವೇಶ್ವರ ಎಂಜಿನಿಯರಿಂಗ್ ಕಾಲೇಜಿನ ಎಂ.ಬಿ.ಎ ವಿಭಾಗದ ವತಿಯಿಂದ ಇತ್ತೀಚೆಗೆ ನಡೆದ 'ಮ್ಯಾನೇಜ್‌ಮೆಂಟ್ ಡೆವಲಪ್‌ಮೆಂಟ್' ಕಾರ್ಯಾಗಾರವನ್ನು ವ್ರೊ.ಎನ್.ಜೆ.ಕೆರೂರ ಉದ್ಘಾಟಿಸಿದರು

ಕಾರ್ಯಾಗಾರದಲ್ಲಿ ಮುಖ್ಯ ಅತಿಥಿಯಾಗಿದ್ದ ಬಿ.ವಿ.ವಿ ಸಂಘದ ಆಡಳಿತಾಧಿಕಾರಿ ಪ್ರೊ.ಎನ್. ಜೆ.ಕೆರೂರ, 'ಶೈಕ್ಷಣಿಕ ರಂಗದಲ್ಲಿ ಕೌಶಲಯುತ ನಾಯಕರಾಗಿ ಎಲ್ಲಾ ಪ್ರಾಚಾರ್ಯರು ಹಾಗೂ ಉಪನ್ಯಾಸಕರು ರೂಪುಗೊಳ್ಳುವ ಅಗತ್ಯವಿದೆ. ಅದರಲ್ಲಿ ಭಾವನಾತ್ಮಕ ಬುದ್ಧಿಮತ್ತೆ ಪ್ರಮುಖ ಪಾತ್ರ ವಹಿಸುತ್ತದೆ' ಎಂದರು.

ಕಾರ್ಯಕ್ರಮದ ಅಧ್ಯಕ್ಷತೆ ವಹಿಸಿದ್ದ ಎಂಜಿನಿಯರಿಂಗ್ ಕಾಲೇಜಿನ ಪ್ರಾಚಾರ್ಯ ಡಾ.ಆರ್.ಎನ್.ಪೆರಕಲ್ ಮಾತನಾಡಿ, 'ಶಾಲಾ-ಕಾಲೇಜು ಹಂತದಲ್ಲಿ ಶೈಕ್ಷಣಿಕ ಉತ್ಕೃಷ್ಟತೆ ಸಾಧಿಸಲು ಇಂತಹ ಕಾರ್ಯಾಗಾರಗಳ ಆಯೋಜನೆ ಆಗತ್ಯವಿದೆ' ಎಂದರು.

ಕಾರ್ಯಾಗಾರದಲ್ಲಿ ಎಂ.ಬಿ.ಎ ವಿಭಾಗದ ಮುಖ್ಯಸ್ಥೆ ಡಾ.ಶ್ರೀಲತಾ ರಾವ್ ಸ್ವಾಗತಿಸಿದರು. ಡಾ.ಸಂಜಯ್ ಹಂಜಿ ಹಾಗೂ ಪ್ರೊ.ಬ್ರಿಜ್ ಮೋಹನ್ ವ್ಯಾಸ್ ಎಂ.ಬಿ.ಎ ವಿಭಾಗದ ಕುರಿತು ಮಾಹಿತಿ ನೀಡಿದರು.

Department of Electronics and Communication Engineering

TEQIP-III Sponsored

Guest Lecture

on

"Curriculum Design for UG and PG Programs in E&C Engg."

REPORT

Benefits and Outcomes achieved from the Guest Lecture on "Curriculum Design for UG and PG Programs in E&C Engineering" organized under TEQIP-III

Benefits and Outcomes are as follows:

1. Revision of the UG(E&C) and M.Tech-Digital Communication curriculum as per the suggestions given by the speakers from industry, academic institutions and in-house faculty members will be incorporated in the upcoming BoS meeting.
2. Design the curriculum as per the current industry requirements.
3. Faculty got exposed to the expectations of the industries and academicians of higher learning institutions.
4. Strategies for industry-institute activities in the department are discussed.
5. Strategies for collaborative research activities and research grants were discussed.

(P.N. Kulkarni)

TEQIP-III sponsored Guest lecture on

"Curriculum Design for UG and PG Programs in E&C Engineering"

Schedule

Date: 24th January 2018 **Venue: ECE Dept. Seminar Hall**

Time	Session
1.30 PM to 3 PM	**Curriculum Design: Laboratory Aspects** Speaker: **Dr. Priyatam Kumar**, KLE Technological University, Hubli
3.30 PM 5 PM	**Curriculum Design** Speaker: **Dr. Prasanna Gowda**, USDA-ARS Grazinglands Research Laboratory, El Rino, Oklahoma, USA

(P.N. Kulkarni)

B. V. V. Sangha's

Basaveshwar Engineering College (Autonomous) Bagalkot

Department of Electronics & Communication Engineering

TEQIP-III sponsored

Guest Lecture on

"Curriculum Design for UG and PG programs in E&C Engineering"

Basaveshwar Engineering College
BAGALKOT

From 6.07.2020 to 10.07.2020

List of Participants

78	Harnam Singh Farwaha	Guru Nanak Dev Engineering College, Ludhiana	harnam16@gmail.com
79	Balesh S Heggannavar	Tippu Shaheed Institute of Technology, Hubli	heggannavarbalesh@gmail.com
80	Hejwala G. R.	Bapuji Polytechnic Shabanur, Davangere	hejwalagr@gmail.com
81	Himanshu Sekhar Acharya	Ravenshaw University	himanshu_acharya@rediffmail.com
82	H. K. Shankarananda	TMAES POLYTECHNIC(Govt Aided)	hks.anand@gmail.com
83	Hamsa Rekha S. D.	Dr. Ambedkar Institute of Technology	hrhamsa8@gmail.com
84	Dr. Rashmi Ram Hunnur	Basaveshwar Engineering College	hunnurmba@gmail.com
85	Jagannath Sethi	College of Engineering & Technology, Bhubaneswar	iejsethi@cet.edu.in
86	Dr. Nandini Prasad K. S.	Dr.Ambedkar Institute of Technology	iseofficial123@gmail.com
87	Ranjeet Kumar	Government Polytechnic, Lingasugur	jacks12686@gmail.com
88	Smt. Jayasheela R. Patil	Government (SGES) polytechnic, Tarihal- Hubli	jayasheelapatil@gmail.com
89	Dr. J. G. Ghantimath	Basaveshwar Engineering College, Bagalkot, Karnataka	jggbgk@gmail.com
90	Jyoti Jinagal Karloopia	Indian Institute of Technology, Roorkee	jjkarloopia@bm.iitr.ac.in
91	Jagadish K. Nargund	Anjuman-E-Islam polytechnic, Gadag	jjkotresh@gmail.com
92	Jimmy Karloopia	Indian Institute of Technology, Roorkee	jkarloopia@me.iitr.ac.in
93	Niranjan J. Nanjayyanamath	KLE's C. B. Kore Polytechnic	jn.niranjan6272@gmail.com
94	Jyoti B. K.	H.K.E.SOCIETY's S.L.N COLLEGE OF ENGINEERING	Jo.jyotimailme@gmail.com
95	R. Jyothsna	Dr Ambedkar Institute of Technology	jyothsnaratakonda@gmail.com
96	Kalpana Patil	BVVS Polytechnic, Bagalkot	kalpu.krp@gmail.com
97	Kalyan Kumar Jena	Parala Maharaja Engineering College, Berhampur	kalyankumarjena@gmail.com
98	Mrs. Megha R. Kanamadi	B V V S Akkamahadevi Women's Arts,Science and Commerce College, Bagalkote	kanamadimr@gmail.com
99	Jyoti Katagi	BGMIT, Mudhol	katagi.jyoti@gmail.com
100	Dr. DEVENDRAPPA K. C.	Bapuji Institute of Engineering and Technology	Kcdbiet16@gmail.com
101	Dr. K. Chandrasekhar	Basaveshwar Engineering College(A,) Bagalkot	kcsbgk@gmail.com
102	Sudarshana Kerenalli	AIET, MOODBIDRI	Kerenalli@gmail.com
103	Kesthara V.	Dr. Ambedkar Institute of Technology	kesthara33@gmail.com
104	Dr. K. G. Satish	University BDT College of Engineering	kgsati@gmail.
105	Kiran Kadakuntla	Govt. Polytechnic, Hubli	kiran.bk800@gmail.com
106	Kiran A. Mandre	B V V S POLYTECHNIC (A), Bagalkot	kiran.mandre@gmail.com
107	Kiranakumar Nalavade	GOVERNMENT POLYTECHNIC, HUBBALLI	kiransgptaccnt@gmail.com
108	Kishore N. Revankar	Anjuman-E-Islam Polytechnic, Gadag	kishnrgdg@gmail.com
109	Krishna Kant Gautam	Rustamji Institute of Technology	kkgautam4970@gmail.com
110	Dr. K Mohamed Kaleemulla	University BDT College Of Engineering	kmk.bdt@gmail.com
111	Gururaj S. Kori	BVVS BGMIT, Mudhol	korigurus@gmail.com
112	Karmila Soren	College of Engineering and Technology, Bhubaneswar	ksoren@cet.edu.in
113	Mrs. KUMARI M.	Bapuji Polytechnic Shabanur, Davangere	kumarimbps@gmail.com
114	Kiran Kumar Y. Mantur	Tippu Shaheed Institute Of Technology, Hubli	kymantur@gmail.com
115	Lalita Anil Palange	SVERI's COE, Pandharpur	lapalange@coe.sveri.ac.in
116	Leena I. Sakri	SDM College of Engineering and Technology, Dharwad	leenaignatiusakri@gmail.com
117	Mrs Latha S. Patil	Anjuman-E-Islam Polytechnic, Gadag	lspatil1968@gmail.com
118	Mahadevi K. Ambi	K L E POLYTECHNIC, MAHALINGPUR	madhu.a102@gmail.com
119	Alkawati Magadum	Abhinav College of Computer Science and Management, Pune,Maharastra	magadumalka99@gmail.com
120	Mahadevi S. Banad	B.V.V.S Polytechnic	mahadeviantin@gmail.com
121	Krishnamurthy Bhat	Basaveshwar Engineering College, Bagalkot	mail12kb@gmail.com
122	Mallikarjuna H.	STJ Polytechnic, Harapanahalli	mallika_hpn@rediffmail.com
123	Mallikarjun Gachchannavar	Government polytechnic, Hubli	mallikarjung346@gmail.com
124	Mamata J. Sataraddi	Basaveshwar Engineering College (Autonomous), Bagalkot	mamatajs.bec@gmail.com
125	Mrs. H. T. Manjula	P.V.P.Polytechnic, Bangalore	manjulahtkoti@gmail.com
126	Manjunath S. Gabasavalagi	BGMIT, Mudhol	manjunath.gibbs@gmail.com
127	Mahantesh Shivalingappa Devoor	Jain College of Engineering	mantupv@gmail.com
128	Nishant Singh Kushwah	Vikrant Institute of Technology and Management	me_nishantkushwah@vitm.edu.in
129	Prof. RAKESH KUMAR MOHANTY	DRIEMS POLYTECHNIC	mech007rakesh@gmail.com
130	Dr. GANGADHAR B MEGERI	Basaveshwara Engineering College, Bagalkot	megerigb@gmail.com
131	Muktarani Halawar	Government Polytechnic, Mundgod, Uttarkannada	meghuhalawar@gmail.com
132	Mrs. METI BHARATHI	Dr AIT, Mallathalli, Bengaluru-56	metibharathi@gmail.com
133	Mallikarjun K. Chavadi	BVVS Polytechnic, Bagalkot	mkchavadi145@gmail.com
134	Mahantesh M. Ganganallimath	Basaveshwar Engineering College (A), Bagalkot	mmgmath@gmail.com
135	Dr. Mohita Anand Sharma	IMS UNISON UNIVERSITY, Dehradun	mohita.anand.sharma81@gmail.com
136	Monikashree T. S.	Dr AIT	monikashree.ts@dr-ait.org
137	Sugar Kumar Murmu	Parala Maharaja Engineering College , Berhmapur, Odisha	murmusagar@gmail.com
138	Manik Chand Patnaik	Roland Institute of Technology	myself@manik.in
139	Nagaraj Bhat	RV College of Engineering	nagarajbhat@rvce.edu.in
140	K. Nagarathna	Bapuji Polytechnic Shabanur, Davanagere	nagarathnabps@gmail.com
141	Dr. Nagarathnamma H.	Dr Ambedkar institute of technology, Bengaluru	nagarathnamm.h@dr-ait.org
142	Naresh Chandra Naik	College of Engineering and Technology, Bhubaneswar	ncnaik@cet.edu.in
143	Ms. Nimisha Dinesh Deval	SVERI's College of Engineering, Pandharpur	nddeval@coe.sveri.ac.in
144	Narottam Dutt Upadhyay	Vikrant Institute of Technology and Management ,Gwalior	ndutt82@yahoo.co.in
145	Neelakantha Guru	College of Engineering and Technology, Bhubaneswar	neelakanthaguru@gmail.com
146	Mr. Nilesh Dalai	NIST, BERHAMPUR	nileshdalai87@gmail.com
147	Nirmala Bai L.	Dr.Ambedkar institute of technology	nirmala.pari@gmail.com
148	Nithyashree S.	Dr.AIT	nithyashree.26@gmail.com
149	Neelambika I. Jirankali	Anjuman- E- Islam Polytechnic, Gadag	nsmece@gmail.com
150	Sridhar N.	CMR INSTITUTE OF TECHNOLOGY, BENGALURU	nsridhar83@gmail.com
151	Dr. Satyanarayan Padaganur	BLDEA's V P Dr PGH College of Engineering and Technology, Vijayapur	padaganursk@gmail.com
152	Padiyappa Koogati	MMEC, BELAGAVI	padiyappabkoogati@gmail.com
153	Jatinder Pal	Guru Nanak Dev Engineering College, Ludhiana	pal.jatinder74@gmail.com
154	Parvati M Dhotrad	BVVS POLYTECHNIC (AUTONOMOUS), BAGALKOT	Parvatidhotarad12@gmail.com
155	H. R. Patil	Basaveshwara Engineering College	patilhrbec@gmail.com
156	Samarjit Patnaik	CET, Bhubaneswar	patnaik.samarjit@cet.edu.in
157	Surekha P. B.	Government Residential Polytechnic for Women	pbsurekha03@gmail.com

PRINCIPAL,
Basaveshwar Engineering College
BAGALKOT

6.3.3 -Online FDP on Six Sigma
From 6.07.2020 to 10.07.2020
List of Participants

158	Mr. Praveen Kolur	Basaveshwar Engineering College(Autonomous), Bagalkot	pckme@becbgk.edu	
159	Shruthi P. C.	Dr. Ambedkar Institute of Technology	pcshruti@gmail.com	
160	P. G. Mundas	BVVS POLYTECHNIC (AUTONOMOUS), Bagalkot	Pgmundas@gmail.com	
161	Gavisiddesha Pattanashetty	BELLARY INSTITUTE OF TECHNOLOGY AND MANAGEMENT	pgsiddesh@gmail.com	
162	Mr. PRASANTA KUMAR SAHOO	DRIEMS POLYTECHNIC, CUTTACK	pksahooonline@gmail.com	
163	Priyadarshi Simpi	B.V.V.S. Polytechnic , Bagalkot	pnsimpi15@gmail.com	
164	Poorna B..Bhagawati	Basaveshwar Engineering College	poornavs65@gmail.com	
165	Poornima Chanal	Basaveshwar Engineering College	poornima.chanal@gmail.com	
166	Prakash T.	DACG(Govt) Polytechnic	prakashckm2010@gmail.com	
167	Prangya Paramita Pradhan	College of Engineering and Technology	prangya.p@gmail.com	
168	Prof. PRATAP M. S.	KVGCE, SULLIA	pratapms17@gmail.com	
169	Praveena Sindagi	Government Engineering College, Raichur	Praveensindagi@gmail.com	
170	Prasant Ranjan Dhal	I.G.I.T., SARANG	prdhal@gmail.com	
171	Preeti R. Goudar	B V V S Polytechnic (Autonomous), Bagalkot	preetigoudar.bgk@gmail.com	
172	Priya R. Sonar	KLE POLYTECHNIC, MAHALINGAPUR	priya.s414@gmail.com	
173	Priya Ranjan Mallick	CET, Bhubaneswar	priyaranjan.mech@gmail.com	
174	Punith Bekal	KVG COLLEGE OF ENGINEERING, SULLIA	punithbekal@gmail.com	
175	Dr. Pushpa S. K.	BMS Institute of Technology and Management	pushpask@bmsit.in	
176	Rachanna Kalagi	KLE POLYTECHNIC	rachu.rsk@gmail.com	
177	Raghavendran G.	DACG GOVERNMENT POLYTECHNIC, CHIKMAGALURU -577101	raghgk@gmail.com	
178	Raju A. Nadaf	Government Polytechnic, Bagalkot	raj.enggs@gmail.com	
179	Alugonda Rajani	UCEK JNTUK, KAKINADA	rajani.alugonda@gmail.com	
180	Rajani S. Pujar	Basaveshwar Engineering College ,Bagalkot	rajanisaachi@gmail.com	
181	Dr. KAZI KUTUBUDDIN SAYYAD LIY	Solapur	rajasaheb3617@gmail.com	
182	Rajashekhar K. M.	Rural Polytechnic, Haunsabavi, Hirekerur	rajashekharkm08@gmail.com	
183	Rajeev M. N.	Government Polytechnic, Sira	rajeevmn29@gmail.com	
184	Dr Rajashekhara S.	Siddaganga Institute of Technology	rajmst@gmail.com	
185	Raje Ndra S. Agasagi	Rural Polytechnic, Huansbhavi	rajuagasagi@gmail.com	
186	Raju S. Matti	Basaveshwar Engineering College, Bagalkot	rajumattikpl@gmail.com	
187	Rashmi B.	Govt Polytechnic, Harapanahalli	rashmib1989@gmail.com	
188	Rashmi Ranjan Tarai	GITAM, BHUBANESWAR	rashmiranjant1@gmail.com	
189	Ratna Angadi	Biluru Gurubasava Mahaswamiji Instutute of Technology, Mudhol	ratna.angadi2012@gmail.com	
190	Ravikumar Sajjanar	Government Polytechnic, Rabakavi Banahatt	ravikumar.sajjanar@gmail.com	
191	Rekha S. Kambli	Government Polytechnic, KR Pet	Rekha.kambli@gmail.com
